He says: especially that of Mr. Sturgiss, I have constantly experie reed The Bank building occupies an area of eight acres of ground, an edifice of no architectural beauty, with not one window towards the streets, being lighted altogether from the roof, or the enclosed area. The ordinary business apartments differ from those in our banks only in their extent, a thousand clerks being constantly on duty, and driven with business at Doctor of Civil Laws. that.

But to form any adaquate idea of what the Bank is, we must penetrate its recess, its vaults and offices, where we shall see such operations as are not known in Wall street. I was led, on presenting my card of admission, into a private room, where, after the delay of a few moments, a messemger came and conducted me through the mighty and mysterious building. Down we went into a room, where the notes of the Bank received yesterday were now examined, compared DEAR BRETHREN:with the entries of the books, and stored away. The Bank of England never issues agine that you are forgotten at home, while strug- profitable it may be to sow broided grass seed, we the same note a second time. It receives in the ordinary course of business about £800, 000, or \$1,000,000, daily in notes; these are among strugers without purse or scrip, to pro- for it will not ripea uniformly, nor evenly; and it put up in parcens according to their denom- claim the pure principles of the everlasting gos- is certain no one prefers to raise weeds in lieu of ination, boxed up, with the date of their recep- pel, and to gither out the honest in heart from ev- a wheat crop.
