DESERET EVENING NEWS MONDAY FEBRUARY 11 1907

The management of the Newhouse Mines & Smelters corporation does not propose to have its operations handicapped in the future on account of the shortage of fuel as has been the case during the past few months. It was learned today that Manager Lafayette Hanchett had closed a contract with the Telluride Power company, the latter agreeing to supply the Newhouse company electrical energy equal to 1,000 horse power beginning November 1 next. The power is to come from the new plant being built by the Telluride company near Beaver City.

6

Notwithstanding the fact that the Cactus properties of the Newhouse company are splendidly equipped with power facilities, the move made my Mr.

er facilities, the move made my Mr. Hanchett is regarded as being a very wise one and means that no matter how scarce coal may become in the fu-ture there will be no failing off in pro-duction on that account. The Cactus mine is destined to become o big dividend payer and the time is not very far off either. At the rate the mine is now producing it will not take very many months to clear up the bond-ed indebtedness which originally amounted to \$1,500,000, but which, it is said, has been considerably reduced during the past few months.

ON MINING EXCHANGE.

Columbus Con. Higher-Today's Quotations and Sales.

week opened with the sale of The week opened with the sale of 21,930 shares of stock on the floor of the Salt Lake Stock and Miaing Exchange this morning. Seven Troughs was active, but lower. The feature of the day, however, was the advance in Columbus Consolidated, the stock closing on a sale at 25.20. Lead King called for the first time and recorded a sale at 30 cents. Of the unlisted stocks, Standard Copper and Wheeler were sellors, the former going at $$1.17\frac{1}{2}$ and \$1.20; while the law of a stop of at 50 cents. the latter was disposed of at 50 cents. The closing quotations and sales

SMELTER SMOKE MEETING.

Judge Marshall Will be Asked for Modification of Decree.

An important meeting was held at he Granite stake tabernacle on Sat-

An important meeting was held at the Granite stake tabernacle on Sat-urday afternoon, which was attended by about 250 persons directly interested in the smelter smoke case which brought forth the late decision of Judge John Marshall of the federal court. For some weeks the officials of the American Smelting & Refining com-pany and representatives of the farm-ers have been working on a plan which may result in a continuance of lead ore smelting at the Murray plant. It ap-pears that the smelter people have made such representations to the plan-tiffs that they are now willing to go made such representations to the plain-tiffs that they are now willing to go before Judge Marshall and apply for a modification of his late decree in which the smelting concerns were enjoined from smelting any ore or combination of ores containing more than 6 per cent sulphur in the charge. The American company has agreed to compare the farmers interested

Init have over her, Messis, Lioyd & Knickerbocker have just granted three leases or a very choice block of ground 600x600 feet to a group of Salt Lakers consisting of G. R. Cleaveland, Tom Pitt, A. L. Lovey, George Silks and Fred Redmond. That these lesses mean business is evidenced by the fact that Mr. Redmond, who has been placed in charge here, has just arrived from Salt Lake, authorized and prepared to install a whim. A carload of sup-plies is already on the way. The grounds contain two known contact veins with good surface values and what is most remarkable of all, a 44-foot ledge that pans clear across its entire width. The company is install-ing two whims, one on one of its north-and-south ledges, and one on one of its The American company has agreed to compensate the farmers interested in the suit to the extent of \$60,000, of which amount, \$20,000 is to be paid as soon as the stipulation is made and properly filed and the balance, or \$40,-600, as soon as all the plaintiffs to the suit have signed a smoke easement which means, in other words, that the last sum stated is to represent com-pnsation for any damage which might be instillation a system of bag houses and cooling chamber, into which all smoke and fumes will be introduced and through which process officials of that corporation have assured that all deleterious substances and injurious leleterious substances and injurious umes will be removed, or so modified as to be absolutely uninjurious.

DIVIDENDS POSTED.

lintic Mines Make Usual Distribution Among Shareholders.

