

COMPLAINTS BY FISHERMEN.

Those of Gloucester Have Grievances Against the Newfoundland Government.

LAY CASE BEFORE SECY. ROOT

Believed There Has Been Some Misunderstanding That Will Be Easily Cleared Up.

Washington, Oct. 16.—Through Representative Gardner of Massachusetts the Gloucester fishermen today officially laid before the state department their grievances against the Newfoundland government, which they charge with forbidding all vessels of American register to fish in the treaty waters. This right, the fishermen claim, is granted them by the treaty of 1818 between the United States and Great Britain.

Through the British ambassador, Sir Mortimer Durand, Secy. Root has been informed that the Newfoundland government disclaims all knowledge of any action in violation of this treaty. The Newfoundland government admits the arrival at the Bay of Islands on board the cruiser Flora of the minister for marine and fisheries, but insists he is there on duty not connected with the question.

Until Representative Gardner has been able to obtain further details of the alleged action of the Newfoundland government against the fishermen and the reasons therefor, Secy. Root will not make further representations to the London government. Mr. Gardner has telegraphed to Gloucester to obtain additional information.

The Gloucester and Newfoundland fisheries question was revived last week by a telegram received by Secy. Root from Senator Lodge, saying it was reported that the Newfoundland minister had arrived in the Bay of Islands on board the cruiser Flora with the minister for marine and fisheries on board, and that the minister had forbidden all vessels of American registry to fish in the treaty waters where they were then located.

A communication was immediately sent to the British ambassador at London, requesting any information he might have on the subject. The ambassador communicated with the Newfoundland government by wire and started immediately for Washington, arriving here Friday. Since then the secretary has received from the ambassador the contents of the latter's dispatch from the governor of Newfoundland, expressing ignorance of the report, and adding that he would investigate its accuracy. These are all the facts in the possession of the department thus far.

WELCOME WORDS TO WOMEN.

From the view point of the average man housework is very easy. The wife is right at home. She is her own mistress. She can sit down and rest any time. She can even go to bed for a nap if she feels like it. She can order her household affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That is the beautiful theory of the average man.

Just suppose the Egyptian task-masters, when they made the required daily tale of bricks tax the uttermost of human strength, had said to the toiling slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be trouble."

There's the fact. There are the day's duties to be got through, and the woman who can rest may not. The woman who, when she married, said, "Now, I'll be my own mistress," finds herself a slave to household cares and duties.

And oh! how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Rest would temporarily relieve the strain, doubtless, but it would be the same story over again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription.

It makes weak women strong and sick women well. It removes causes of women's weakness, soothes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," nervousness, retroversion, bearing-down sensations, chronic constipation, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Prescription. writes Miss Earline Agard, Chapin, Patricia Daughters of America, of 413 1/2 Michigan Avenue, Lansing, Mich. "I cannot find language to express my gratitude and joy over the fact that I am well once more. Where the my corsets told seemed to have brought on an extra abdominal pressure, weakening the ligaments and pushing the internal organs down. What I knew not, as no medicine I took seemed to help me. I had heard of Dr. Pierce's Favorite Prescription and determined to try it, as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that this was permanent, but my improvement came steadily on, and within four months I was like a new woman. Now I have no more pains, am well and strong, and am extremely grateful to you."

There is nothing to conceal about the make-up of "FAVORITE PRESCRIPTION." It is an absolutely pure medicine—

GROWING UP

There's something the matter with the child that fails to grow up. A child that grows up too much, however, without proper filling out of flesh, is almost as badly off. Nothing will help these pale, thin "weedy" children like Scott's Emulsion. It supplies the rounding out of flesh and the rich inward nourishment of blood and vital organs which insures rapid growth a healthy and uniform development.

fishermen to ply their business there. The report assigned no reason for this alleged order. A speech made last spring, however, by Sir Robert Bond, premier of Newfoundland, in which he is quoted as advocating the exclusion of American fishermen from certain waters not specifically mentioned in the treaty of 1818, led to the suspicion that the alleged order might form the initiation of this policy. The Gloucester fishermen contend that if this is the position of the Newfoundland government they are prepared to meet that issue by an array of facts which will prove the incorrectness of any such construction of the treaty. The rights threatened have been enjoyed by American fishermen for 90 years. The reported interpretation of the treaty would prohibit them from fishing in the bays and harbors of the Newfoundland coast.

It has been reported that the inhibition against the fishermen to obtain a license to fish in the bay is not a license to fish, but a license to be licensed to fish. If this is the case attention will be called to the reported rulings of the treasury department by which an American register is declared to be a ship's highest evidence of nationality and that it includes a fishing license.

