

MINING, BUSINESS AND STOCKS.

AN ADVANCE IN GRAND CENTRAL

Stock Was Traded in on Exchange
from \$6.08 to \$6.25.

LOWER MAMMOTH WEAKER.

Yankee Con. Continues to Soar—May
Day Practically Unchanged—Sacramento
Sells Under 18.

TODAY'S METALS:
SILVER 59 1/2
LEAD, \$4.57 1/2
CASTING COPPER 16

Grand Central was the star stock in the pit today. The conditions on the 990 level are said to be very reassuring. The ore at present encountered is reported to be not very high in grade at present, but the general appearance of the ore leads to the belief a big body of excellent ore will be worked into in the near future. The stock sold today from \$6.08 to \$6.25, but again climbed to \$6.25 before the call closed. Lower Mammoth was a little weaker today at 53 1/2, while Mammoth was handed out at \$2.25. Petro sold from 4 1/2 to 4 3/4, and Shovelers was handed out at 12. Sacramento was traded in at 17 1/2 to 18, while Joe Bowers Extension was handed out at 2 1/2. Yankee Con. was much stronger today at 16. May Day was active at lower prices. The first sale was made at 10 1/2, from which figure the stock sold down to \$1.00. Petro was traded in at 5 1/2.

Quotations were posted as follows:

DEPRESSION IN LONDON.

It Finds Reflection on the Opening at Wall Street.

Railroads Most Affected—Daily Did Not Reach Former Figures—Live Stock and Produce Steady.

New York, April 6.—Wall Street: The depression in the London stock market found reflection in the railroad list here at the opening. Declines were restricted to within one-half. On the other hand the industrial and specialties showed some striking gains. A rise in strength displayed by the leading specialties extended to the railroads. Pressure against the Pacific developed toward the close of the hour and the entire list ran off in sympathy. A rise in sugar to 11 1/4, strengthened the general list, but the railroads failed to get back to top figures.

The bonds were lower for the active issues.

MONEY AND BONDS.

Noon: Money on call steady at 3 1/2 per cent. Prime mercantile paper, 4 1/2 per cent.
Sterling exchange firm with actual business in bankers' bills at 4 1/2 per cent. for demand and at 4 3/4 per cent. for 60 days. Posted rates, 4 1/4 @ 4 1/2; commercial bills, 4 1/2 @ 4 3/4.
Silver certificates, 60 1/2 @ 61 1/2.
Bar silver, 60 1/2.
Mexican bonds, 47 1/2.
Government bonds irregular, refunding 2's when issued 1.03 1/2; 2's reg., 99 1/2; 3's reg., 1.01 1/2; do coupon, 1.04 1/2; new 4's reg., 1.35 1/2; do coupon, 1.35 1/2; old 4's reg. and coupon, 1.14 1/2; 5's reg. and coupon, 1.13 1/2.

THE METALS.

New York, April 6.—Copper, firm, brokers, 17 1/4; exchange, 17; casting, 16. Lead, dull; brokers, 4 1/2; exchange, 4 1/2 1/2.

SUGAR.

Sugar—Raw, firm, refined, quiet.

CHICAGO MARKETS.

LIVE STOCK.
Chicago, April 6.—Cattle—Receipts, 2,500. Generally steady. Good to prime steers, 5.00 @ 5.50; poor to medium, 4.50 @ 4.90; stockers and feeders, 3.50 @ 4.25; cows, 3.00 @ 4.50; heifers, 3.50 @ 4.75; calves, 5.00 @ 5.25; mixed, 4.50 @ 5.00. Hogs—Receipts, 2,000; tomorrow, 20,000; left over, 2,332. Market 50 lbs. lower. Top, 5.50; mixed and butchers, 5.25 @ 5.75; good to choice heavy, 5.40 @ 5.75; rough heavy, 5.25 @ 5.40; light, 5.20 @ 5.25; bulk of sales, 5.40 @ 5.52 1/2. Sheep—Receipts, 5,000. Market strong. Lambs strong. Good to choice wethers, 6.00 @ 6.50; fair to choice mixed, 5.00 @ 6.00; western sheep, 5.75 @ 6.70; yearlings, 6.00 @ 6.45; native lambs, 5.50 @ 6.40; western lambs, 6.00 @ 7.40.

PRODUCE.

May wheat opened at 67 1/2 @ 67 3/4. The market closed at 67 1/4, recovered to 67 1/2 and then fell rapidly to 66 1/2.

"CANNING SHARKS" IN NEW JERSEY.

You did a good work in showing up the creamery sharks, and I think it probable that you have been the means of keeping them out of their hands. A New Jersey farmer to the Rural New Yorker. A few weeks ago a sick fellow, with a prominent farmer, came among the people of this section, both farmers and business men, trying to get them to take stock in a co-operative canning factory. The list was headed by the president and cashier of our bank, and a number of our most prominent business men were on the list, before they tried to work the farmers. The story was very plausible, and the promoters succeeded in getting about \$1,000 subscribed. They have a building, and have put the machinery in. The whole thing is probably worth \$5,000, although I do not think they have paid for the building. They represented that they were going to run the plant, and showed that the profits would be large, and the farmers' stock could most of it be paid in produce. As soon as the machinery was in the place, they got around among the subscribers, and got there live, too, before they had time to compare notes. By telling all kinds of lies they succeeded in getting \$7,000 or \$8,000 worth of good notes, and shipped the stuff they left is perhaps worth \$2,500. I have been trying to get the address of these people, but have not been able to do so. I have heard that they came from Chicago. I hasten to write this before obtaining further facts, so that you can get after them, as they are a set of swindlers going for the farmers' money. They no doubt are working the whole country as fast as possible.

