Destructive Fire.

BURLINGTON, N. J., 10.—This morning a large barn, in rear of the depot, took fire, and, as the wind blew a gale from the west, swept all before it for two squares, destroying twenty-six houses, two barns and out houses, leaving forty families homeless. The fire was of incendiary origin. The loss is partly covered by insurance.

Opinions of Interviewed Prominent Men.

WASHINGTON, 10.—At an interview held yesterday with public men, they expressed themselves as follows:

Senator Sargent said he looked upon the situation as a grave one. The democrats are lashing themselves to action and trying to influence their followers, and they might succeed in evoking general movements if Hayes were declared elected. If such declaration were made, today, it would be acquiesced in. The republican case is clear and strong, but the fact is the movements of the democrats are calculated to create a tumultuous spirit in the ignorant masses who take the cue from the leaders, and have no individual or intelligent ideas. The most serious blow to the democrats was given in Oregon, where the attempt to read a vote was so obvious and blatant, and the course pursued so different from that of the democratic Governors of other States, where the democratic electors were as much disgraced as in Watts, yet got certificates, that suspicion is cast on all democratic pretensions, and the people are enlightened as to the kind of tactics they will adopt. He thought the republicans should firmly adhere to their rights. Violence may not come, but if it does, then those who seek to defeat the will of the people will be responsible for it.

Senator Morton said if we go on and do our duty, there will be much howling and bluster, but no breach of the peace, no resistance. There will be a general acquiescence. The attempted fraud in Oregon will meet the general execration of mankind and will be an utter failure.

Senator Wood was confident. He presumed there might be agitation in the Pacific States, especially touching the Oregon case, but there was the same everywhere. He thought that the democrats would be chary of individual expressions of opinion. It might be unwise to express an opinion at this serious juncture of affairs. Of course, said he, there will have to be unity of action on all complicated questions, which can only come after consultation. If each expresses an opinion in advance, such opinions might be at variance and the result prove embarrassing. He thinks it entirely probable that before the electoral votes are counted the case made up for Tilden will be too weak to secure the support of the congressional leaders, and that it will be abandoned by Tilden; besides this, the magnitude of such a conflict would, in itself, render it impossible.

Garfield said if he could not prove the republican case so incontestably as to convince the judgment of any unprejudiced man, he would never again make a public speech.

Detailed Appropriation Estimates.

Detailed estimates of the appropriations required for all branches of the public service for the next fiscal year have now been furnished by the Secretary of the Treasury to Congress.

The following are the appropriations recommended specifically for the Pacific States and Territories: To complete the appraisers' building, San Francisco, \$100,000; for the completion of the San Francisco sub-treasury, \$20,000; San Francisco mint, salaries, \$24,900; wages of workmen and adjusters, \$300,000; contingent expenses, \$300,000; Carson mint, salaries, \$24,900; wages, \$100,000; contingent expenses, \$30,000; for collecting mining statistics of the United States \$5,000; for salaries for the San Francisco sub-treasury \$24,370. The appropriations granted for the San Francisco mint last session were \$50,000 less than the amount now asked. The estimates for Carson are \$35,000 more than last appropriation. More island navy yards, for the construction of the stone dry dock, \$650,000, quay wall and wharves, \$100,000, other improvements, \$150,000. Only \$50,000 was appropriated for Mare Island improvements last session. Buildings, various repairs and im-