Special Correspondence. Provo, Feb. 11.—The Beck Tunnel Mining company posted its regular monthly dividend for February, Sat-

The camps for tuberculosis patients in the pine forests of Maine, estab-lished by the Philadelphia specialist have demonstrated a new and wonde fully successful phase in the trea ment of pulmonary diseases. To method pursued has gained almo

internod pursued has gained almost universal recognition among the medi-cal profession. In an interview recently by a New York newspaper representative some information that will prove of im-mense value to the public in general was given out.

The remarkable stimulating effect on the respiratory organs by the resh-ous atmosphere of the pine forest has has been a matter of great int medical world and that do eral would have long si themselves of the great cu vailed themselves of the great cu its of the plue sap had the to obtain its active prin from the many deleterio with which it is associated This has been one of it ments of the work in camps and he has produc known to the medical fr Concentrated oil of plue. I contrated oil of plue. freed atters ature hieve fores hat is aration be used in conne plenty of out door exerci-habit of taking deep. Io every few miputes, patient all the advantages of the d the reaths have camps right at their own tha most effective remedy for any case of lung trou not too far advanced and any cough that is curable. ainable that is the forany cough that is curable. uia as originally prescribed lowing: "One half ounce Cor oil of pine; two ounces of eight ounces of good whiskey he shows the product and ntrated lycerine; It should

eight ounces of good whiskey. It should be shaken thoroughly and taken in tablespoon doses every four hours." The ingredients can be produced from any well stocked prescription druggist. Care should be taken to se-cure only the "Concentrated" oil of pine which comes put up for medicinal use in half ounce vials and inclosed in small round screwtop cases which pro-tect it from heat and light. The or-dinary bulk oil of pine is useless ow-ing to the foreign matter that it con-tains: likewise the patient medicine imitations labeled "Oil of Pine." They only produce nausea and fall in specific results.

Perhaps there will be no greater con-centration of activity and no richer promise of results than on the grounds of the Seven Troughs Vernon Mining company, back of which are Messrs. Lloyd & Knickerbocker, Mr. Knicker-bocker returned from Salt Lake City yesterday with a program for the Ver-non that ought to put about every available foot of this proved rich ter-ritory to work. In addition to six or seven leases, 200x600 feet in extent, that have been let, Messrs. Lloyd & Knickerbocker have just granted three leases or a very choice block of ground

specific results. for any purpose whatsoever, or that there has been any failure to report sales of the treasury stock, as charged in the complaint of plaintiffs. It is further denied that the shares of the company have ever commanded 75 cents in the market, or any other sum, or that the company has received only 37½ cents from the proceeds of sales made at 75 cents. In fact, it is alleged that the shares have never had any market value, but have been sold at private contracts, and that the com-pany has received the full proceeds of such sales of theasury stock. A contract with Mrs. B. K. Tracey for contract work, which is assalled in the complaint, is defended, and the fact that the company has debts is then taken up. A goodly portion of these debts, it is alleged, were in-curred in defending vexations litigation brought by Ellen Garey, and was ad-vanced by persons interested in the welfare of the company when it could not have borrowed from money-lending institutions on the security offered. The bookkeeping system of the com-jany is defended at considerable length in the answer. In this connection the allegation that over \$19,000 worth of tssets of the company has disappeared is denied, and the statement is made that these assets can be fully accounted for by anybody who will examine thoroughly the books of the company, and who comprehends the system of bookkeeping. It is al-leged that the examination of the company, and could not, owing to the nature of his examination. It is denied that there was any fraud in the purchase of the Fire King min-ing claim, and is alleged that this pur-chase was made from J. W. Snell, one of the defendants. It is admitted that, for bookkeeping reasons only, the books of the company were made to shw that \$10,000 was paid for this

ing two whims, one on one of its north-and-south ledges, and one on one of its east-and-west ledges. On the former of these, at a depth of 50 feet, it has from two and a half feet of sacking ore, and on the latter the surface val-ues run from \$59 to \$160. The remarkable series of strikes in the vicinity of Seven Troughs canyon has turned a flood of lessees thither-ward. for bookkeeping reasons only, the books of the company were made to shw that \$10,000 was paid for this claim, but it was declared that the pur-chase price was really 20,000 shares of stock in the company, and that this fact is well known to all the plain-tiffs tiffs

