Gillet's Washing Chrystal makes Washing easy, removes all stains, and BLUES THE CLOTHES at the same time. Ask your Grocer for it, everybody. d298-10:2aw w41-8

Gillet's Flavoring Extracts are known to the Trade, from Chicago to the Pacific. All Grocers and Druggists keep them.

Dooley's Chemical Yeast Baking Powder is the only reliable baking powder in market. The ingredients entering into its composition are CHEMICALLY PURE, and so carefully combined that it never fails to make LIGHT, SWEET and nutritious biscuits, rolls, cakes, pastry, &c., of all varieties with uniform success. It is the cheapest to the consumers, as it requires from one-third to a half less than those of ordinary manufacture. For sale by grocers generally.

BURNETT'S COCAINE beautifies the hair and promotes its healthy vigorous growth. THE FASHIONABLE public assert Burnett's Florimel to be a delightful perfume.

THE LADIES.—Professor Blot, who is good authority, says: "Great care should be used in selecting genuine Flavoring Extracts, and Burnett's are the purest and the best."

BURNETT'S KALLISTON is adapted to an unhealthy and blemished skin.

A RELIABLE REMEDY is at hand in Whitcomb's Remedy for Asthma.

ONE friend informs the other of what benefit the Red Jacket Bitters are and have been to him, and thus the reputation of this great family medicine is constantly increasing.

ANNIE WARD AT OMAHA.—This popular Comedienne made her appearance last night at the Omaha Theatre in "Fanchon the Cricket."

INDIANS FIGHTING AT YELLOWSTONE.—Colonel Brackett, of the second U. S. Cavalry, stationed at Fort Ellis, Ma., recently paid a visit to the Indian Agency at the Yellowstone, to witness the distribution of the annuities, and gives the following items of Indian news to the Montana Gazette of the 5th instant:

"The Crows had a fight with the Cheyennes, in the Sioux country, in which the Crows were victorious. They killed six Cheyenne adults, and captured four young ones. These they tortured in a barbarous manner, first cutting off their hands and feet, and finally killing them. One Crow was badly wounded and afterwards died. The daughter of 'Iron Bull,' a principal chief, also died at the Agency and her body was wrapped up in furs and placed upon the scaffold with great pomp. Over her and the warrior who died from his wounds the camp is in a general state of mourning; black paint is bedaubed on every hideous face, gashes are being cut with knives, and enough hair has been torn out by the handful to furnish a New York belle with chignons for a lifetime. There are about 3,500 Mountain Crows at the Agency, encamped on Boulder Creek; and a great many of the River Crows encamped a short distance below. After some difficulty about the character of the goods, the annuities were all distributed. The Crows had a very successful Fall hunt and there is over 6,000 buffalo robes in their camp, which is bountifully stocked with buffalo meat. The buffalo now are ranging within twenty-five miles of the Agency; and the Indians will go after them again as soon as the annuities are disposed of. 'Tendoy's' band of Bannacks who have been hunting with the Crows are now encamped at Fort Ellis."

THE MUSEUM AND MENAGERIE.—We were very much pleased in visiting the home museum of John W. Young Esq. That gentleman has already formed a very fine nucleus for an excellent museum; and every means is being taken to augment and enrich the collection of objects, either by purchase or contribution. The proprietor is taking measures to supply his menagerie with a complete collection of birds and animals indigenous to this region. Residents of remote parts of the country, where rare specimens of wild animals and birds are more plentiful than in this immediate locality, will confer a great favor on Mr. Young, and render material aid in furthering the object he has in view, by securing such specimens as may come within their reach and forwarding them to him.

The latest addition to the menagerie was made to-day. It is a very beautiful specimen of the black-tailed deer, captured in Montana, and presented to the institution by J. Gimer, Esq., of the Gilmer and Salisbury stage line.

We think the day is not far distant when, if this matter is persevered in, we shall have a fine zoological collection and a very excellent museum.

FROM WEDNESDAY'S DAILY.

AUTHENTIC MAPS.—We received a call this morning from B. A. M. Froiseth, Esq., principal draughtsman in the office of the Surveyor General in this city. He showed us some very fine photographs, by our fellow citizen, Edward Martin, Esq., of maps, taken from the latest official surveys of this Territory, the originals being the work of Mr. Froiseth himself. They comprise a map of the Territory of Utah, one of the Salt Lake Valley—from a point a little to the south of Lehi, to the northern boundary of the Territory, and a plat of Salt Lake City, with references to its principal public places and its Bishop's Wards marked and numbered. Mr. Froiseth has issued two editions of this map, the larger ones suitable for framing, which are sold at fifty cents each, and the smaller ones adapted for insertion in a photographic album or for sending "across the continent," in a letter. The smaller ones are sold for twenty-five cents each. Both kinds may be obtained in this city, of Messrs. Calder & Bro., at the Railroad News Depot, or at S. G. Reed's news depot in First South Street. Their accuracy, artistic finish, and cheapness, should be inducements to all who desire to add authentic maps of the land they live in to their collections.

ENTERPRISING.—We understand our enterprising oyster dealer, J. M. Simmons, has opened a branch saloon at Ogden City, Main street, where, no doubt, the great public can procure fresh oysters in any style their palates desire. Success to him.

NEWS FROM THE EASTERN MISSION.—Elder C. V. Spencer, who is now in Berkshire Co., Mass., informs us by letter that the amount of prejudice displayed by the people of that region against the Latter-day work is very great. But few opportunities to preach in public can be obtained. Brother Spencer is therefore under the

necessity of doing most of his preaching by the fireside. He feels well and expresses a determination to do all in his power to disseminate the principles of truth while on his mission.

