ROUTE OF THE SALT LAKE & OGDEN

President Simon Bamberger Tells Of What is Being Done on Electric Line.

HEAVY STEEL IS COING DOWN.

Arrangements Made for Round Trip From Salt Lake to Canyon For \$1.15.

Slmon Bamberger, president of the Salt Lake & Ogden, this morning stated that work would be commenced within the next 10 days on the heavy cut work that has to be done on Thirteenth street, just outside of Ogden before trains could be operated between the two cities. Just as soon as the gap between Ogden and Layton is closed up Mr. Bamberger said that the road would be operated by electricity and at least an hourly service put into ef-

"We are now laying 60-pound rails north of Sait Lake and this steel will used on the entire line," he said, "and are taking up the light steel and disposing of it. The track between Farmington and Kaysville will be cleaned up in the next two weeks and we will have trains running into Layton by the opening of the Lagoon season. From Lay. ton on to Ogden by the short cut we are taking is 13 miles, nearly all of it being light work with the exception of a heavy cut just outside Ogden. But for the bridge over the Weber river we could have the entire road built inside of six months.

canyon to carry passengers from Ogden to the resort for 15 cents. The fare between Ogden and Salt Lake will be \$1 the round trip, or \$1.15 between Salt Lake and the Hot Springs sanitarium in Ogden canyon, with stopover privileges at Lagoon, Ogden and the springs. The mileage between Salt Lake and Ogden under the new survey will be 35 miles, and at no point on the line will the fare exceed a basis of two cents a mile.

"The route through Ogden will be Thirteenth street to Wall avenue, Wall avenue to the Union depot on Twenty-fifth street, from thence to Grant avenue, thence to Twenty-first street, from there to Monroe avenue and Twentieth, Twentieth to Jackson avenue, Jackson to Enghteenth-and-one-half street from point the water grade will be followed to the Sanitarium.

"It is the intention to start cars at 6 a. m. from both Ogden and Salt Lake and repair shops will be installed at both ends of the line. Good service will be maintained and through cars will run not less than every hour. We intend to treat all points on the road with equal fairness and do not propose to discriminate against anyone or any

A CHEAP TRIP.

A Swing Round the Circle via S. P. and

Arrangements have been made between the passenger departments of the Southern Pacific and the Salt Lake Southern Pacific and the Sait Lake Route whereby people purchasing tickels to Los Angeles will be swung around the circle from Sait Lake. In other words a passenger can leave this city, go across the famous Lucin cutoff and enter California by the northern route. From SanFrancisco down to Los Angeles he can travel by the line that skirts the ocean beach the greater part of the way, and returning come home via Dagget, Caliente and Milford. In order to advertise this trip the Southern Pacific announces that it has put in a round trip rate of \$30, good for 90 days, with selling dates here April 11 to 15, to Los Angeles and return with the privilege of coming home turn with the privilege of coming home over the Salt Lake Route, which will be in good running shape by June and July, when the tickets will expire.

INITIAL TRAIN.

Pare to Los Angeles and Return by it Will be \$25.

It is announced that for the first train over the Salt Lake Route which will open the fine for regular traffic through to San Pedro the fare will be \$25 for the round trip, or in other words it will cost a man more to go to Ploche, Nev., than right through.

There is nothing definite yet forth-

Chewing Gum on Trains.

When persons travel why do they chew more gum than at home? Does the excessive consumption arise from a desire to get in training for the proverbial railway sandwich? Or to match the click of the wheela as they pass from rail to rail? Or is it merely from

a desire to be busy?

Mr. Mackenzle, who superintends the gum machines in Santa Fe system waiting-rooms, declines to go back of the returns and philosophize. He is willing to say, however, that gum is a popular article in the southwest. It keeps him busy supplying the demand at the 400 stations served. The net yearly revenue is a tidy sum. He estimates that in 1904 approximately 1,150,-000 pennies were dropped into these slot machines by travelers who craved a piece of flavored pepsin of tuti-frutti, and this takes no account of the sales made on Santa Fe trains by Mr. Harvey's news agents. It is difficult to compute the average distance traveled by the sturdy jaws of

the gum-chewing passengers, but it would be a good start on the journey

"By gum" is the favorite ejaculation in that part of the country, and the Santa Fe is largely responsible.

SPIKE AND RAIL

Every rig in Shoshone was today pressed into service to take care of the colonists flocking into Twin Falls.

C. M. Hicklin, general western agent of the Mallory line at Denver, is numbered among the visiting railroad men in town today.

A big party of Raymond-Whitcomb tourists are due to arrive in Salt Lake this evening from the coast. They will take in the sights of the city tomorrow and leave for the east in the evening over the Rio Grande.

J. W. Adams, Pacific coast passenger agent of the Nickle Plate at San Francisco, J. Y. Calahan, general western passenger agent at Chicago, and Charles Johnson of the same road at Denver arrive in Salt Lake tomorrow receiping from Portland, Or. morning from Portland, Or.