The reasonableness of President Has-The reasonableness of Fresherit Has-brouck's salary of \$100 a month is de-fended, and the fact pointed out that Ellen Garey, one of the plaintiffs, voted to fix it at that sum. The answer

tion in the county clerk's office today. The officers of the company are: M. E. Callaban, president; John McCormick, vice president; Joseph S. Fowler, scere-tary; Dana T. Smith, treasurer. These, with Frank Fowler, J. R. Lewis and Alex Nesbit, constitute the board of directore. 1

Alex Neshit, constitute the board of directors. The company owns the following named claims: Hhe Hiawatha, Navajo Highland Lad, Ground Hog, Archie Dean and May Queen. The property is located about 12 miles northeast of Ploche and about three miles westerly from the town of Jack Rabbit, in the Jack Rabbit mining district. Lincoln county, Nev. Within a radius of two and one-half miles are the Bristol and Ida May properties, both of which have already opened up large bodies of rich copper ore. The claims owned by the Seven Brothers company have been located many times in the last quarter of a cen-tury, but there was never any real de-velopment work done on them until they were located in 1905, and since then the work has been merely surface prospecting. As a result of this work, however, ore has been extracted which has given the following results:

prospecting. As a result of this work, however, ore has been extracted which has given the following results: Assay by McRae of Pioche, 48 per cent copper; by Officer of Salt Lake, 50 2-3 per cent copper; by Rippeto of Salt Lake, 68 per cent lead and 31 ounces in silver, and by Officer of Salt Lake, 38 per cent lead and 97 ounces silver. The rock from which these as-says were obtained came from different workings on the ground, and from a high, precipitous mountain. The company has a capitalization of 500,000 shares of this amount are set aside as treasury stock to be sold for develping and patenting the ground. It is the opinion of those who have been on the ground, that by running a tunnel at the base of the mountain from which the above assays were pro-cured, the main body of ore can be

cured, the main body of ore can be opened up at a distance of 300 feet at the outset, and in all probability much

Within two miles of the property there is a narrow gap road which connects Jack Rabbit with the town of Pioche, and with the completion of the Pioch-Callente branch, the difficulties in the matter of transportation will be overcome overcome

CONCENTRATES.

A message from the east today con-veyed the information that J. L. Hack-ett, one of the directors of the Ohio Kentucky Mining company is due to arrive in the city next Friday.

Manager G. H. Dern of the Consolidated Mercur company is in the city today. He says development work on the Ingot property will begin about March 1.

J. B. Graham, a director of the Gold Butte company, is expected to arrive From Gold Butte, Nev., in a few days and will no doubt bring some interest-ing information concerning late devel-opments in the Gold Butte mine,

An amendment to the articles of incorporation of the Keystone-Bull-frog Mining company has been filed with the county clerk by which the name of the company is changed to the Tramps' Consolidated Extension Mining company.

The B. W. & H. Gold & Silver Min-ing company has filed an amendment to its articles of incorporation with the secretary of state by which its prin-cipal place of business is changed from Joseph to Richfield, Sevier county.

A correspondent writing from Rhyo-lite says N. M. Simonds, a Salt Lake man, who has been running an as-say office in Rhyolite, and Jack M. Kelsey, son of Frank M. Kelsey of the Metropolitan Bank and Trust com-nany Los Angeles have located proppany, Los Angeles, have located prop erty in a new copper district four miles from Schwab that is estimated to be worth 350,000, event before a stroke of deevlopment work has been done.

ST. JOE MINING CASE. Defendants in Sensational Suit File Their Answer.

