A STARTLING RUMOR.

THE RIO GRANDE WESTERN REPORTED AS GOING TO REMOVE HIS

MACHINE SHOPS TO OGDEN.

PAPERS TO THAT EFFECT SAID TO HAVE BEEN SECURELY SIGNED SEVERAL DAYS AGO.

A startling and unaudited view of industrial conditions. It was nothing less than that the Rio Grande Western Railway company had quietly signed articles of agreement several days ago for the removal of the roundhouse and machine shops from this city to Ogden.

The announcement caused considerable excitement in the business and railway circles. There was but little time in which to trace the rumor to its foundation before going to press, and the correctness of it could not be verified, but a well known business man and prominent citizen, who is a heavy shipper over and patronizer of the Rio Grande Western, said he had every reason to believe that the report was true. He said further that if the Rio Grande Western company was going to build up Ogden instead of east Lake on business men and citizens generally should know it, and at once.

General Manager D. G. of the Rio Grande Western was in the city today but he could not be found by the reporter before the news went to press; and a full expression from him cannot now be obtained before tomorrow.

RELIEF IN SIGHT!

NEWS OF INTEREST TO THE PUBLIC AND THE COAL COMBINE.

It is given out with at least a semblance of authenticity that relief to the victims of the coal conspiracy in this city—nothing more everybody is in sight and materializing rapidly. It is said that Mayor Bascom is the head and front of a movement to build a branch line from some convenient point on the Union Central railway to Ogden, which will be a great convenience to the people, and a meeting will be called having this object in view unless the railway companies listen to reason and act in accordance with everyday, common-sense, ordinary decency.

It is believed that the mayor will be successful in his efforts to get the people to stand by him with a unanimity that will make his heart rejoice. When a community is systematically plundered as this one has been for years and oil appears to be the only resource, it is natural to suppose that the people will stand by him and exert in the way that they can, what will and give without reluctance. Two thousand pounds to the ton and not to exceed four dollars for it, that is what we want and will shortly have, whether the combine favors or opposes it. Speed the work.

Counsel on either side expressed themselves hoping to complete the hearing today.

Police News.

A depraved individual, named Daniel was sent to jail by Justice Lee this morning for thirty days for indecent exposing his person.

The irresponsible Egger Kelly was taken to the hospital for unconsciousness a part of which J. S. Turnbill was fined \$10 for assault and battery.

W. A. Arden and A. Swartbarger are under arrest on the charge of stealing coal from the Union Pacific yards.

The plaintiff is sixteen years of age,

Particulars About the Death of Jay Gould.

EFFECTS ON THE STOCK MARKET

Rothschild's Silver Plan and the Newspapers of India.

THE PANAMA CANAL MONET.

EARTHQUAKE IN SAN MATEO.—Tremors at San Mateo.

NEW YORK, Dec. 2.—The direct cause of Gould's death, as stated at the funeral service this morning, was pulmonary consumption. The world-famous consumptive became unconscious and the strong master mind ceased to battle for life, and it became merely a question of hours before the dissolution. Members of the family gathered desolate at the bedside. They bitterly admitted the helplessness of the situation and began the vigil which only ended when the breath of life left the body.

Dr. Munro and Jameson agreed that nothing could be done but to ease the patient's last hours as comfortable as possible. All the members of the family were present when the end came.

The fact of the death was known before the opening of the stock exchange, and while the market was less marked than was expected.

Manhattan declined from 12 to 14. Western Union rose to 88. Manhattan elevated to 125. Union Pacific to 122.

These are particularly as the Gould properties in which he paid special attention.

After Gould's death all the blinds in the house were drawn down. The fact of the death was known from a message sent by the Chicago telephone to his wife. The house was locked and no information obtainable from the members of the family.

C. P. Huntington was among the most affected, as he remained but a few moments, while in care of the doctor, and died without except the confirmation of the death. J. T. Terry, one of the directors in the several Gould properties, says Gould told him he had sold off his holdings in Manhattan, Western Union and the like, and that his stocks in which he was especially interested, by putting them in trust, so they could not be sold. It is believed he had his financial house in order for a long time. Prominent bankers and money-lenders have a great interest in the Gould properties, and it is believed they will have much effect on the market either way.

REPORTS ON THE STOCKS.

The dealings in the stocks were affected with comparatively little excitement after the first ten minutes.

Business presented no unusual appearance. The market opened at 125, and closed at 126.

There was nothing unusual to stimulate business. Even the Gould stocks were only moderately active.

The Missouri Pacific was rather weak, after rising from 84 to 85, they slid down to 83.

Other stocks were steady.