provements, \$135,000; fortifications at Fort Point, \$80,000; Alcatraz, \$50,000; mouth of Columbia River, \$20,000; river and harbor improvements, Oakland Harbor, \$25,000; Wilmington breakwater, \$100,000; Sacramento and Feather Rivers, \$20,000; Lower Willamette and Columbia from Portland to the sea, \$150,000; Upper Willamette, \$15,000; Upper Columbia and Snake Rivers, \$30,000; Canal at Columbia River Cascades, \$300,000; to establish dry docks at Astoria, Clack, San Francisco harbor, \$2,300. An accompanying note urges this estimate, with the remark that this rock is a serious obstruction, and should be removed. To build light stations in Point Conception and Farallones Island, each \$9,000; for surveying public lands in California, \$50,000; Arizona, \$25,000; Oregon, Washington, Nevada and Utah, each \$15,000; for surveying private land claims in California \$10,000; Arizona \$3,000; New Mexico \$15,000; clerks and contingent expenses, surveyor-general's offices, California, \$7,000; these amounts are urgently recommended by the California surveyor-general, to cope successfully with the very diversified office work called for by the numerous acts of Congress, they aggregate \$8,000 more than the amount granted last session, clerks, \$8,300; incidentals, \$4,000; Oregon, \$7,200; incidentals, \$2,500; Washington, clerks, \$7,200; incidentals, \$2,500; Utah, clerks, \$7,000; incidentals, \$2,500. These estimates all largely exceed the amounts of the last appropriations, but are all recommended as absolutely necessary to bring up the arrears of the work. The estimates for salaries of all the federal officials in the Pacific States and Territories are, as usual, for the precise amounts heretofore prescribed by law. The estimates for the general expenses of the Indian service are, for California, \$60,000; Nevada, \$35,000; Oregon, \$40,000; Washington, \$30,000; Utah, \$20,000; New Mexico, \$40,000; Arizona, \$65,000. The amounts appropriated for the current fiscal year were only \$30,000 for California, \$20,000 for Arizona, \$15,000 each for Oregon and New Mexico; for Utah, Nevada, and Washington only \$5,000 each. Appropriations of \$25,000 are also recommended for the civilization of the Indians on the Malheur reservation, Oregon, and \$450,000 for collecting and sustaining the Apaches of Arizona and New Mexico. The amount appropriated for these Apaches last session was \$425,000.

McCrory's Important Resolution.

The following is the full text of McCrory's important resolution, which has been adopted by the House Judiciary committee, and will probably be brought before the House for action to-morrow or Tuesday:

Whereas, There are differences of opinion as to the proper mode of counting the electoral votes for President and Vice-President, and as to the manner of determining the questions that may arise as to the legality and validity of the returns made of such votes by the several States; and

Whereas, It is of the utmost importance that all differences of opinion upon these questions should be settled, and that the votes may be counted and the results declared by the tribunal whose authority none can question, and whose decisions all will accept as final; therefore,

Resolved, That a committee of seven members of the House be appointed by the Speaker to act in conjunction with any similar committee that may be appointed by the Senate, to prepare and report, without delay,

Grant and Hewitt.

President Grant, in the course of conversation, to-day, with the representative of the Associated Press concerning political affairs, said that recently, he received dispatch from Governor Chamberlain, informing him that it was currently reported in Columbia, that the President, had, in his interview with the representative of the Associated Press, New York, a week ago, remarked that when the sixty-three members of the South Carolina House of Representatives, holding certificates from the Secretary of State, should convene, he would recognize them as the legal House. The President, in reply to Chamberlain, telegraphed him, that if Hewitt sent such a dispatch, it was untrue, and he had so expressed himself. The President says he had a conversation with Hewitt, in which he said, that in his judgment, not less than sixty-three members were eligible to organize the House and transact State business, including the determination of the qualification of its members. This was the view he then held, but it was merely a private opinion, and he might have been wrong. The President, on that occasion, further expressed his views with regard to the grounds on which each wing or member of the House of Representatives claimed their seats.

Fire and Loss of Life.

ST. LOUIS, 10.—Yesterday morning a small frame building, near the Alhambra, near the country, in this State, was burned; three miners were burned to death.

Glycerine Explosion and Loss of Life.

PITTSBURGH, 10.—A special from Petrietta says this afternoon, about five o'clock, a wagon load of glycerine, containing some 600 pounds of fluid, exploded with terrible force, three-quarters of a mile from here, tearing the wagon and horses into shreds, and instantly killing Del. Smith, superintendent of Roberts' Torpedo Co., and Mr. Humphreys, of this place. The bodies were blown to atoms, and with the exception of a portion of one foot and some pieces of charred flesh, have not yet been found. The men were unloading the wagon, and it is supposed that one of them slipped relative depending on them. The explosion occurred at the residence of a local twenty-five yards from the scene of the disaster, containing upwards of 5,000 pounds, escaped injury.

Fatal Accident.

AMSTERDAM, N. Y., 10.—During a gale this afternoon M. Marion and child were killed while attempting to escape from the house, the roof of which was blown off. Miss Marion was seriously injured.

