

KING EDWARD ARRIVES IN PARIS.

Occasion Taken Advantage of to
Make a Notable Demonstration
Of Anglo-French Cordiality.

RESPONSE TO GERMAN ATTITUDE

Had a Long Private Conversation
With President Loubet—Makes
Some Pleasant Remarks.

Paris, April 6.—The arrival of King Edward in Paris today was the occasion for a notable manifestation of Anglo-French cordiality, which is being generally interpreted tonight as a conspicuous response to Germany's attitude regarding Morocco, although the king remained but a short time. He was met outside the city by President Loubet, who held a private conversation with his majesty lasting nearly an hour. The details of the conversation excite a wide range of speculation, but its actual purpose has not been disclosed. However, a semi-official communication reaches that the meeting had far less reserve than that between King Edward and President Loubet last year, and that it was marked by the freedom of the confidences exchanged.

Beyond this private conversation, King Edward confined himself to the usual public expressions of good will. He spoke at the station of the pleasure a visit to France always gave him; but there was not the slightest public utterance having significance upon pending political affairs. In this respect the king's reserve is being compared with the freedom of Emperor William's recent utterances.

The journey of the king was unattended by any spectacular features, as it was the wish of the authorities to avoid a political demonstration. President Loubet joined the royal train at Pierrefitte station, where, surrounded by distinguished officials of both governments, the two rulers exchanged their first greetings. The king conducted President Loubet to his private car, where conversation continued until the Lyons railway station was reached. Outside the station the crowd was held back by cordons of police, the absence of military display being noticeable. During the half-hour at the station King Edward continued to talk with President Loubet, and held an extended conference with the British ambassador at Paris, Sir Francis Leveson Birtle.

King Edward left Paris at 7:10 for Marseilles, where he will join Queen Alexandra on board the royal yacht.

The semi-official communication relative to the meeting of King Edward and President Loubet says: "It is natural to suppose the conversation between the king and the president led to an exchange of views upon all diplomatic questions of the day; but as neither has divulged the confidence it is necessary to receive with reserve the more or less ingenious versions which will be placed in circulation. Judging, however, from external appearances, one cannot but remark that the meeting today was marked, not only by less reserve than that of last year, but notably by the greater freedom of the confidences exchanged."

Despite this official reserve, the public and press regarded the meeting as most significant. The Journal des Debats says:

"It is a new affirmation of the Anglo-French entente, which will be followed by mutual demonstrations by British and French squadrons."

This, says the Debats, is the response

PAINFUL PERIODS

Suggestions How to Find Relief from Such
Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davidson Street, Buffalo, N. Y., writes: Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are regular, every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes: Dear Mrs. Pinkham:—

"I might have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound. Address Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

BLOOD CELLS.

IN HEALTH. IN DISEASE.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal number of red blood cells in adult men is five million; in women four and a half million, to the square millimeter. The normal cell is not absolutely round in broad take in disease, becomes extremely irregular in shape. Every one can be in perfect health and possess the millions of rich red blood corpuscles if they only know how to go about it. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., advises every man and woman to prepare for a long life by observing nature's laws. In the first place, if your digestion is faulty, and the food you eat is not taken up by the blood and assimilated properly, you need a tonic and digestive corrector, something that will increase the red blood corpuscles; he believes in going about this in nature's own way. Years ago, in his active practice, he found that an alternative extract of certain herbs and roots, put up without the use of alcohol, would put the liver, lungs and heart into fuller and more complete action. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten, it nourishes the blood, and instead of the ill-shaped corpuscles, the perfect ones are taken up on rich red color and the corpuscles are made nearly round. Nervousness is only the cry of the starved nerves for food, and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and feels refreshed in the morning.

KNOWLEDGE IS POWER.

If you want to know about your body, read Dr. Pierce's Common Sense Medical Adviser, which can be had for the cost of mailing, at cents in one-cent stamps for the medicine book, or at cents for the paper-covered volume. 128 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

to the attitude Germany has taken toward France, and the paper adds: "It will be imprudent if statesmen Herin fail to observe this particular neglected recommendation of the Anglo-French entente."

The Temps also says that the interview emphasizes the endurance of the Anglo-French entente. The effect of the visit appears to be to strengthen the determination to proceed with France's policy in Morocco in accordance with the terms of the Anglo-French agreement, as the visit is construed as a timely expression from the signatories of that agreement.

PRESIDENT'S HUNT.

Snow in Colorado May Make
Change of Plans Necessary.

Colorado Springs, Colo., April 6.—A heavy snowfall in the mountains around Redstone, Colo., may necessitate a change in the plans for President Roosevelt's Rocky mountain outing. Philip B. Stewart of this city, who is in charge of the local arrangements for the trip, today received a note from Jake Borah, who is to be one of the president's guides, giving information of the conditions at Redstone.

