Strong Influences Being Brought to Bear to Induce Deputation to Abandon Visit.

London, Oct. 10 .- The approaching visit of a British deputation to St. Petersburg for the purpose of presenting an address of sympathy to Prof. Serge Mouromtselff of Moscow, who was president of the lower house of the late parllament, is arousing a ctorm of indignation and protest both here and in St. Petershurg, and strong influences are being brought to bear to induce the deputation to abandon its visit, on the grounds that the presentation of 'a memorial of sympathy with the late parliament would be as unwarranted act of interference, calculated to lead to violence. The deputation includes half a dozen members of the house of commons and social reformers, and it

plans to take an address signed by 300 ersons, including members of the house of lords and house of commons, numerous representatives of the clergy and persons prominent in literature. Although the British government does

not give the slightest countenance to the movement, yet official St. Peters-burg recalls Premier Bannerman's tribute to the late parliament, and con-strues the parliament as representing British official and public opinion. The representatives recoved here

The representatives received here represented the Russian government as announced, and show the threaten-ing attitude of the Russian elements friendly to the old regime, who are pre-paring hostile demonstrations. Many of the influential signers of the address are hastly withdrawing their names and urging the abandonment of names and urging the abandonment of the proposed visit, while one member of the deputation. Donald MacKenzie Smeaton, M. P., has declined to go, and is advising postponement. W. T. Stead has made appeal to the delegation to stay at home, as the visit would re-sult in violence and political complica-tions.

The committee in charge of the ar-rangements for the visit met and de-cided to abandon the visit to Moscow and to await further advices from the Angle Burging character for the Anglo-Russian friendship committee in St. Petersburg, which will be received tomorrow and then considered.

SCROFULA AN INHERITED MISFORTUNE

Every one has a hereditary right to a pure blood supply, which insures a strong, healthy body; but how many do we see who have inherited that

greatest of all misfortunes, Scrofula, and are struggling under a legacy of sease and suffering? Scrofula is a constitutional trouble handed down from parent to child, a curse from generation to generation as long as the

fulous matter is allowed to remain in the family blood. As the very

foundation of the blood is diseased we see this awful affliction manifested in many ways, such as enlarged glands or tumors about the neck, which

often burst and become discharging ulcers, weak eyes, chronic Catarrh of the head, skin diseases, etc. This blighting disease being so firmly intrenched in the block of the b

in the blood often attacks the bones, resulting in White Swelling, or hip

disease, while a pallid, waxey appearance of the skin, loss of strength, and othen lung affections show that the disease is entirely destroying the rich,

subtritive qualities of the blood. There is but one way to cure Scrofula and that is to purify the blood and rid it of the germs of disease, and for this purpose nothing couple 2. Couple and building up properties