Relief Committee for the Brooklyn Sufferers.

NEW YORK, 10.—The committee of bankers and merchants of New York met at Delmonico's and appointed Ben. B. Sherman, of the Mechanics Bank, treasurer of the relief fund for the Brooklyn sufferers. It was reported that the majority of those lost were poor, leaving relatives depending on them. There were about 75 cases of absolute destitution, and from one hundred to two hundred cases requiring special assistance.

Funeral Services of the Unfortunate Actors Buried in the Brooklyn Disaster.

The funeral services over the remains of the actors, H. S. Hitchcock, the stage name of Murdoch, and Claude Burroughs, took place at the Church of the Transfiguration, at 10 o'clock this afternoon, from the Church of the Transfiguration, "The Little Church around the Corner." Rev. Dr. Haughton officiated. Thousands of people assembled, and the church was crowded, and the sacred edifice was crowded. The music was rendered by the best talent in the city. Among them Madame Eugene Pappenheim, Miss

Emma Thursley, Mrs. Phillip Sul-lager, Mlle Anna Drasdel, Mlle Henrietta Carroli, Octavie Gomme and M. Fitch. Among the prominent actors and actresses were Mr. Edwin and Mrs. Booth, Dion and Mrs. Boucicault, Chas. Thorne, Lester Wallack, Tony Pastor, Kate Claxton and Fanny Morant. Many representatives from the principal theatres of New York, more particularly the Union Square and Wal-lack's, and a large delegation from the Chestnut Street Theatre, Philadelphia. The music, which was exquisitely rendered, comprised—"I know that my Redeemer liveth," "Quis Est Homo," "O Great Mater," "Angels Ever Bright and Fair," and "O, Rest in the Lord, Elijah." The services lasted nearly three hours. The remains were conveyed, prior to interment, to the Second Street vaults, Brooklyn.

Memorial Services.

In accordance with arrangements by the city authorities, memorial services were held at the Brooklyn Academy of Music, Park Theatre, and Hooley's Opera House. All these places were thronged with people. Mayor Schroeder presided at the Academy of Music, made a short address, speaking principally about the erection of a monument over the place where the victims of the disaster are buried.

Means Mischievous.

The Times Washington special says the republicans are advised of the discovery of a most extraordinary circular. It is printed and addressed to the commanders of the militia and all armed organizations in the Southern States. The circular recites that it is the desire of democratic managers to have an imposing military demonstration at the time of the inauguration of Tilden, and it requests the recipient of the circular to notify the person sending it whether his command can attend, how large it will be, and especially to give a record of the officers, members, caliber, character and quality of its rifles and field pieces. A blank is left for the signature of the person sending it. That the democrats might desire to make an important military pageant in the event of Tilden's inauguration can be understood, but the remarkable request as to the culture of the rifles and artillery and record of officers is believed to mean mischief.

FOREIGN.

GREAT BRITAIN.

The Eastern Question—The Two Assassins—The Conspirators.

LONDON, 10.—A dispatch from Constantinople states that the Marquis of Salisbury had an audience with the Sultan, to-day. It is understood that a perfect harmony of views prevails up to the present hour between Salisbury and Taffie, and the separate interviews between the plenipotentiaries have all been favorable to good understanding.

The two Montenegrins, who had conspired to assassinate Midhat Pasha, were arrested at his residence last Wednesday.

Among the conspirators engaged in the other plot to carry off ex-Sultan Murad, are two Turks, a Pole and a Greek. The latter was formerly assistant dragoman of the British Embassy.

FRANCE.

The Cabinet Council.

PARIS, 10.—A cabinet council was held on Saturday to consider the remodeling of the ministry. It is asserted that President McMahon, although at first strongly opposed to such a course, has consented to part with Gen. Berthaut, minister of war, in order to facilitate the entrance of M. Simon into the ministry. M. Daubray interviewed M. Simon, to-day, and offered him the portfolio of the interior. M. Simon subsequently had a conference with the republican leaders. The republican party seems to be divided in opinion as to whether he should accept the office. A meeting of the left adopted a motion confirming the previous resolve to label the programme of the republican majority, and insisting on the formation of the ministry in accordance with the views of that majority.
