

FLUORATING FRAGMENTS.

The air has been somewhat cooler today.

Hon. George Q. Cannon reached home last night.

Bishop George W. Ward, of Willard, died this morning.

Meeting of the High Council of Salt Lake Stake, to-night, at the Council House.

A couple of valuable mares were stolen from Mr. Alma Pratt's pasture last night.

On Tuesday a purse containing between \$10 and \$15 was lost near the Council House. A reward is offered for it. See advt.

The new caps of the Union Pacific locomotives will be like those of the locomotives on the Kansas division, which have been uniformed for some years.

The last cargo of foreign slaves for the Utah market leaves Liverpool on the 20th of next month, according to the *London Times*. The writer of that article must have been imported with a cargo of foreign lunatics.

Mr. William B. Barton has returned from a tour through the settlements of Sanpete and Sevier valleys, in the business interest of Mr. C. F. Teasdel. The trip was profitable as well as profitable.

E. Brown, last Saturday, was driving six horses on Front street, and he was so much of a driver as to hit his eye, out of which he is unable to see. Brown is a partner from Ogden, and he is driving a team on the railroad grade. — *Montana Association.*

LOCAL AND OTHER MATTERS.

NOTICE.

TO MEMBERS OF ZION'S CAMP.

We take any surviving members of Zion's Camp, who may have any papers written concerning the history of that Camp, or who, from memory, can relate any incidents concerning the travels of that company, that they would forward the same to us at the Historian's Office, for future history.

W. WOODRUFF.

Information Wanted.

The whereabouts of Mary Stevenson, or any of her family, who emigrated to Utah from the Derby Conference about the year 1861 or 1862—Address: Fanny Vickers, Little Eaton, Derbyshire, England.

Train Late.

In consequence of an accident on the U. P. R. the west bound train was two and a half hours late yesterday. The U. C. R. R. train waited for it, and did not reach this city till between ten and eleven last night.

Going North.

Brother James Woodruff, editor and publisher of *Mormonism*, is about to start on a trip through the northern settlements, in the interest of that magazine. He will take in Bear Lake valley in his tour. Success.

Death of Bishop Ward.

By dispatch from Brigham City we learn that Bishop George W. Ward, of Willard, Box Elder County, died at 10 a. m. to-day. Bishop Ward was the reputation of being a most exemplary upright man. He was one of Utah's old and valued citizens.

Home.

Last night Hon. George Q. Cannon arrived from Washington. He was met at Ogden by a party of friends, by whom he was escorted to the city. Mr. Cannon was accompanied by Mr. John R. Smith, who has been at the capital some time acting in the capacity of private secretary to Mr. Cannon.

Matrimonial.

In this city, Aug. 13, 1902, Mr. T. A. Smith, son of Thos. F. Smith, and Miss Ellen E. McGregor, daughter of Wm. C. McGregor, Esq., of PAROVAN, Salt County, were united in wedlock, President D. H. Wells performing the ceremony. We wish them all the joys that a well begun career can give.

Hand Mashed.

Yesterday Alfred Revery, an employee of the Salt Lake Railway, on the Tenth Ward road, met with quite a severe mishap. An eight gallon keg of beer fell upon the back of his left hand, inflicting a deep cut and breaking some of the bones. The palm of the hand was also by the violence of the blow, badly bruised and cut, or rather mashed.

Hand Hurt.

On Tuesday a three-year old girl of Mr. T. H. Howard, of Kayville, while playing in the yard, climbed on to the top of an outhouse, seizing with both hands a pole which was on the building. She then began to roll down, forcing the child with it. She still clung to the timber which came in abrupt contact with a board, jamming the two middle fingers of the right hand between them. The right hand being in a frightful manner. — *Ogden Herald.*

Horse Stealing.

Last night two mares were stolen from the pasture of Mr. Alma Pratt, a few miles south of the city. One was a buggy animal; a large dark bay with black legs, and quarter cracks on her feet. The other was a light bay racer, branded F on left shoulder, one foot white. Mr. Pratt offers a reward of one hundred dollars for the recovery of the animals and conviction of the thieves.

A Serious Smash.

In consequence of an accident at Ogden this morning, the train from that town was about two hours late. It appears the Utah Central train had run on to the Y, when the throttle of an engine of the Central Pacific road flew open, causing the engineer to lose control of his horse. The C. P. engine dashed along the line at a high rate of speed, and struck the rear end of the Utah Central train. The consequences of the crash was that the platform of the U. C. cars were wrecked and the frame of the engine tender badly injured. The damage by the collision is roughly estimated at nearly a thousand dollars. Fortunately there were no passengers aboard at the time and nobody was hurt.

Technological Institutions.

