LOCAL BRIEFS.

Over 50 books have been presented to the Elks library for a starter.

The Rocky Mountain Bell Telephone company will establish an independent exchange at Murray for local convenience of the adjoining communities.

A new surgical ward will be opened at St. Mark's hospital Monday next. This will give the institution two such wards, and one will be known as the railroad surgical ward, the other as the miners' surgical ward.

Congressman-elect Joseph Howell and Private Secretary Lewis T. Cannon, will leave tomorrow for Washington, the former's idea being to see Congress in session before being formally inducted into office. Before leaving Mr. Howell will drop down to Provo and pay his respects to Senator-elect Smoot.

The Debeque Oil company is about to pull the casing out of the 1,300 foot well, and sink another well 100 feet from the old one. The new well will be shot at 800 feet, as the lay of the land has been so satisfactorily determined that this move will bring about just what they want.

The management of Mt. Olivet proposes, as soon as spring opens, to make a series of improvements at the cemetery. Many cottonwood trees will be removed and the grounds to the right of the entrance will be remodelled and gardened. Then the water supply is to be increased and receiving vault privileges permanently secured.

Mr. George W. Shaffer and wife, who for some time past have been holding evangelistic services at the First Baptist church, will hold their next meeting tonight at 7:30, at which Mrs. Shaffer will sing as usual. There will be a baptismal service tomorrow night. The meetings are growing in interest right along and Mr. and Mrs. Shaffer are much encouraged.

The priesthood of the Salt Lake Stake of Zion met in regular session last night. After the opening exercises, the recommending of 34 young men to be ordained Elders, the water supply to the Elders by President Angus M. Cannon, the meeting adjourned, as a number of those present had other meetings to attend. After the priesthood meeting a business meeting of the Presidency of the Stake and the Bishops was held.

There is a proposition to erect a building for the Commercial club, as the institution has proven so far such an unqualified success that it is evident it has come to stay. The club's membership is now 320, and growing, and not only the city, but the state at large is well represented. The library of the club is being pushed by a special committee having that department in charge, and books are being contributed by members at a gratifying rate.

A familiar business industry that has been known to the local public for over 12 years, is being sold out, owing to the recent death of the proprietor, in the winding up of the Salt Lake Silk factory's affairs. This concern has turned out a business of silk handkerchiefs with views of the Temple woven on the corner, and which tourists have eagerly bought; also, silk handkerchiefs with pictures of the Harding, Brigham Young and other notable of silk containing Salt Lake scenes.

Charles Karlstrom, a miner, is at the Keogh-Wright hospital in this city suffering from injuries received in a mine at Golconda, Nev. Karlstrom was working in the cage when he lost his balance and fell to the bottom of the shaft, a distance of 400 feet. When found by fellow employees he was unconscious besides being badly bruised. He has been broken in such a way that he will likely be a cripple for life. Had it not been that the man struck the sides of the shaft in falling he would have been killed outright as well as could be expected.

At the dedication of the new Phillips Congregational church tomorrow, Rev. P. A. Simpkins, the pastor, will preach the sermon, and at 2:30 p. m. addresses will be made by Rev. Richard Wake, and Rev. B. M. Hogen, former pastor of the church.

CITY'S FREEDOM WAS THEIRS

Visitors Were Shown the City and in the Evening Enjoyed a Sumptuous Banquet and Dance.

Yesterday was a day long to be remembered in Provo and will remain a pleasant reminiscence in the memories of the outside visitors who were fortunate enough to attend the festivities which took place in that pretty little city. It was a very pleasant outing given to the members of the Legislature, together with other state officials, officers and employees of both houses, members of the press and other specially invited guests, who were there at the request of the city of Provo and Senator-elect Smoot.

The freedom of the city was extended to the strangers, the gates were thrown wide open, they were shown the sights, were pleasantly entertained and dined, and at a late hour sent home rejoicing. A special train consisting of several coaches left the Oregon Short Line depot at a few minutes past one, filled with 200 people and arrived at Provo a little before schedule time. Upon alighting at the platform the visitors were greeted with pleasant words of welcome and a warm handclasp by the newly elected senator and the committee of arrangements; also with music by the band. Carriages and sleighs were in attendance and the entire party was escorted to the Brigham Young academy which they, together with the residents of Provo, filled to overflowing.

Besides the members of the Legislature there were many other leading citizens present, among them being Secretary of State Hiram A. Smith, State Treasurer Dixon and wife, Hon. John Henry Smith and wife, and Geo. A. Smith and wife, Supreme Court Justices Baskin and McCarty, State Superintendent Nelson and wife, James H. Anderson and wife, and many others. THE GIBRALTAR OF THE INSURANCE WORLD.

The company which has "The Strength of Gibraltar" has given one more proof, it proved we need not have the assumption of the phrase was well warranted in the Annual Statement now before us.

During 1902, The Prudential has added over one hundred and eight million dollars to the amount of paid for insurance it had in force. It has added to its assets nearly Twelve Million dollars; and it has nearly Twenty Million dollars; and to its surplus funds more than Two Million Five Hundred thousand dollars.

It has now in force over Eight Hundred Million dollars of life insurance, divided among nearly Five Million policies, representing roughly speaking about One Million families.

This is really a magnificent showing for a company that has only a record of twenty-seven years to look back upon; certainly nothing like it has ever before occurred in the history of American life insurance.

Of keen competition, success can only be the result of enterprise coupled with upright business management; and one who has the strength of Gibraltar for cause to account for The Prudential's great success.

SENATOR HOAR SAID

In speaking of American and Spanish gunnery: "It is not the amount of metal thrown—it is what hits the mark." It's just so in advertising. It is not how much advertising you do; it's what reaches the mark.

Deseret News advertising is judicious advertising—every advertising shot tells in results. The "News" does your shot into thousands of the best homes in Salt Lake City and surrounding territory. Puts you in touch with the best business men and merchants. It is read in the evening when the day's labors are finished. That's the only time the housewife has to peruse the papers for the bargains that are offered at the stores down town.

"News" readers are buyers—they are people with money—you can get some of it by going after it—the field is open.