The newspaper train on the Chicago & Alton rallway, leaving Chicago at 2:45 a.m., made its first trip on March 12. A private car containing officials and newspaper men was attached to the train on the first run, and, according to reports, some very high speeds were shown by the speed record-er in this car. Speeds between 65 and 80 miles an hour were maintained for long distances. This train enables the people between Chicago and Bloomington, Ill., to read their Chicago morning paper at the breakfast table.

The Railway Age says that 1905 is to witness great activity in railroad build-ing. A tabulated statement shows 7,500 miles under contract of construction and 9,332 miles of projected road which may reasonably be expected to materialize. The following are some of the companies which have important extensions under construction: Atchison, Topeka & Santa Fe, 135 miles in Texas, Louislana. Arkansas, Arizona and Cal-ifornia; Midland Valley, 100 miles in Indian Territory. In Canada, also, this year will witness wonderful activity in railway construction, including the inauguration at several points of work on another trans-continental line, which is to add 3,500 miles to the system operated by the Grand Trunk Railway company.

MINE MANAGER DIES SUDDENLY.

John G. Rhodin of American Flag At Park City Falls a Victim To Pneumonia.

Oxygen Was Administered in the Hope of Saving His Life, but All to No Avail.

Manager John G. Rhodin of the American Flag at Park City, died yesterday afternoon from pneumonia, with which he was attacked last Thursday. He had an appointment on that day with the representative of an eastern machinery house to go over the mine with a view to ordering a complete reequipment of the mining property. It was then Mr. Rhodin's intention to visit with his father in Sweden. But when he failed to appear according to agreement, he was hunted up and found in bed sick with pneumonia.

Capt. T. F. Kingiser, president of the American Flag company, immediately sent two physicians from this city, and a tank of oxygen was sent up by wag on. On Monday there was another call for oxygen, and as noted in yesterday's "News," a special train was sent to the Park with a stank of the gas, and a corps of doctors were with the sick man constantly. When the second dose of gas was administered, there were hopes of a rally, but the disease took a turn for the worse, and death came yesterday afternoon.

took a turn for the worse, and death came yesterday afternoon.

The Eiks and the Odd Fellows will have charge of the funeral, which will be held both at the Park and in this city, with interment at Mt. Olivet cemetery by the side of Mrs. Rhodin, who died years ago. The services in Salt Lake will be held at the residence of Mr. Rhodin's brother-in-law, H. J. Plumhof, 157 south First West street.

Plumhof, 157 south First West street.

Mr. Rhodin was born in Sweden 53
years ago, and part of his boyhood was
spent as a sailor. He afterwards engaged in mining in Australia, but going to California, gave up following
the sea for good, and became a miner.

Mr. Rhodin shortly removed to Pennsylvania, where he became superintendent of one of the largest coal mines
in the state. The attractions of the
great west, however, proved too much,
and Mr. Rhodin returned west of the
Rockies and engaged in mining in Nevada and Oregon. He afterwards revada and Oregon. He afterwards re-moved to Salt Lake and Park City, where he became superintendent of the Quincy; but for the last five years he has been developing the American Flag mine. He had got this mine into spiendid shape, and was ready to take a much needed vacation and season of travel abroad, when pneumonia struck

Mr. Rhodin married Miss Elizabeth Plumhof of this city 18 years ago, and a son of 17, William T. Rhodin, sur-vives him. The deceased leaves no othvives him. The deceased leaves no other relatives in this country, than his son and brother-in-law's family. He had just reached a point where he could sit down and take things easy when he was called away. The regret at his death is general in mining and business circles in which he was so well known.

SNOW AND THUNDER.

Unusual Weather Combination Occasions Considerable Comment.

There is wet weather on today with prospects of more coming as it is raining neavily along the Pacific coast and moving this way. The precipitation in this city for the last 24 hours amounted to .41 of an inch, part of it being snow. It has also been raining and snowing on the Atlantic coast, but generally the mercury has ranged high. There was a slight fall at Modena. This morning's local temperature fell to 24 degrees, but rose as the day advanced. It was slightly raining and snowing this morning, by about 1 p. m., a strong snowsterm set in accompanied by thunder. The unusual combination was the occasion of remark.

DEMANDS DAMAGES FOR LOSS OF LEGS

Andra Anderson Sues Copper Belt Railroad Company to Recover Sum of \$40,000.

HAS BEEN ILL BUT A FEW DAYS WAS RUN DOWN BY A TRAIN.

Plaintiff Alleges Negligence on Part Of Defendant-Occurred at Biugham.

Andra Anderson filed suit in the district court today against the Copper Belt Railroad company to recover \$40, 000 damages for injuries received by him on the night of July 5, 1904, by being run over by one of defendant's trains at Bingham. It is alleged that plaintiff was walk-

ing along the track, and that the train approached without any warning and plaintiff was run over and both of his legs were cut off. Negligence is al-leged on the part of defendant in that the engine had no headlight on it and the bell was not rung or the whistle blown to warn plaintiff of the ap-proach of the train.
