

"Hamilton School," and that the name of the new school in the Twentieth ward be called the "Sheridan School."

R. G. RAYBOULD, Chairman,
JOHN N. PIKE,
JOHN E. DOOLEY,
RUDOLPH ALFF,
ARTHUR PRATT.

After some desultory discussion, the report was referred back to the committee.

HOOPER SITE PURCHASED.

A majority of the same committee renewed its recommendations to purchase the Hooper site in the third precinct for \$13,500. The committee further recommended that a twelve room school building be erected on the property, and asked that they be empowered to advertise for bids which should hereafter be submitted to the board.

It was moved and seconded that this part of the report be laid on the table until it should be ascertained how many school buildings would be erected in the third precinct.

Trustee Pike made a lengthy and strong argument against the purchase of the site. It was entirely unsatisfactory to the people in that part of the city. It was in an out-of-the-way locality and not at all suited to the needs of his constituents. If two school houses were to be erected it should be built considerably further south. It was wrong for members from other precincts to dictate and compel the people of the Third precinct to take what they did not want.

Mr. Newman, who is also from the Third precinct, concurred with Mr. Pike.

Several other members of the board took part in the discussion, after which the motion to purchase the site carried. That part of the report which referred to the erection of buildings was referred back to the committee to decide upon a plan for ventilating and heating.

MORE TEACHERS.

The committee on teachers recommended the employment of the following teachers: Laura Simons, Industrial Home school, at a salary of \$60 per month; Mrs. Kenworthy, Seventh school at \$65; Mrs. A. F. Howe, Fifth school, at \$50; Mrs. Wilson, Twenty-first school, at \$60; Miss Ada Patterson, Eleventh school, at \$65. These teachers have been temporarily employed. Adopted.

REFUNDING RULES.

The finance committee reported rules for paying back the money collected as special school taxes which was decided to be unlawful by the Third District Court. The rules are as follows:

First—The Board of Education will refund only such money as it received, and will refund that in full without rebate or discount.

Second—The payment shall be made according to and precisely following the list furnished this Board by Collector Hardy.

Third—A form of check and stub with receipt.

Fourth—Two rubber stamps shall be procured by the clerk, one to stamp on the face of the tax receipt presented the words, "Special school tax of 1890, refunded by Board of Education." The other to stamp on the margin of the list furnished by the collector the word "Paid."

Fifth—The clerk of the board shall

keep the stub of the check-book and file the same as his vouchers. The treasurer of the board shall retain as his vouchers the endorsed checks as they are paid.

Sixth—The sum of \$85,000 shall be placed to the credit of this fund and the board shall cover the transaction with one warrant when it may order.

Adopted.

OPERATOR AND TYPEWRITER.

The finance committee reported that it had employed Harry Ward as an assistant to the clerk of the board at a salary of \$35 per month, and recommended the purchase of a typewriter for the use of the office. Adopted.

Mr. Pike made the following motion, which was unanimously carried:

That the clerk of the board be instructed to ask the secretary of the Territory to furnish the board with fifteen copies of the Session Laws 1892 as soon as printed for the use of officers and members of the board.

Adjourned for one week.

AUTOPSY ON WALT WHITMAN'S BODY

The result of the autopsy on Walt Whitman's body by four well known physicians is published in the New York World. It appeared that the deceased poet suffered from bronchial pneumonia, and survived for months after medical science had decreed him but a few hours to live. He also suffered for years from a mysterious pain in the side, which the doctors attributed to cancer.

The autopsy revealed the fact that the pain in the left side had been occasioned by peritonitis. On opening the chest cavity it was found that the left lung was entirely gone and only a breathing spot of the right remained. The heart was surrounded by a large number of small abscesses, and three

quarts of water were found in the region of that organ. The brain was found to be healthy and abnormally large.

The physicians, after the examination, stated that the poet was the most splendidly built man they had ever operated on. He was in every particular proportioned according to the scientific ideal. There is a report that the late Mr. Whitman was a member of the Anthropometric Society, each member of which bequeaths his brain to the organization, for the benefit of science. It appears that the "good gray poet" is as much of a mystery to the scientists as he was a conundrum to the literary critics.
