His office will be in the basement of the Reed hotel. All items for publication, as well as complaints regarding the delivery of the paper should be forwarded to him. The heavy increase of late in the subscription list of the Deseret News in Ogden has necessitated a concentration of the several branches of the business, and the "News" feels sure its patrons will be benefited by this change.

BOY SOUGHT MONEY IN GUEST'S LETTERS

Serious Offense of Youth Employed at Hermitage Hotel, Ogden Canyon.

WET WEATHER COMPLAINTS.

Farmers, Cannons, Business and Draymen Agree in Demand That Things "Dry Up."

OGDEN, Sept. 2.—A 15-year-old boy, employed at the Hermitage hotel in Ogden canyon, admitted yesterday that he was guilty of stealing and opening letters belonging to a guest of the hotel. J. M. Langsdorf, a banker from Salmon City, Ida., was advised from this city that important mail for him had been sent to the Hermitage, but on calling for it at the office he was surprised to find that nothing was there. The matter appeared serious enough to justify invoking the aid of the officers, and Sheriff Wilson was put upon the case. His suspicions were soon fastened on the boy, and when the missing mail matter was found round to him he confronted the lad with the evidence of his guilt. The boy broke down and confessed that he had taken the letters, believing they contained money, and when he found nothing of value, he destroyed them. On account of the offender's youth, it is not believed that any prosecution will follow—his name is withheld by the officers.

TEAMSTERS HAVE GRIEVANCE.

In the case of the excavations have been made for the new sewer, in all the districts the streets are in a state of confusion. In some places the water is running in ditches in the street, and in some places the water is running in the street. HIGHLY SPEAKS HOPEFULLY.

OGDEN, Sept. 2.—Ex-Congressman E. R. Ridgely of Pittsburg, Kansas, who was here yesterday on his way home from Seattle and Portland, where he was a delegate to the annual convention of mutual fire insurance companies. He stated that he had

purchased considerable Ogden real estate during the boom days and, being unable to realize on the investment, will leave the property. He was evidently greatly surprised at the growth made here since that time, and signed a strong desire to return and become a citizen in the community where he has so long been a taxpayer. He stated that the new Weber irrigation project would undoubtedly be of great benefit to the surrounding country and the entire state in general, providing it can be kept in the hands of the land owners.

Y., climbed Bald Mountain to the home of a neighbor, tortured by asthma, bent on curing him with Dr. King's New Discovery, that had cured himself of asthma. This wonderful medicine soon relieved and quickly cured his neighbor. Later he cured his son's wife of a severe lung trouble. Millions believe in the Great Throat and Lung cure on Earth. Coughs, Croup, Bronchitis, and sore throats are surely cured by Dr. King's New Discovery, and Whooping Cough, Croup, and Croup. Trial bottle free. Guaranteed by Z. C. M. L., 112-114 So. His right arm is badly sprained and he received a deep gash on his head. The shock of the fall was the most serious. He struck timbers in the trestle while falling which lessened the force of the fall and probably saved his life. He will be laid up for some time, but will recover.

EARLY MORNING BLAZE MAIN ST., BRIGHAM CITY

(Special Correspondence.)
BRIGHAM CITY, Sept. 1.—Nightwatchman Chas. discovered fire in the Fair store on Main street this morning about 4 o'clock. It appeared to start in several places inside the building and the watchman who was immediately called out by the watchman had to break in the glass front of the building in order to get at the blaze. The dry goods store, which had recently been erected, and which was not destroyed by the fire was badly damaged by water. The building belongs to Wm. R. Jensen, who recently occupied the place as a furniture store. The last couple of months it has been leased to eastern parties who opened up what they called the "Fair Store." Mr. Jensen carried \$2,000 on the building, which had recently been erected, while it is generally understood that the contents were insured for \$10,000. Through the lively efforts of the firemen the fire was extinguished before it reached any other building.

WATERWORKS SYSTEM LIKELY FOR WILLARD

(Special Correspondence.)
WILLARD, Sept. 1.—A mass meeting will be held in the city hall Monday evening at 8 o'clock to consider the proposition of establishing a waterworks system for Willard. The city has an admirable location for a water system at the base of the mountains and can easily supply its pipes with the purest of mountain water. The Willard Light & Power company offers to furnish all lines necessary to convey the water from the city springs and streams if the city will furnish the work to lay the pipes. In this way the Light & Power company can greatly increase its water supply and the city reservoir will be built in the foothills just below the power plant. Estimates and figures for the complete plant and its operation will be supplied at the mass meeting Monday night.

SHORT CANNING SEASON.

WILLARD, Sept. 1.—The Willard Canning company commenced operations today. This year the company has contracted for only about one-fourth of the acreage of fruits and vegetables that were contracted for in previous years. For this reason the opening season has been delayed as long as possible and even now will close at least as early as other years. The factory at Perry, which is also owned by the Willard company, will not be operated at all. The cause of the shortage is the small crop of peaches suitable for canning purposes, beans and tomatoes were not contracted for as much of last year's output is still stored in the factory's store room, and no apricots or plums will be canned this year.

TOMATOES PLENTY AND CHEAP.

WILLARD, Sept. 1.—Farmers in the vicinity of Brigham City are busy harvesting the tomato crop, and boast of the largest and best tomato crop in years, though the price has dropped to 40 cents a bushel. The Rocky Mountain canners have been running several days with 50 people engaged. The output up to the first of this month has already eclipsed the usual output up to Sept. 15. The daily output is 20,000 cases of tomatoes, and it is supposed that this number will be increased to 30,000 cases within a few days, with an increase of 25 employees.
