## STOCK MARKET WAS FEATURELESS

Little Business Done During the Call This Morning.

PRICES GENERALLY GOOD.

Star Consolidated Still Falling—Valco Takes a Spurt—Bullion-Beck in the Trading at \$4.

### TODAY'S METALS:

SILVER 61 1/4  
LEAD, \$3.62 1/2  
CASTING COPPER 15 1/4

Trading was exceedingly light on change this morning, and the call was absolutely featureless. The few transfers made were fairly well scattered and showed stocks generally to be strong.

Daily-West was again weaker in the bidding, but was firmly held at \$18.12, and no sales were made.

Star Consolidated dropped under 40 and very little was wanted even at that.

Valco has evidently taken another turn for it sold readily at \$1 and over, closing strong.

Mammoth sold at \$2.15 but went off a shade at the close, \$2.12 being bid and \$2.14 asked.

Bullion-Beck brought an even \$4.00. Lower Mammoth still kept well above the half dollar mark.

Northern Light was active, selling readily at just under 7 cents.

Five hundred Sacramento sold at 2 1/2 and the price was then advanced a cent, closing strong.

Lower Mammoth was a little stronger, selling at 53.

## SALT LAKERS AT CAPE YORK.

Pratt and De Kalb Send Greeting to Their Friends.

RICHER THAN NOME BEACH.

That is Their Conclusion Regarding York—The Week's Trading on Change—Mining Notes.

Louis E. Pratt, of this city, who left with De Kalb for Cape York on one of the earliest boats, has written home from Cape Nome, giving an interesting account of the voyage. The letter is dated at Cape Nome, June 10, and Messrs. Pratt and De Kalb were to leave in a day or two for York.

Mr. Pratt made the acquaintance of a sailor while at Nome. This sailor served last year in the revenue cutter Bear, and stated to the Salt Laker that the officers of the boat located several claims at Cape York for themselves and the crew. He is familiar with the country from personal investigations and reports that York is all right. The gold, according to this authority, is very coarse, and the diggings will prove at least as rich as Nome.

### THE WEEK'S TRADING.

Tone of Market Good, Volume of Business Small.

While the volume of business at the mining exchange this week has been small, it has shown home improvement and the tone of the market has been decidedly strong. Several stocks have shown marked gains, notably Daily-West.

The receipts of sales by days was as follows:

No. Shares. Value.

Monday	7,400	3,214

### TO BUILD A MILL.

Ely Mining Company Will Erect One This Year.

The Ely Mining and Milling Company is arranging to put up a fifty-ton mill at Ely, Nevada, this year. A meeting of the directors will be held in a few days to take definite action on the proposition, and it is stated that the development at the mine fully justifies the contemplated improvement.

### FROM DAWSON TO CAPE NOME

Prospectors Crowd \$1,500,000 Gold.

Vancouver, B. C., June 30.—The steamer City of Seattle touched here this morning on her way from the north for Seattle. She brought down \$200,000 in gold dust, the major part of which is owned by Prof. Lippy, of Seattle.

The Steamer Cutch arrived this morning from Skagway with fourteen passengers from Dawson. The total amount of gold dust brought down was \$50,000. Most of the passengers were for Seattle. C. J. Dumbelton had the largest individual amount of dust, bringing off \$15,000. Dawson passengers say that the exodus from Dawson to Nome still continues, every steamer from Dawson being crowded with prospectors bound for Nome or Koyukuk. At Ketchikan the dead body of an unidentified American was recently found in the river with a stone tied around his neck. It was at first supposed to be a case of suicide, but now murder is suspected.

Seattle, Wash., June 30.—The steamer San Blas arrived at Seattle at 10 o'clock this morning from Nome. She had a million and a quarter dollars in gold from the north. The greater portion of it had come down the river from Dawson to Nome.

### MINING NOTES.

Charles Rookledge is down from Park City.

J. C. Stewart will shortly leave on a trip through Arizona.

## WHEAT IS SLIDING DOWN.

Loss Today Upwards of One Cent a Bushel.

Wall Street Very Uncertain—Bank Statement—Live Stock Steady to Strong.

