EASTERN.

The Joint Rules Closes a Washington Bar.

CHICAGO, 28.—The *Inter-Ocean's* Washington special says that the resolution of the House has been passed, and the bill is now in the hands of the Senate. It is claimed that the bill is only prohibited by the joint rules, which were not in force. Speaker Randall, to-day, ordered the practice discontinued, thus sustaining his previous decision that the rule is in force.

Loss and Gain.

Some weeks since, by the burning of the express car, on the Erie railroad, near Buffalo, nearly \$1,000,000 worth of goods were destroyed; of this amount the treasury department have been able to identify from the charred remains only about \$7,000, so that the government has lost the balance of the express company about \$993,000.

\$75,000 Fire.

ELMHURST, N. Y., 28.—D. A. Atwater, and Newcomb and Walker's boot and shoe manufacturers were burned to-day; loss \$75,000, insurance \$45,000.

Shipment of Munitions of War.

NEW HAVEN, 28.—A heavy shipment of munitions of war, consisting of 100,000 rounds of ammunition, was shipped to-day for the Turkish government. The cargo was valued at \$1,500,000.

The Investigating Committee.

NEW ORLEANS, 28.—Before the Senate committee to-day, B. A. Shelby, of Ouachita, confirmed the testimony of Sam McEnery, given yesterday; he contradicted Hall's statement that colored men were forced into the democratic clubs, and declared that James and Van Hook had been in the city when Edna Pinkston swore they were with the party that killed her husband.

Several colored democrats testified that the election was peaceful.

Morrison's House committee examined a number of negroes of New Orleans to-day, no testified that colored men were forced into the democratic clubs.

The Wadebill Senate subcommittee took testimony showing that in East Baton Rouge, where the negroes were republicans from choice, many were forced to vote the democratic ticket through threats of losing positions.

Andrew Harrison testified that he had been thus compelled to vote the democratic ticket; he knew two negroes were hung and nearly killed for refusing to join the democratic clubs. The Republicans were originally organized against them, but subsequently became bulldozers.

He described the breaking up of the Mount Vernon republican club and the burning of the colored school.

H. G. Washington, colored, narrated several acts of violence by bulldozers, and reluctantly named the leaders, asking the committee to protect them from the mob.

McDonald said if any one would him to report to the committee. Witness replied, "I'll go home and get killed if I can't report to the committee."

Other witnesses gave similar testimony, showing the greatest barbarity was exercised by whites towards negroes.

The Price of Silver.

WASHINGTON, 28.—A private cablegram, received here to-day, reports that 50¢ per ounce is today's ruling rate for silver in London, and says the India House this afternoon offered the German Government 50¢ per ounce for one million fine hundred thousand dollar worth of silver. The answer of the German Government will be given to-morrow.

A Man Killed in a Glove Fight.

BOSTON, 28.—At a glove fight at the Revere Hall, this evening, between P. J. McDermott and D. D. Sullivan, the latter received a blow from which he died in the hall. Several arrests were made.

A State and Not a State.

NEW YORK, 28.—The reports in the case of the admission of Belford, from Colorado, as a member of the House, are nearly ready to come before the judicial committee. Hurd has written a minority report, which is expected to be signed by Ashe, Hutton, and possibly, though not certainly, by Lynde. The writer of it, Hurd's report will take the ground that the admission of a State is a legislative act; and that Congress cannot delegate to any other department the authority to make a declaration that that State has been added to the Union. The report treats the proclamation of the President as of no value, and regards the law under which the judicial committee is acting as unconstitutional, as being a bill declaring that Colorado, having complied with the provisions of the enabling act, is admitted into the Union as a State. Some enquiry is likely to be made as to what shall be done with Nevada, which was admitted in precisely the same manner as Colorado, and which, according to Hurd's theory, is not yet a State.

Florida Items.

TALAHASSEE, 28.—The return of the majority of the canvassing board in answer to the writ of the Supreme Court, was filed at 2 p.m. to-day. It gives the same figures as the board of canvassers, and arrives at the result by throwing out Clay County and the judge's return in Baker county. The Supreme Court did not file to-day. Two of the judges in the Clay county case, and ex-attorney general Williams and General Wallace went to see Justice Westcott this afternoon to get him to request the court to set aside the Clay county return. They will most probably consent and court will be held in a day or two to act on the return of the board.

