NO HARMONIZING OF TWO PARTIES

Laborers and Socialists Adopt
Similar Platforms But Will
Not Pull Together.

REPUBLICANS GETTING BUSY.

Expect Another Victory This Fall—
Great Interest Taken in Prospective
Excursion to Ely, Nevada.

Ogden, Aug. 31.—There does not appear to be perfect harmony and good feeling existing between the Socialist party and the Labor party, and it is expected that they will fight each other bitterly during the coming campaign. The Socialist party is made up principally of union men, and Wednesday night it adopted its platform. Last evening the Labor party met for the same purpose, and while members stated after the meeting that they had no information to give out, it was learned from those present that a platform practically the same as the Socialists' was adopted, which met with the disapproval of some of the Socialists present. The Labor party at a meeting held a week ago considered a preamble that was a hot shot at the administration and things in general, but after more careful consideration it was decided best not to adopt it, so at last evening's meeting another preamble was adopted, less severe, and pledging the enforcement of the laws on the statute books if the Labor candidates were elected. Last evening's meeting lasted until nearly midnight, and during the discussions some very heated argument was indulged in at times.

REPUBLICANS GETTING BUSY.

The first steps taken by the Republicans of Weber county preparatory to the coming campaign, were taken last evening, when the executive committee met in secret session and discussed plans for the conducting of the campaign. Those present at the meeting were E. T. Hulanicki, E. W. Wade, Jesse Powers, Fred F. Dalton, David Mattson, Rudolph Kuchler, John V. Rith and William Glasmann. They would give nothing out concerning their plans, and stated that at the meeting of the central committee, to be held Saturday at 2 o'clock, they would give a report of their decisions, for the committee's consideration. The Republicans are encouraged in the hope of another victory this fall, and those out for the various offices are beginning to lay their wires ready for operation just as soon as the convention date is announced.

INTEREST IN NEVADA TRIP.

Considerable interest is being centered around the excursion to Ely, Nev., next month under the direction of the Weber club. The date has been set for Sept. 29, and the club proposes making it a grand success. W. B. Wedell has been made chairman of a committee to complete all arrangements and to work up still more enthusiasm in the trip.

LABELS ON MEAT PRODUCTS MUST STATE TRUTH.

Washington, Aug. 31.—Nothing short of the placing on meat products of labels which will not deceive the public was the ultimatum which Secy. Wilson delivered to representatives of various pack-houses here today. Hereafter, if the packers want their goods accepted for interstate shipment the packages must bear labels more specific than those used hitherto. It will not do for instance, to state merely that a package contains sausage. The label must distinctly describe the article and its quality.

The elimination of certain advertising features for the labels will also be insisted upon. The packers were particularly solidified regarding the meat products already put up and held in stock, but Secy. Wilson assured them it was not his intention to open every package, but to select a certain percentage, and if they were found as represented, he would authorize labels for the lot, certifying that it had met the requirements of the law.

In administering the law Secy. Wilson would apply common sense and see that it was not his intention to be hysterical or to impose any unnecessary hardships on the packers. Further conferences will continue tomorrow.

ATTEMPT TO WRECK TRAIN.

San Bernardino, Cal., Aug. 30.—What is believed to have been an attempt to wreck the Santa Fe overland train was made at Helena, a small station below Barstow, by the placing of a handcar on the track. The train struck the handcar and derailed. The foreman at Helena caused the arrest of two union men and they were locked up but early this morning they broke jail and escaped. They are now on the desert with officers in pursuit.

STACKPOLE SENTENCED.

Man Who Murdered Joel Scheck Gets Life Imprisonment.

Los Angeles, Aug. 30.—Ernest G. Stackpole, convicted of the murder of Joel Scheck in this city on the night of June 14 last, was today sentenced to life imprisonment by Judge James. In accordance with the recommendation of the jury, a motion for a new trial was overruled. Stackpole will be taken to San Quentin in a few days. He killed Scheck in the latter's bedroom at midnight. Mrs. Scheck, who maintained intimate relations with Stackpole, confessed the murder and admitted being an accomplice.

PORTLAND EXPOSITION.

Stockholders Will Receive 20 Per Cent Dividend Today.

Portland, Or., Aug. 31.—The stockholders of the Lewis & Clark Exposition corporation, which recently went out of existence, will receive a 20 per cent dividend today. This marks the last of the great exposition held in Portland last year.

TROOPS KICK.