As the vacation of the University of Deseret closes this week, that very useful institution will re-open on Monday next. It is an ably conducted educational establishment, and is prolific of a great deal of good in the community. It is necessarily progressive, and with the advance of time will increase its facilities for affording the students a finished education in the various branches of knowledge.

There is one branch of education that has of late been receiving much more attention in the United States than formerly. It is a specialty to which England owes a great deal of her advancement in mechanics and manufactures. We refer to instruction in applied science. A course in this technological department of education is a necessity to prepare the proper kind of men to conduct intelligently, scientifically any important industrial enterprise, mechanical, agricultural or mining. In fact it is a class of knowledge that it would be of great use even to the operatives in these lines of business to possess; especially so perhaps in mechanical engineering.

Utah is a great and growing country, of extraordinary resources. A knowledge of applied science is necessary to insure its proper and speedy development, and we therefore hope to see at an early time as practicable, a technological department instituted in the University. The student can obtain instruction in applied science at New Haven, the University of Pennsylvania, at Cornell University, N. Y.; University of Michigan, the Columbia School of Mines and a number of other places. Technological institutes are also being established in several of the large cities of the country.

Mission Matters.

The following are taken from the *Millennial Star* of July 1st:

A small company of Saints, 13 in number, arrived at Salt Lake City from Liverpool on the 22nd inst. by S. S. Arizona. Some of the former had been cruelly persecuted in their own country, having been driven from the city where they lived and forced to sleep outside upon the ground.

We deeply regret the occurrence of a sad and fatal accident, which took place at Holliston, on the 21st inst., by which Bro. John A. Benson, of 7, Derby Street, came to his death. He was assisting at some repairs of the Oldham Twist Cotton mill, when he fell from a scaffold two or three stories above the ground, and was so seriously injured that he died almost immediately.

Since the district meeting held at Derby, in the Nottingham Conference on May 28th, a spirit of inquiry has been manifested and a number of baptisms have been performed there, one of them on the night of the meeting. Since then a few strangers, among them two Christian ministers, have been attending the meetings of the Saints. One of the ministers and another convert were baptized on the 17th inst. by Brother John Lomax, our informant.

Cold-Hearted Abandonment.

Waldemar W. Rohde, recently of the 18th Ward of this city, has skipped the country. We learn that he sold his house, team, wagon and other things of value, amounting in all to about \$2,000, leaving a young wife, who shortly expected her first baby, destitute of all means for her support.

There was no apparent cause for his flight, as he was living on the best of terms with his wife and relatives. Any information of his whereabouts, and especially where he spent the night between the 16th and 17th insts., the night before he left—will be appreciated by P. O. Thompson, U. C. R. R. office, Salt Lake City.

Presentation.

Mr. David Yearley, who has been for a number of years manager of the retail dry goods department of Z. C. M. I., is about to engage in business on his own account. The employees of the institution who have labored under his supervision, on hearing of his intention to leave the position in which he had made himself deservedly popular, presented him with a handsome pitcher and goblet, accompanied by a suitable address, expressive of the respect and appreciation of the donors.

Street Car Incident.

Yesterday as a First Ward street car was passing the switch at the Benedict corner it jumped the track. The driver and a passenger got off and lifted it on. Just as they did so the brake flew off. The mules took this as the starting signal and away they went pursued by the driver, who caught on, but immediately fell. He pluckily kept his hold and was dragged some distance till the team was stopped by the before mentioned passenger.

Startling Storm.

The storm this afternoon was one of the most violent that ever visited this part of the country. For about half an hour hail and rain descended in blinding torrents, making shelter an actual necessity. Making Street was during this period, converted into a miniature river, the water rushing down in a stream averaging a foot in depth and ten or fifteen in width. It is feared the fruit crops in the neighborhood mentioned have been seriously injured, though but little damage was done here. — *Silver Reef Miner, Aug. 12.*

A Bad Business.

A shoemaker named Weiszel, residing in the 12th Ward, alleges that a Frenchman who has been living in his house has been guilty of gross and brutal conduct towards him (Weiszel's) little daughter. In consequence of Weiszel's allegation regarding the matter, the Frenchman, so he states, presented a pistol at his head. The case is likely to come up in the police court.

Bereavement.

In to-day's issue will be found a notice of the death of a little son of Brother and Sister Bassett, of Logan, Cache County. This is the fourth child the deeply bereaved parents have had to part with by the visitation of death. They have but one little three-year old boy remaining, out of a family of five. We tender them our sincere condolences.

Commissioners Coming.

The Utah Commissioners will arrive by the regular train to-night.

The following gentlemen went up to Ogden on a special car attached to the 3:40 train to meet the Commissioners at Ogden and escort them to this city: Hon. John S. Kimball, W. H. Hooper, Mayor Jennings, Hon. John T. Caine, P. S. Richards, Esq., Hon. W. N. Dunsberry. It is more than probable that Governor Murray, Secretary Thomas and other Federal officials also formed a portion of the party, a cordial invitation having been extended to them to do so.

