

thus engaged his foot came in contact with a buzz saw, nearly severing it at the instep. He was taken to St. Marks Hospital.

Prospective Immigration Facilities.—An exchange says that when the Southern Pacific Railroad is completed, with its connections to New Orleans—an event which the president of the company says will occur before the first of next August, and he is not given to boasting—immigrants will be conveyed by this route from Liverpool to San Francisco for from \$40 to \$50. That is a question in which this community is considerably interested. There is a yearly flow of immigration to this region from Europe, and if immigrants from Liverpool can be dropped down at points this side of San Francisco at rates proportionate to those mentioned above as likely to exist for the through trip to San Francisco.

Another Veteran Gone.—As will be observed by a notice elsewhere in the paper, another veteran, Stephen Hales, a well known and respected citizen, has gone to the other life. He was a native of Kent, England, from which country he emigrated to Canada, where he joined the Church in early times. From there he went to Missouri, and was with the Saints in all the trying scenes of persecution to which they were subjected. He was also with the Church in Nauvoo where he worked upon the Temple at his trade, a stonecutter, and was there driven and persecuted in common with his co-religionists. We may mention incidentally that he was a member of the Nauvoo brass band.

Bro. Hales came to Utah in 1851; and began work on the Temple at its commencement, continuing to do so till almost within a few days of his death, there being but one intermission of any duration—when he was on a mission to England in 1864-5. He was known as an excellent workman.

Brother Hales was a quiet, unassuming man and good citizen. He was true to the cause he espoused, and goes to his rest with a good record.

The Franklin Tragedy.—Supt. Geo. W. Thatcher is taking the most thorough measures to capture the villains who murdered Joel Hinckley, on Thursday night, and the people are giving him all the aid in their power. The surrounding country is being searched and guards are stationed at all the outlets from Cache Valley, for the purpose of intercepting the murderers. There is scarcely any doubt that they came near being captured yesterday. A couple of men approached Battle Creek Bridge, and were told by the guard stationed there to halt. Unfortunately the order was given prematurely, and they turned, fled and escaped. Had the guard waited until the pair had got well on to the bridge, they would probably have been secured.

The agents along the railroad are greatly exercised over the affair, as it develops the fact that men in that position are liable to be foully murdered almost in the heart of a town. It is to be sincerely hoped that the perpetrators of the deed will be caught. If they are not, it will be no fault of the superintendent of the road.

A report that was current in this city yesterday to the effect that the wife of the victim of the deed witnessed the murder, was erroneous, as she was in another part of the building. The murderers first stepped into the room where the mail carrier was lying in bed in one corner, and passed into the room adjoining, where young Hinckley was washing his hands. His back was toward them and when they called to him to hold up his hands did so and turned around, when he received the fatal shot. The carrier was in a position to see the whole affair, but was too much frightened to speak until the men left, when he raised the alarm.

Southern Mail Matters.—There is a good deal of feeling among the people of the southern part of the Territory regarding mail matters. They are not excited on the subject, and think "Uncle Samuel" is not doing the correct thing by them in that department. There has been some talk of a reduction of facilities, but the people are of opinion that an increase would be more eminently proper. We have the same view.

Mr. Joseph Summerhays has just returned from a trip in the direction of our "Dixie," and draws our attention to a few points. For in-

stance, the mail from the north for Sanpete and Sevier counties is dumped off at Nephi, where, for some reason only known to those versed in mail carrying mysteries, it remains twelve hours before being forwarded. As a matter of course, this causes all newspaper intelligence from this section to be disgustingly stale by the time it reaches the subscribers.

Again, the mail from the south to those two counties is dumped out at Richfield, where it stops for eighteen hours before going any further. In this situation of things a man can mail a letter to various points a considerable time ahead to announce his intention of visiting places north or south, and get to his destination in plenty of time to tell his friends that the missive is coming.

We may here mention, incidentally, that at Scipio, in Millard County, the arrival there of the mail from the south can never be determined within from ten to twelve hours. There are other irregularities, showing confusion in the conducting of the mails that need immediate rectification. The people are asking where the United States mail agent of this section is to be found. If they can reach him they should appeal to him to straighten things out, and if he does not attend to it make an application to the department at Washington. The southern mail nuisance is becoming monotonous.

