

Wednesday - August 12, 1885

## FRAGMENTS.

California Society meeting this evening.

Live quotations, New York, per 100 lbs., 14.25.

J. A. MEYER, of White & Sons, went north over the U. & N. this morning.

T. V. WILLIAMS and wife leave for Bear Lake by the excursion to-morrow.

McCormick & Co. to-day received one lot of Queen of the Hills ore, value \$2,500.

Wells, Fargo & Co. to-day received one lot of Christy bullion, value \$1,800.

Silver quotations, corrected daily by Wells, Fargo & Co.: New York, \$1.08 1/2; London, 49-1/2.

The K. of P. excursion from Ogden came down over the D. & R. G. on a special this morning.

The excursion to Cache and Bear Lake valleys will leave the Utah Central depot at 8 a. m. to-morrow.

The family of Col. Donny, U. S. minister to China, will leave this city for San Francisco this afternoon.

W. F. DAVIS, brother-in-law of Secretary Thomas, starts for Pittsburgh, via the Union Pacific, to-morrow.

D. A. C. STODARD and wife of Helena, Montana, start for Philadelphia via the D. & R. G. to-morrow.

C. W. SYMONS, photographer, starts for Bear Lake valley to-morrow. He will take views of various places of interest in that region.

JOHN BARRY was fined \$5 to-day for fighting. James Morrissey, who had been fined \$100 for fighting, was fined \$100. Both parties pleaded guilty, and asked the leniency of the court.

The articles of incorporation of the Deseret Marble Company, the organization of which was mentioned in the News some weeks since, were filed with Secretary Thomas to-day.

WILHELM METZ and John P. Spencer yesterday afternoon. Metz was discharged, and Spencer fined \$25 for drawing a pistol. He will work it out on the streets.

We regret to learn that one of the children of Brother Francis D. Hughes of the 11th Ward, died yesterday of that dreadful disease, diphtheria, and that another of his children is now affected with it.

This Sunday school and the members of the 10th Ward will take an excursion to Lake Point on Friday next. There will be canoeing, various kinds of dancing, boat-racing, racing, bathing and all that the place affords.

W. A. HAWLEY, one of the passengers on last evening's bathing train, indulged in an overdose of bad whisky, and made himself obnoxious by his profanity and indecent conduct. He was tried before Justice Speers this morning, and fined \$10.

There was another good house last night at the panoramic exhibition and comedy performance of Dan Morris Sullivan's company. They drew well, and the people who attend go away delighted with having had their full money's worth.

Mrs. M. G. Lapham, who is grief-stricken and prostrated at her mother's death, desires to express gratitude to all of her many friends who have manifested their love and sympathy on the occasion of the death and burial of Mrs. Green.

## LOCAL NEWS.

Subpoenas Served.—The members of the family of Brother A. Miner were this morning subpoenaed to appear before the Tenth District Court on the 20th of September.

Icelanders on the Way.—By telegram from New York we learn that a small company of Saints from Iceland have arrived at that port and left last evening for Utah. In charge of Elder George F. Hutter.

Escape from the Penitentiary.—Yesterday afternoon, as the inmates of the Penitentiary were returning from working in the field, two men, John Watrin and Walters, made a break for liberty. The guards gave chase, and Walters was captured after a race of about a mile. Watrin, however, made good his escape, and has not been heard of up to the present. He was serving out a four years' sentence from March 7, 1883, for placing obstructions on the D. & R. G. The U. S. Marshal has offered a reward of \$250 for the return of the prisoner.

A Phenomenon.—Theophilus M. Davis, of this city, calls our attention to the fact that he has in his garden an apple tree which is now in bloom for the third time this season. It blossomed for the first time in the early spring, when putting forth its leaves; the next time about the last of June, and this time about the last of August. There are many apples on the tree now as the development of the fruit blossoming a second time; but the unusual case here mentioned surpasses any other thing in that line we have yet heard of.

From St. George.—We had a brief visit this morning from Brother A. R. Whitehead, of St. George, who arrived in this city yesterday from his southern home. One object of his trip up here was to bring to the Territorial Insane Asylum a young woman from St. George by the name of Esther Mead, who has been detained for the past two and a half years.

Brother Whitehead has charge of the cotton and woolen factory at Washington, which is doing tolerably fair business now. But little cotton has been raised in "our Dixie" during the past few years, but the decline in the price of other products has been such as to cause the people to take a little more interest in cotton culture. Last year the factory purchased some 5,000 or 6,000 pounds of home raised cotton. This year there was rather more planted, but for some cause it has failed to do well. Other crops as a rule have done very well this year throughout the southern part of the Territory. Fruit of various kinds is very abundant. The white and Isabella grapes, however, are not so good in St. George this year as usual, as the fruit is badly mildewed, owing, it is supposed, to the dampness of the weather in the spring. There was much more rain in that region in the early part of the season than ever before.

