CAUTION AS TO STREET FRAN-

CHISKS. THE City Council of St. Paul, Minne sota, have been wrestling with the question of granting a franchise to an electric railway company through the beart of the city. The company has already a chort elevated line in successful operation. But it is doubted whether the same system will answer over a long line and be adapted to the cided to permit the construction of a reserved the right of franchise until it;can be demonstrated whether the line will be a benefit or a detriment to the public, and how private property will be affected by it along the route. The Pioneer Press makes the annexed

comments on the subject, which we think are sensible and timely, and worthy of attention by our home City Council under present circumstances: "It is not a matter to be decided lightly when a corporation appiles for the right of way upon our suslocss streets. Though its route be definitely located, it still obtains an actual monopoly so far as the streets which it traverses are concerned. And, if it should happen to be less satisfactory to the public than its representations. to the public than its representations, er if it should fulfill the predictions of those who hold that it will work damage to property and inconvenience to the public, then there is no remedy. The universal experience of cities should teasu them to be more than careful to draw rigidly the line of cau tion and err on the side of conservatism in the granting of charters which involve a surrender of public rights. It is on this ground that many who recognize the necessity of added, means of cheap and -rapid transit, and who are inclined to believe that the electric rallway may prove a success, have nevertheless doubted if it were good

Peoria, Iilinois, has the same ques to decide, an electric rapid transit company being engaged in endeavoring to secure-franchises for certain streets. The Journal of that city says: "After all that has been said in favor of rapid transit, there is no doubt but that it is a good thing, providing these who patronize and sustain it want it. If, however, it means getting posses-sion of some valuable franchises for nothing, we do not believe it is a good thing, or that it is economy for anyone to countenance it."

No person is required under the law to answer either of the questions in the above form from the sixth to the ninth, inclusive. Voting at the election of 1886 is no a qualification to vote at a subsequent

election. Falling to vote then or at any other previous time does not disqualify a citizen for the election next November. The motive of a citizen for not casting a vote at any election cannot be questioned by law, neither can he be legally required to disclose it. No citizen can be compelled to state what Church he belongs to, or John Judge and others, for an extenwhether he belongs to any Church. Neither can he be required to, explain the tenets or views or practices of any Church, society or organization, whether he belongs to it or not, as a qualification for voting. None of these questions has any bearing on the naturalization of a person desiring to

The best thing for naturalized citizens to do in Idaho is to have their certificates ready for presentation when necessary. In case any citizen has lost of mislaid his papers, he should endeavor to obtain a certificate from the clerk of the court where he was naturalized. If this counct be done in time, or because of other circumstances, a legal affilavit should be prepared as to the facts of such loss or failure to find the papers, and that should be tendered if a challenge is offered or the voter is refused registration or the privilege of casting his

Toen a suit for damages should be entered against the obstructing official, and the criminal law also should be invoked to punish those who seek to interfere with the free exercise of the elective franchise. No ball way measures will suit the situation. Officers should be sustained in just and laithful efforts to execute and enforce the laws. They should also be punished when they wilduly endeavor to exceed or prostitute the laws through partizinship, intolerance, fanaticism or fraud. No illegal voting ought to be permitted, and no legal voter should be deprived of his

rights at the polls. A great deal of noise is heard in the land about the suppression of the negro vote. George W. Cable in the August Forum has a vigorous article entitled "What Shall the Megro De?"
He answers his own question in this WAT:

"Vote! Cast your vote though taxed for it. Cast your vote though defrand-ed of it, as many a white man is to-day. Cast your vote though you die for it. Let no man cry "Liberty or blood;" and assessmen leave that for socialists and Parisian On L Street, mobs; but when liberty means duty ment ordered.

and death means one's own extinction, then the cry of "Liberty or death," is a holy cry, and the may who will not make it his own even in freedom is not free. Keep your vote alive; better nine free inen than ten half freed. In the name of the dead, black and white, of the living, and of your children yet unborn, not as of one party or another, but as American freemen, vote! For in this free land the people that do not vote do not get and do not deserve their rights."

This is just as good for white as for colored citizens. There need be no who will not struggle, lawfully, for his lawful rights does not deserve liberty. We would not atter a word to induce any man to vote who is not entitled under the law to cast a ballot. But it over a long line and be adapted to the needs of the public. The Council deless than a man if he permitted unline for a given distance, but scrapping schemers to cheat him out reserved the right of tranchise of his rights, and made no effort to vindicate himself and maintain his

---A NUT FOR GOVERNOR GRAY

THE New York Times gives the following hint to the Governor of Indiana, in reference to the lawless ruflians who have been spreading terror in some parts of the State, and have brutally whipped and otherwise maltreated people against whom nothing could be

people against whom nothing could be alleged under the law:

