EASTERN.

WASHINGTON, 10.—There is much favorable comment upon the action of the Senate in confirming the cabinet appointments. It is the impression that the administration will, without delay, put into effect, through the various executive departments, the policy outlined in the inaugural address.
The President, this afternoon and evening, was congratulated upon the fact that the government was fully organized. All the members of the cabinet will take the oath of office on Monday and enter immediately upon their respective duties.
The first cabinet meeting will be held on Tuesday. In accordance with custom, Mrs. Hayes held her first reception at the White House this afternoon. It was very numerous, and was attended by the principal ladies resident in Washington, and included a large and distinguished reception of the unofficial class as well.
For the first time in a number of months a settled feeling prevails in Washington, and there is no excitement present or prospective to distract the public mind. The unexpected prompt confirmation of all the cabinet appointments has removed the last remaining doubt of the thoroughness of the administration. The feeling of confidence in the new administration is now universal, and every body now awaits with calmness the practical workings of the new administration.
The President is now fully organized and equipped for the work of carrying out his avowed statesmanlike and conciliatory policy.
Sargent and Booth do not intend to recommend any new appointments for federal offices in California, unless some unexpected emergency should arise before the expiration of the present terms of the present incumbents. This accords not only with their own line of action hitherto, but with the civil service principles of President Hayes, as announced in his letter of acceptance and in his inaugural address. Local politicians will save trouble and postage by considering this announcement authoritative.
Regulations will be prepared and issued, sometime this month, by the Interior Department, to carry into effect the new law providing for the sale of desert lands. Among the amendments agreed on by the conference committee and enacted as a part of the bill, was one requiring a cash payment of 25 cents per acre at the date of making the application for entry.
The telegraphic blunder omitted a portion of the dispatch of the 1st instant, about the California school indemnity bill, so as to erroneously state that the bill was not passed, which, it belongs to Booth and Sargent, of obtaining the passage of the bill by the Senate and of making arrangements for its execution.
The sundry civil appropriation bill, as it became law, provides that the cost of surveying ordinary public lands shall be \$7 per township, and six for section lines, but authorizes the land office to allow for the survey of heavily timbered or mountainous regions as much as \$16 per mile for standard lines, \$14 for township, and \$10 for section lines. The act also provides that its appropriations for the survey of public lands shall be available immediately.

ST. LOUIS, 10.—Ignatius and suite arrived last night and were called upon, to-day, by many prominent citizens. They leave for New Orleans to-morrow, where they will remain until they receive advice from Mexico.
Objectors to the Will of the Late Commodore Vanderbilt.
NEW YORK, 10.—The objections to the will of Commodore Vanderbilt, filed in the Surrogate's office, to-day, by his son Cornelius J. Vanderbilt, and by the executors, offered for probate is not the last will of the deceased; that it was not signed by either the testator or by witnesses at his request; that the deceased was not in sound mind when the document purported to have been signed; that it was procured by fraud and the undue influence of William H. Vanderbilt, and that by a desire to concentrate his fortune in the person of Wm. H. Vanderbilt, deceased had become incapacitated from making a fair will, and disregarded his other children.
Black Hills—Sale of Mines.
DEADWOOD, D. T., 10.—To-day the Black Hills mine situated in Deadwood Gulch, above Gayville, was sold by E. F. McCarthy, to Gilmer and Salsbury, of Salt Lake City, for \$50,000. The same parties purchased another interest in the same mine, located in the same vicinity, from C. H. Wagner, of Deadwood, for \$10,000.
The Indians on the Move.
MONTREAL, WY., 10.—Several hundred Indians crossed the road at Ute's Ranch on Last Water, Indian Creek, to-day. There were a number of squaws and papooses with them. Several Indian bands have crossed toward the agency in the last few days.
PHILADELPHIA, 10.—Turner, Lavish & Co's planing mill was burned to-day; loss \$35,000, partly insured.
Resolutions Regarding President Hayes' Policy.
MEMPHIS, TENN., 10.—The largest meeting of business men ever assembled at the Cotton Exchange, met there this afternoon to take action in reference to the policy proclaimed by President Hayes in his inaugural address and by the appointments made by him. The meeting was called by Judge of South Carolina, and several ex-members of Congress, who were taken to the Tenth Street station house. This morning the parties named were charged with the duty of representing the business men of the country, the proposition being held in \$1,000, and the players in \$20 each to appear as witnesses.
Senator Morton will make an effort to have the case of Kellogg, claiming a seat as Senator from Louisiana, acted on at this session of the Senate, and the impression prevails that a favorable report on his case will be made by a majority of the committee on privileges and elections on Tuesday next. It is not certain, however, that the Senate will agree to act on the case now, as a number of republican senators prefer to let the matter rest for the present rather than take any action upon the vexed Louisiana question, which might be embarrassing to the administration. By permitting the Kellogg case to rest until next session it will be determined with much less discussion than if the attempt were made to do it now; and besides, the matter may be virtually settled by the executive department of the government before that time.

It is said that the democrats will vote in favor of postponing the case of Kellogg until next session. This same may be said of the South Carolina contest. Should these cases go over the special session of the Senate will probably close before the end of the present week, as the executive department of the government before that time.
The Sunday Herald says President Hayes is beginning very early to justify the hopes entertained by the better element of his party and to disappoint the malicious politicians and malignants. All that he has said and done thus far goes to show him to be not only an earnest and sincere, but a wise man. The Herald also declares that although some fanatical republicans and some passionate democrats may strive to weaken his administration, nevertheless if he perseveres in the course he has marked out, the heart of the country will turn towards him, and the strong hands of its yeomen will sustain him.
Don Platt's Capital praises him by saying that the capture of "Hayes at the helm," the first move of this gentleman, pains one for that he was not honestly elected President of the United States. With a firmness that is all the pleasanter from the fact that it is unexpected, he applies the knife to the evils of his own party, and looks to the score of the dirty rogues on which he ascended to power, and with that ladder falls much of the ill that afflicts our unhappy country.
Office Seekers and Rumors Regarding Home Disappointed.
The throng of office seekers from all parts of the land, who congregated here for the past few days, have mostly returned home wiser and sadder. A considerable number still remain, freighted with the air with the doleful predictions that the party will be ruined by the new administration. These predictions are, however, based on a false basis. The party will be better informed, express an especial fear that the vast patronage of the Post Office Department, with its 40,000 employees throughout the country, will be used by the new administration for the benefit of the democrats. Hayes' friends conclusively reply that no such thing would be so easily attempted by any man as to take the party that even if attempted it would inevitably be discovered and prevented by Hayes, for the manifest reason, if there were no others, that he has announced as a fundamental policy of his administration that no person holding office shall be disturbed for merely partisan or personal motives.