DESCRIPTION OF THE MURDERERS.

ONE THOUSAND DOLLARS OFFERED FOR THEIR CAPTURE.

LOGAN, Utah Territory, Oct. 29th, 1:40 p.m.

Joel Hinckley, our agent at Franklin, was shot and killed at the depot there on the night of the 27th inst., by two masked men. The man who is supposed to have done the shooting is about six feet high, had on a little fuzzy cap, brown overalls, heavy short overcoat, stoga boots, one turned over at the heel, is smooth shaved, of dark complexion, short hair, weight 165 to 175 pounds. The other man is about five feet eight inches high, had on a short ducking coat, which fits tightly, and brown overalls, stoga boots, has dark chin whiskers, about half an inch long, weight about 155 to 160 pounds.

There is one thousand dollars reward offered by the company for the arrest and conviction of the murderers.

GEO. W. THATCHER, Superintendent U. & N. R.R.

FROM MONDAY'S DAILY, OCT. 30.

Supposed Murderers Arrested.—A special dispatch to the NEWS, says: There were two men arrested on the U. P. platform, this morning, who answer the description given of the murderers of Joel Hinckley. It is not certain, however, whether they are the real parties or not.

Shot in the Hand.—The Ogden Herald says that on Friday evening, as James Riley, a young son of Mr. J. Riley, of the Second Ward, of that town, was carelessly handling a pistol, the weapon was discharged, the bullet entering the lad's hand, in the palm, making its way upward above the wrist, where it lodged. It was removed by surgical aid.

The Liquor Question.—The proprietors of four liquor establishments who had been arrested under the Territorial statutes for doing business without a license, were before Justice Pyper to-day. The arrests were made under the law authorizing the counties to license liquor dealers. The city is therefore not a party in the matter. The cases were not disposed of up to two o'clock. The charges are for refusing to take a license and doing business without.

A Cutting Affray.—A number of soldiers quarreled in a saloon on Saturday night. One of them, Johannes Madsen, struck one of his companions with a sort of screw-driver used for taking guns to pieces. He cut a dreadful gash in the fellow's head, from which the blood flowed in a copious stream. Madsen was taken charge of by the police and locked up. This morning he was conveyed to Fort Douglas by men sent down for the purpose.

Prices of Products.—Judge J. A. Alfred, of Spring City, Sanpete County, returned last evening from a brief business trip to Nebraska and Iowa. We learn from him that potatoes are selling at \$1.50 a bushel in those portions of the country, and that other farm products are proportionately scarce. The late harvest was very meagre, yielding an average of five bushels to the acre. Of corn there was but half a crop.

These facts combined with others of similar import, show plainly that our grangers need be in no hurry about selling their products, which should be carefully husbanded. Prices are not going to take a downward tendency.

Another Volume.—We have before us the October issue of the Contributor, being number one of Vol. 3. In several respects it is ahead of any of its predecessors, which is saying a good deal. It is embellished with steel engraving portraits of the Prophet Joseph Smith, and the Patriarch Hyrum Smith. The contents are:

Sermons and writings of the Prophet Joseph. I. Biographical Sketch of John the Baptist; Glaciers, J. B. Toronto; No: A Temperance story, E. H. Anderson; Chronology of the Hindoos, Wm. Fotheringham; Thoughts on Genesis, Geo. Reynolds; Siege of Yorktown, Thos. Y. Stanford; Virgil, Ruby Lamont; Bohemians, B. F. Cummings, Jr.; Seedtime of Youth; Home, O. F. Whitney; Editorial: James A. Garfield, William C. Staines; About our Associations; Homespun; Von Molke, Youths' Companion; An Odd Verdict; Association Intelligence; Semi-Annual Conference; Questions and Answers; Questions to Answer.

