OUR MIGHTY BUSINESS STRIDES

Salt Lake's Bank Clearings Appal New York-Increase of 2052 Per Cent Over Same Week Last Year.

For months past the volume of bus- | upon which Bradstreet's closes its iness in Salt Lake has been increasing with such rapidity as to attract the attention of the country. Day after day and week after week it has gone for h by leaps and bounds until all past records have not only been smashed but so far distanced as to cause conservative men to wonder when and what the end

The detailed showing of each day's business has been given regularly in the "News," together with a comparison of business for the same day last year, and from them readers have been able to see the substantial growth of the city. They know that the general volume of business has been tremedously augmented, but few have stopped to realize how great the forward march has been. The facts are it has been so great been. The facts are it has been so great as to cause the New York commercial agencies to stand appalled at the show-ing. For the week ending today the Salt Lake bank clearings amounted to 48,152,168,96, as against \$2,666,514.82 for the same week last year, or an increase of 205 per cent, which outstrips all the cities in the Union, and in fact in the world. New York's increase is only 41.9; Boston's is but 11.6; Chicago's but 2.5; St. Louis's is 51.3; Buffalo, where the great Pan-American Exposition is the great Parallel to the being held is but 23 per cent. In the valume of business transacted. Salt Lake leads Denver, whose clearings for the business transacted. the same period were \$3,407,251, by about 160 per cent, and Los Angeles, whose clearings for the same length of time amounted to \$2,286,341, by 210 per cent and all other cities, of anywhere near equal population by the same pro-

commercial report for the week, the figures stood \$7,676,462.89 as against 32,531,847.03 for the same day last year, or an increase of 203 per ceut. The ad-vance was so great as to astonish that agency and to cause it, in its conservaagency and to cause it, in its conserva-tism, to yesterday question its local representative, by wire, concerning the matter. The reply was that the figures were all right. Still this great financial firm was not satisfied and last night telegraphed Manager F. M. Michelson for a further verification. It was evident that they feared the clearing house returns had been "padded;" and they did not hesitate to ask for an explanation. Manager Michelson soon assure them, as their own representative had done, that the increase was simply an increase in the volume of business transactions, explaining of course, that there had been a large number of big deals of late. It is presumed, however, that the answer did not get there in time for publication as in the table com-Bradstreet's and sent out through the Associated Press, showing the bank clearings of all the principal cities for the week ending July 4th, and published in all the daily papers of the United States this morning, the figures, were not given. On the figures were not given. On the contrary this city was credited with a record of but \$4,333,639 or an increase of 12.5, whereas for the week ending Thursday her actual cleating house record was \$7,676,462.89, and the increase, as heretofore stated, 203 per cent over the corresponding period last year. It will thus be seen that a great injustice has been done Salt Lake City in the commercial world. Instead of it being shown that she leads all other cities far and away from her nearest competitor she is from her nearest competitor she is made to occupy a place far down in the list with the comparatively small showing of 13.5 per cent increase. It is understood that the clearing

It is understood that the clearing house officials will insist upon a special note being made next week of the omission this week. As it has already been proved that the business is perfectly legitimate, and but a natural expansion along all lines of trade there is little doubt that Bradstreet's will hester to correct the false impression that it caused to be circulated by the publication of this morning's compiled For the week ending Thursday, the day | bank clearings of the country.

from her absconding husband as published in last night's "News," Chief Hilton and Detective Sheets did not hesitate to declare that the message was sent for the purpose of throwing them off the track and causing them to believe he might come home today as

The developments today prove that their suspicions were correct. The train on which Spry would have arrived, had he kept his word, came in at 9:45 this morning, but he was not on it and it is now about as certain as anything can be that he is making good his escape as rapidly as possible. Back of his flight is a strange woman, according to information given out today. It is stated that he became seriously involved with her and that her present condition is a most serious one. It is stated that he had been giving her large sums of money of late in order to prevent startling disclosures. Whether this is true remains to be seen, but Detective Sheets declares that he knows of no other reason for Spry's rash act.

STREET RAILROAD DEAL RATIFIED

A. W. McCune Also Gcts Robert R. Anderson's Stock for a Figure Close to \$60 a Share—Total About \$35,000—How it Brought Its Owner a Small Fortune.

The stockholders of the Salt Lake , City Railroad company met in the offices of the company in the Hooper block this morning and ratified the action taken by the directors of the corporation at their last meeting. The stock holders approved of the action of the directors regarding the consolidation of the two transit systems of this city and the issuing of bonds as set forth in the published notice of the meeting which has appeared in the public press for some time past. Those who were present at the meeting this morning Were President C. L. Rood, W. P. Read. Vivian McCune, Joseph S. Wells, Spenter Clawson and B. M. Ellerbeck. The balance of the stockholders voted by proxy. Out of the 17,000 shares to be voted but 230 failed to be registered. After the meeting the stockholders who were approached stated that beyond foutine business and the question of the issue of bonds nothing further came up before the consideration of the

Lake City Railroad company. The sale was consummated to Hon, A. W. Mc-Cune through Secretary Joseph S. Wells a few minutes before the meeting took up-in fact the meeting was postponed for half an hour until the deal had been closed. Just what price was paid for the stock has not been made public, for the parties to the sale absolutely refuse to give out the amount. It is said, however, by a gentleman who has been following the sale very closely, that the stock did not change hands at less than \$60 a share. Such being the case Mr. Anderson this morn-ing received a check for not less than \$35,580 for his holdings in the street car

company. Some of the certificates turned in by Robert R. Anderson bore the signature of the late President Brigham Young. Mr. Anderson's holdings have been sought after on a number of occasions is stated that he has always, when approached, declined to part with his stock in the company, assigning as his reason that President Brigham Young at the time the stock was issued to him told him that if he held on to the certificates that some day he would be One of the interesting features of the gathering of the stockholders this morning was the surrender by Robert R.