While the question of right to search American vessels is not directly involved in the present controversy, it is the desire of the fishermen to obtain from Secy. Root a ruling on the subject, and it was submitted to him. The Newfoundland government, it is said, insists that it has a right to search American fishing vessels to ascertain whether citizens of Newfoundland are on board. The Gloucester men do not deny this right, nor do they deny it, but desire the official judgment of the department upon the question. Mr. Gardner declared that neither the bait question nor the present phase of the controversy, but apparently only the construction of the treaty of 1818 as to whether the rights enjoyed for 90 years by American citizens shall be continued.

TROUBETSKOY'S FUNERAL.

Police Absent, Students Taking Control of Proceedings.

Moscow, Oct. 16.—The funeral of Prince Troubetzkoy, the Liberal leader and rector of the Moscow university, who died suddenly in St. Petersburg Oct. 12, took place here today and passed off in perfect order. The funeral procession, however, the ceremony. The police were conspicuously absent and the students took control of the proceedings.

WELCOME WORDS TO WOMEN.

made of native roots—Nature's own restoratives, compounded after a formula concerning which there can be no question, by skilled chemists and by thoroughly scientific processes. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRESCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that each of these ingredients is beneficial in the diseases of women and when properly compounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle of the "FAVORITE PRESCRIPTION" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is composed. Thus Dr. Pierce proves to the world his own confidence in the remedy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia, and in parts of South America, Africa and Asia, as a sovereign cure for those diseases which, unchecked, make our women old before their time.

It will be noticed that there is no alcohol in the "FAVORITE PRESCRIPTION." Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it, he substitutes chemically pure glycerine, which has wonderful properties for extracting the medicinal principles of roots and preserving them at their full strength, without any deleterious effect whatever.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists also the "FAVORITE PRESCRIPTION" and also that famous statement of their full composition, giving every ingredient in plain English, without fear of successful criticism. Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Send 31 one-cent stamps to cover cost of mailing and get a copy of Dr. Pierce's Common Sense Medical Adviser, over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

CARNEGIE HERO FUND COMMISSION

Makes Public Results of Its Investigation of Cases Claiming Recognition.

ONLY TEN AWARDS WERE MADE

First One Was of Coal Miner Who Lost His Life Rescuing A Companion.

Pittsburg, Oct. 16.—The Carnegie hero fund commission made public this evening the results of its investigation of a large number of cases which were supposed to entitle the participants to recognition under the hero fund provided by Andrew Carnegie several years ago.

Ten awards were made for heroes in widely separated parts of this country and Canada, as follows:

Daniel Davis, a coal miner, aged 23, of Shoresville, O., lost his life in the rescue of his brother-in-law, William Monroe. For his heroic the commission awarded him a silver medal.

Wade H. Plummer, aged 15, on May 7, 1904, on Lynch river, near Lamar, S. C., saved a companion, John M. Gibson, aged 19, from drowning after a desperate struggle. The commission awarded him a silver medal.

A silver medal was awarded to Michael A. Doyle, a ship laborer, aged 31, of Quebec, for rescuing Miss Charlotte L. De Kather, aged 15, a student, who attempted suicide by jumping into the St. Lawrence river on April 23, 1904.

Miss Maud Titus, aged 16, a student of Newark, N. J., was awarded a silver medal in recognition of her action in saving from drowning Miss Laura E. Hattisnyder, aged 27, a music teacher of East Orange, N. J.

Mrs. Sadie L. Crabbe, aged 33, of Coopers Landing, Va., lost her life on Sept. 11, 1905, while attempting to save from drowning a young child, aged 19. Mrs. Crabbe is survived by her husband, Charles, a son, aged 9, and three small daughters. The family is very poor. The commission awarded a bronze medal and appropriated \$1,000 to be expended by the executive committee as it thinks best for the children.

Miss Anna Margaret Cunningham, aged 29, a nurse at the Savannah hospital, Savannah, Ga., was awarded a bronze medal for her part in the attempt to save from drowning on May 26, 1905, Walker Cutts, aged 21, an attorney of Savannah.

The commission awarded a bronze medal to William C. Brune, aged 17, a laborer, of Sandusky, O., for saving from drowning George P. Pfanner, aged 9, on July 7, 1904.

George E. Russell, aged 24, a ship fitter of Groton, Conn., was awarded a bronze medal for saving the lives of three persons who on April 19, 1905, were thrown into a mill pond by the horse attached to their vehicle going over the bank.