This has been a good season for stock in the south, and more people are turning their attention in the direction of stock raising than heretofore.

**Destructive Fire.**—At half past 8 o'clock last evening the fire alarm was sounded, and the fire brigade with their apparatus, promptly appeared at the Jennings building on First South Street, half a block east of the Deseret Bank, from which dense volumes of smoke were issuing. The fire was located in the second hand store of Mr. Andrews, and in a few moments had communicated to the paper stock in J. C. Graham & Co's. printing office, which was separated by a board partition. The flames also reached the roof of Kelsey's real estate office, but were checked there without much damage having been done. The dense smoke caused by the burning printer's ink drove the firemen out of the rooms several times, but they kept closely to work, and rendered effective service. Chief Oringer and his men deserve praise for the good judgment and activity displayed, their work being performed in an excellent manner. It was found impossible to save anything from the second hand store, and but little material from the printing press in the basement, were not injured to any great extent, but the stock of type, paper, and the goods in the second hand store are a total loss. The origin of the fire still remains a mystery. It doubtless began between the room used as a sleeping room by Mr. Andrews, in the rear of the store, and that used as a work-shop. No fire had been in the building for several weeks, but last evening Mr. Andrews, in fixing some bicycles, made use of a small alcohol lamp, which he positively states he extinguished before leaving the store, at 7 p. m.

While working on the burning building, Mr. Clem Hoxley tripped, and sprained his ankle. Mr. Andrews, who was on the ground early, endeavored to effect an entrance through the door, when a large piece of glass fell from above, striking him on the left leg, and cutting several severe and painful gashes and almost severing one finger. The losses are about as follows: T. W. Jennings, owner of the building, \$1,200; insurance, with H. J. Grant & Co. company, \$1,500. Mr. Andrews, \$1,000; loss, with H. J. Grant & Co., \$1,500; insurance, with S. W. Darke & Co., \$2,000. Total loss, \$3,000; insurance, \$4,000.

**Sudden Death.**—M. D. Rosenbaum, a well-known citizen of Brigham City, who for some time past had been part of his family at Mink Creek, north of Franklin, Idaho, and been doing a small business there in merchandising, stopped dead as he was in the street at the latter place on Saturday last, about 2 p. m. The cause of his death is supposed to be heart disease, as he complained of a pain at his heart previously and had been for some years subject to fainting spells. The body was brought to Brigham City for interment, and the funeral took place on Monday afternoon, being very largely attended.

Brother Rosenbaum was of Jewish birth, and came to this Territory from Carson, Nev., in 1867. He subsequently embraced the Gospel in this city, and removed to Brigham City, where he has since done business as a merchant and filled many responsible positions. He went on a mission to Germany a few years since, and while laboring there for the spread of the Gospel was arrested, imprisoned and banished. He was a very good man and was greatly respected by his acquaintances. He leaves a large family—two wives and fourteen children, who have the sympathy of the public in their bereavement.

A "Stradivarius."—A very beautiful violin has just been received at Elder's Music warehouse, for Prof. W. E. Weiss. The instrument was sent, one from Eugene J. Albert, of Philadelphia, whose violins took the first prize at the New Orleans Exposition, and one from George G. Gendler, of Astoria, New York, who did not compete at the exhibition. Prof. Weiss, after an examination of the two instruments, unhesitatingly selected the Gendler, as the superior one, having a wonderfully sonorous and fine tone-quality, in addition to the best instrument in this region, being a perfect model of an "Antonius Stradivarius."

The renowned violinist Wilhelm uses an instrument by the same celebrated maker, and gives it as his opinion that it is superior to the one of the most celebrated old Italian violin makers. Prof. Weiss played on Wilhelm's violin in this city, and is greatly pleased with his own instrument in comparison.

**Arizona Items.**—Brother J. T. Johnson, writing from Tempe, Maricopa County, Arizona, says no rain has fallen in this place since March. The thermometer ranges from 110 to 115 degrees in the shade. The case of sunstroke occurred on the 1st instant, but was not fatal. Notwithstanding the extreme heat, there is a breeze during the hottest portion of the day, rendering it quite free from suffocation.

On Sunday night one squaw was killed by lightning, and her home four miles above us on the river. No deaths in our midst for some time, although we have had some sickness among women folk and children. The prosperity of the people is good and everything moves on quietly.

**A Washout.**—Some young men from Springville have been busy engaged for some time past making a road up Dry Creek (Canon, near Alpine, with a view to reaching some very good timber that is there found and establishing a saw mill to cut it. On Friday night last the storm fell so heavily in that vicinity that huge boulders and trees were washed down the canon and the road in many places covered with them and in others galled out, so that it will cost at least \$1,000 to repair the damage, and the parties interested are undecided whether to undertake or abandon the enterprise.