Anderson of the stockholders this somewhat tempted to part with his Anderson of his 592 shares in the Sait stock also, and could at that time have received \$10,000 for them, but he concluded to hold on, with the result that this morning a small fortune was transferred to his bank account.

By the purchase of Mr. Anderson's stock, Hon. A. W. McCune is now said to own all of the stock of the company with the exception of about 1,200 shares.

Machinists March to the Marshal. Cincinnati, Ohio, July 6 .- A novel spectacle was presented in the U. district court when seventy striking machinists, who had been enjoined by order of court, marched in a body to the office of the United States marshal for the purpose of facilitating the service upon them which the marshal was bound to make. As the name of each one was called, he stepped forward and received a copy of the injunction and the surposes in changery. The many his subpoens in chancery. The ma-chinists' lodges were served through their presidents. The strikers volun-tarily took this course, realizing the lifficulty of finding their members, some of whom are in camp. They desired in this way to give proof of their intention to obey the law.

EX-CHANCELLOR VON HOHENLOHE.

He Dies Unexpectedly at Ragatz, Switzerland.

WAS CAPRIVI'S SUCCESSOR.

He Was a Great Friend of America and Did Much to Preserve Friends ly Relations With Ber.

Berlin, July 6 .- Prince von Hohenlohe, formerly German imperial chancellor, died at Ragatz, Switzerland, last even-

Prince von Hohenlohe's death was generally unexpected here, as he left Berlin several weeks ago apparently in good health, although his increasing weakness was evident. The prince arrived at Ragatz extremely exhausted. His death is attributed to the weakness of old age. The arrangements for the transportation of the body to Germany and for the obsequies are not yet definitely determined upon, but it is expected that the remains will be conveyed to the Hohenlohe ancestral home, at Schillingsfurst, Batavia, where the family vault is situated and where the body of Prince von Hohenlahe's wife is interred. It is also expected that Chan-cellor von Buelow will break his sea-

side rest and attend the funeral.
Although Emperor, William has fixed his departure on his trip to Norway for Monday next, it is deemed likely that his majesty will once more postpone the date of his starting on his trip in order to enable him to attend the obse-quies. Owing to Emperor William's re-lationship to Prince von Hohenlohe, his

majesty always called the prince 'Un-cle Chlodwig.'

It is not believed here that the body of Prince von Hohenlohe will be brought to Berlin before being taken to Schil-

Igsfurst.
The officials of the United States embassy informed the correspondent here of the Associated Press that the death of the former chancellor was much gretted because of his uniform kindliness towards Americans and American interests. Prince von Hohenlohe's atti-tude, through his chancellorship, was always fair and conciliatory in regard to German-American relations, Although he was an extensive estate owner, he did not share the agrarian hostility towards the United States. It was owing, in a large measure, to his friendly spirit, during several trying that German's relations with the Inited States never departed from cordiality. He received many Americans and was always friendly to them. At the time of the death of United States Ambassador Theodore B. Runyan, in the night, Secretary Jackson went early in the morning to inform the cabinet ministers of Mr. Runyan's demise but only found Minister Hohenlohe ready to

PRESIDENT IN CANTON. Mrs. McKinley Stood the Journey Very Well Indeed.

Canton, Ohio, July 6 .- The train bearing the presidential party arrived here at 10:15 this morning. Mrs. McKinley stood the journey well.
Owing to Mrs. McKinley's illness

there was no formal demonstration at the station upon the arrival of the train, though the crowd completely filled the station platform. When the President and Mrs. McKinley stepped from the train a hearty cheer of wel-come went up. The President's car-riage arrived from Washington several days ago and in it the chief executive and Mrs. McKinley were driven to their old home.

It was said by members of the President's party that Mrs. McKinley had stood the trip exceedingly well and that her condition continued favorable

Machinists File Their Asswer.

Milwaukee, July 6.-Members of the International Machinists union who were enjoined two weeks ago by the Vilter Manufacturing company interfering in any way with the working of that plant filed an answer today. Counter charges of unlawful conspiracy are made. The answer asserts that about 300 manufacturers and corporations throughout the country lawfully conspired, under the name of the National Metal Trades association for the purpose of de-feating the organization of the machinists in their request for a nine hour day. The answer alleged that the Vilter company, under cover, is a member of such alleged conspiracy.

PAUL KRUGER'S PRIVATEERS. Talk About Commissioning Them

Not Taken Seriously at Washington. Washington, July 6.- The report from Brussells that former President Kru-ger being urged to notify the powers that unless they intervened in the South privateers, is not treated seriously here It is well understood as an outcome of the war with Spain that the United States government will never again,

except in the most extraordinary emergency, issue letters of marque, and the same reasons that impel the government to this course undoubtedly would operate to prevent our government from recognizing any such warrants issued by any other nation, even were that nation in full standing.

In the case of the Spanish war both of the belligerents, by agreement, refrained from issuing commission to pri-vateers and it now has been many years since the flag of any respectabl nation has flown over such craft. In the case of Mr. Kruger it is extremely doubtful whether he would, if the issue were forced in this way, be recognized as a de facto president authorized to issue commissions to privateers. That point would have to be settled at the outset and each nation whose com probably will be in the Mediterranean. | was affected or was threatened by the

privateers would determine for itself his competency. It is scarcely to be ex-pected that they would decide against their own commercial interests, so that Mr. Kruger's privateers would find it difficult to secure general recognition, without President Kruger's consent is
