

HITCHCOCK AND CORTELYOU CONFER

Discussed Political Situation Generally, and Probably N. Y. Governorship Incidentally.

CANDIDACY OF GOV. HUGHES

He Has Not Sent Any Delegations to National Headquarters to Speak in His Behalf.

New York, Aug. 5.—An important conference between Chairman Frank M. Hitchcock of the Republican national committee and George B. Cortelyou, secretary of the treasury, who managed the Republican campaign four years ago, was held late today at the Manhattan hotel. Besides talking with Hitchcock about the political situation generally throughout the country, Cortelyou is thought to have taken up the governorship question in New York state.

At the time the head of the treasury department was credited in political circles with being an aspirant for the Republican nomination, and he was brought to be favored by some of the state leaders who have opposed the nomination of Hughes. He could not be seen here today, and Mr. Hitchcock declined to say what was talked about beyond admitting that he heard a great deal about the state question. He declared that he did not express an opinion nor offer a suggestion on the subject himself, and that his part was that of a listener.

Representative Bennett and Representative Parsons, the latter chairman of the New York county Republican committee, were with Mr. Hitchcock for some time, their mission being the discussion of the gubernatorial nomination. Mr. Hitchcock said that every day brings a large amount of correspondence on the subject of the governorship. So far as can be learned the governor has not sent any delegations to national headquarters to speak in his behalf.

Seven parts of the country were won from today by Mr. Hitchcock. He received a call from James C. McChesney, second assistant postmaster-general, who is a candidate in Minnesota for re-nomination by the Republican party for the house of representatives. Mr. McChesney said that it was confident that the Republican ticket would be elected in Minnesota this fall, and that each congressional district would send a Republican to Washington. He expressed the opinion that Gov. Johnson would not again be the Democratic nomination.

Representative C. B. Sloop, the only Republican congressman from Virginia, was at headquarters with Representative George A. Pearre of Maryland. Both of these southern members of Congress urged that work be done in their states, and that particular attention be given to certain congressional districts where they said the party had excellent chances of winning.

Charles P. Tatt of Cincinnati, brother of the Republican nominee, was one of the first callers at headquarters today. He had a long talk with the chairman and then met the local newspaper men. He was greatly amused at their pointed questions concerning the cost of running a campaign, but would not tell how much it was costing him. He was given the greatest good naturedly and with great success. He expressed the opinion that Ohio was surely Republican.

RECORD PERFORMANCE IN COALING BATTLESHIP

Washington, Aug. 5.—A report of coaling by the battleship Virginia at Puget sound on June 23, shows a record performance. She took on board 400 tons of coal in four hours, at an average rate of 100 tons an hour. The maximum amount taken on board in a single hour was 555.9. It is believed that this is a world's record. The coal was delivered in bulk in lighters, without any special arrangements being made to facilitate handling it. The

STEERAGE PASSENGERS.

Manager of Liberal Immigration League Speaks of Accommodations.

New York, Aug. 5.—N. Behar, general managing director of the National Liberal Immigration league, who has recently returned from a trip to Europe in which he traveled steerage to test the accommodations for immigrants, is preparing a report to be sent to every member of Congress to counteract the effect of the efforts of the "restrictionists" to have laws passed whose tendency would be to discourage immigration.

Mr. Behar speaks favorably of the steerage arrangement in the modern steamships and says he will oppose when Congress opens, the bill providing a greatly increased space for each immigrant. He thinks the measure would make coming to this country practically impossible to thousands of immigrants unless the companies carried their passengers at a loss.

Maxwell, city superintendent of schools, Dr. Luther Halsey Gulick, president of the association, and others will speak. THE GAME WORKED.

Man Threatened to Commit Suicide If Didn't Get Money.

Chicago, Aug. 6.—The cup of happiness overflowed yesterday for the poor Italian with a family of eight children who advertised for a ransom of \$500 to save him from a suicide's fate. Instead of death he took a new lease on life.

Following a morning newspaper announcement of two subscribers' offer to loan the man \$250, his employer, discovering the identity of the unfortunate agreed to retain him in his employ and arrange for the making good of the shortage on easy payments. The Italian consul also will be asked to institute proceedings to compel a restitution of the usurious interest exacted by the loan sharks.

The Italian, who is a collector, went to his employer yesterday and made a clean breast of his troubles. He submitted an itemized list of the amount he owed the firm, totalling about \$550. In his distress caused by hounding by the loan sharks he borrowed \$100 of the concern's customers, which amounts they deducted from the bills as collected later by the Italian. He had been accounted scrupulously honest.

It was agreed that the identity of the man should not be made known.

Run is 17,000 head today, including 1,000 calves, market steady to 10 lower. All the markets are liberally supplied to 20 a month from various of the concern's customers, which amounts they deducted from the bills as collected later by the Italian.