Absolutely Refuse to Accept Tainted Meat as Ration.

Chicago, Aug. 31.—A Tribune special from Indianapolis says troops in camp at Fort Benjamin Harrison made it plain yesterday that they would not accept as ration tainted meat, and for an hour or more there were indications of rebellion against the ration.

The beef had been taken to the camp in a refrigerator car, and had changed color after being exposed to the air for several hours.

The protests of the soldiers caused a board of inspection to be appointed which reported that the beef was tainted in spots but recommended that the untainted parts be used. Gen. Carter, however, ordered all the beef destroyed and a new ration issued.

WYOMING REPUBLICANS.

Casper, Wyo., Aug. 30.—The Republican state convention today endorsed President Roosevelt's administration and the work of the last Congress, and adopted a stand-pat policy, approved the policy of the Wyoming delegation in Congress, recommended the reelection of Senator F. E. Warren by the legislature in January, and declared for the passage of state depository and reorganization laws by the next legislature.

The ticket was completed as follows: For Congress (sixth term)—Frank W. Condit and Justice of the Supreme Court—Richard H. Scott of Cheyenne.

C. W. Burdick of Cheyenne was elected chairman of the state central committee.

ORCHARD COVER CROPS.

The Nebraska experiment station has just issued Bulletin No. 32, entitled "Cover-crops for Young Orchards."

The tests made at the experiment station during the past five years and reported in the bulletin show conclusively that young, rapidly growing peach trees are made harder in both wood and fruit by the use of a cover-crop that will, by drying the ground somewhat in late summer, check the growth of the trees and cause them to mature their wood properly before the advent of freezing weather.

Cover-crops that survive the winter, for instance, are detrimental to orchards, since they dry the ground excessively in spring when the trees need abundant moisture. Cover-crops that are killed by the early frosts are better than those that live over, because, as soon as killed, they dry up, drying the soil, catch fall rains, and check evaporation. For the past seven years at the time winter has set in, the ground in the experiment station orchards has been as moist in the plots that grew frost-killed cover-crops as in the plots that received thorough cultivation throughout the fall. Cover-crops that live until killed by severe freezing weather, or, for instance, sometimes keep the ground so dry that there is danger of serious injury to tender roots should the following winter be very cold.

Vegetation that stands erect does not furnish as good direct protection against severe freezing of the ground as crops that mat down like a little mulch. Cornstalks, for instance, afford little protection against freezing when there is no snow, while a cover of oats furnishes considerable protection under similar conditions. Cornstalks and other vegetation that stand fully erect, hold drifting snow very well, thereby furnishing excellent indirect protection.

Millet, cane, and corn were the best of the cover-crops tried at the experiment station. Millet is the best of all, except for the fact that, when sown the latter part of July, it sometimes ripens so early that it causes trouble the following summer.

HIPPLE WAS AN EMBEZZLER

Receiver Earle of the Real Estate Trust Company Says He Stole the Money.

EMBEZZLED FIVE MILLION.

Some Hope and Prospect That Depositors Will Receive Dollar for Dollar.

Philadelphia, Aug. 30.—Examination of the list of securities held by the defunct Real Estate Trust company today developed the fact that Frank K. Hipple, president of the institution, who committed suicide, was an embezzler.

The authority for this statement is George H. Earle, Jr., receiver for the trust company. Mr. Earle declined to say what securities are missing, but he declared that Hipple had hypothecated \$5,000,000 worth of the paper, securing \$50,000 for the securities, which he never returned. Receiver Earle further declared that President Hipple embezzled the \$5,000,000 he loaned to Adolf Segal, the promoter. These loans, Mr. Earle asserted, were personal transactions.

"Although made in the name of the bank, the directors had no knowledge of them, consequently the money was stolen by Hipple," said Mr. Earle.

Another enterprise in which the dead president was financially interested was discovered today, when it became known that he was one of the incorporators of Miss Wright's select school for ladies at Bryn Mawr, the suburb in which Hipple had his summer residence. The other incorporators were his son, F. Wharton Hipple, and Miss Wright. The latter five years ago began teaching school at Bryn Mawr. She made the acquaintance of Mr. Hipple's daughter, now dead, and Mr. Hipple displayed a friendly interest in her. Last year Miss Wright purchased a large stone building at Bryn Mawr, at a cost, it is said, of \$50,000, and established a select school.

