Destruction in Strasbourg—the Cathedral damaged!

ATTEMPT TO THROW A TRAIN FROM THE TRACK!

VOMITO SPREADING!

News from the French Capital!

MAINE.
AUGUSTA, 5.—Ex Governor Cassey died to-day.

CALIFORNIA.
Train Delayed—Snow Sheds Burned.

SAN FRANCISCO.—The passenger overland train, due at 9 p.m., yesterday, arrived at 11 1/2 a.m. to-day. It was delayed by the burning of the snow sheds near Cisco. The origin of the fire is a mystery. A strong force is repairing the damages and no further detention is expected.

NEW YORK.
Editor dead—Cruel treatment of Cuban women and children.

NEW YORK, 6.—Dewitt Newburn, for two years past, editor of the New York Leader, died yesterday morning after a brief illness; he was about thirty years of age and leaves a wife and one child. An account of the shocking treatment of Cuban ladies by the Spaniards in Havana appears in a correspondence from that city on the 23d ult. Twenty prisoners, all women and children, reached Havana by railway, and were led from the depot to the prison under guard, all of them, even the children only five and six years old, being tightly pinioned by the arms. At the head of the sad procession marched two handsome young ladies of 18 years, both handcuffed, one the daughter-in-law of president Céspedes, the other the daughter of Gen. Figuerdo, recently garrotted in Santiago. The ladies were all members of the best families on the island. As these unfortunate creatures passed through the streets the Spanish mob jeered and threatened them, and in some instances attempted violence. John Minor, who was clerk in the Sub-Treasury during General Butler's administration, was arrested to-day by Detective Sampson, for attempting to pass a forged treasury check for ten thousand dollars on Vermilye & Co. He was held in twenty thousand dollars bail.

WASHINGTON.
Defaulters still at large.

WASHINGTON, 6.—The Navy Department has as yet taken no steps to prosecute the defaulting paymasters of the navy, eight in number, who were, several months ago, arrested by the accountant officers of the Treasury as defaulters to the amount in the aggregate of over a million dollars.

CONNECTICUT.
Murderer sentenced.

HARTFORD, 6.—Wilson, the murderer of Warden Willard of the state prison is sentenced to be hanged Oct. 13, 1871.

NEW HAMPSHIRE.
Attempt to throw a train from the track.

CONCORD, N. H., 6.—An attempt was made yesterday to throw the mail train from the track on the Northern R. R., but failed. Three men named Taylor, a father and two sons, were arrested; one of the sons, Julius, confessed his own guilt, and sought to exonerate the others.

A special telegram from King William sanctions the demand made by the Germans expelled from France, for indemnity for losses they sustained thereby. The German maritime towns also require their damages made good; they assert that although their vessels escaped capture the injury to the shipping interest from the compulsory sojourn in foreign harbors was great. It is complained that France has placed herself in opposition to the progress of civilization in having seized property on the high seas, and an indemnity is now asked for, in order to prepare the way for a universal recognition of the principle of freedom to private property in the time of war under all conditions.

A cable to the Associated Press, dated London 6, says, adherents to the French Emperor are very active in England. M. Rouher and Baron Jerome David are living in the city, and they go quite frequently to confer with the Empress Eugenie. The rumors are that the Prussian government is not hostile toward this movement in favor of Napoleon.

Late advices from Paris announce that Gen. Trochu is turning to good account the experience and abilities of Gen. Ripley. The Parisians claim that the Prussians will find plenty of defensive contrivances to face before entering Paris.

FOREIGN NEWS.

SPAIN.
Vomito spreading.

MADRID, 5.—The vomito has spread to Alicante, and the citizens are leaving the town. Oloraga's resignation as

minister to France has been formally accepted. Heavy rains in Valencia recently, have done much damage.

GERMANY.
Strasbourg Cathedral damaged.

HAMBURG.—The steamers of the Hamburg and American line are being used for the detention of French prisoners.

The battalion of garde mobile raised in the department of Arane, and commanded by Duke Fitz James, is mentioned as having distinguished itself by its steadiness and gallantry before Solis.

It is denied that the Strasbourg Cathedral escaped serious damage by the late bombardment; persons just arrived from the scene report that the edifice suffered severely.

GREAT BRITAIN.
Plundering in Paris—Preparing to Blow up Bridges—French Bushwhacking—The Destruction in Strasbourg—Thiers in Italy—Accidentally Killed—Boiler Explosion.

LONDON 5.—Mr. Smith Leeds, a banker, well known for his charities, was killed yesterday by a fall from a horse. The story that General Burnside has been engaged in an attempt to mediate between France and Prussia is entirely discredited. A Cossack force has been sent westward from the Don. Active preparations are being made for operations in western Caucasus. The government of Odessa denies the concentration of troops near the Turkish frontier. It is thought that Victor Emanuel will guarantee the pontifical debt.

The Manchester Examiner has an aerial message from Paris, stating that at a meeting of the council on the 29th Sept. Jules Favre and Arago protested against a continuation of the war without a consultation with the people. Peratry, Trochu and Rochefort dissented. The defence of Bitchie has been thus far successful. The Prussians have planted cannon, captured at Strasbourg, around Metz. The latest reports from Epernay state that the national guard and mobiles are doing good service at bushwhacking.