**Getting Too Ripe.**—A gentleman just up from Alpine informs us that much of the grain in that region is over ripe and still uncut, owing to the farmers having fallen into the habit of depending almost entirely upon self-bladders doing the harvesting, and those who are not helped by the wind, breakage or other causes, to get along fast enough. When the people used to harvest in the old-fashioned style, with cradles, they generally had their grain gathered in better season and with less waste than now, though there was more labor involved.

**Attempt at Suicide.**—By letter from J. L. Townsend, Payson, written August 11th, we learn that on Sunday evening, about 5 o'clock, Mr. James Stark, of Payson, attempted to suicide by cutting his throat with a pocket knife. He was temporarily insane from a sunstroke which prostrated him a few days previous. Dr. Pike was called, who sewed up the wound, the windpipe and jugular being nearly severed. The patient will probably cover.

**Witnesses Bound Over.**—Quite a number of witnesses in polygamy and unlawful cohabitation cases are being subpoenaed and bound over to appear at trials during the September term of the Third District Court.

## CITY COUNCIL.

The City Council met in regular session last evening, Mayor Sharp presiding.

A petition was received from J. M. Leher, asking \$800 for damages from the seepage of the Salt Lake and Jordan Canal, and the consequent stoppage of his land. Referred to the committee on streets and alleys.

G. J. Marsh, of the D. & R. G. W., asked for permission to run switches from their depot to the Utah & Nevada depot, and to the Utah Sanitarium, south of the depot, and the committee on streets and alleys.

A petition was presented from the directors of the Deseret and Salt Lake Surplus Water Canal, reciting the circumstances which led to the construction of the canal, and asking that the canal be an assured success. The work, however, was still unfinished, and the committee on streets and alleys.

The petition urged that the present or near future would be the best time to commence operations, as work could be prosecuted much more cheaply during low water time, and that the property owners along the unfinished portion threatened that if the work is not completed they will abandon an irrigation preventing the company from turning the water into the canal at all, thereby depriving the water users of the water. In view of these facts, the committee on streets and alleys.

Referred to the special committee formerly appointed on this canal. The largest amount of the canal, the condition of the bridge at the south end of the canal, and the committee on streets and alleys.

Referred to the Street Supervisor. W. L. Price, W. C. Bowman, R. Burns & Co. asked permission to lay a flagstone crossing on First South, between East Temple and First West Streets, as their own expense. Granted, the work to be done under the direction of the Street Supervisor.

Leo Hawkins, of the First Ward, stated that his district was without police protection, and asked for permission to keep a watch dog free of license. Not granted.

James and one auctioneer, James were granted. J. W. Fox, Jr., City Surveyor, stated that for seven years he has been in the office of the City Surveyor, and asked for such reward as the Council might see fit to grant. Referred to the committee on finance.

The City Marshal's report for July, showing expenditures of \$3,425.31, was read and referred to the committee on police.

For committee on streets and alleys reported that they had examined the reports of the Supervisor of streets for the two quarters and found them correct.

They also recommended that the petition of Elias Mortimer and others for a wagon bridge over City Creek near the Church Blacksmith Shop, and a foot bridge at the block west, be granted, and that the work be done as soon as possible. Adopted.

Also that the City Surveyor be instructed to establish the grade on Second South Street as far as the military reservation, in accordance with the suggestions of the Supervisor of streets. The recommendation was adopted.

The same committee reported favorably on the petition of William Anderson, asking that the road between the D. & R. G. depot and the Black Brick be repaired, and recommended that the work be done as soon as practicable. Adopted.

They also made the recommendation that the petition of Wm. Hickenlooper and others, asking for the removal of Fifth South Street be granted, be granted. Adopted.

The committee on public grounds, who had been referred the petition of Dr. B. B. Young, asking that the city lease him a plot of six acres of grazing land adjoining the Asylum property, recommended that the lease be made at \$50 per annum. Adopted.

The committee on improvements, with the Mayor assigned, presented their report with regard to making improvements for obtaining a supply of water from the water works for every purpose; the report was made on a communication from the City section, and asked that the council take the opinion that the result of pumping water from the artesian well would not justify the cost. The committee recommended that no steps be taken in the matter at the present time.

A discussion ensued relative to the cost of making improvements for obtaining water for the cemetery. Mr. Patrick favored making the improvements, but would rather have the improvements made by the city, and the report was referred back to the committee, with instructions to report an estimate of the cost of the improvements.

