# EMERY.

#### Smallpox Situation Improving Young Mother's Sad Demise.

Special Correspondence. Emery, Emery Co., Feb. 23 .- There have been no new cases of smallpox for several weeks; no more deaths. All are about well. Some cases were so light that they scarcely realized they had the disease. We have noticed that whatever the disease is it is contagious through direct personal contact oniy with the diseased ones, and not then until the disease has broken out, and from then until well and disinfected. As to well persons giving it to some one else, this community cannot be made to believe that, and this town has had perhaps more "smallpox" than any other precinct of its size. Had it not been for the candy pull in the house

infested with chicken pox, but which proved to be "smallpox," it would have ended with the first edition. It is very windy lately, also very dry weather, have had no schools nor meetings this winter, although the school on the creek (same district) commenced

last Monday. Times are very dull here this winter.