The returns from the outer districts of the Pontifical States show an increased majority for Victor Emanuel. The rumor continues that Thiers has arrived at Florence to consult with the Italian government. LONDON 6.—Late advices from Paris state that there is much plundering there. All the bridges on the railways and highways to the west of Paris have been mined, and are to be blown up as the Prussians advance. Beauvais, forty-one miles north-west of Paris has been made the great victualling center by the Germans. The Prussian preparations for the bombardment of Paris are nearly complete.

The presence of Beauregard in Europe is denied. LIVERPOOL 5.—A boiler explosion at the establishment of Duke & Co., in this city occurred yesterday; two persons were killed, and the buildings in the neighborhood were badly damaged. General Treshow commands the Prussian army destined for service in the south of France.

Five hundred houses were destroyed in Strasbourg by the bombardment, and the number of persons rendered homeless is ten thousand. Subscriptions for their relief are general throughout Germany.

FRANCE.
Prussians forced to retreat—French gain ground—French successes.

TOURS.—Further details, tending to establish the death of General Von Moltke, are published here to-day. It is reported that the French troops recently blew up the railway for a long distance near Saverne, and the Prussian communications are sadly interrupted in consequence.

TOURS, 5.—M. Cremieux, on assuming ad interim the ministry of war issued a note urging haste in the organization and equipment of the garde mobile, and garde nationale.

FONTAINEBLEAU, 4, via LONDON 5.—The French tireurs have driven back to Chailly a strong force of Prussians, both horse and foot, who were threatening the place. Sixty of the enemy were disabled.

TOURS, 6.—The battle which occurred near Chateau Gaillard on the fourth has been productive of important results. The Prussians were defeated and forced to retreat. The position taken by the French was one that necessitated the evacuation of Pitiviers by the enemy, and the Prussians abandoned that point with so much precipitation that many cattle, and a large amount of forage, etc were left behind, all of which fell into hands of the French.

At Lyons the reds seem determined to organize. They have had a meeting at Granville, numbering over two thousand persons. It is expected that the government will at once take measures to stop this manifestation.

News has been received here that the Prussians have now completed all arrangements for shelling and attacking Paris, the spirit of the population however, is undaunted. Advice is prepared at any moment to second such attacks as the forces outside of the Prussian lines may make. The French are aware that some time must elapse before an offensive movement can be made, and they use the delay in drilling and arming the mobiles at Lyons. In view of the Prussian approaches, military precautions are being taken and the surrounding heights are fortified and occupied by regular troops. Government is taking measures to insure Normandy against devastation by sending there a line of mobile guards.

An American frigate that entered

Have created a scare by saluting. The people supposed the enemy was bombarding the town.

CHARTRES, 5th via Tours, 6.—Cannonading commenced this morning near Maintenon.

SAINT QUENTIN, 5th, via Tours 6.—There was a combat yesterday near Solis, and the prisoners say two regiments of the Duke of Mecklenburg Schwerin were defeated by the garrison. A report from General Regaut, forwarded from Touny, shows that a decided success was achieved yesterday by the French troops under his command.

TOURS, 6.—It is asserted that an armor of Lyons has constructed a steam mitrailleuse, the most formidable yet known.

PRUSSIA.

BERLIN 5.—A provincial correspondence says that troops from Strasbourg and reserves from Freiburg have been detailed to occupy Upper Alsace, including the cities of Mulhouse and Colmar, and the surrounding country, and capture Belfort, Sahl, Stadt and New-Brisach. These effected, they will advance to the interior of France. There are no signs of the creation of further French armies here. Delbruck will soon visit the King's headquarters, taking a plan for the reconstruction of Germany.

Their complete failure at St. Petersburg is certain, Russia having reassured the powers of her peaceful intentions. The seat of government of Alsace has been restored to Strasbourg. The King's headquarters are at Versailles.

ELGIN WATCHES!

MANUFACTURED BY
The National Watch Company

All the grades of the Elgin Watches

INCLUDING THE
"LADY ELGIN"

READY FOR
SPRING TRADE.

The company also call the attention of Watch buyers to the fact that the Elgin Watches now offered have an added improvement over all others, in a new

PATENT DUST EXCLUDER
So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their Watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R.R. officials, endorse them as the best watches for the use of R.R. employees and travelers about introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.
UNION PACIFIC R.R., OFFICE OF GEN'L SUP'T, OMAHA, Dec. 14, 1869.
Hon. T. M. AVERY, President National Watch Co., Chicago, Ill.
Dear Sir:—During the month that I have carried one of your "R. W. Raymond" Watches it has not failed to keep the time with so much accuracy as to leave nothing to desire in this regard. For accuracy in time keeping, beauty of movement and finish, your Watches challenge my admiration, and I am confident that all respects they will compete successfully in the markets of the world, with similar manufactures of older nations. They need only to be known to be appreciated.

Yours most respectfully
G. G. HAMMOND, Gen'l Sup't.
OFFICE OF THE HUDSON RIVER RAIL ROAD, Gen'l Sup't, New York, Jan. 17, 1870.

T. M. AVERY, Esq., President National Watch Co.
Dear Sir:—The Watch made by your company which I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been on the road with it almost daily. During this time it has run uniformly with our standard clock.

Truly yours,
J. M. TOUCHEY, Gen'l Sup't.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.

Wheeler, Parsons & Co., N. Y. C. Hollister, Cincinnati.
Warren, Spence & Co., " E. Jacobi & Co., St. Louis.
Hilditch & Co., " R. E. Critchfield & Co., Cleveland.