The Council then made the following appropriations: To Mrs. M. A. Barr, feeding city prisoners for July, \$300; meals for 100 prisoners, \$100; To J. S. Jensen, winding city clocks for three months, \$50; To B. B. Williams, dog tax collector, registering 75 dogs at \$1 each, \$75; To Deseret National Bank, interest on overdraft for July, \$88.67; To the contingent fund of the various departments: Watermaster, \$1,000; Liberty Park, \$500; Fire Department, \$500; City Marshal, \$500, and Supervisor of Streets, \$1,000.

The bill of J. W. Fox, Jr., City Surveyor, for \$10, for services, was presented, but no action was taken thereon, and the Council adjourned.

**Diphtheria.**—One of the children of Mr. Hughes, of the Eleventh Ward, died last evening, from diphtheria. Another child in the same family is suffering from the disease.

A new case of diphtheria is reported to the quarantine physician this morning, in the family of Mr. Kenney, in the Twenty-first Ward.

**"Bird of Freedom."**—On Saturday an American eagle was captured near Alta, Little Cottonwood. The noble bird measures six and a half feet from tip of wings. It was being offered for sale on East Temple Street, yesterday, but was not taken up. It is called to attract a purchaser at that low figure.

**Injured Eye.**—A few days ago A. L. Horner, assistant watchmaker of the D. & R. G. W., was watching workmen laying tracks on one of the main lines, and while so employed, he was struck by a passing train, and his eye was injured. The eye was treated by Dr. Horner, but the injury was not serious.

**"True to Nature."**—J. T. Harwood, of Lehi, has on exhibition at Savage's Art Barn, three very pretty studies from nature. One is entitled "Landscape in a Storm," and the others represent clouds of white and red currents, strongly resembling nature that when they were placed in the yard a hen with a brood of chicks began pecking at the painted fruit.

**Mine Indicator.**—We had a call to-day from Dr. Calvin D. Bowman, of New York, who is here as the representative of "The Electric Mine-Indicator Company," of Boston, Mass. He was introduced to us by Col. Froelich, with whom he is staying, and in whose mine he has been operating a mine indicator with success. This indicator consists of an electro-magnetic battery, connected by a wire with ground electrodes held by an insulated block. By inserting these electrodes in the ground the exact location of a mineral vein beneath the surface will be indicated by an electroscopical placed upon the battery. Before commencing here, the Doctor tells us he never operated with the indicator in any other minerals than gold, silver and copper, but on testings it in the Norway mine in Morgan County, it was found to work equally well in that mineral. If this indicator is all that it is claimed to be, and the experiments already made certainly go to prove that it is, its value can scarcely be overestimated. He proposes to examine the ore property for any who employ him, on the principle of no vein no pay, his intention being to demonstrate the merit of the machine and then sell the territorial right to the use of it.

## BUSINESS NOTICES.

**SCHOOL SUPPLIES.**  
School Books, all kinds, Maps, Charts, Globes, School Desks, Blackboards, Slates, Call Bells, Map Tommers, School Registers, at lowest wholesale rates. At Dwyer's Book Store, Salt Lake City, Utah. Send for price list.

**JOBBERS' ATTENTION!**  
Before making up your orders for Importing CANDLES, call on H. A. Tuckett, Manufacturing Confectioner, 101 North Main, Salt Lake City, Utah. He can supply you with that which is made in honor.

**QUALITY GUARANTEED.** Competition Defied. The Trade Supplied.

**SOMETHING NEW**  
In the way of HAMMOCKS & CANVAS COATS, for camping out.

Call at LINWOOD'S.

H. J. HILL, No. 26 1/2 West Temple St. Teacher of piano and organ.

**STILL AHEAD, EXCEEDED BY NO ONE.**  
Messrs. Trumbo & Bogue, the two enterprising young confectioners of the New York Candy Store, are, without a doubt, the best candy makers in the "Terr." They use none but the very best of material in manufacturing their candy, and they are the only ones who get pure Ice Cream manufactured with pure cream. They also manufacture the largest assortment of Candy in the city; 100 kinds of their own make. Lawn parties and Fete's served with cream and short cake, ice cream, and a man to serve. Ice cream, or cake and fruit, at the city rate of charge. Wedding cakes a specialty.

**Dr. Hensley's**  
Celery, Beef and Iron gives strength to mind and body.

**STOP THAT COUGH.**  
By using Dr. Frazier's Throat and Lung Balm—this only cure for Coughs, Croup, Whooping Cough, Sore Throat, and all diseases of the throat and chest. Do not cough a cough. It may prove fatal. Sore throat and coughs of great people owe their recovery to Dr. Frazier's Throat and Lung Balm, and no family will ever be without it after once using it, and it is put up in large family bottles and sold for the small price of 25 cents per bottle. For sale by W. C. M. I. Drug Store.