Arthur J. Gottschalk, aged 24, a storekeeper of Lancaster, N. Y., was awarded a bronze medal for saving the life of Mrs. Joseph Webster, aged 35, of Deerpark, Mass., who was thrown into the water by a horse at Crystal Beach pier at Berlin, Westland county, Ontario, Canada, on July 6, 1904.

LATE SIR HENRY IRVING TO BE INTERRED IN WESTMINSTER

London, Oct. 16.—The dean of Westminster, the Very Rev. Joseph Westgate, announced this evening having received a request signed by leading members of the dramatic profession and other persons of distinction, he intended to the interment of the body of Sir Henry Irving in Westminster abbey.

Baroness Burdett-Coutts, who for many years had been a friend of Sir Henry, besides signing the request, has offered to place her house in Stratton street, Piccadilly, at the disposal of the Irving family on the day of the funeral, owing to the inconvenience of starting the funeral procession from the apartments which had been occupied by Sir Henry. These apartments are at the other end of Stratton street, where there is no opening.

Condolences continue to come from all parts of the world. The latest to be received today was from the Prince and Princess of Wales and from the directors of the Imperial theater at St. Petersburg. The leading actors and managers, at a meeting here this afternoon, decided to follow the coffin on foot. The nature of the memorial to Sir Henry will be the subject of another meeting.

NEW SWEDISH FLAG.

It Will Be a Yellow Cross on Blue Ground.

Stockholm, Sweden, Oct. 16.—The union between Norway and Sweden, existing since 1814, has been dissolved, both houses of the riksdag having passed the resolution to that effect. The act of state and recognizing the union as a state separate from Norway with Sweden.

The lower house adopted the bill without debate, but two or three members of the senate expressed the opinion that the dissolution was not from the desire of the union, but from the desire of the state to separate from Norway with Sweden.

Both houses subsequently passed the new flag law. The flag will be a yellow cross on a blue ground, the same as existed prior to 1814, the union with Norway showing in the upper left corner being eliminated.

CIVIL SERVICE ORDER.

Govt. Employees Must Not Instruct Applicants for Examination.

Washington, Oct. 16.—The president today, through the state department, published an executive order of consequence to every employee in the civil service of the United States. No explanation of the order or the reasons for its issuance is given. The order is as follows: "No officer or employee of the government shall directly or indirectly instruct or be concerned in any manner in the instruction of any person or class of persons with a view to their special preparation for the examination for the United States civil service commission."

"Theodore Roosevelt."

The Musurgia Admits Women.

New York, Oct. 17.—After existing for 22 years aloof from femininity, the Musurgia, one of New York's oldest and most famous male singing societies, last night admitted women singers. At its first rehearsal of the season, in preparation for its first concert on Dec. 8, a female chorus sang with the men, the selections from the repertoire of the society, which will take up the second part of the program. Although the male chorus will be preserved and will be heard, it is probable that the Musurgia will never again declare its independence of women.

FREE PILE CURE.

Instant Relief, And a Quick, Painless Cure by the Marvelous Pyramid Pile Remedy.

A Trial Treatment, Just to Prove It, Is Sent Free to Every One Who Sends Their Name and Address.

We are sending out thousands of treatments of Pyramid Pile Cure, absolutely free and at our own expense, to sufferers of piles, because we have such absolute confidence in it, and its past success has proven its wonderful virtue. It stops congestion, restores normal circulation, heats sores, ulcers and irritated spots with great rapidity, and cures the CAUSE of piles without fail, in every case.

No surgical operation is necessary for the cure of piles, because Pyramid Pile Cure will cure without cutting. An operation makes matters worse, leading to pieces the delicate muscles which are relied upon for a satisfactory and permanent cure.

Pyramid Pile Cure is put up in the form of suppositories, easy to use, and applied directly to the affected parts.

It requires but a small amount of treatment, as a rule, to produce a cure. It directions are carefully followed.

After you have tried the trial treatment and found it satisfactory, as you will, you can get a regular-size package of Pyramid Pile Cure at your druggist's for 50 cents. If your druggist hasn't it, send us the money and we will forward you the treatment.

Send your name and address for the trial treatment, in sealed plain wrapper, on receipt of your name and address. Pyramid Pile Cure, 327 Pyramid Building, Marshall, Mich.

GEN. A. R. CHAFFEE AGAIN AT DESK IN WAR DEPARTMENT

Speaks in High Terms of French Army—Surprised at Cheerfulness of the Conscripted Soldiers.

Washington, Oct. 16.—Lieut.-Gen. Adna R. Chaffee, chief of staff of the War Department, resumed his duties in the War Department today after an absence of several weeks in Europe, where he went to attend the maneuvers of the French army. In speaking of the maneuvers today Gen. Chaffee said that these were the best French troops he had seen in Europe.

