

COUNCIL OUSTS OFFICER TAYLOR

Fernstrom's Efforts to Have Matter Reconsidered Lost By Party Vote.

GOOD RECORD AVAILS NAUGHT

Councilman Hall Attacks Ordinance Increasing Salaries but is Turned Down by Majority.

Aside from the fact that Councilman Hall made only 13 speeches at last night's council session, the session presented no features. Hall lost a lap in his race with Councilman Fernstrom for the minority leadership, but between the two the event last night was fairly worth while. Councilman Fernstrom made a bad guess, however, when the Jim Taylor matter came up. He had previously given notice that he would move to reconsider the vote. Last night when the matter was called from the table, Mr. Fernstrom urged that the council give more mature consideration to the matter and that it exclude political machinations from the vote. He declared that several councilmen since the last session had looked into Taylor's record and that he believed that Taylor was "too good to lose." He declared that the police department is not in such good condition that it can afford to dispense with such efficient men as Taylor, but that it could well afford to lose some other members. His motion to reconsider was lost by a strictly party vote, the "Americans" prevailing.

Mr. Hall suggested a reform in the matter of transferring funds for the payment of final estimates. Heretofore no final estimates have been referred to the finance committee and the transfers from the street or other funds of the amounts necessary to pay the bills have been made to the special funds. Now, in line with Mr. Hall's suggestion, the estimates and the requests for the transfer will go to the finance committee and will be reported back to the council at the same time, so that in the event the final estimate is not found to be correct, more money than necessary will not be transferred.

HALL'S EFFORTS VAIN.

Councilman Hall caused a stir when he attacked the ordinance raising the salaries of the city officers. He referred to the report of the city treasurer in which it is made to appear that there is on deposit in banks to the credit of the city \$200,000. He said that the money on deposit that the city has a right to claim is nearer \$60,000. Mr. Hall declared that he would oppose no measure providing for increased forces where necessary, which would give more men employment, but he did certainly oppose efforts to boost the salaries of city clerks and assistants who had been satisfied for two years with the salaries provided for by ordinance. He also opposed the ordinance increasing the pay of the auditor's force \$1,500 on the same grounds. Both ordinances prevailed in the vote for final passage.

AUDITOR MUST EXPLAIN.

Mr. Hall also introduced a resolution asking the city auditor to explain in a communication in writing why he has not complied with the state law which requires his financial statement on or before the first Monday in February. The resolution was adopted.

C. J. Salmon, a special policeman who was recently appointed by the chief of police, was removed last night upon the latter's recommendation. It is said that the policeman was found asleep in a west side saloon the first night of his appointment, and that a mob took his star and exercised the prerogative of officialdom in holding several business houses and soliciting free drinks, candy, peanuts, bananas and other things which the policemen are alleged to have such fondness. The merchants believing that he was the new "copper" submitted without protest, as they have learned is best for them.

THE WHEELHOUSE MATTER.

Health Commissioner Stewart backed by Councilman O'Donnell of the sanitary committee, and that he find some provision for Fred Wheelhouse or that it pension him. Wheelhouse is the man who was run over and seriously injured by the fire department several years ago. The city entered into a tacit understanding with Wheelhouse at the time that he should be given permanent employment. Mr. Stewart says that the unfortunate man is satisfied to discharge his duties in a satisfactory manner in his department and recommends that he be placed somewhere else. The matter went to the claims committee for investigation.

WANTS MORE POLICEMEN.

Chief Pitt in a letter to the council urged the passage of the ordinance increasing the police force by the addition of 15 policemen. He pointed out that the free soup house was attracting men from nearby cities, and that by the week end there will be fully 1,000 men out of work in this city. He

HUSLER'S FLOUR

urged that the public safety demands the increased force. The communication was referred to the committee on police and fire.

The council, in passing the new ordinance relating to the recorder's force, provided the board of park commissioners with a clerk and stenographer at a salary of \$900 a year. Office room for the commission may be placed in the City and County building.

TAYLOR'S SUCCESSOR.