A Disastrous Jump.—Yesterday afternoon, at Willard, Box Elder County, a boy attempted to frolicsome jump upon the flat car of the Utah and Northern train from the north. He missed his footing and fell, the wheels of the car passing over a portion of his foot, crushing it badly. He was also injured severely about the knee. Our informant, who was a passenger on the train, was unable to give us the name of the youth.

Since the above was in type, we have received the following account of the affair from Brother T. W. Brewerton:

"A sad accident befel Richard Ward, grandson of Bishop George W. Ward, of this place, a lad between 14 and 15 years of age; this afternoon. As the south bound U. and N. freight train was approaching the station at Willard, the lad attempted to board a flat car while it was in motion, missed his calculation, and fell, and the wheels of the car ran over the toes of his right foot, crushing them severely. Doctor J. X. Allen, of Ogden City, was sent for immediately, and arrived by the night train. After examining the mutilated foot, he concluded to amputate the two toes next to the large one. He also expressed an opinion that the next one to them might require the same attention. After administering chloroform; the condemned members were successfully removed.

This should be another warning to our young folks not to attempt to board trains in motion nor follow the bad examples of older ones trespassing on the railroad company's private rights, which I am sorry to say is too often the case.

FATAL ACCIDENT.

MRS. MARY WHITEHEAD IS THROWN OUT OF A WAGON AND DIES IN SIX HOURS.

At four o'clock yesterday afternoon Mrs. Mary Whitehead, her son, Leo Whitehead, Miss Sudbury and a little three-year-old boy of Bro. Samuel J. Sudbury were riding in a wagon on the way to the residence of brother Samuel Sudbury, Jr., on the 19th Ward bench. When in that vicinity the horse, which was going at a rather rapid pace, suddenly shied on one side, upsetting the vehicle and throwing all of its occupants violently to the ground. All escaped injury except Mrs. Whitehead, who was very badly hurt. She was taken into the house of Brother S. Sudbury, Jr., and surgical aid procured, when it was discovered that the left arm was broken within an inch or two of the shoulder, besides sustaining very severe injuries in the lower portion of the body.

Notwithstanding that every means

available was taken for the recovery of the patient by her friends, she expired about 10 o'clock last night, about six hours after the accident. Had the deceased been in good health, it is not likely that the accident would have terminated fatally. She had been suffering for a considerable time from asthma, heart-disease, and consequent general debility.

Mrs. Whitehead was sister of Bro. Samuel J. Sudbury, of the Empire Mill, with whom she resided, was a native of Egmont, Nottinghamshire, England, was 56 years old, and a member of the Church.

Correspondence.

Cache Valley.

WELLSVILLE, Cache Co., Utah, October 24th, 1881.

Editor Deseret News:

Cache County is in a most prosperous condition, new houses are quite plentiful in every town, and farmers are almost universally driving new wagons. Business is brisk with the merchants, while all branches of labor find ready employment. And yet the supply is not sufficient for the demand. Good crops have blessed the industrious husbandman, while plenty smiles throughout the land, and peace and brotherly love prevail. The Saints of this county have been liberal in their donations to the Logan Temple, and the Lord has abundantly blessed their liberal hands, which blessings are plain to be seen on every hand. This should be a testimony to all the Saints that the Lord does not forget those who are willing to work for His blessings. His rewards are certain to those who show their faith by their works.

Logan Temple shows itself to the happy dwellers in this valley as a testimony of the faithful labors of the Saints, and all rejoice in its speedy completion that they may be partakers of its blessings.

Wellsville was yesterday visited by Apostles L. Snow and M. Thatcher, residents Preston and O. Snow, Counselor C. O. Card, and a number of other leading Elders, and excellent instructions were given to the people which we think were received with a good spirit.

Wellsville is improving but sadly needs some industry started at home to employ the young men, instead of their having to go to freighting or to work on the railroad, as this kind of employment has a bad effect on the morals of the youth. The DESERET NEWS is well sustained in the settlement, and is always anxiously looked for.

WHOLESALE PRODUCE LIST

List of Buying Prices of Produce in the Salt Lake Market, corrected Semi-Weekly for the DESERET EVENING NEWS, by Z. C. M. I. and others:—

Wheat.....	75	@	85cts	per bushel.