The Hanlons.

A crowded house last evening witnessed the extraordinary performance by the Hanlons and company. The play "Le Voyage en Suisse" is an entertaining absurdity with a plot simple but connected, yet affording opportunities for the funniest, oddest and most remarkable situations and complications which have ever been presented on the Salt Lake stage. The Hanlons are really immense. Feats of agility and acrobatics are performed which must be seen to be believed. In addition to the startling surprises, astonishing and rapid maneuvers, entirely new devices and lightning movements, which the play abounds, and the pantomime and facial eccentricities introduced, there is some excellent character acting which is an attractive feature of the entertainment, and the singing and music incidental to it are lively and charming. Everything is done with a vim and a dash that keep up the excitement from beginning to end, and the machinery works to a charm. The overturned stage coach, the wrecked train, the dynamite explosion where one of the Hanlons falls head-first through a ceiling on to a table eighteen feet below, are some of the principal startling features of a performance that keeps an audience laughing and staring for two hours and a half. Go to-night and see something new and indescribable.

SPECIAL BUSINESS NOTICES.

THE Thirteenth District School will begin on Monday, the 21st inst. under the management of A. S. KENDALL.

SILK AND CLOTH DOLMANS.

Greatly Reduced at AUERBACH & BRO.

FOR GENTS

Fine Hand and Machine Sewed BOOTS and SHOES, go to DUNFORD'S.

Why submit to the discomfort

and humiliation entailed by a local disease of the skin, when GLENN'S SULPHUR SOAP will rid you of it with certainty and dispatch? It is a remedy which never fails to relieve cutaneous diseases, and as a means of banishing defects of the complexion, it is equally reliable. The benefits arising from the use of Sulphur Baths, in cases of skin diseases, and of rheumatism and gout, are well known; but the cost is too heavy to be incurred by many persons who would otherwise take advantage of them. GLENN'S SULPHUR SOAP answers the same purpose, and is both inexpensive and convenient. No one need stir abroad in search of a sulphur bath who has this admirable means of providing one in-doors. It is incomparably the best deodorizer and disinfectant of clothing and bed linen in use, and prevents diseases of an obnoxious nature caused by contact. Sores, ulcers, bruises, scalds, cuts, and sprains are promptly remedied by it, and its cleanly, healing and soothing properties constitute it a far more desirable remedy for scurfy ailments than ointments or any other preparation. Hence such compounds soil the clothing, often aggravate, and very rarely indeed do any permanent good. Sold by Druggists. Price 25c. per cake. 1 Doz. (5 cakes) 75c. sent by mail, prepaid, on receipt of price. C. N. CHRISTENSEN, Prop'r, New York.

HILL'S HAIR AND WHISKER

DYE, Black or Brown, 50c. each.

BROWN'S PEPIN TONIC

wear at popular prices A. F. AUERBACH & BRO. d 80tf

FROM "THE TIMES"

Editorial Times: The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing sprains and sprains with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments on account of the success he has always had with it. The above statements are so promising a Physician gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk at times, I procured a bottle and as it has completely cured me I wish to proclaim it to all the world as the most wonderful discovery ever made for the relief of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man as well as beast. Respectfully yours, ROCHESTER, N. Y., Sept. 1st, 1881. d24w

Men's and boys' furnishing goods.

DUNFORD'S.

PARLOR MATCHES ARE NOW MADE

so that they have many advantages over the old brimstone match, and are the only matches used among the Eastern countries. They are a light and are ready for use immediately, and do not have the offensive smell that the common match has, and in a very short time we may look for a change here.

Go to the Globe Bakery for your

Confectionery and CAKES, where they are to be had pure and wholesome. H. ARNOLD. d38

A WONDERFUL DISCOVERY.

For the speedy cure of Consumption and all diseases that lead to it, such as stubborn Coughs, neglected Colds, Bronchitis, Hay Fever, Asthma, pain in the side and chest, dry hacking cough, tickling in the throat, Hoarseness, Sore Throat, and all chronic or lingering diseases of the throat and lungs, Dr. Kline's New Discovery has no equal and has established for itself a world-wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all medical journals. The clergy and the press have complimented it. In the most glowing terms. Go to your druggist and get a trial bottle free of cost, or a regular size for \$1. For Sale by Moore, Allen & Co., Salt Lake City. d4r

RENEFACTORY.

When a board of eminent physicians and chemists announced the discovery that by combining arsenic with certain vegetable resins, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

THE GREAT ENGLISH REMEDY

a purely vegetable de-coction, removes all kinds of pain caused by natural fever, fever or inflammation, by applying it over the affected parts.