Miss Wright said today that Mr. Hipple visited the institution two or three times a week. His last visit was made, according to Miss Wright, on Thursday afternoon of last week, the day before he shot and killed himself.

In an interview today Receiver Earle reiterated his opposition to a permanent receivership for the trust company. This proceeding, he declared, would deprive the concern of its trust funds, which are among its most valuable assets.

If all of Promoter Segal's enterprises are as valuable as his sugar refinery, he said, their operation by the depositors would be more fruitful of results than any other method, and he believed through such a plan the depositors would receive dollar for dollar.

METROPOLITAN LIFE INSURANCE CO.

(INCORPORATED BY THE STATE OF NEW YORK.)

JOHN R. HEGEMAN, President.

Dividend Announcement.

INDUSTRIAL.

The Company has just declared a cash mortality dividend on Policies over 5 years in force which have matured and shall mature in 1906. To all death claims on Policies over 5 years in force it adds 5 per cent; to all death claims on Policies over 5 years in force, 6 per cent, and an additional 1 per cent for each year of duration. Thus the dividend on claims under Policies

over 10 years in force is 10 per cent; over 15 years, 15 per cent; over 20 years, 20 per cent; over 25 years, 25 per cent; 1878 (the earliest issue), 27 per cent. The cost of this dividend payable during the current year is approximately

ONE MILLION TWO HUNDRED THOUSAND DOLLARS.

In addition to this the immediate benefits (payable during the six months after date of issue) on adult Industrial Policies, excepting Term and Endowment, issued during 1906 have been doubled. Certain increases have also been

made in the benefits on infantile Endowment Policies during the first year. The cost of these, which will operate as a dividend on all claims maturing during this year, on the issue of this year, is approximately

ONE HUNDRED AND FIFTY THOUSAND DOLLARS.

These dividends are over and above the dividend declared on Industrial Policies January 1 last, which was a quinquennial cash dividend, amounting to about 20 per cent of the premium for a year, declared on all Policies (excepting Term and Endowment) issued during 1906.

except increasing Life and Endowment Policies, which by their terms carry benefits increasing yearly after the third year) issued in 1881, 1886, 1891, 1896 and 1901. The amount appropriated for this dividend was about

SIX HUNDRED AND EIGHTY-TWO THOUSAND DOLLARS.

Thus the Company THIS YEAR has declared and is paying dividends on Industrial Policies amounting to

Over Two Millions of Dollars.

Every one of these Policies is non-participating, promising a definite sum only at maturity, without dividends. The payment of the dividend is PURELY VOLUNTARY. Dividends have been actually paid without promise for many years by the Metropolitan. The total amount now approximates

Ten Millions of Dollars.

In 12 years. Included among these Policies are hundreds of thousands of Policies issued by other companies and assumed by the Metropolitan.

INTERMEDIATE.

Intermediate Policies for \$500 each have been issued by the Metropolitan for 10 years past. They are Policies designed for such of the Industrial classes as can afford to pay annual, semi-annual or quarterly premiums instead of weekly. As the plan was new there was no actual experience to

guide the Company as to the mortality cost. The Company promised to pay, if earned, dividends after five years and annually thereafter. This year the Company set aside over

Six Hundred and Twenty Thousand Dollars,

to be paid in dividends on Intermediate Policies during 1906. Payment of these dividends have brought the cost of the Policies very nearly down to the non-participating rates of this and other Ordinary companies.

ORDINARY.

The Ordinary Policies issued by the Company for the last 15 years have been practically all written on non-participating rates—plain business contracts for plain business men, which tell their whole story upon their face, leave nothing to the imagination, borrow nothing from hope, require definite conditions and make definite promises in dollars and cents. The rates, therefore, are low. The Company has in force, however, a considerable, though, compared with its total business, a very small percentage of participating business. Some of the Policies were issued on annual dividend

and some on deferred dividend plans—many of the latter having been issued by other companies and assumed by the Metropolitan. Upon these Policies the Company has this year declared and is paying a dividend equal to the excess premium charged by mutual rates over the non-participating rates charged on its current business. The amount of this dividend is nearly TWO HUNDRED THOUSAND DOLLARS, which is a voluntary extra dividend.

Thus the amount of dividends the METROPOLITAN LIFE INSURANCE COMPANY is paying this year is nearly

Three Millions of Dollars,

THREE QUARTERS OF WHICH IS A VOLUNTARY GIFT BY THE COMPANY TO ITS PATRONS.