MOFFITT SYSTEM OF TREATING ORES

Representative of the New Smelting Process to Visit Salt Lake.

PROVED A PERFECT SUCCESS

Rich Shipment from the Utah—The New Pass Mine—Joe Bowers Extension Meeting.

The "News" has received word that a representative of the Retort Smelter company of Denver, Colo., will shortly visit Salt Lake in the interest of the Retort Smelter lately invented by J. R. Moffitt, the well known Colorado mining man. The process has been highly recommended by several mining journals for its efficiency. While the principles of the smelter are not new in the way in which they are combined so as to make an automatic machine is said to be an entirely new feature. The loss in volatilization and the nuisance resulting from poisonous fumes is said to be entirely overcome in the new smelter by forcing them under water in a tank from from which they are saved. This saving of the sulphur, arsenic, antimony and other elements often found in refractory ores are said to often pay the expenses of treatment. It is stated that all metallic substances of whatever nature can be saved at a fraction of the cost of treatment by ordinary methods. If the Retort Smelter is as good as it is claimed to be it should certainly effect a revolution in the mining of the low grade ores of this and other States.

The whole process of this system is automatic, the ore being passed from the crusher to the pulverizing rollers, reducing the materials to the desired fineness, then into the oxidizing smelter and finally to a metallic molten bath. The machine has a revolving cylinder, through which the material is passed, and the pulverizing rollers, reducing the materials to the desired fineness, then into the oxidizing smelter and finally to a metallic molten bath. The machine has a revolving cylinder, through which the material is passed, and the pulverizing rollers, reducing the materials to the desired fineness, then into the oxidizing smelter and finally to a metallic molten bath. The machine has a revolving cylinder, through which the material is passed, and the pulverizing rollers, reducing the materials to the desired fineness, then into the oxidizing smelter and finally to a metallic molten bath.

THE UTAH SHIPMENT.

Forty Tons of Ore Net the Company \$104 Per Ton or \$4,160.
The last shipment of ore from the Utah mine at Fish Springs was settled yesterday on a basis of 47 per cent lead and 14 ounces silver. The lot consisted of 40 tons, which netted the company \$104 a ton, or \$4,160 for the two carloads. It is expected that this mine will report on the market this month with two more cars of ore of the same grade. The condition of the mine is said to be improving.

THE OPHIR OPTION.

Final Payment Made Yesterday Afternoon on the Stateline Property.
The Ophir Mining and Milling company took up its option on the property yesterday afternoon. The company was organized on a bond and lease secured on this Stateline property. Yesterday was the day on which the bond expired, and final payment was made in the sum of \$5,500. The company owns six claims near the Johnny mine, which has just shipped a carload of gold ore to the smelters of this valley. The Ophir mill carried gold and silver. The controlling interest was recently sold to Michigan parties and an active campaign of development is promised during the present season.

JOE BOWERS EXTENSION.

Meeting Last Evening—Eighteen Inches of Milling Ore on 400 Level.
A meeting of the directors of the Joe Bowers Extension was held last evening at which the condition of the property was talked over. No assessment was levied pending an investigation of the claims by F. E. Wilson, who expects to go out on Sunday. Another assessment is said to be immediately ahead. The company has now secured patents to all its claims. Matters have been fixed up with the Burnham estate and the deeds received to the Estrella claim. Since the annual meeting in November nearly 1,000 feet of work has been done. The vein has been drifted on at the 400 level and about 18 inches of concentrating ore is reported. Eleven men are at present employed.

NEW INCORPORATIONS.

Wenger, 4,000 shares; Thomas Champneys and R. P. Critchlow and the following named gentlemen form the board of directors. A. Van Patten, J. H. Weber, J. H. Meyers, McGaw Van Dyke, S. H. Henderson, Thos. Champneys, A. Wenger.
The property of the company is known as the Red Oxides, Champion, Post Notice, Reliance, Silver Bell, and Dewey mining claims, and the option contract of A. Van Patten on the Skoppe mining claim, all situated in Morgan county. The properties of the company are considered very good and the incorporators expect to be shipping ore in a few weeks.
Articles of incorporation have been filed in the office of the county clerk for the Mystic Shrine Gold and Copper Mining company.
The capital stock of the company is

placed at 1,000,000, with shares of the par value of one cent each, the incorporators being F. W. Gardner, H. B. Cole, H. I. Goodspeed, F. W. Cough, H. J. Curry, who likewise constitute the board of directors. F. W. Gardner is president; H. B. Cole, vice president; H. I. Goodspeed, secretary and treasurer of the new company.
The property of the company consists of the story, Little Robert, Magdalena, Emma and Reddy mining claims in the West Mountain mining district, Utah.
Three hundred thousand shares of the stock of the company is put into the treasury, and the stock made non-assessable, subject to change to assessable stock at a meeting of the stockholders.

NOME GOLD CRAZE.

Interests in Gold Deposits of the North Bought After by Londoners.

The following from the Chicago News indicates the widespread excitement caused by the riches of Cape Nome. Mr. Frank Schwartz of Seattle, who is promoting in London is quoted by the News correspondent as saying:
"My personal knowledge of the subject leads me to believe that at least \$10,000,000 of British money has been devoted this year to exploring and mining in Cape Nome. One company in which I am interested has a capital of \$500,000. I know twenty such companies. I have just returned from two years' prospecting and staking claims at Cape Nome. I think it is the richest gold country in the world. The Klondike is insignificant compared to it.
A great deal of French and German money has been invested in Cape Nome and there is more coming from these sources. Late in April a whole shipload of capitalists from Europe will sail on an expedition to Cape Nome to investigate conditions for themselves.