Attorney General Cocke filed a protest, to-day, against the action of a majority of the board in regard to Clay and Baker counties. Everything indicates a speedy solution of the difficulty here. The court will either accept the present report or require the two counties to be re-canvassed, which will only require a few moments.

Ship on Fire.

CHARLESTON, 28.—Advises from Port Royal state that the ship *Harvey Miller*, loaded with cotton, was in the steam, about to sail for Liverpool, caught fire in her hold. The war vessels in the harbor immediately sent assistance, and at last account the fire was apparently under control. The cargo is valued at half a million dollars.

FOREIGN.

FRANCE.

Debate on the Budget.

VERSAILLES, 28.—In the Chamber of Deputies, to-day, during the debate on the budget, Gambetta exhorted the Chamber not to surrender its power over the budget. He urged that the Senate had no right to reinsert the items rejected by the House. He declared it might be easy now to strangle the right of the Deputies to initiate financial proposals, but the act would be regretted when too late.

Simone replied that the constitution was perfectly clear. It made no difference as to the power of the respective Houses over the financial laws, except that such laws could be voted by the Deputies. He said if the conflict between the Chambers continued it must be solved by a dissolution of which it was impossible to tell the consequences. It would be preferable to take a fresh vote on the contested items of the budget. The country wished to see peace between the public proposals and to enjoy the benefits of the republic which it had so long ardently desired to obtain. If the republic was united it could have all things.

The Chamber resolved to pass to the discussion of the clauses of the Budget, and adopted them by a vote of 359 to 137, in spite of the opposition of Gambetta.

The proposal for paying a certain sum of money to soldiers, at the commencement of a campaign, and an increased grant for military chaplains, supported by M. Simon, was also adopted.

A grant for the payment of expenses of generals when on service, was rejected, although it was supported by General Berthaut, Minister of War.

An increased grant for the working of the clergy, and for clerical scholarships, was rejected by a large majority, the ministers not participating in the debate on that question.

Midnight.—The Deputies, by a vote of 309 to 184, passed the naval estimates, inserting the reduction of 100,000 francs in the Budget. The whole Budget of expenditures was finally adopted by a vote of 412 to 30.

In consequence of these votes, the conflict between the Senate and Chamber of Deputies is considered terminated.

GREAT BRITAIN.

The Plague in Baghdad—War Rumors—Cold Weather—Epidemic.

LONDON, 28.—The *Lancet* has news from Constantinople that the plague had appeared in Baghdad. The *Standard's* Belgrade dispatch says the Ristic Cabinet remains unchanged, Mr. Marienovich having refused to form a government.

Except in order to conclude peace, and Count Andrassy having promised not to insist on the dismissal of the present ministry if the Russian cabinet agreed to the peace.

A report comes of a hard frost, and it is feared the Danube will freeze and give the Russians a chance to march over on the ice.

A Standard correspondent at Paris telegraphs that intelligence has been received there that the Russian army is in a very bad condition, and that the epidemic of typhus fever has broken out among the troops.

The *Times* Berlin dispatch confirms the report that a good deal of epidemic disease exists in camp and barracks, and that the Russian army is in a very bad condition.

It is almost impossible to move the troops in such a temperate.

Wendell Phillips on Massachusetts.

School Education for Girls.

The public schools teach her arithmetic, philosophy, trigonometry, geometry, music, history, and literature. Seven out of ten of them, remember, are to earn their bread by the labor of their hands. Well, I think, give the child a better kind of work that is worth a morsel of bread. If the pupil could only read the ordinary newspaper in English, she would be able to do something, but this the scholar so educated, so produced, cannot do. I repeat it. Four-fifths of the girls you present to society are illiterate. It lacks the first element of the culture we strive for. Now, I claim that this kind of education injures the boy or girl in at least three ways. First, they are able, only by forgetting what they have learned and beginning again, to earn their day's bread; in the second place, it is earned reluctantly; third, there is no ambition for perfection aroused. It seems to be a fact which many of the public educators of to-day overlook that seven-eighths of the people born into this world earn their living on matter and not on mind. Now, friends, I protest against this whole system of common schools in Massachusetts. It lacks the first element of preparation for life. We take the young girl or the young boy whom parents are able to lift them into an intellectual profession; we keep them until they are eighteen years old in the high schools; we teach them the sciences; they go to the academy or college to pursue some course of preparation for their presumed course through life. Why not keep them a little longer and give them other than intellectual training for the business of life?—*Ex.*

HOLIDAY RAMBLES.

