SMALLPOX SITUATION.

Albert Jones, the Deseret News agent, is canvassing Manti today. He goes to Ephraim this afternoon. Most to Expiration this afternoon, anost agents and traveling men have given Manti the go-bye lately on account of the smallpox scare, but there is no reason why they should do so now as the disease is well under control. Peo-ple outside are much more afraid of the disease then we are right here; and drummers, etc., are quite as likely to come in contact with it in towns where it has not shown itself, as they are in Manti, for the health officers have it well under control here. All schools are in full running order, except those of Mantl and towns south. Superintendent A. C. Nelson distributed some over \$5,000 of the county school money this

week to the different districts. The heavy fall of snow the last two days is causing farmers to rejoice.

SUNDAY SCHOOL CELEBRATION.

The semi-centennial Sunday school jubilee held here last Sunday was a grand success. The entire program from the opening to the closing song, was excellently rendered. The commit-

decorations spared no pains in beautifying our already beautiful taber.

always leaves the lungs weak. Weak lungs are breeding grounds for the germs that cause consumption. Chronic bronchitis also often follows pneumonia. If you have had pneumonia, the germs of consumption are at work. Don't let them get a foothold. Begin

at once and take SCOTT'S EMULSION; it will drive out the germs by making the lungs stronger than they are. soc. and \$1.00, all druggists.

Special Correspondence. Manroe, Sevier Co. Dec. 11.-The Sun-day school jubilee was held here in ac-cordance with the printed program of the Sunday School Union board. Every part of the program was excellently rendered and the quiet, cheerful influ-ence of the Spirit of the Gospel pervaded every participant as also the multitude present.

SMALLPOX SCARE ABATING.

As a precautionary measure the doors of district and private schools were closed for six days for fear of smallpox contagion, but they are again open and the excitement is abating.

EXPENSE OF IRRIGATION.

Through the storage of waters in the Otter creek reservoir we have been en-abled to raise good crops which otherwise would have been a failure. While we see the benefits of this enterprise we also feel that it is a heavy tax upon the people; perhaps before it is com-pleted it will cost the county one hun-dred and fifty thousand dollars. Yet it must be done to secure crops. Half-acre patches of beets in various parts of Monroe field have proven that Mon-roe is well adapted for the growth of the saccharine root-and we look for the establishment of a sugar factory in this county at an early day.