James A. Conyers was confirmed as a mounted policeman to take the place made vacant by the dismissal from the force of Jim Taylor. Councilman Black asked that the matter lay over a week, but upon being cautioned "No" from Chairman Stewart, Black, remembering party pledges no doubt withdrew his request. Councilman Fernstrom voiced a protest against the police committee "poking in" in the appointment of policemen, but his voice was weak when the "American" majority vote was called.

TO DRAIN CAMP'S LANE.

The Camp's lane residents, who have been flooded by city canal water for several seasons, finally see relief in their plight. The committee on engineering and sewerage reported last night to the council with a plan to drain the district. The city proposes to put in a pump of 13 inch discharge to be operated by a gasoline engine and to be installed at a cost not to exceed \$2,000. Half of this expense will be met by the residents and half of the city. The petitioners are also agreed to pay half the cost of maintaining the pump, but so far no organization has been effected that will guarantee to the city the portion to be paid by the petitioners and until this is done final consideration of the matter has been postponed. Councilman Redden, chairman of the engineering committee, had matters twisted just a little when he said that there are "200 acres of water underground," but his intentions were very good and if the water and the ground were transposed it would be true. He also said that the law in the matter had been considered, and that the city could not create a drainage district for the purpose of levying upon the property to be drained. He thought, will remove the dangerous conditions which have caused much fear among those who have occasion to cross the structure at night.

WILL LIGHT VIADUCT.

The council provided for three arc lights on the North Temple viaduct. Two of the lights will be installed by the Utah Light and Railway company free of cost to the city under its agreement and one light will be put in by the city. The present light will be moved to a point where its light will be of service. This plan, it is thought, will remove the dangerous conditions which have caused much fear among those who have occasion to cross the structure at night.

TREASURER'S REPORT.

An excerpt from the financial statement of Treasurer Gideon Snyder, as presented to the council last night follows:

Fund.	Amount.
Contingent	\$ 22,311.55
Water supply and irrigation ..	82.4
Streets and sidewalks ..	16,375.53
Sewers and drains ..	7,315.83
Library ..	559.77
Water bond interest sinking fund ..	10,746.55
Sewer bond interest sinking fund ..	\$ 857.99
Bond interest ..	2,093.00
Bond interest ..	19,410.12
Total ..	\$ 97,333.01
Special funds ..	133,766.25
Grand total ..	\$221,099.26

The report was referred to the finance committee.

FUNDS TRANSFERRED.

Several estimates for public work were presented with requests that transfers be made from the street fund to special funds. In all cases but final estimates, the amounts were transferred and the final estimates with the requests went to the finance committee.

BANQUET FOR DUBOIS.

Grand Reunion of Disgraced Politicians on Washington's Birthday.

With an expense of \$3.50 per plate the friends and admirers of Fred T. Dubois will banquet the late senator from Idaho on Washington's Birthday, Feb. 22. How much of the \$3.50 per plate will go for "potomac poisoning" for the senator it is not stated. However such banquets in the past have frequently been followed by a slight indisposition on the part of the senator which has kept him in his room with this malady, the normal symptoms of which are a luscious demand for the clink of the ice in the water pitcher.

The hour the banquet will start will be 7:30 p. m. J. E. McGinty will collect the senator succeeds in outlasting any of his admirers, a second relay may be uncorrupted. Other prominent admirers of Senator Dubois who will be present are Joseph Liberman, who was never absent when any political barrel was in danger of being tapped; E. B. Critchlow, whose favorite dish is toasted hierarch, because the broiled variety does not give him the chance to show on the morsels; John R. Street, who will do duty for this evening by his party; H. J. Dinny, who is grateful to Ogden Hiles for stepping aside and giving him a chance; and C. D. Rookledge, who will tell them when it's time to go home.

Senator Dubois with his Idaho Weekly is riding his hierarchical hobby horse over to whatever lecture platform he may, since deprived of an opportunity to exploit it in Congress. His bosom friend, Frank J. Cannon, is not mentioned among honored committeemen in charge of the banquet.

ONE CASE OF MENINGITIS.

