PROJECTING STOVEPIPES.

THE attention of the public is called to the following extracts from "An ordinance establishing Fire Limits, and for the prevention of Fires," passed November 30th, 1875—

SEC. 8. "The owners of all buildings within the limits of this city wherein fire is kept are hereby required to build flues or chimneys of brick or adobie in said buildings; and from and after the passage of this ordinance it shall be unlawful to project any stovepipe through through the roof or out of the side of any building; and on or before the FIRST DAY OF MARCH, A. D. 1876, ALL STOVEPIPES NOW IN USE PROJECTING THROUGH THE ROOF OR OUT OF THE SIDE OF ANY BUILDING SHALL BE REMOVED BY THE OWNER THEREOF."

* * * * * *

SEC. 10. Any person violating or failing to comply with any of the provisions of the last three sections (7th, 8th and 9th) of this ordinance, shall be liable to a fine not to exceed fifty dollars, and a further sum of five dollars for every day that any stovepipe is permitted to remain through the roof or out of the side of any building, after the first day of March, A. D., 1876.

Published by authority this 24th day of February, 1876.

TO THE BISHOPS AND PRESIDING ELDERS IN ALL THE SETTLEMENTS OF THE LATTER-DAY SAINTS.

DEAR BRETHREN: It is our desire to commence again to assist the scattered poor of God's people in gathering to Zion. To aid in the accomplishment of this purpose we request the Bishops and Presiding Elders in the various settlements to give especial attention to the collection of the debts due to the Perpetual Emigration Fund from those who have been assisted in past years. In view of the near approach of the season of the year when our emigration leaves the shores of Europe, we desire that our brethren give this matter their immediate attention, that we may be enabled to do as much good as possible this present year.

It is the duty of all the Saints who have the means to assist in the gathering of these of their brethren and sisters who are still scattered in Babylon, and we should be pleased to have the local authorities solicit donations from those who are not in debt to the P. E. Fund, and who are able and willing to do their part for the gathering of scattered Israel.

Your Brethren,
BRIGHAM YOUNG,
DANIEL H. WELLS

Accident.—On Saturday a lad, about fifteen years old, in the employ of Brother Joseph Toronto, had his leg broken a short distance below the knee, by being kicked by a wild horse. The accident occurred at the Point of the Mountain west, and the unfortunate youth was placed on the Utah Western eastbound train and conveyed to this city. He lies at the residence of Mr. Toronto, where the limb was set by Dr. Benedict, and the patient is progressing favorably.

Going South.—Brother William D. Johnson, who has been, for some time, assisting Prof. Jos. L. Barfoot in the management of the Deseret Museum, will leave this city for his southern home at Kanab, his services in the educational interests and surveying being needed in Kane county.

During his connection with the Museum Bro. Johnson has manifested a keen interest in the development of science, and rendered himself very useful, besides, by his courteous and gentlemanly manners, making himself numerous friends during his stay in the city.

Graded School Entertainment.—A crowded house witnessed the public exercises given by Miss M. E. Cook's school, in the Social Hall, on Saturday evening. It opened with a song, "Come join our festive glee," by the girls, then followed the "Salutatory," delivered by Miss Kittie Heywood, the substance of which was that the school had been frequently solicited to give general exercises, and feeling keenly the want of Bancroft's History of the United States, as well as other standard works on history as reference books, in their researches, they decided, upon short notice, to make the effort, with a view of securing those works for the benefit of the school, and it was hoped that all defects would be viewed through the "spectacles of charity."

The exercises consisted of songs, instrumental music, select reading, declamations, essays and *tableaux*, the latter being the feature of the evening, notwithstanding all the other parts were excellently rendered, as follows—

First—Tableau, a pyramid, formed of young girls, representing "Purity and Innocence."

Second—Pyramid of boys, representing "Strength and Self-reliance."