"I learn from Borah's note," said Mr. Stewart, "that the snow in the upper country is very deep, which may necessitate starting out at a point considerably below Redstone. It may prove to be advisable to leave the train at a point below Newcastle, on the Grand river, and thence strike out to camp, gradually working in the direction of Redstone, as the weather will permit."

Turkey Rearing.

Constantinople, April 6.—An imperial decree just issued sanctions the conclusion of a loan with Germany to pay for war material. It is understood that immediate orders will be given to the Krupp company for 62 batteries of 15-centimeter Howitzers, at an approximate cost of \$1,500,000.

An indecisive approval of a French loan is expected to be issued immediately.

RUSSIAN SOCIAL REVOLUTIONARIES

Central Committee Has Drawn
Up Document Containing Main
Points of its Program.

FIRST, DEMOCRATIC REPUBLIC.

Autonomy for Provinces—Secret Universal Ballot, With No Distinction of Sex.

Moscow, April 6.—The central committee of the Social Revolutionary party has drawn up a document containing the main points of its program, and of this hundreds of thousands of copies are being printed for circulation in all parts of European Russia. The first and main point is the establishment of a democratic republic on the ruins of the autocracy, and besides the usual points of Social Democratic doctrine it includes many arguments especially directed to Russian conditions and designed to appeal to self interest of the Russian proletariat, both agricultural and industrial. It voices phrases familiar to the American ear, such as "initiative and referendum," "public ownership of public utilities," etc.

The program is divided under two heads, the first politico-regal domain under which it demands the institution of a democratic republic with broad autonomy for the provinces, municipalities and communes; the widest application of the federal principle to the relations between the various nationalities; a direct secret universal ballot without distinction as to sex; nationality or religion; proportional representation; direct popular election of the initiative and referendum; electability, responsibility and removability of all officials; separation of church and state; complete freedom of conscience, speech, the press, assembly and association; right to strike; compulsory popular and gratuitous education and abolition of the standing army and substitution of a national militia.

Under the second head, national economy domain, party favors an eight-hour day with a reduction for the more dangerous and unsanitary occupations; a minimum wage scale, state insurance for all, the forms regulated by the insured, at the expense of the state and employers; regulation of factory construction; prohibition of child labor below 16 and of female labor at certain occupations, and professional organization of workmen with an increasing share in the internal management of institutions. In agrarian policy the party declares the earth is the common heritage of all citizens and demands the socialization of all land or such approach to abolition of private ownership as is practicable, and the expropriation of crown, church and state lands turning them over to the communes, and the limitation and conversion of rents into an income tax, payable by the commune.

The document closes with a warning to individuals against the Russian autocracy, which it declares to be a system of half measures, deluding workers, concentrating industry and commerce in the hands of the governing bureaucracy, and urging the summoning of a constituent assembly in which it proposes to conduct the campaign for the dissolution of the autocratic regime and the transformation of the existing order.

AN ELECTION RIOT.

Three Men Wounded, One Fatally,
in Huntington, W. Va.

Huntington, W. Va., April 6.—Police-man Roy Hill was fatally injured; Deputy Sheriff H. Adkins seriously wounded, and W. T. Lilly, a by-stander, shot in the shoulder in a pistol duel between Adkins and several policemen, arising from a dispute over authority in the city election.

Feeling is bitter on both sides and further trouble may result before the day is over. The city officials, who are Republicans, appointed 40 special policemen, while the Democratic county officials appointed a large number of deputy sheriffs. Conflicts between the two sets of officers came when Police-man Hill and another officer arrested two deputy sheriffs as they were in the act of arresting a negro charged with repeating.

The deputy sheriffs resisted and Deputy Adkins came to their assistance. In the pistol duel which ensued some 30 shots were fired. Adkins and the other deputies were placed under arrest. The shooting occurred on the most crowded street in the city and it is remarkable that no more than the above officers were wounded.

Deputy Sheriff Ennis Bayless and Henry Nash and one policeman, Bart Foster, were also wounded, but their injuries were less serious. The windows of the city hall were riddled with bullets.

INGA HANSEN'S CASE.

Illinois Upper House Doesn't
Want Her Imprisoned.

Springfield, Ill., April 6.—In the upper house of the legislature today an unusual resolution was presented bearing on the case of Miss Inga Hansen, a former Salvation Army girl of Chicago, who recently was found guilty of perjury and given an indefinite sentence to the penitentiary. The resolution requests the governor to have the case investigated, and then, if in his judgment, the case warrants it, he is urged to prevent Miss Hansen being sent to the penitentiary and to grant her a full pardon.

Miss Hansen's conviction was the outgrowth of a suit for \$50,000 damages brought by her against the Chicago City Railway company, alleging that she had been deprived of her sight and speech and the use of her limbs, as the result of injuries received in a street car accident. She claimed that her partial recovery was a miracle wrought by prayer, while the company alleged that her injuries were only pretended.

The resolution cites the statement made some time ago, that the railway company had expended \$50,000 in securing the conviction of the young woman and the fact that many persons believe her recovery to be a miracle.

The resolution was made a special order for Tuesday next.
