"BEHAVE AS MEN." 9. I. Elton, secretary of the federa-tion, advised the men to behave as men, and not to take any hasty action. "It is hard to see other men step in and take your places, but it is up to you to do your duty and that is not to com-mit any act unbecoming a gentieman." The Brocherhood of Carpenters through its president expressed abso-lute sympathy with any movement booking to the advancement of the laboring man. The speaker said he had two daughters attending high school and tomorrow morning they would have its with "scabs" and that was his scattment, too. He said the sentiment of the public is with the streetcar men, and if they would stand together, commit no vioence and not "get coid fest". They would surely win their fight. After the most careful and exhaust-ive investigation by the committee of the improvements proposed by the company, as well as the agreement upon their part to adopt such addi-tional means of controlling their gasses and dust as were suggested by the committee's expert, Dr. W. Such was the program tersely out-lined by our host Odell, as the graceful machine turned its head down State street and started on the rush for the city limits. The program was carried out to the letter. Almost before we were well settled in the roomy cush-tions, the browns and yellows of the city began to give place to the greens and plinks of the county; the scents of hedges, buds and flowers rushed to our nostrils, and we could hardly forbear yelling like school boys as the oz.ne laden breezes swept across our faces. Following the usual course of liti-gation, before payment to complain-ants in the Godirey case, for damages which have been sustained, it would be necessary to submit evidence of such damage to a master to be appoint-ed by the court, and the length of time required to take such evidence would defer indefinitely the time when you would receive payment for the dam-ages you have suffered. In order that this delay might, in some measure, be avoided, and a speedy settlement of your claim be secured, it was required of the American company, and was agreed to by them, that the proportion of such damages as they might be called upon to pay should be at once submitted to arbitration.