Third—"Under the Teacher's Eye," composed of young boys between five and ten years old, which was changed in the twinkling of an eye to "From Under the Teacher's Eye," and the contrast is better imagined than described.

Fourth—"The Girls of the Period;" there was a volume in this *tableau* of itself, showing the girl of 1776, with her old-fashioned wheel, spinning the flax, looking as plump and jolly and as happy as the lark, while on the opposite side was the girl of 1876, delicate looking, reclining at ease on a lounge, with a novel in one hand and a poodle in the other.

Fourth.—The "Rock of Ages" which was well rendered.

The *Sixth*, last and crowning *tableau* was the "Art Gallery," in which was represented the statue of "Ceres" (myth) the "Daughter of Saturn and Ops," the "Goddess of Corn and Tillage," with "Sir Walter Raleigh" on her left, "The Better Land" on the right. In front of them were the busts of General George Washington and his consort, on their right was the little "Evangeline," on their left the three "Children of Longfellow," and a cherub in the centre.

Such an interesting, well manipulated and tasteful entertainment will bear being repeated.

Southern Mines.—Brother Ashton Nebeker, Sheriff of Kane County, is in town. He brought with him four tons of ore from a mine owned jointly by S. Bagley and M. E. Willis, and situated four and a half miles south-west from Tokerville. He has not yet received the result of the assay, but it is expected it will run as high as $700 a ton. A new vein of ore, two and a half feet thick, has been struck in the same mine lately. About a dozen other claims have been located and are being developed in the same vicinity, in the Hamisburg District, where mining excitement at present runs high, there being not a few prospective millionaires around.

Come to Stay.—On Saturday afternoon we had a visit from our old friend, Dr. Munro, who has so far closed up his business in San Francisco as to come to this city to prepare to open the Warm Springs Baths, which he has leased from the, City on or about the 1st of March.

The Doctor and his amiable lady bring with them an extensive knowlege of the business in which they will engage at the Warm Springs, and which will enable them to make the baths there a general objective point for many visitors to the city as well as for a large proportion of the resident population. It will be but a short time before the premises will be so arranged and fitted up as to enable the proprietor to give to the public any kind of bath desired. These facilities, combined with the medicinal properties possessed by the waters of those springs, owing to the mineral held in solution, should, under the experienced direction of Dr. Munro, make them a success.

Mrs. Munro remains in San Francisco a short time longer, to complete the closing of the business there.

Second Number.—We have before us the second number of the current volume of the *Juvenile Instructor*, which is, as usual with that valuable periodical, full of excellent, judiciously written and selected reading matter. It opens with an illustrated article on "Lion Hunting in Algiers," and in addition to the various papers continued from the previous number there are "Editorial Thoughts," "Japanese Customs," nicely illustrated, "Our Railroads," "Handel," "Parrots," illustrated, music and a variety of selected matter.

The Arizona Missionaries.—We are enabled to publish the following—

"KANAB, Feb. 28, 1876.

"*President B. Young:*

"Lot Smith, with thirty-one wagons, arrived at Orderville on Friday. He started back this morning, with brethren and teams from Long Valley, to meet fifty wagons in the snow, at Asay's ranch and the divide; none have arrived yet.

"L. J. NUTTALL."

Theatre.—Mr. John S. Lindsay's complimentary farewell benefit, on Wednesday evening, all theatre going people will remember, and not forget the liberal and varied programme.

British Mission.—The Birmingham (Eng.) *Daily Mail* of Feb. 7, contains an apparently fair account of an address delivered the day previous (Sunday), by Elder Edward Hanham, in the Latter-day Saints Chapel, Farm Street, Hockley.

A Racy Card.—In another part of the paper we publish a peculiar card, emanating from a section of the republicans of this City, for the reason that it shows, with considerable fidelity, the character and doings of the parties to whom it relates equally as well as it could be done outside of their own description.