According to the January report of the board of health, there were 123 deaths during that month in this city, an increase of seven over the corresponding month of last year. No appreciable difference is noticeable in the number of contagious diseases. The 374 cases coming under this heading are thus enumerated: Scarlet fever, 84; measles, 237; diphtheria, 33; chickenpox, 8; meningitis, 1; pneumonia, 7; typhoid fever, 5; tuberculosis, 1. The number of births during January was 195.

GREY MAKES HIS LAST LONG TRIP

Oldest Man in Point of Service on Street Car System Passes Away.

HON. B. H. ROBERTS' TRIBUTE.

"He Was a Type of the Best Kind of Men Among the Great Working Classes."

The men who operate the motors and collect the fares on the Salt Lake City street cars are today passing the word along the line that the dean of their corps is dead. H. T. B. Grey, the oldest man in point of service on the Salt Lake cars, died yesterday afternoon at the Holy Cross hospital following an operation. Grey was national vice president of the Amalgamated Association of Street and Electric Railway Employees, and in this

H. T. B. GREY

As He Appeared in the Parade of Street Car Workers During the 1907 Strike

office had much to do with the settlement of at least two big controversies between the men and the company. In meetings of the street car employees Grey was largely listened to, and was perhaps the most generally loved man who shared their problems.

Today a meeting of the local union was held to determine what part the men would take in the funeral of their fellow workman. As large a turnout as possible will be made, and it is probable that the band, which has not been together since Labor day, will render selections. To the music from this band Grey marched with the men in their public demonstrations in May, 1907, during the last strike.

KNOWN AS "TIBBY."

Mr. Grey was familiarly known as "Tibby." He started to work in Salt Lake laying track for the Rapid Transit company, after coming here from Virginia. When the tracklaying was completed he operated a First street car, and on this run he remained through all the years, his final service being done on the front of the car in this line. In his religious affiliations he was a member of the Church, and remained faithful to it to the end. By a wife who died in Virginia before he came to Utah, Mr. Grey had a family, the members of which are now grown and married. In Utah he married again, and there survive him a wife and five children, the eldest of whom is 13 years of age. The funeral services will be held from the Fifth ward meetinghouse Wednesday afternoon at 2 p. m., the Foresters, Woodmen of the World and Street Car Men's union participating. Those who knew Mr. Grey through the strenuous days of the 1907 strike, he made an impression never to be forgotten. It was he who when a strike seemed inevitable, 1906, went to B. H. Roberts, laid his case before him, and secured his services as an intermediary. Through this action a meeting with the company was secured, and a strike was drawn up. It remained in operation for one year, the strike occurring when it finally expired.

AS B. H. ROBERTS SAW HIM.

"I remember H. T. B. Grey," said B.

The man who uses his brain in planning and executing valuable ideas has practically no limit to his money-making success.

The daily waste of brain and nerve cells caused by mental activity must be promptly replaced by new material—proper food. This is a natural process.

Grape-Nuts has for years been the ideal food for the brain worker. It is made of wheat and barley including the natural "vital phosphates" of these grains, which form, with the albumen of the food the natural material for brain cells.

Try Grape-Nuts with cream or good milk for breakfast and supper—it's delicious as well as upbuilding.

"There's a Reason."

SURE CURE FOR BABY'S ITCH.

Oil of Wintergreen in External Wash Produces Remarkable Results—How to Get Prescription.

Is your baby burning up with torturing itching Eczema? Is he tearing his tender skin to shreds vainly trying to scratch away the terrible agony?

Are you or any member of your family suffering with an aggravating persistent skin disease? Use oil of wintergreen mixed with glycerine, etc., in D. D. D. Prescription. It will give instant relief. Oil of wintergreen, this simple everyday oil of wintergreen, mixed with other healing herbs and vegetable ingredients, cures the worst forms of skin disease, and the remedy is so easy to apply, just an external liquid wash. No drugs or medicines, just a few drops of the wash applied to the itching, burning spots, then instant relief. The instant the oil is applied the itch is gone. To secure the proper results from the soothing curative remedy, it is necessary to use oil of wintergreen compounded with other mild ingredients. This compound known as D. D. D. Prescription, not only relieves but permanently cures. Just try D. D. D. Prescription. Try a few drops and note the relief. We positively vouch for the merits of this remedy. Druehl & Frank, Druggists.

