As soon as the information of the to-Bel was received the lord mayor, Mr A. J. Newton, sent the following dispatch to Col. Baden-Poweli: "The citi zens of London are relieved. They ro juice in the good news received. You gallant defense will long live in British unnals. Cable me what money is wanted for the needs of the garrison and in habitants after long privations."

In unrestrained jubilations the pro-vinces were not behind the metropolis. Although London had the start by n few minutes, the great industrial and surrounding towns soon burst into patriotic demonstrations. Bells clashed in their steeples; village bands turned ou and people gathered in the squares to chant fervidiy, "God Save the Queen," From all parts of the empire comes the same story. Bombay, Hongkong Colombia and the Australian cities are

Under the head of "How the News was Received," the Daily Chronicle says: "The telegram to the Associated Press from Pretoria, the historic dis-patch announcing the relief of Mafeking, was sent from the capital of the Transvaal at 11:25 a, m., May 18th. it reached the London office at 9:17 p. m. and was instantly dispatched to every quarter of the globe. By 10:30 p. m had come a response from far-off To London, May 19.-[Special London

ronto, describing the reception of the news there "This is not surprising, in view of the fact that four minutes after the re-ceipt of the telegram it was in the As-sociated Press office in New York, where

it was forwarded to the further lin-its of the North American conlinent. Mr. Joseph Chamberlain cailed at the war offer after midnight and received a tremendous ovation. DEFENSE WITHOUT PARALLEI

That not only Mafeking, but the whole United Kingdom is relieved is terminated by the atterations of the nothing papers. The Daily Telegraph says: "Never will England forget the happy, hopeful the li that came to he when Col Baden-Powell said, 'Mafe k! a cannot be taken by slitting down and looking at it.' There is no ad-vancement which the nation would not hall as a fair reward for the brilliant capacity, cheerfulness and iron cour-age of the hero of the empire."

The Times says: "The demonstra-tions last evening in London have had no parallel in recent times. Nor was this surprising. There has been noth-ing like the defense of Mafeking in modern history. Kars and Lucknow were fine examples of valor and en-durance and resourcefulness; but the means of defense in those cases was infinitely greater than what was at the disposition of Col. Baden-Powell and his valiant comrades.

From the mention of lasgers in the Pretoria dispatch it is understood here at prior to the raising of the siege o Mafeking the Boer laagers around that place were vigorously bombarded by the British relief column, and the burghers practically compelled to aban-鲁门提 素柏树 医汉里的

PRINCESS COULD SEE IT, WHY NOT OTHERS?

The presence of the princess of Wales at a performance of "Quo Vadis" this week seems to have the effect of turn-ing the tide of fortune towards that production, in spile of the press at-tacks. One of the curious features of the last few days is the persistency with which the Express has kept up a campaign against Mr. Richard Croker of New ork. Unlike the duke of Orleans, Mr. York. WORRY OVER MEXICAN TITLES Search for Deeds Affecting Land in

the United States.

City of Mexico, May 19 .-- Inquiries have been received here regarding the alleged finding in the records of the Mexican government of the title deeds of the Algodon land grant, situated in the territory formerly belonging to Mexico. It is presumed here that the estate referred to is that of which the correct name is Algodones, situated partly in Upper and partly in Lower California. Careful inquiries made in the department of foreign relations and the department of Fomento elicited the information that no steps have been taken there of late with regard to a search for the litle deeds of any prop-erty known as Algondon or Algondones. and that no such deeds have been found

Algodones' grant in Lower California Algodones' grant in Lower California was sold some years ago by the de-partment of finance to Don Guillermo Andrade, who received full and valid title from the government. The reason why these lands were sold by the finance department rather than by the department of Fomento is that they came into possession of the former, either through default in the payment of taxes or through having been the property belonging to an ecclesiastical corporation. corporation

It is said that the sum involved in the Algodones grant situated in the United States is \$5,000,000. Repeatedly officials of the Mexican government receive inquiries from the United States with regard to tille deeds to lands situ-ated in the territory that formerly be-longed to this country. There is no question that a number of such deeds are to be found in the records of the government, in some cases in the arch-ives general of the pation and others in the records of the department of Fomento

When the question of land titles in Texas, New Mexica, California, etc., was being adjudicated it is considered strange that fuller investigation was not made of the records in Mexico, for had this been done ampler justice might have been rendered in many cases. The Mexican government would probably mot refuse to throw open its records for inspection by authorized persons or representatives of legitimate interests. Under present conditions when the minister of Fomento receives inquiry from the States as to whether such and such title deeds exist in the records of his department he, as a rule, courte-ously but briefly replies in the affirmative or negative as the case may be, but without supplying further information as naturally he has no means of know-ing whether such information as he night give would be furthering wholly unworthy ends.