TEA DRINKING.—The *Food and Fuel Reformer*, an English paper, says—

"It is on women that the evil effects of tea drinking fall with the greatest weight. How many women, who think they cannot get along a single day without tea, owe to it their cold feet and hands, their liability to frequent colds, their peculiar difficulties, especially their weakening ones, and their habitual loss of appetite, rendering them a prey to 'dinner pills,' or the absurdities termed 'strengthening medicines,' so long in vogue. No wonder tea drinkers are so frequently small eaters, when their tea has gradually destroyed their appetite! But perhaps the worst use to which tea is applied by women is the practice of drinking copiously of warm tea during pregnancy, with the idea that it will render their milk abundant. A most unfounded, absurd and disastrous practice. It is alike injurious to the mother and her offspring; and it may originate the hereditary diseases of successive generations—far beyond the third and fourth. According to Dr. William Alcott, one cause of a scrofulous constitution, by inheritance, is to be found in the use of tea by ancestors, and he reasons out the matter on sound physiological principles, observing that whatever weakens the nerves—especially those of the stomach—in a mother, is sure to entail a tendency to disease on her offspring, which will not unfrequently prove to be scrofula, or that dismal and universal disease—tuberculous consumption."

In its effects, and most useful in its application, the fragrant SOZODONT has become the most popular Dentrifice in existence. 'Tis used and praised by everybody.

THE MORNING COURIER.

Recent political events strongly indicate a speedy return of the Democratic party to supreme power in the nation. The House of Representatives is now Democratic by a large majority; the government of more than one half of the States is administered by Democrats; the party action upon the Presidential contest will be the lightest known, and under the most substantial encouragement.

The wonderful revelations of venality and corruption on the part of Republican leaders, which have burdened the press and horrified the people during the past three years, make it clearly the duty of every man to take an active part in the great contest of the present year. More than at any previous time in the history of the country, a trustworthy daily newspaper is now necessary to every citizen, in order that he may intelligently discharge his political duties. THE CHICAGO MORNING COURIER is a consistent Democratic newspaper. It will be devoted to the work of aiding in rescuing the nation from its present peril, that has reached its serious aspect in pressure and continued in duration. It will advocate a speedy return to sound principles, believing that this result should be brought about by economical management of the Government, and not by the imposition of burdens of taxation in proportion to property, and the same currency for the rich and the poor. It will advocate Home Rule, Free Trade and Public Economy, the old cardinal principles of the Democratic party.

The Courier has attained a widespread reputation as a first class newspaper. The aim of its management is to make it all that the public in these hurrying days can desire, a complete newspaper. Every facility known to modern journalism will be utilized to insure the prompt presentation of all important intelligence from all parts of the world. Special correspondents will be employed to glean only such as is worth printing. In short, The Courier will give all the news as promptly as any newspaper, and will present it in a more attractive and readable form than the blank sheets.

Terms—Mail subscriptions, postage free, six dollars per annum, or fifty cents per month, in advance.

THE WEEKLY COURIER

Has a large circulation in every western State and Territory. It is our claim that the Weekly Courier is the best family paper in the West, and we shall continue to give in its columns a large amount of miscellaneous reading matter. It opens with tales, poems, scientific intelligence and agricultural information for which we are now making arrangements for the early publication of a series of articles, one of its prominent features. The fashions are also regularly reported in its columns, and so are the markets of every kind. Terms—$1.50 per annum.

NOTICE.

HAVING this day purchased and taken possession of the Utah Cracker Manufactory, lately owned by Henry Brunton, we would respectfully announce to the purchasers and consumers of Crackers in Salt Lake City and vicinity, that we shall continue the business at the old stand, and in the course of a few weeks will add the latest improved machinery, together with Steam Power, Revolving Oven and appurtenances for running a first-class Steam Cracker Manufactory, capable of producing as good goods as those imported from the East or San Francisco. Send in your orders and they will receive prompt attention. REDDALL & DARLING,
Proprietors,
Utah Steam Cracker Manufactory.
