Philadelphia."

it says: "We began to have hopes that Washington's body servant was really finally dead, and we should hear no more of him, but the newspapers have commenced with his children now. Four of them died during the past week.

to fight a duel, agreeing to walk around City Times, located there, was burned; a block, and when they got in sight of loss from \$5,000 to \$7,000, no insureach other, to blaze away. When they turned the corner out of sight, both started on a run in different directions, and one has sent from Alaska for his winter clothes, and the other has written to his wife from the City of Mexico,

which is safely navigable at any time of the year, and it never entirely freezes, and is always accessible to light whalers, of from thirty to one hundred and twenty-five tons. Dr. Petermann and the Russian geographers concur in Mr. brated here by the formal opening of Grad's opinion.

Already the summer fashions are appearing upon the streets of the Indian villages in Wisconsin, and they are attracting a great deal of attention. One of the Wisconsin papers describes a suit worn by a boy five years old. It

consists of a garter tied around the left leg! The blighting influence of civilisation has not yet extended to the aborigines of Wisconsin.

If you wish to bake your bread or biscuit without a dry, hard crust, you can do so very readily. Just before placing the bread in the oven, rub its surface with butter or lard. This will close the pores, preventing the escape of the steam which is produced by the yeast, and the escape of the steam which is produced by the posts, preventing the escape of the steam which is produced by the moisture of the heatdoad. Bread the bread will be already in the own rub its produced by the moisture of the heatdoad. Bread thus baked will be already in the constant of the satisface which is produced by the moisture of the heatdoad. Bread thus baked will be already in the constant of the satisface which is produced by the moisture of the heatdoad. Bread thus baked will be already in the constant in the collecting the postage from other colonics. The American potentials at the constant potentials and the scape of the steam which is produced by the moisture of the heatdoad. Bread thus baked will be already four hundred thousand, and only found the steam which is produced by the moisture of the heatdoad. The shipping at Liverpool was decorthe shipp

Bescher's paper, the Christian Union, laments that the editors are forgotten in prayer:

"We rarely hear a prayer offered for that class whose thoughts reach a wider circle than do the thoughts of any other circle than do the thoughts of any other circle than do the editors. If there is any man one earth who has need of a conscience, it is the editor of a popular journal; if any human being oftener than another is called to do justly and show merey, it is the man who must aift an overwhelming mass of materials, gather the good into the vessels and cast the foad away."

The English flying squadron, six men of war, under Admiral Hornby, are was alled thorough, and salled for Valparaise on the 28d. The Admiral Hornby, and was presented to the King.