New York, June 30.—There were sharp declines at the opening in some of the southern railroad stocks, including Baltimore & Ohio, and a number of specialties. Otherwise the market was almost inert. The market, after yielding slightly below the opening prices, rallied easily. New York air brake jumped seven points. New Jersey Central advanced two points. The rally lost its force near last night's level. The immobility of prices gave way to a slight upward movement on the appearance of the bank statement showing an increase in the surplus reserves of \$1,332,525. The rise in the railroads was fractional but Tennessee coal gained 2 points from the opening level. New York air brake rose 11 points on light transactions. The closing was dull and irregular at small net changes.

### MONEY AND BONDS.

Close: Money on call nominal; no loans. Prime mercantile paper 3 1/4 to 4 1/2 per cent.

Circulation, increase	91,600

The banks now hold \$16,859,576 in excess of the requirements of the 25 per cent rule.

### WEEK IN WALL STREET.

New York, June 30.—The stock market has continued unsettled and irregular all the week, under the varying influence of the crop news. Bear traders have covered eagerly at times, in sympathy with the violent breaks in the wheat market, caused by realizing thereon, and reports of rains in the drought-stricken districts. The ease of money, contrary to the fears aroused by last Saturday's bank statement and the then prospective demands on the money market, also induced some covering by bear traders. Steel stocks have been firm in spite of continued discouraging reports of the trade outlook. With the demand from the shorts satisfied, the market has showed renewed tendency to dullness and heaviness.

## UTAH SUGAR STOCK ALL ISSUED

Last Payments on New Issue Today and Monday.

### CLOSE OF FINANCIAL DEAL.

Today Was Dividend Day as Well—Best Crop in Generally Good Condition Throughout the State.

Two of the busiest days in the history of the Utah Sugar company will be Saturday, June 30th, and Monday, July 2nd.

Today the regular quarterly dividend of 3 per cent, amounting to about \$20,000, was disbursed to the stockholders by the secretary, and many of them at once took their dividend with the necessary amount added to it, and paid it back to the secretary for new stock in the company, the final payment on which is due on July 2nd, Monday, therefore, will see the closing up of what has been one of the largest financial transactions in the recent history of the state.

### THIS NEW STOCK ISSUE.

It is only a little more than a year ago, or on May 3, 1899, that the stockholders of the Utah Sugar company met and decided to double its capital, for the purpose of building one auxiliary plant at Springville, one at Bingham Junction, connecting them by pipe lines with the refinery at Lehi, and of multiplying the daily capacity of the refinery by three. It was calculated that all these improvements would cost in round numbers about a million dollars, and that the new capital, amounting to \$300,000, with the addition of the funds the company had on hand, would be ample to take care of the outlay. The results show that the calculations were conservatively made.

Although the advance in the iron and steel market will somewhat increase the original estimates, Manager Cutler states that when the three plants start up early in September, they will have been entirely paid for by the issue of new stock and the funds on hand, so that the tenth campaign in the company's history will open in every way auspiciously.

The new issue of stock was immediately subscribed for by the old stockholders, each shareholder being entitled to one share of new stock for each share of old he owned. The options on the new stock at once commanded a premium, and many stockholders parted with their options at a handsome profit, but retained their original holdings.

There are now over 700 stockholders in the company. The various payments have been promptly met, not a dollar of stock having been forfeited; the dates of the several payments on the new stock have been as follows:

July 1st, 1899, 10 per cent  
Oct. 1st, 1899, 25 " "  
Jan. 1st, 1900, 25 " "  
April 1st, 1900, 25 " "  
July 2nd, 1900, 15 " "

### THE SUGAR OUTLOOK.

Manager Thomas R. Cutler, who has just returned from a visit to the factories and beet fields of California, says there will be another very short crop on the coast due to the drought and the insects on the plants, which are very troublesome. The China factory will not start at all, and the others will only be operated a portion of the usual time. Every place he visited, he said, the beets were in poor condition, and the contrast between the California beet fields and those in Utah, which he had just been inspecting, was very striking indeed. The crop in Utah, Salt Lake, Sanpete and Sevier counties was generally in good shape; the beets were standing tall and quite well, except on the high benches, where the crop will be light unless rain comes soon. The farmers are taking every precaution, many experimenting with surface wells operated by horse power pumps. A large portion of the crop in Utah county is irrigated by artesian wells, and this part of the crop is looking specially well. Operations at Bingham Junction and Lehi as well as on the pipe line, were in advance of the estimates, and he felt sure that everything would be in readiness to start at all these plants some time before the beet crop had matured. The present weather was specially good for the beet seed industry, on which the company was embarking with surface wells operated by horse power pumps.