LITTLE JOHNNY is a year older than he was last holiday season, and his powers of observation have increased with a year's growth. He has been the round of the central part of the City, being directed by the numerous advertisements that he has observed at different times in the News to where he could see the best holiday sights, and where people can make the choicest seasonal purchases.

Last night, while sitting near a cozy fire, surrounded by his mother and brothers and sisters, by unanimous request of the family, he told them what he had seen in his rambles. The first place I dropped into, said he, was

Z. C. M. I., and if I was in the habit of going into extasies it would be at such sights as I saw there. There was so much to see, that to describe is impossible, for the fact is, it doesn't matter what you want to buy, from a "needle to an anchor," they've got it there, holiday goods or any other kind, and what a beautiful and convenient store too. I also called in to see Mr. Schettler, at

Zion's Savings Bank and Trust Company. A good place for people to put their savings, to provide against a "rainy day." Then there's that

Scotch store of Messrs. Liddell & Brown, which a man "free the land o'cakes" can scarcely pass without getting some toothsome article to remind him of "his native heath."

Daynes and Son, where I noticed a great many articles in the music and musical instruments line that would make excellent holiday presents.

The Deseret National Bank is a place worth looking at. It is beautifully fitted up, and a great deal of business in the money line is done there. I went across to

Mr. James Dwyer's, and there is a sight for juvenile eyes. A great many children believe that Santa Claus makes his purchases of toys, and clothes, and what with which to fill their stockings. Some of the stockings would have to be pretty large to hold one of those big wagons or hobby horses. I looked in

Mr. George W. Davis', and there was another fine holiday sight, and I thought of the puddings and things that would have the main part of their materials from there.

Messrs. Calder & Careless have a really splendid stock of goods in the musical instrument line, anything you want, with which to jazz up to the best piano manufactured. There are some nice furs and numerous things for ladies at the store of

Mr. Peter Schwartz, and at the Howe Sewing Machine agency you can get a machine just like that of ours, which mother says is very good and saves much labor.

Mr. Phelps has quite a nice show for the holidays, having a large stock of dry goods and things. I looked into

Mr. Amussen's, who has anything you want, with which to jazz up to the best piano manufactured. There are some nice furs and numerous things for ladies at the store of

Mr. Peter Schwartz, and at the Howe Sewing Machine agency you can get a machine just like that of ours, which mother says is very good and saves much labor.

Mr. Phelps has quite a nice show for the holidays, having a large stock of dry goods and things. I looked into

and you would be interested in seeing the progress of home manufacture there. Coming right down to home manufacture, by the way, the Working Men's Co-op. are doing creditable thing in that line, making boots and shoes, and are a credit to the city.

Latimer, Taylor & Co. are not a whit behind any body in their home manufacture, and they have some splendid woodworking machinery with which mouldings, doors, blinds, sash and everything in the building way is turned out for the market. But then when you come down to tinning, gas, water and steam fitting I'll tell you that

Mr. David James' establishment is hard to beat. It is on West Temple street any day you will hear a tremendous clatter, made by the men at work. I found

Joe Barker, on Commercial street, mending guns, pistols, locks, keys, &c.; and then went over to the store of

Joe Heusser and Brother, and what a variety of fire-arms of every kind is there displayed. If a person wants guns and ammunition for hunting, or anything you will find them. I notice people are beginning to find out they can get comfortable and cheap quarters at

Reynolds' Hotel.

R. Matthews & Co., who in the home producing line and their wares are excellent. They make soap, sand-tablets, ink, essences and Janolins, ginger, &c. Every body wants holiday meat, which they can readily obtain at the markets of

F. May, W. Peterson, Eldridge, Pratt & C. Co., Lusk, White, Son and others, whose advertisements are occasionally seen in the News. When you do your marketing you must have a basket, and the Salt Lake City Basket Manufacturing Co., Job Smith Supt., makes them.

The Deseret Carriage and Wagon shops, Second South Street, are a splendid place to go to for a carriage and should be encouraged.

F. Auerbach and Brother have a stock of goods that is most surprising large and varied, they being determined to please customers. I visited

"Daniel in the Lion's Den," not the veritable one, but our old friend Mr. George W. Davis', and things are necessary.
