## LAST NIGHT'S NEWS

A Captain and Three Sailors to Die for Murder.

WASHINGTON NOTES OF INTEREST.

Bird's Story of Mexican Outrage a Fabrication.

A PRIZE FIGHT ARRANGED BETWEEN McAULIFFE AND CARNEY.

A FAMILY ASPHYXIATED — JEFF. DAVIS ON THE FLAG EPISODE, ETC.

By Telegraph to the NEWS.

**A Deciteful Bird.**

EL PASO, June 30.—Investigation settles it that the heartrending tale of Bird, telegraphed from St. Louis two months ago, is utterly without foundation. Bird claimed that he and the members of an opera troupe were arrested and thrown into a Mexican prison in Paso del Norte, on a flimsy pretext. He was denied a hearing until four of the company died of smallpox. The only incident that could possibly have given rise to such a story was the arrest of a troupe of Spanish students in Paso del Norte last winter for refusing to carry out a contract to perform in that town after the audience had assembled. The students declined to perform unless they were paid a certain sum. They were promptly jailed, but were let out under bond within an hour. They performed in El Paso two nights later and then went north.

Mayor Provincio says there has not been a death from smallpox in the Mexican jail in six months.

Consul Brigham says of Bird's story: "It is a lie made out of whole cloth."

**American Shipping.**

CHICAGO, June 31.—To day's session of the Lake Shore and Mississippi Valley Department of the American Shipping and Industrial League was very sparsely attended, and the convention adjourned to-night *sine die* after electing a vice president for each state in its territory and adopting a series of resolutions to be presented to Congress by the four Chicago congressmen and Senator Sabine, of Minnesota. The resolutions urge the passage of the "tonnage bill," which provides that every vessel, built and owned in the United States trading with foreign ports shall be allowed thirty cents per ton for each 1,000 miles sailed or steamed for a period of ten years. A coast defense of the lake, as well as the seaboard is demanded. The other planks insist upon the improvement of the rivers and harbors, of the lakes and the Mississippi Valley and the upbuilding of the navy.

**Dun's Statement.**

NEW YORK, June 30.—R. G. Dun reports that for the first half of 1887, the failures in the United States are 4,912 in number, against 5,156 for the same period in the previous year, showing a decrease of 224. The liabilities show a slight increase. For the last half year the liabilities were $55,130,000, against $50,334,000 for the first half of 1886. The failures in Canada during the first half of 1887 were 731 in number, against 699 during the same period in 1886. The amount of liabilities for the first half of 1887 is $10,693,150, against $5,501,697 for the corresponding period of 1886.

**Asphyxiated.**

HAVANA, June 30.—A workingman in Hoiquin, as a precaution against small-pox, built a coal fire before retiring for the night and placed thereon several leaves of tobacco, the fumes from which he had been told furnished a safeguard against disease. The next morning the man, his wife and eight children were dead, suffocated by coal gas.

**Earthquake.**

CONCORD, N. H., June 30.—One of the most distinct shocks of earthquake ever experienced here, was felt at 5:09 o'clock this afternoon.

Similar shocks are reported from Manchester, New Hampshire, and Bellows Falls, Vermont.

**Fish Dead.**

NEW YORK, June 30.—Hamilton Fish died to-day after a long illness.

**McAuliffe vs. Carney.**

BOSTON, June 30.—The friends of Jack McAuliffe, light-weight champion of America, and Jim Carney, light-weight champion of England, have arranged a match between the two for the the light-weight championship of the world. The fight to be to finish with skin-tight gloves, Marquis of Queensbury rules. The battle to be for $2,500 a side, and to take place between the first and sixth days of October next, within 300 miles of Boston.

**Baseball.**

PITTSBURG, Pa., June 30.—The Boston's made their initial appearance at Recreation Park to-day after a special procession through two cities had been given in their honor, Kelly being the star attraction. The Pittsburgs started the game by making four runs in the first innings, and the Bostons also started their half of the innings at a lively pace and made three runs. They took the lead in the fourth inning, making four runs. In the ninth inning the Pittsburgs again took the lead. Singles, by Coleman, McKinnon and Smith, and a double by Whitney, brought in three runs. Score—Pittsburg 10, Boston 8.

INDIANAPOLIS, June 30.—It was not Boyle's pitching that lost the game to the Indianapolis club to-day, for he had it well won for his team up to the seventh inning when a number of

COSTLY ERRORS

gave the New Yorks five runs and tied the score. Score—Indianapolis, 10; New Yorks, 11.

