WASHINGTON, 28.—The Commissioner of Indian Affairs received a report from Agent McGillicuddy, on the condition of affairs in Pine Ridge Agency, Dakota. The report was dated August 20th, and the Agent says: On the 18th inst., agreeable to a summons issued by me for a general council, the chiefs and principal Indians assembled at the council room, from all villages up to a distance of fifty miles, runners having gone out with relay horses. I addressed the council to the effect that on account of the action taken by Red Cloud in threatening to set the laws of the Government at defiance, we assembled to discuss the question of troops or no troops. I said that I had no doubt the great Father would accommodate them either way, reading to them your dispatch of the 15th, that I would be sustained. That night I received your dispatch of Friday, and with it one from Gen. Crook, making inquiries. The purport of the two messages that the state of increasing movements of an Indian racket, in the way of Indians skipping around naked, began to appear. I was a little doubtful what course to pursue, and consulting on the subject, about 3 p. m., your decided dispatch to arrest Red Cloud and hold him prisoner until further orders were received. I at once informed the chiefs that Red Cloud must report at once to listen to instructions from you. The chiefs informed me that they would send him word and he would come. So they sent a runner to his village, one mile distant. The runner returned with a sarcastic reply from Red Cloud: He was glad to hear from you and hoped you were well, adding that he felt tired and would not come. I then sent him word that he must come or I should have to send for him and bring him. At this point one of the young men, Yellow Hair, said: "Let me go; I will bring him." Yellow Hair finally returned with information that Red Cloud was coming, but he failed to turn up. One of the chiefs sent word to Red Cloud if he did not come in at once he would ask the agent to call for troops and would assist them in disarming Red Cloud and Red Shirt's bands. Soon after Red Cloud came in and Agent McGillicuddy read to him the warrant for his arrest, and informed the police chiefs and Indians that he would hold them responsible for his future conduct.

The agent concludes his report as follows: "Everything is serene and quiet at the agency to-day. There is a ring of white men in this region who are bound to force my resignation, dismissal or assassination, or the outbreak of Red Cloud. This reservation is hardly large enough for both of us, unless affairs take a change."

Accompanying Agent McGillicuddy's report is the following communication:

United States Indian Service,  
Pine Ridge Agency, Dak.,  
Aug. 18, 1882.

We the undersigned chiefs, head men and Indians of Pine Ridge Agency, Dakota, desire to inform our Great Father that we do not desire the presence of troops here. We blame Red Cloud and other Indians who signed the letter of threats recently forwarded to you. We agree to settle the trouble with the aid of the police and will aid the Great Father to prevent and settle all trouble in the future.

WATKINS, N.Y., 28.—The State Freethinkers Association to-day adopted a resolution to the effect that the general progress of the world in refinement, knowledge and good morals was the natural outgrowth of intellectual cultivation and freedom of thought and discussion; that the only men opposed to this and whose material interests favor ignorance, are the clergy, who make a claim of inspiration for the Bible, which the Bible does not make for itself; that there be no privileged class under the government, such as army chaplains; that church property be taxed; that the freethinkers of the United States should organize local leagues to oppose the organized vigilance of the church; that the freethinkers embrace spiritualists, nationalists, deists and agnostics.

On woman and her cause, a pre-

amble and resolution were adopted, setting forth woman's proprietary rights under the Roman government, the removal of them by Christianity, and the subsequent following of this law by the United States, and finally concludes:

Resolved, That, in the opinion of this convention, no invidious distinction should be made which denies woman the right to be man's competitor for any position for which she is eligible.

The resolutions further assert the right of labor to a just proportion of the wealth of the world, which it produces, and asserts that it is churches and theology that have crushed the masses.

NEWPORT, R. I., 28.—President Arthur attended a fox hunt this afternoon in company with D. W. Astor and wife. The brush was awarded to Mrs. E. D. Morgan, Jr., of New York, and the pads to Allen Arthur, the President's son, and Francis R. Appleton, of New York. About 30 followed the hounds, and there were several falls, one of which resulted in serious injury. Doyd N. Price, whose hip is believed to be broken, was taken home in an unconscious condition. The start was witnessed by a large number of spectators. The President to-night is the guest of John Wells, of New York, who gave an elaborate dinner.

