LOCAL AND OTHER MATTERS.

THEATRICAL.—Mr. J. K. Emmet made his first appearance here, last night, and received a hearty welcome from a very large audience, who were attracted to the Theatre by the great reputation of this great. We believe that, in his great specialty of "Fritz," he came up to the high expectations that had been raised concerning him, all appearing to be highly delighted with his impersonation. The interest never flagged for an instant, the audience manifesting their appreciation and approval by continued and alternate bursts of applause and laughter. The author was exceedingly fortunate in giving his "Fritz" into the hands of such a masterly delineator as Mr. Emmet, for he thoroughly identified himself with the character. The greater portion of his act was excellent. During this part of the performance Mr. Emmet, by his ludicrous yet apropos gestures and attitudes, several times set the audience in a roar, without saying a word. A to the point, his feet and legs fit around cannot be easily described or imagined. Fritz is a fine character, combining a mixture of simplicity, shrewdness, wit, drollery and deep feeling. The piece itself is a comedy, but it has all the elements of an interesting situation and incident, in which there is a happy blending of the laughable and serious. There is but little doubt that full houses will be attracted to the theatre by the continued popularity of Mr. Emmet. He was well supported in the other characters last night. Miss Adams, as Katrina, being especially worthy of mention, and little John Dawson made an excellent young actor.

Every body, whether they are in the habit of attending the Theatre or not, should not fail to see "Fritz, Our Cousin German," for the audience cannot fail to give satisfaction. All who have seen it will highly delighted, and think it is one of the best pieces that has ever been put on the boards of our Theatre.

MOUNT CARMEL.—Mr. Wm. Heaton, writing from Mount Carmel, a new settlement Southeast of St. George, on the 1st inst., says: "We are busy putting in crops, making water-ditches, building houses, etc. There are great numbers here and there, and nothing like a bright day, when the grass is green, it makes its appearance above ground, it is a general time of health."

LAKE COUNTY.—Bishop S. Smith, in a letter from Paragonah, on the 1st inst., says: "The trappers are very plentiful here and in the Faraway fields, and are cutting off the crops pretty fast. The people are mostly engaged in clearing and carrying out timber, for their destination. Judging from present appearances, much of the grain will be destroyed."

SANDWICH ISLANDS MISSION.—Elder H. H. Cluff, in a letter written at Lake Oahu, Sandwich Islands, April 10th, sends us the following information concerning the above mission:

A Conference was held here on the 6th, 7th and 8th inst., when our meeting house, which, contrary to expectations, has not been enlarged, was filled to overflowing at the close of the services. There were many having come from other islands of this group, to attend it. A martial band, composed of natives, escorted the brethren of the mission to the meeting house, which was filled to overflowing. The services, however, did not commence until after the utmost capacity, but the addition of the school children, who marched into the house with their teachers, completely obstructed the aisle, leaving scant room for the spectators. Brethren Nebeker, who by the school children in a manner that would have done honor to the children of any common school.

Bro. Nebeker, in his opening remarks, congratulated the Saints here on their success and good appearance, and perceived a marked change in that respect since their first coming upon this land six years ago. Not only had they (the natives) improved in deportment, but also in their spirit of obedience to gospel rules and ordinances, exalted superior to that of a few years since. He rejoiced in the success which had attended the labors of the Elders here, and the present prospects. We have been able to gather quite a number upon this land from other islands by persuasion, but the day will come when a nation will be born in a day; and when the servants of God will wield a mighty influence among the nations of the earth than at the present time.

The prospects are favorable, according to the reports of the returned missionaries, on the other Islands, for the spread of the gospel, and we trust in God that more will be called to serve in this mission group.

The statistics of the mission, compared with Islands stands thus—Hawaii 170 members; Maui 690; Kauai 47; Lais 324; making a total of 1811. The variation between the last and last year's report of Maui and Kauai is due to the fact of a thorough search into the condition of the people by the last missionaries who visited those Islands.

Brothers Bell and Ward, with their families, have recently returned home, and will start to-morrow. They sell in the bark D. C. Murray. The Brothers have been able to sell their houses and other effects to natives who have emigrated to the mainland, and it is remarkable to see the feelings of friendship and sympathy which the natives manifested toward those who have labored among them, when they take their departure for Zion. I never saw expressions of friendship exhibited to such extent, as I have seen here, among any people.

We have caused grinding for the present in consequence of the injury done to our ears by the drought, followed by heavy rains; believing that the succession will increase. If the weather continues a few longer, hence we will not be able to ship any more sugar to Utah for some months.

Brother Nebeker has been busy receiving presents from our friends, bananas, and other products from the natives with alms since his return, so that his larder has been pretty well supplied.

Well, I am sending my respects to Friends Young, G. A. Smith, D. H. Wells, and Joseph F. Smith.

I remain most respectfully,

Yours etc.,

H. H. CLUFF.

CHURCHES.—The relations and friends of the late Sister Jennings are reminded that the funeral services will take place at the residence of her husband, and persons may come and pay their respects.

GOD'S SONS.—Professor W. E. Wallace has gone on a professional tour through the settlements south, as far as Nephi, Juab Co. He gave an exhibition of his system of horse training at Draper to-day. All who witnessed his exhibitions were unanimous in the opinion that he is a very superior system; and we trust he will succeed in getting a knowledge of it to a great many of the people throughout the Territory. After his return to this city the Professor purposed giving an exhibition in this city, the proceeds of which will be handed over to the P. E. Fund.

REFRAINERABLE.—A number of persons in some parts of the city, without having authority to do so, are in the habit of tampering with the gates of water ditches, thereby causing great annoyance and trouble to the watermasters and others. There is a law, which such offenses are made punishable. Persons liable to punishment will be sent to the north beach ditch will wait to read the advertisement, under the heading special notices, which offers a reward for convicting evidence in such cases.