The French army, Gen. Chaffee said, is a conscripted army, all citizens being subject to military duty for a certain time. In these circumstances he was surprised at the cheerfulness manifested by the entire army. They had to work hard, too, being called out as early as 3 and 4 o'clock in the morning and being on duty until 1 o'clock in the afternoon. After that a large portion of the troops were obliged to march as far as 18 miles to the towns or villages where they were billeted.

Billeting of troops is something that is entirely unknown in the United States, but it is the system in France. Every town and village within a radius of more than 15 miles of the maneuvers had troops billeted upon them. The officers of the quartermaster's department go into towns and placard the different houses, showing that so many men of such company and regiment are to be located on the premises. Quarters must be found on such premises for the men, where they can sleep and eat.

Gen. Chaffee remarked the small amount of sickness, and even under the hard strain of marching there was little trouble with sore feet, which so often afflict other troops.

The French army, he said, has not

adopted the khaki uniform; they continue to wear showy uniforms that have been in vogue for many years. They look very smart and picturesque, but to the soldier they do not seem to present the solidity of the men in the uniform of the United States army. Gen. Chaffee denied the report that he had declined an invitation to dine with King Edward while in England, saying he had not received such a one.

Engineer Breaks His Arm.

Boise, Ida., Oct. 16.—A peculiar accident occurred in the Boise railroad yards this afternoon. A switch engine bumped into the rear of a passenger train. The bolt threw Engineer C. E. Hockman off his seat in the cab of the passenger engine and caused him to break one of his arms.

BRITISH OFFICERS CAPTURED

Were Returning to Ceuta When Carried Off by Tribesmen.

Tangier, Morocco, Oct. 17.—Two British marine officers have been captured and carried off by the Anjara tribe while returning to Ceuta from the British repair ship Assistance, recently wrecked in Tetuan bay.

An Associated Press dispatch from Gibraltar under date of Oct. 12 reported the Assistance ashore in Tetuan bay. Moroccan and Arab warriors, stammers and lighters had gone to the aid of the vessel, which owing to a heavy gale was in danger of going to pieces. The scene of the wreck is about 50 miles south of Gibraltar.

Ceuta, to which poles the British officers were returning when captured, is a small town on a small peninsula in the north of Morocco, lying just into the Mediterranean sea at the entrance to the Strait of Gibraltar. The Anjara, an Arab tribe, inhabit the extreme north of Morocco.

STEPHEN F. GALE DEAD.

He Was One of the Oldest Settlers in Chicago.

Chicago, Oct. 17.—Stephen Francis Gale, one of the oldest settlers in Chicago, died yesterday at the age of 84.

Mr. Gale came to Chicago from Boston in 1833 and opened a book and stationery store. He is remembered by old timers chiefly for his connection with the "Red Jacket" club, one of the early fire fighting brigades, for his successful administration of the entire department from 1841 to 1847, and for his promotion of the Gale and Chicago Union railroad, which subsequently became the Chicago, Burlington & Quincy.

In 1859 he published "Gale's Statistics," the first publication published in Illinois by a native-born citizen. He was also mayor of Chicago in 1848, but declined to run.

ALIVE BUT UNCONSCIOUS.

Girl Found With Three Bullet Wounds in Her Neck.

New York, Oct. 17.—A woman apparently about 25 or 30 years of age was found in the wagon sheds of a brewing company, in the rear of Fulton avenue, the Bronx, last night. She was alive but unconscious. There were three bullet wounds in her neck, two on the right side directly below the ear and the other on the left side. At the hospital where she was taken, it was said that there was no chance of her recovery.

When found she lay between two big brewery trucks. Five feet away were found a 32-caliber revolver with three chambers empty, a pocket book and an empty bottle half full of carbolic acid. She had taken none of the acid.

The woman was neatly dressed. In the pocketbook were \$2.15, a trunk key, a pair of white silk gloves and this note in German, addressed to a man: "I hope you will get your debts. I always was a decent girl. I pray God will forgive me and punish you. Please bury me in the poor cemetery. Make no attempt to find my relatives."

Th police are puzzled to know how all the wounds could have been self inflicted if, as the note indicated, the woman attempted suicide.

A Prominent Trainman.

The many friends of G. H. Hausan, Engineer L. E. & W. R. H. at present living in Lima, O., will be pleased to know of his recovery from threatened kidney disease. He says: "I was cured by using Foley's Kidney Cure, which I recommend to all, especially to trainmen, who are usually similarly afflicted." Sold by F. J. Hill Drug Co.