AUGUSTA, Me., Aug. 12.—Joshua Nye, a temperance worker, yesterday, procured a warrant against Hoyt & Co's express, doing business by the Boston boat, for bringing malt liquors to this city. The deputy sheriff found the store house locked up and broke the lock, and seized sixty-two cases of beer addressed to different parties, nearly all known to be fictitious names. An immense crowd gathered, some of whom pulled the men from the teams engaged to take the beer away, and threw stones and bricks at them. They snatched the beer and made away with it. Several persons were severely hurt. Less than half the beer was recovered by the deputy sheriff who was badly cut. The city officials did not interfere. Nye gave notice to the officers a week ago to stop the sale which was allowed to go on.

ERIE, Penn., 28.—About two-thirds of the old force of puddlers and helpers of the Hickory Iron Works went in yesterday at the same wages paid before the strike and the balance are expected to go to-morrow when the puddling department will start a double turn with a full complement. The men return and sign individual contracts and agree to regulate their own affairs with the company without reference to orders from the Amalgamated or any of the Associations.

Wheeling, W. Va., 28.—It is learned that two nail mills are getting ready to resume operations without signing the scale. The mills named are the La Belle Iron Works of Wheeling, and the Belle-laire Iron Works of Bellaire, Ohio. The stock-holding workmen are to inaugurate a resumption by teaching the feeders to cut the nails, and instructing others in the other departments, in case the former employees do not resume their job by Monday.

MACON, Ga., 28.—The residence of Jeff Herkland at Pearson, Coffee County, burned last night. Bertha, a little daughter of N. C. Greer, perished in the flames, and her sister was rescued by R. J. McDonald, who rushed into the flames at fearful risk, getting his hair and whiskers burned off.

NEW YORK, 28.—A fire at Waverly yesterday destroyed the largest tannery in the southern part of the State.

GALVESTON, 28.—The New's Dallas special says: William June Grant, an alleged cousin of General Grant, guilty of defalcation of the funds of the lodges of Anti-Catholic Negro Societies will be indicted if he does not refund.

PHILADELPHIA, 28.—Belle Boyd, the notorious rebel spy of the Shenandoah Valley during the war, has been arrested here as an accomplished female swindler. How many people this notorious woman has victimized it is at present hard to estimate. She was arrested on Saturday for uttering a forged check on a pawnbroker for goods she had pledged, but she was afterwards released, the money being made good by her friends. Further important

developments are expected, should the merchants victimized institute proceedings against her.

CHICAGO, 28.—The Times refers this morning to a scheme which has been reported, that the Burlington & Quincy Railroad will form with the Central Pacific and thus stop the Colorado pool traffic. This would leave the Union Pacific out so far as San Francisco is concerned. Villard and the Northern Pacific alone would stand in for the Pacific syndicate. Such a combination is not considered unlikely or impracticable. It would virtually control all the traffic between San Francisco and Chicago.

KNOXVILLE, Tenn., 28.—A feud has existed for some time between the Mabry and Lusby families, both well known here, growing out of the shooting of William Mabry by D. C. Lusby last Christmas. Mutual threats have passed between members of the families. On Saturday D. C. Lusby and his father, Moses Lusby, were in this city hunting for Joseph H. Mabry, the father of the murdered man, letting it be understood they intended to kill him on sight. The Lusbys were arrested on the complaint of Mabry, who with his son, James A. Mabry, appeared as prosecutors. During the hearing the prisoners made some disturbance, when two shots were fired from the direction of the Mabrys, and Moses Lusby fell dead and D. C. Lusby fell mortally wounded. Nobody seems to know which of the Mabrys did the shooting. They were both arrested and admitted to bail.

CHICAGO, 28.—Richard Wilson a Scotchman, aged 54, shot his wife this morning and then killed himself. The woman is not likely to live. Jealousy was the cause. Seven children are left.

MOI KANE, a Chinaman, was fatally stabbed by one of his friends last night and died to-day. His slayer, Ling Ah Du, is in custody.

ALBUQUERQUE, N. M., 28.—A train ran over the body of a man this morning near Alamogordo, Valencia county. He was so close, when discovered, that it was impossible to stop in time. The train men at once went back and found the body mangled but perfectly cold. It proved to be that of Felipe Chavez, a wealthy and influential stock man of Valencia county. He was known to have a large amount of money on his person and it is supposed he was murdered, robbed and placed on the track. There is no clue to the murderers.