H. Roberts this morning. He came to my office as spokesman for a committee, and I soon found I had to deal with a man of clear common sense, not brilliant ability, but just the long headed common sense that is the hope of the nation. He was a type, and a type of the best kind of men among the great working classes.

As he talked he asked for nothing

gaged as steward in the merchant service, visiting in that capacity almost every part in the world. He rendered timely aid to those elders who first opened the gospel in the East Indies, and throughout his entire membership in the Church was an earnest advocate and defender of the principles of the gospel. His first wife died some 15 years ago, by whom two sons survive, and are engaged in the merchant service. His second wife survives him. Elder Loveday emigrated some 13 years ago, during which time he filled a mission to Great Britain. He died as he had lived, a faithful Latter-day Saint. Millennial Star, please copy.

INQUIRIES SENT OUT.

M. & M. Association Busy for Progress of State.

All mayors of cities and towns of Utah have been sent inquiries by the secretary of the M. and M. association, asking them what industries are located in their towns, and what new ones are desired.

This information was one of the things desired by the original founders of the association, and the first year was largely spent in collecting it, after which work was taken up to secure the founding of needed industries, and to combat conditions unfavorable to the establishment of such plants, especially coal and freight conditions which were found to operate against Utah's chances to grow.

In the recent change of administration in the M. and M. it was found desirable to re-collect the data, as the files were not sufficiently illuminating, and therefore a series of letters asking for reports was determined upon.

FUNERAL OF MRS. SOLOMON.

Obsequies Held from the Family Residence, Elder J. L. Nebeker Presiding.

The funeral of Mrs. Elizabeth Solomon, wife of James Solomon, was very largely attended. The obsequies were held at the family residence, and were presided over by Counselor John Nebeker, of the Twenty-second ward. Music was furnished by a double quartet from the ward choir and by Mrs. Nellie Druehl Fugley.

The speakers were Elders George V. Morris, Arthur Winter, N. V. Jones, A. Milton Musser, John L. Nebeker and Bishop George Romney, all of whom paid tributes of respect to the deceased, who was widely known for innate goodness of heart and who was the sole representative in this country of her father's house. She had no offspring of her own, but her love for children was proverbial, and among the mourners were many of her nephews and nieces and many more of the succeeding generation.

The aged husband is slowly convalescing from a serious illness, and it was only barely possible for him to accompany the remains of his wife to the city cemetery, where interment took place.

To Cure La Grippe In Three Days.

Mix a half ounce of Virgin Oil of Pine with two ounces of glycerine and a half-pint of good whisky. Shake well and take in teaspoonful doses every four hours.

It is claimed this formula will strengthen weak lungs, heal the bronchial tubes, check a cold quickly, and cure any cough that is curable. It will break up an ordinary case of "the grip" in three days. Being free from opiates or drugs it is far preferable for use to the ordinary cough mixture. In preparing this formula five ounces of tincture of Cinchona compound can be used in place of the whisky, with the same effect.

The necessary ingredients can be secured at small cost from any good drug store, and easily prepared in your own home. The Virgin Oil of Pine is put out for dispensing only in 4 oz. vials, each being securely sealed in a round wooden case. Blank imitations of Virgin Oil of Pine have been put out to resemble it in name and style of package. These are essentially ineffective, and often cause nausea. Be sure to get the genuine—look for the name—Virgin Oil of Pine compound pure, guaranteed under the Food and Drugs Act, June 30, 1906, Serial No. 451, prepared only by Leach Chemical Co., Cincinnati, O.

HAS WON DEGREE.

W. A. Leary, brother of James Leary of this city, has returned from Chicago university, where he has completed a three years' study of law, and has been given the coveted degree of Doctor of Jurisprudence. Dr. Leary practiced law here and also engaged in newspaper work for some time prior to going to Chicago, after graduating from Amherst college. He will now resume active legal practice in Salt Lake City.
