CALENA MINE.**

May Day Fluctuates Greatly But Closes Much Stronger.

DALY IS MAKING ADVANCES.

Star Con Is Much Improved—Sunbeam Is Higher—Joe Bowers Active—Mercur Strong.

TODAY'S METALS:

SILVER 61%
LEAD, \$4.00
CASTING COPPER 15%

Business was brisk in the pit today. Over 20,000 shares of stock were sold for \$2,500,000. May Day was the feature of the day. Nearly 15,000 shares changed hands at prices ranging from \$40 to \$1. The stock fluctuated greatly. At the outset it sold at \$1 1/2, from which figure it went to \$1. After dropping 700 shares at the latter figure it fell back to 30%, but afterwards reacted to 40%, closing with 40% bid and 30% asked.

Star Con. shot forward today to 40 cents a share, presumably on news of a 6-car shipment of ore being on the way. The stock closed quite strong.

Daly West was active at \$18.5, while a decided advance was recorded in Daly owing to the fact that the work has been resumed at the mine. Sales were recorded at the time at from \$1.40 to \$1.45 per share.

Mercur also participated at from \$5.95 to \$5.55, while Emerald advanced from \$4 to \$4.25 and closed strong.

Joe Bowers was traded in at \$1 1/4 and 1%. Sunbeam was also strong today. Twenty-seven cents was bid for the stock, which was held at 40.

STOCK TRANSACTIONS.

The MAMMOTH MINE.

President McINTIRE Discusses the Ore Body on the 700 Level.

President S. M. McIntire, of the Mammoth, came in from Tintic today and says the mill is now pounding away after the short delay on account of coal. The mine is said to be looking well. Some very good ore is being extracted from the 700 level. Hand samples may be found that will assay over 200 ounces to the ton, but Mr. McIntire says the ore will not run more than \$10 per ton in carload lots. The ore is said to be a continuation of the same ore body in dispute between the Grand Central and Mammoth companies.

The management is still raising ore from the old King drift which continues strong and carries good values.

IN THE ELY DISTRICT.

Fred D. Smith Gives a Very Flattering Write-up of the Nevada Camp.

The Engineering and Mining Journal publishes an article in its last issue from the pen of Fred D. Smith descriptive of the Ely Mining District, Nevada, in which a number of Salt Lakers are interested. Passing notices are given to the Robust mines owned by Messrs. Sulziger and Thompson of this city which, it is said, shows much practical as well as scientific knowledge of the conditions.

On the Chairman mine which has just been bonded to eastern capitalists pending an investigation, the writer says:

The ore appears to be so oxidized that it should be free milling, but I am informed that the 10-stamp mill erected by the company was not successful in treating it, neither would concentrating tables save any appreciable percentage of the values. The present owners have added a 20-ton cyaniding plant, by which the ore is treated without any additional treatment. The ore is first reduced in a roasting cylinder furnace and then crushed in rolls. This is said to be necessary owing to the tendency of the ore to slime if crushed wet. The extraction is claimed to be satisfactory and probably as high as can be made by this method alone. Throughout the entire mill there is ample evidence that the highest grade milling has not been attained and that the operations are not exactly conducive to an economical treatment nor high extraction.

Plump cheeks, flushed with the soft glow of health, and a pure complexion make all women beautiful. HERBINE imparts strength and vitality to the system, and the rays due to health to the cheeks. Price, 50 cents. Z. C. M. I. Drug Co.

at figures if they have the "News" Calculating Panel. A general little calculator they can stick into their pockets. By a twist of the wrist, quicker than you can think, absolutely correct results are obtained. Simple as a clothes pin to manipulate. Get one for them at the "News" office or any of its agencies. Price 25 cents.