LELAND, 28.—This evening Mrs. J. M. Stratton, the wife of a successful lawyer here, shot her husband and then herself, both dying immediately. No cause is assigned for the deed. They had been married but a short time and were supposed to be living happily.

CHICAGO, 28.—A Toledo, Ohio, special says: Excursions were run yesterday to Grand Rapids, 30 miles from here, on the narrow-gauge road. On the return trip in the afternoon five or six desperadoes with drawn revolvers, captured the train and committed a daring robbery and outrage. One citizen lost \$75, one was thrown from the platform and the conductor was used up trying to arrest one of the roughts. All escaped except Larry King, a notorious character, whom the police secured when the train reached this city.

The Tribune says, editorially: It is stated in the dispatches, with some show of positiveness, that Don Cameron's cause in Pennsylvania is lost, and Beaver's canvass is already practically ended. If this shall be proven to be the case, the result will be due solely to the brutal obstinacy and stupid follies of Don Cameron himself. He has stultified and minimized politics in Pennsylvania ever since he has had control of them, and the republicans of the State are tired of having this upstart of a political cowboy for a master.

MONROE, N. C., 28.—The party of six young ladies engaged in walking across North Carolina, reached here, 420 miles from the starting point, and go home by rail. One night they camped in a cemetery and slept by the graves, and another time they came upon a bear. The record of their trip contains twelve hundred pages.

CHICAGO, 28.—A private dispatch dated August 27th, received to-day, stated that General Sheridan and party are at Barratt's Bridge, Yellowstone Park. Secretary Folger has decided to issue another call for bonds which probably be made to-morrow. It will embrace all continued sixes remaining uncalled and which have not been surrendered for exchange for new threes. It is estimated that there are about 4,000,000 of this class of bonds. Secretary Folger said he saw no necessity for anticipating the payment of bonds embraced in the 115th call, which matures Sep. 13th.

The Governor General will be accompanied by the Princess Louise and suite. The party are expected to arrive in Chicago September 6th, by way of Detroit, and then proceed to British Columbia by way of San Francisco.

General Sherman will ask to be placed on the retired list in November, 1883. He would be compulsorily retired in 1884.

He retires early in order to give General Sheridan, his Successor, a chance to express to Congress his views on the best interests of the service.

The chief Cheyote refused to pardon the rebels, although there were large petitions for clemency. Two or three of the culprits almost fainted. The majority exhibited an iron nerve.

PHILADELPHIA, 29.—Wm. S. Lloyd & Co., bankers and brokers, have failed. Their liabilities on the street are about \$10,000. The heavy losers are country depositors with whom the bankrupt firm did a considerable banking business. Their country losses are independent of their liabilities, and their extent cannot be obtained.

WASHINGTON, 29.—Captain Hopkins, commanding the navy yard at Pensacola, has informed the Navy Department that the yellow fever is spreading in Pensacola, and that extra precaution is necessary.

CHICAGO, 29.—Edward N. Welsh, arrested three or four days ago in New York for robbing the First National Bank of Kewanee, Ills., passed through this city this evening en route for Kewanee, in charge of the detective who arrested him. The detective agency which has charge of the case, says he made that confession, the effect of which is that Dr. J. S. Scott, of St. Louis, formerly a resident of Kewanee, planned the robbery, though he took no direct part in it; that Pratt, the acting cashier, was a party to it, and instead of the large sum in gold which is missing, being carried away in a

valise with the other money, it was Pratt who carried it off previous to the day when Welsh and his companions locked Pratt and Miss Harris in the vault and carried away the remainder, mostly in paper money. Welsh refused to give the name of the man who helped him in the job.

Kewanee, Ill., 29.—Great excitement exists over the arrest of Pratt, the cashier of the First National Bank, on the charge of complicity in the recent robbery, in which the thieves got away with \$29,000. The arrest is just made, and the detectives claim to have plenty of evidence to sustain the charge.

WASHINGTON, 28.—Secretary Folger has under his consideration the best plan of carrying out the provisions of sections of the revised statutes, applicable to the inspection of foreign passenger steamers, indicated in an amendment to section 4400 of revised statutes, approved August 7th, 1882. The first step to be taken is the appointment of sixteen special inspectors of foreign vessels, of which number six are for duty in New York, two at Boston, two at Baltimore, two at Philadelphia, two at New Orleans and two at San Francisco.

It is estimated that the bonds embraced in the 116th call amount to about \$3,500,000.