On Saturday afternoon an answer was filed by the defendants in the case of Ellen Garney, J.W. Snell, W. H. Mor-gan, Hyrum Morgan, Louis McCarthy, Mary E. Williams and Mrs. Charles Rose against the St. Joe Mining com-pany, R. A. Hasbrouck, W. S. Burton, D. H. Wenger, A. W. Mente and I. R. plaintiffs alleged in their com-

had been conducted to the detriment of stockholders and that some of the ofwere acting in that capacity vithout being clothed with proper au thority.

neers were donner in the capacity without being clothed with proper au-thority. Each allegation of the plaintiffs is taken up separately and denied. It is denied that R. H. Hasbrouck, president of the company, has committed any act not calculated to benefit the com-pany, as his judgment dictated. It is denied that the stockholders have been deprived of any of their legal rights, or that they have been kept in the dark concerning the transactions of the company or its officers. In this connection it is cited that the books of the company were at one time audited by a committee, one member of which was one of the plaintiffs in the present action, and that the books were found by such committee to be correct. It is further declared that an expert, H. L. Cummings, examined the books of the company and found them correct. It is denied that President Has-brouck on any other director has made collusive contracts for the sale of he company's treasury stock, or that the Hasbrouch was to share in commis-tions for the sale of such stock. It is further denied that the directors have made extravagant expenditures

SPRING DAYS

Make us think of homes and home building. These thoughts call to mind

FOREST DALE.

We do not suppose ALL of our lots will be sold until early summer is here. But those who buy now have a choice of location that those who select lots later will not have. This is an advantage worth while.' You can make soil but not location. So it is to your interest to buy NOW.

The prices have not been advanced, and if you are the right people and will make good neighbors you can pay all cash or buy on installments with deferred payments at 6 per cent interest. No trouble to show the property or to tell you about its advantages.

EORGE M. CANNON CO. Rooms 512-513 Templeton Bldg. 'Phone Bell 57.

voted to hx it at that sum. The answer denies that either the company or its directors are insolvent, or that the di-rectors are insolvent, or that the di-rectors have any intention of either destroying the books of the company or removing them from the jurisdiction of the court, as alleged in the com-plaint.

In conclusion, defendants ask that In conclusion, defendants ask that the application for a receiver be de-nied, and charge directly that the plaintiffs, particularly Ellen Garey, have not brought the suit in good faith, but with the ulterior purpose of hampering the company in its opera-tions. In this connection it is charged that Ellen Garey brought a similar suit against the company once becore with the same purpose, and that when it was forced to trial she abandoned it. The hearing on the application for a The hearing on the application for a receiver has been set by Judge Morse for next Friday.

YAMPA'S NEW MANAGER.

Charles W. Laxman Arrives-Will Will Make Headquarters Here.

Charles W. Saxman, the new gen-Charles W. Saxman, the new gen-cral manager of the mines operated under the control of Capt. Henry Stern and Associates of New York, arrived from the east last evening and ap-peared at the local offices of the Tin-tic Mining and Development and Yam-pa Smelting companies in the Dooly block today.

pa Smelting companies in the Dooly block today. Mr. Saxman was seen by a repre-sentative of the "News" soon after reaching the Tintic offces, but he had nothing to give out as yet regarding his plans for the future. It will take a little time, of course, to familiarize himself with the needs of the mine and smelter and until then he cannot very well say what will be done re-garding the operation of the big Bing-ham enterprise. As stated in Saturday's "News." Mr. Saxman's jurisdiction will extend over the Britania mine and smelter in British Columbia, as well as the Yam-pa mine and smelter in Bingham. He will make Sait Lake his headquarters, however, and it will probably be sev-eral weeks before he goes to the northwest on his first trip of inspec-tion

While coming direct from the second largest coal mining concern in Pennsylvania---the Keystone Coal and Coke company, of which he is man-ager, Mr. Saxman has had wide exager, Mr. Saxman has had wide ex-perience in metal mines having been associated with the operation of the latter in Cripple Creek, British Colum-bia and in Idaho. He was in Gold-field, Nev., three years ago. "I prefer the metal mines every time," said Mr. Saxman today, "as conditions surrounding the operation of metal mines are very different than is the case with coal properties. In

of metal mines are very different than is the case with coal properties. In the latter, we have a foreign class of labor to contend with. Metal mining is much more interesting and far more pleasant, to eav the beast." Mr. Saxman visited Utah about three weeks ago, at which time Ho made an inspection of the Yampa pro-perties at Bingham. He has been in Salt Lake several times before and has always had an inclination to come here to live and has at last seen his wish gratified.

Seven Brothers Articles Filed in Office Of County Clerk Today.