BEWARE OF HIM.—Brother Ruse R. Lewellyn, of Fountain Green, San Pete, writes us under date of the 13th inst. He states that a person named Wm. H. Shifflett had absconded from that place a few days since taking with him considerable property—including the clothes he wore at the time he left, belonging to different people.

It appears from brother Lewellyn's letter that Shifflett came from the Eastern States about a year ago, in a state of poverty. The good people of Fountain Green took compassion on him and helped him considerably. In return for their kindness he has carried on a regular system of dishonesty by fleecing them at every opportunity that presented itself. He pretends to be a good Latter-day Saint, but has been cut off from the church. He is described as being about five feet nine inches in height, of dark complexion, cross eyed, and lacks one of his upper front teeth. The citizens of Fountain Green would like to know of his whereabouts and wish to warn the public against having any dealings with him.

NEW HAMPSHIRE.—Brother A. H. Raleigh, writing from Millford, N. H., says:

"I have been received with kindness and courtesy wherever I have been, and find a spirit of inquiry existing amongst the people in regard to the principles of 'Mormonism.' Though many enquire, there seems to be few who desire to relinquish the pleasures and gains of the world."

Bishop Raleigh is in good health and requests his friends to address him at Concord, N. H.

A NARROW ESCAPE.—The San Francisco Morning Call, of the 8th inst. says that "on the previous morning a discharged soldier, named E. J. Robinson, fell from the roof of the St. Nicholas hotel to the roof of an adjoining building, thirty-five feet below, without breaking a bone, injuring himself or receiving a scratch."

HORSE STEALING.—The following, per Deseret Telegraph line, was received last evening:

Fillmore, Dec. 14.

Last night one hundred head of horses were driven off the range east of Little Creek, in Parowan Valley, and taken up the same canyon. Eight men started from Paragonah under S. S. Barton, striking their trail in the canyon, and have been following since. Another company, under Edward Dalton, has just started.

FROM THURSDAY'S DAILY.

THE UTAH CENTRAL.—We learn that seven carloads of iron have reached Farmington, and five more are expected there to-day. Tracklaying, however, will not recommence until enough iron is on hand to finish the road as far as Bountiful, when active operations will at once become the order of the day.

GOOD NEWS FROM BOX ELDER.—Our esteemed correspondent, A. C., writing from Brigham City on the 13th instant, says:

"A few days since President L. Snow, Counselor L. Smith and Bishop Nichols located a place for the erection of a woolen factory on the Box Elder, about one-sixth of a mile above the old grist mill. Its dimensions are to be 35 by 86 feet; it will be two stories high, one built of rock, the other of adobe. Our lumbermen, carpenters and rock-haulers are engaging for extensive work during the winter. It is to be conducted on the principle of co-operation, as also is the tannery which is now finished and supplying the market with leather.

The stockholders of the Co-operative Mercantile Institution (one hundred in number) had a pleasant meeting last Tuesday, it being the fourth anniversary of its existence. The reports were very favorable; the capital stock now amounts to \$35,000.

The people here have been uncommonly busy this season and have made many substantial improvements. Union and fine feeling seem to be prevalent, and no attention or thought is bestowed upon schisms or isms; they are beneath our notice. As recreations we have performances at our theatre and interesting social parties."

LONG ISLAND.—Through a letter from Elder F. A. Hammond, dated Patchogue, Long Island, where he is at present staying, we learn that he is actively engaged in spreading the truths of the gospel to the benighted in those parts. Though meeting with much prejudice and ignorance regarding the great Latter-day work, he believes he is doing good, and had the privilege a few days before he wrote of address-

ing a large congregation in that place. The doctrine of plurality of wives is the subject *par excellence*, that the folks wish to hear about, but are indifferent to all other principles of the gospel.

FROM THE GREAT SALT LAKE TO THE COLUMBIA.—The Omaha Herald in its editorial of the 12th inst. makes the following allusions to the enterprise lately brought before Congress, of a telegraphic line from the Great Salt Lake to the Columbia River, Oregon:

"Senator Williams of Oregon has introduced a bill to aid in the construction of a telegraph line from some point on the Columbia River to the Great Salt Lake.

This is a movement which is undoubtedly intended as a forerunner of the Puget's Sound branch of the Union Pacific Railroad as surveyed and advocated by General G. M. Dodge, chief engineer of the national highway. It should receive the undivided support of the Central States of the West as among the most important enterprises which has ever been brought to the attention of Congress."

LECTURE.—The first lecture of the season, under the auspices of President Joseph Young, was delivered at the Seventies' Hall, last evening to a select audience, who gathered by invitation. The lecturer was Elder H. W. Naisbitt, and his subject was a review of the censorship of the press and of places of amusement, as exercised in Britain, France and other parts of the world, contrasted with the liberty—so often degenerating into unbridled license—given to the newspaper and theatrical world in this nation. Presidents Joseph and Brigham Young made instructive remarks after the lecture.

The re-union was an exceedingly interesting one, the pleasures of which were much enhanced by the sweet singing of the Twentieth Ward Choir. We look forward to many pleasurable and instructive meetings in the Seventies' Hall this winter before the series is through.

AYER'S SARSAPARILLA

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such numbers, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism, undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection through the body, and then, on some favorable occasion, rapidly develop, into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may suddenly be deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this **SARSAPARILLA** is advisable. Persons afflicted with the following complaints, generally find immediate relief and, at length, cure, by the use of this **SARSAPARILLA**: St. Anthony's Fire, Rose, or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver and Jaundice, when arising, as they often do, from the ranking poisons in the blood.

This **SARSAPARILLA** is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.