"It is surprising that in a state like Indiana, which is supposed to be civilized and to possess a government strong enough to protect her citizens, the career of the White Caps could have been tolerated a week, to say nothing of a year. The exploits of these ruffians are a disgrace to the state and a reflection upon the courage and ability of the executive branch of its government. The scoundrels could not pursue their brutal business more openly in a border settlement, where no law but that of force exists, than they have pursued in this populous state, that claims to be able to protect society by law. Indeed, in a border settlement the brutes would have been annihilated long ago, for they would annihilated long ago, for they would have been met with the same weapons that they use so freely upon others—
the lash and the birch. If Indians—as
a state does not soen take some steps
to wipe out this s ain on her eschutcheon, her citizens will be justified
in the eyes of the world if they follow the example set by the Wnite Caps, take the law into their own hands, and themselves exterminate a

BENTLEY KNIGHT ELECTRIC R'Y. Besides these telegrams the follow-ing letter from the Thompson-Huston Company was received:

CHICAGO, August 7, 1888. Major Wilkes, Satt Lake, Utah: Dear Sir-We notice in a recent copy of the Sait Lake Heraid that you are endeavor-ing to secure a franchise for an electric street railway at Sait Lake, and that it is your purpose to use the Sprague overhead system. We should be pleased to hear from you as to whether there are any particular reasons why you have made up your mine to buy the Sprague system. If you are not wedded to them in any way, we think we can convince you, without much trouble, of many important reasons why it will be bet ter for you to purchase your apparatus an equipment from us. equipment from us.

The fact that Sixth East Street forms the main entrance to Liberly Park has saggested that your honorable body may exclude all street railways, and for this reason we beg leave to withdraw that part of our last petition for a street railway franchise, covering Fourth South Street, from Fifth to Sixth East; Sixth East, from Fourth South to Ninth South; Ninth South from Sixth to Seventh East, and Seventh East streets, and submit instead thereof the following, viz.

Weask your honorable body to grant us a franchise for a street railway, double or single track, as may be found most expedient on the following streets of your city, viz.: Beginning at the intersection of Fourth South and First East streets, thence south on First East Street to the city limits: also beginning at the intersection. city limits; also beginning at the intersec-tion of First East and Ninth South Street, thence east on Ninth South to Seventh East; thence south on Seventh East to the city

The street lights proposed by us in our last petition were carefully considered, and we emphatically reaffirm our proposition, as therein set forth, notwithstanding the estimated cost volunteered by another to your honorable body at its last meeting.

EDMUND WILKES AND ASSOCIATES. Alderman Riter said he desired call the attention of the Council Major Wilkes' streets along the line of his road, which would be a saving to the city of over \$4,000 annually. He estimated that it would cost the company but \$1,400 to establish the system of incandescent establish the system of incandescent lights, which could be maintained at a cost of \$400 a year, as the electricity would be used both for propelling the cars and lighting the streets. Comparing them with gas lights, however, it should be taken into consideration that the electric lights would go out when the cars ceased running.

Councilor Roberts asked if he was correct in supposing that Major Wilkes proposed to give bonds in the sum of \$10,000 to insure the construction of the road, should the franchise be granted, and the proposition to that effect was read for his information.

Councilor Roberts then said that in order to get the question before the house, he would move that Mr. Wilkes' petition be granted, under such conditions as might be deemed proper by the Council the Council:

Councilor Clark said he was satisfied that Wilkes' proposition was the best that had been, and he was in ia-

Alderman Sharp thought it would be better to dispose of the franchise question finally. Mr. Remington could petition again should he so desire. In regard to the petition of the Street regard to the petition of the Street

Councilor Sowles replied that his

Alderman Riter thought there could Alderman Riter thought there could be no question in the minds of those present as to Major Wilkes proposition being the best that had been made, not alone because of the street lights, but also because the road would reach out into new localities. It was barely possible that the gentleman would fullif the conditions to be imposed, and for that reason he saw no objection to laying Mr. Remirgton's petition on the table.

Alderman Sharp—Will you allow the street railway's petition to lay on the table, too? They ask for a little—merely the whole corporate limits for a period of thirty-four years.

Alderman Riter said that the discus

Alderman Riter said that the discus sion of the franchise question has taken a pretty wide scope; it had been insinuated that the object of the committee on streets, in making their report, was simply to keep all companies except the Street Railway Company, off. The committee had no such intention, and had said just what they meant. The Street Railway Company should be required to

and he moved that the portion of their report in reference to this be adopted. Councilor Sowles asked in what recouncilor Sowies asked in what respect the street car company was to improve its service. He thought the spirit of the matter was all right, but it was too indefinite.

Alderman Riter replied that the company had arranged to give the Caseboit system a test, with a view to adopting it, and thought it would be well to await the result of this before going

any farther. The report was then adopted.

Alderman Riter sald that although it was getting late, he would like to see some action taken upon the petition of the Salt Lake & Fort Douglas Railway

The committee then arose, and the Council resumed its session with Alderman Sharp in the chair.