DETROIT, June 30.—The superior fielding and more sociable hitting of the representatives of the City of Brotherly Love, won to-day's game. Score—Detroits, 5; Philadelphias, 10.

CHICAGO, June 30.—Anson's errors tell the story of to-day's ball game. In the second inning O'Brien made a three-bagger and Anson's error let him in. In the ninth, after the Chicagos made three runs, Anson's error gave O'Day his base, and Hines' home run tied the score. Then in the tenth, another error by Captain Anson allowed the Washingtons to win. Van Haltern, the California all-round player, did the best batting of any of the Chicago team. He is a ball player. Score—Chicago, 3; Washington, 4.

**The "Fidelity" Bank.**

CINCINNATI, June 30.—The district attorney to-day filed proceedings brought by the comptroller of the currency to forfeit the charter of the Fidelity National Bank and to wind up the affairs of the corporation. The bond of Vice-President Harper has been increased to $200,000 and that of Assistant Cashier Hoskins to $10,000.

**Trades Council.**

CHICAGO, June 30.—The National Federation of Trades council re-assembled this morning and after adopting resolutions favoring the appointment of an arbitration committee to settle the strike with the Master Builders' Association, adjourned until the third Tuesday in September, when a meeting will be held in Chicago.

**Pleuro-Pneumonia**

NEW YORK, June 30.—Pleuro-pneumonia, which has been raging in the upper part of Westchester County, has attacked the cattle at Shrogga Neck. The state officers were notified yesterday and a strict quarantine was established. The infected animals will be killed at once.

**Anti-Liquor Men.**

DELAWARE, Ohio, June 30.—In the Ohio State prohibition convention today the platform, as read, says of the Dow liquor law, that ample trial has shown it was designed as a seeming concession to temperance while really putting the cause at a disadvantage. The labor plank was opposed by Schumacker and others, and the convention finally adopted a plain denunciation of anarchy. Woman suffrage was not endorsed.

**Tempest in a Teapot.**

BALTIMORE, June 30.—The *Sun* has a long letter from Jeff. Davis in regard to the return of the southern battle flags. He thinks it the object now to unite the people of the North and the South. Every sign of the past conflict should as far as possible be obliterated. To retain as a point of pride the capture of the flags would be equivalent to renewed exultation. The one element of value in the proposition to return to both the North and South the flags now in the War Department, Davis says, is that the restoration would be declared such as the old Romans made—that there should be no triumph for victory won in civil war. He thinks the excitement over the matter very much like a tempest in a teapot.

**The Investigation and Other Railroad Matters.**

NEW YORK, June 30. — President Bates of the B. & O. Telegraph Company declares there is no truth in the rumor current that the B. & O. lines have been sold to the Western Union.

OMAHA, June 30.—Before the Pacific Investigating Committee to-day Traffic Manager Kimball testified regarding the free pass system, rebates and other particulars. The instructions, he said, permitted the

ISSUANCE OF PASSES

to members of the press, members of legislative bodies as a matter of policy made necessary by the practice of other roads, to temperance lecturers, Sisters of Charity, news agents and persons having business establishments on the line of the Union Pacific. They gave the Standard Oil Company a rebate because that company gave the road fifty per cent. of its transcontinental business, and rebates had been given the Pacific Mail Company as its share in the transcontinental pool and also as one of the conditions of said pool under which the steamship company agreed to maintain rates between San Francisco and New York.

ST. LOUIS, June 30.—Wm. Kerrigan, general superintendent of the Missouri Pacific having resigned,

A. W. DICKINSON

has been appointed general superintendent of the lines in Missouri, Kansas, Nebraska and Indian Territory, and Joseph Herrie for the remaining lines.

GALVESTON, Texas, June 30.—A special to the *News* from San Antonio, says: It is rumored that the San Antonio & Arkansas Pass Railway has been sold to the Atchison, Topeka & Santa Fe Company.

**Criminal Cases.**

NEW YORK, June 30.—Chael Raark, the West Shore express robber, has been sentenced to twenty years at hard labor in prison.

LONDON, June 30.—The captain and three of the British bark *Lady Douglas*, which arrived here May 21 from Gascoigne, have been sentenced to death for murdering a Malay sailor on the voyage.

