It is a measure of the supremest importance, and in its consequences for good or ill, it easily surpasses any other proposi-tion that ever came before this com-monwealth for legislative and executive determination. It has been argued in both branches of the Assembly with splendid force and ability, while its provisions have doubtless been eagerly discussed in the remotest handet of our With due allowance for the ex-State. aggerations that may be expected from those who warmly support, and from those who, with equal warmth, an-tagonize the measure, I accord to all of them, without any reservation what-ever, full credit for absolute sincerity, breadth of sympathy, and a desire for the public welfare, which of themselves render it a noteworthy and unique piece of proposed legislation. But these conditions only serve to make the responsibility of the executive

Never-theless, the recollection of my oath of office, the requirements of my duty, as I understand it, and the convictions of my own best judgment and my con-science units in demonitor of the that science, unite in demanding of me that I withhold approval from this bill. If I know myself, I can sincerely say that I am anxious that the very best and wisest thing shall be done in respect to all matters that have vexed us so much in times past. And knowing this whole people as I do, it is my firm convic-tion that whatever the present feeling may be, they will be sincerely grateful in the days to come if this measure is not written upon the statute books. The patience, loyalty and conserva-tism of our citizens are so widely rec-ognized that only by the passage of

such a bill as this can their reputation be injured. The broad-minded and intelligent everywhere accept the situa-tion here as it exists, and are content to let time complete the solution of the problem. HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Trouble.

Heart trouble, at least among the Americans, is certainly increasing, and while this may be largely due to the excitement and worry of American busi-ness life, it is more often the result of weak stomachs, of poor digestion. Real organic disease is incurable; but not one case in a hundred of heart trouble is organic.

The close relation between heart trou-ble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumo-

herves, the sympathetic and rhemine gastric. In another way, also the heart is af-facted by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the dis-tended stomach on the heart and lungs. interfering with their action; hence arises palpitation and short breath. Poor digestion also poisons the blood, making it thin and watery, which ir-ritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuar's Dyspepsia Tablets, which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant, convenient

It is safe to say that the regular per sistent use of Stuart's Dyspepsia Tab-lets at meal time will cure any form of stomach trouble except cancer of the stomach.

William Watkin Serves Nearly Six Months Then Runs Away.

Last evening William Watkins, city prisoner who had twenty-four days yet to serve, bade the old bastile adicu and has not been seen since,

Last November Watkins was arrested for stealing brass from the Rapid Transit Street Railroad company, He was tried and convicted on three charges of petit larceny, and Judge Timmony sentenced film to 100 days on the first charge, 50 days on the sec-ond and 30 days on the third, making a total of 180 days at hard labor. Several weeks ago Jallor Sol Kimball

made Watkins a trusty and set him at work on odd jobs about the jail yard.

Since the smallpox case was discov-ered at the old rookery, the trusties have been sleeping in the bunk house, and it afforded an excellent opportunity for some of the wearys to escape. Last evening Watkins took advantage of it and left for parts unknown. He had but 24 days to serve, but if

caught now he may get the original sentence. He is an ex-convict, and is regarded as being a bad man.

That Subject.

Senator Tanner himself saved the life of the State salary bill last evening by moving a reconsideration of the vote, which he could have withheld until the Legislature and the bill both expired. In making his motion, Senator Tanner said that while he was frank to admit that the officials were deserving of higher salaries, to raise them now would establish a dangerous precedent that would come up to plague those who voted for it. The Senate decided unanimously to reconsider and then the bill was again passed. Those voting in the negative were Barnes, Bennion, Kiesel, Murdock, Tanner, Smoot and Evans,