MONTREAL, June 30.—Considerable excitement was caused here to-night, when it was reported that L. D. Whitney, secretary of the Montreal board of harbor commissioners, was missing. The chairman of the board says that Whitney is a defaulter to a large amount.

WASHINGTON.

**Fish Statistics Pardons Granted, Etc.**

WASHINGTON, June 30.—Chief Engineer Henry de Snyder of the navy, superintendent of the State, War and Navy building, died suddenly this morning of hemorrhage of the lungs.

The Secretary of War has appointed Jas. Madison Barrett clerk to General Sherman, under authority conferred by the last Congress.

THE PRESIDENT

has appointed Joseph W. Preston of Monticello, Georgia, agent for the Indians of the Mission Agency in California; Harvey E. Shields, of Terre Haute Indiana, to be receiver of public moneys at Olympia, W. T.

It is estimated at the Treasury Department that the reduction of the public debt for June will be about $15,000,000.

The statement prepared for the annual report of the fish commission shows by river basins the following

DISTRIBUTION OF SHAD

during the past season: Penobscot River, 1,000,000; Kennebec River, 800,000; tributaries of Narragansett Bay, 1,125,000, and Hudson River and estuaries, 1,079,000; tributaries of the Delaware Bay, 5,000,000; tributaries of the Chesapeake Bay, 5,714,000; tributaries of Albemarle Sound, 5,322,000; tributaries of the South Atlantic Coast, 3,566,000; tributaries of the Gulf of Mexico, 7,048,000; inland waters, 1,014,000; total 95,421,000. This number is greatly in excess of the output of any previous year, and the production has been attended by no increase of expenditure. The results are due to the added experience and improved methods in hatching. Some observations as to

THE SURVIVAL

of the fry put into our waters show that twenty per cent. reached two or three inches in size. If only three per cent. of all the shad that have been planted in the Chesapeake and its tributaries (for example) the present season should survive and attain maturity there will be restored to our waters by artificial propagation fully as many mature shad as have been taken from it by the fishermen this season. Arrangements have been made by the commission to secure complete statistics of the shad catch along the entire coast the present year, similar statistics having been collected during the seasons of 1885 and 1886. Information already in the hands of the commission make it certain that the

AGGREGATE PRODUCTION

of shad on the coast has been larger the present season than any time the last twenty years. Colonel McDonald will soon start upon an extended journey with a view to putting into operation the plan conceived by Prof. Baird, which there is reason to think will quintuple the profitable results of the commission's work without adding at all to its expenditure. It is proposed to establish a number of hatching, distributing and collecting stations in various suitable localities, each having in addition some especial work for which its region is adapted. The advantage as regards the number of fish in making shipments in the egg state, when compared with the present method of sending out young fish, is

SOMETHING ENORMOUS.

It is in contemplation to establish stations proposed as follows: One on the Hudson, with an especial view to stocking the basin of that stream with salmon trout; one in northern Alabama or northern Georgia for rearing trout and other fish adapted to that latitude and distributing them to the South Atlantic and Gulf States; one at Weedon, N. C., to breed rock fish; one on the south slope of the Ozark Mountains to serve in Louisiana, Arkansas, Texas and Missouri; one in Colorado, to gather the eggs of the Rocky Mountain trout and supply the mountain region with eastern species; and one on the Columbia, for breeding California salmon. Congress has already made the necessary appropriations for the Columbia River station. Col. McDonald will select sites for others, the actual establishment of which will of course await the

ACTION OF CONGRESS.

Incident to the incoming of the new fiscal year a number of changes in the public service will be made to-morrow. In the consular service of the government the present system of compensation of consuls by fees will, under the terms of the new appropriation bill, be supplemented to a large extent by a system of graded salaries. Twenty clerks in the Treasury Department have been dismissed, to take effect to-morrow, because of the failure of Congress to make provision for the payment of their salaries. A number of minor changes, such as increases and reductions of certain officers will take effect to-morrow as does also the executive order consolidating the national revenue districts and reducing the number of collectors and other employees. The

JUDICIAL BRANCH

of the government is increased by two judges. The twenty per cent reduction in the salaries of assistant district attorneys goes into effect to-morrow. The appropriations will cause about twenty-four changes in the agricultural department. Twelve new appointments will be made, and about twelve persons serving under temporary appointments will be transferred to permanent roles.

A circular was received at the Navy Department from a Chicago man announcing he had solved the problem of aerial navigation, and is about to build a great air ship which is to start out June 1st, next year, on a voyage of discovery to the North Pole. He estimates that a month's time will suffice for the voyage, allowing ten days or two weeks for scientific observation of

ARCTIC PHENOMENA.

The ship will carry 200 persons and travel at a speed of seventy miles an hour. The inventor undertakes to carry with him representatives of the press and scientists. The essential feature of the discovery consists of a great cylinder built of thin plates of steel, to which the passenger car is attached. For a force instead of gas, a partial vacuum is used, and eight exhausting screw propellers driven by electric secondary batteries propel the craft.

It is stated at the White House that the President has decided to attend the centennial celebration at Clinton, N. Y., on the 13th prox., but beyond that he has not completed his arrangements for the summer.

PARDONS GRANTED.

The President has acted upon the applications for pardon of a number of convicted criminals, the most important cases being Thomas Ballard, the notorious counterfeiter, who was sentenced January 21, 1875, to thirty years imprisonment in the Albany penitentiary. The President granted him a pardon. He says the prisoner was supposed to be one of the most expert counterfeiters in the country. He had been imprisoned equal to more than fifteen years, allowing the deduction he has secured for good behavior. He has grown to be an old man, broken down physically and mentally. His conduct has been such as to cause much interest to be felt in his case by many good citizens and officials concerned in his conviction. His wife, who has clung to him with a true

WOMAN'S DEVOTION

all those years, and almost worn herself out in the effort to support and educate her daughter, just now reaching womanhood, pleads for the erring and penitent husband's release. There is a universal belief on the part of those acquainted with the case that the prisoner's reformation is complete, and that in no circumstances could this broken down man, whose mind is fast giving way with his body, be a menace to society if liberated. "I am of the opinion in this case that the laws have been fully vindicated."

Pardons have been granted as follows: To William E. Moone, sentenced May 8, 1884, to four years for manslaughter; to Ben Mercer, sentenced October 16, 1886, to one year's imprisonment for violation of the internal revenue laws; to Samuel R. Jones, convicted in 1885 and sentenced to two years' imprisonment for violation of the internal revenue laws, and Jacob Heickle, convicted of

BIGAMY IN UTAH.

A pardon has been refused in the case of John Irvine, sentenced in Wyoming February 20th, 1879, to imprisonment for life for mail robbery. In declining to grant a pardon in this case the President says he can't bring himself to the point of pardoning this convict now, it being a bad time to pardon such an offense when they are quite in vogue and their commission frequent.

The postoffice at Sonora, Cal., has been raised from the fourth to the presidential class.

Forty employees in the government printing office, principally in the binding and folding departments, were discharged to-day.

**The Commons.**

LONDON, June 30.—In the Commons to-night W. H. Smith moved if the report on the crimes bill be not reached by Monday the cloture be applied.

The Parnellites opposed the motion which, however, was carried by a vote of 220 to 120.

The speaker then called upon the Parnellites who moved the amendments standing opposite their names on the paper.

The Parnellites who were watching the proceedings from the members' side of the gallery, made no reply.

The amendments introduced by Balfour were agreed to without debate and the bill was reported.

Balfour announced the third reading would be moved on Tuesday next.

On a division on Smith's motion all the Parnellites and many Gladstonians, instead of resuming their seats, retired to the side of the galleries and took no further part in the proceedings.

The remaining amendments were disposed of in eighteen minutes. Balfour's amendment includes one for the omission of the change of venire clause.

The *Post* says Gladstone will move the rejection of the crimes bill when the measure comes up for its third reading.

Several U. S. Senators have been cured by St. Jacobs Oil. Price 50 cents.

BENTON'S HAIR GROWER.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp, should use Benton's Hair Grower. EIGHTY PER CENT. of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of Hair on those who have been bald and glazed for years. We have fully substantiated the following facts.

We grow Hair in 80 cases out of 100; no matter how long bald.

Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons.

It is a specific for falling hair, dandruff, and itching of the scalp.

The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

Sold by druggists or sent on receipt of price, $1.00.

BENTON HAIR GROWER CO.,
deod & e Cleveland, O.

H. ARNOLD, JR.,
Trustees.

Salt Lake City, June 30th, 1887.

DEAFNESS Its causes, and a new and successful Cure at your own home, by one who was deaf twenty-eight years. Treated by most of the noted specialists without benefit. Cured himself in three months, and since then hundreds of others. Full particulars sent on application.
T. S. PAGE, No. 41 West 31st St., New York City. deod&w
