

WARRANTS FOR THE ARREST OF "PUGS"

Ogden Congregational Minister Swears Out Complaint Against Two Principals.

SEQUEL TO BOXING CONTEST.

Oregon Short Line's Recently Acquired Springs Are to be Contested in Court on Tuesday.

(Special to the "News.") Ogden, Jan. 8.—Today the Rev. Noble S. Elderkin of the Congregational church, swore to a complaint, charging Morris Thompson and "Cyclone" Thompson with a felony, it being alleged that they engaged in a fistie combat on Jan. 8, contrary to statute 4308 of the revised laws of Utah.

A warrant was issued for the arrest of the two Thompsons, not brothers except fraternally, and Sheriff Sebring and deputies are out looking for the men wanted.

CONTEST OVER SPRING.

Papers have been prepared by Richards, Rolapp & Pratt for Lewis Zitzman, for a writ of mandamus to be served upon Caleb Tanner, state engineer, to compel the latter to issue to Zitzman a certificate of appropriation of certain water in Taylor's canyon. The complaint alleges that on Oct. 21, 1905, plaintiff filed on three springs of water in the office of the engineer. Two weeks later the Oregon Short Line railroad filed on the same springs. Subsequently both sets of papers were returned to the respective filers for a better description of the property filed upon. Zitzman claims that he complied with the request, and sent the corrected papers to the office of the engineer, only to have them sent back without acceptance. In the meantime the railroad company began piping water from the springs to the Ogden union depot and other property.

Atty. C. C. Richards will ask the court to make the mandamus proceedings returnable on Tuesday next.

BURGLARS GET JEWELS.

Between dark and 10 o'clock last night the residence of A. F. Richey, on Twenty-sixth street, was entered by burglars, who entered through a rear window. The house was ransacked and several articles of jewelry were stolen, a diamond ring being among the number. There is no clue to the perpetrators of the robbery.

BURNS ARRAIGNED.

Ball Fixed in the Sum of \$1,000 by City Court Today.

Robert Burns, the man brought back from Park City by the local police, is now confronted with a serious charge, that of causing the downfall of a girl under the age of 18 years. The name of his alleged victim is Josephine Peterson, and the officers claim that she is willing to testify against the man when his case comes up for hearing in the criminal division of the city court this morning and will enter his plea on Friday. His bail was fixed in the sum of \$1,000, which he has not been able to furnish. He is now in the county jail.

WHAT HOOVER FOUND.

Say Washington Lawyer Got Evidence That Will Acquit Mrs. Bradley.

(Special to the "News.") Washington, D. C., Jan. 8.—Attorney George F. Hoover, who has been in Utah in the interest of Mrs. Bradley, is expected to return to Washington this evening. His partners here declare that his trip has been highly successful in that Mr. Hoover has secured an outline of enough evidence to show the justification for the act for which the prisoner is being held. In the meantime the grand jury is considering the evidence obtained by the district attorney's assistance, and there is no doubt that a true bill will be reported against Mrs. Bradley. Hoover's partners expect to secure an acquittal of Mrs. Bradley on the ground of justification.

BUILDINGS COMPLETED.

Utah Gas & Coke Co. Getting Ready To Operate in Near Future.

The Utah Gas & Coke company has completed two of its new buildings at Ninth West and First South streets, which is changing the appearance of that locality materially. One of these structures is the retort house. The company expects to be in active operation by April 1, as 47 miles of pipe has now been laid. The trenching through the business district, where the pipe was put down, is being repaved by the city, at the expense of the Gas & Coke company.

Sweet's CARNATION CHOCOLATES

Are pure enough to comply with the national pure food law, and rich enough to meet the universal demand for high quality.

Pound or half pound boxes at all drug stores.

SWEET CANDY CO., Manufacturing Confectioners.

GUESS ON THE WEATHER.

As was intimated in last evening's "News," the high barometric pressure from the northwest, dropped down into this latitude, and forced back the Low area approaching from the west, so that the latter is stationary over the south-west. There are three high area centers extending from the 30th to the 50th parallel of latitude, and covering most of the United States today, and as long as this condition obtains there is a possibility of the western low area being switched around through the south to the Gulf of Mexico. In the meantime rain is reported falling along the Colorado river, the watersheds, making things interesting for the engineers who are trying to turn the current of the river away from the Salt Lake. Low temperatures are obtaining up north, the mercury falling as low as 24 degrees below zero.

DIED AT LONG BEACH.

W. J. Anderson, Stockgrower of Evanston, Succumbs to Heart Disease.

(Special to the "News.") Evanston, Wyo., Jan. 8.—Word has just reached here of the death at Long Beach, Cal., yesterday, of W. J. Anderson, well known rancher and stock grower of this place, and brother of Mrs. Thomas Blyth, of heart disease from which he has suffered a long time. Mr. Anderson went to California about six weeks ago in the hope that his health might improve, but a few days ago he was taken worse, and which he has not been able to get over. The remains will be shipped to the family home in Canandaigua, New York, for interment.

NEWTON OUT OF THE WOODS.

Looks as Though All Cases Against Him Would be Dismissed.

The beginning of the end of all the troubles of Attorney William Newton is in sight. In the language of the race track devotees, it is a 100 to 1 chance that Newton will never be placed on his defense for any of the alleged offenses charged against him. It is said to be almost a certainty that, as the cases are called in their order, they will be dismissed on motion of the new county attorney, Willard Hanson. One case has already been ordered dismissed. The old charge of disturbing the peace and quiet of the prisoners in the county jail, which was recently dug up, has been so ordered. Hearing of this case was set for tomorrow, but this morning the county attorney made a motion in which he asked that the matter be dismissed, and the order was promptly made by Judge Diehl. Burns' case, and every body who would shoot, and disturbing the peace, will follow the same route.

STOLE \$500

Jack Smith Accused of Stealing That Amount in Ogden.

Jack Smith, for some time employed in the Vienna restaurant at Ogden, was placed under arrest in this city last evening by Officer Mike Malone of the Junction city police force. The charge against Smith is that of embezzling \$500 from the restaurant, and the probabilities are that he will also have to answer to the charge of criminal conduct with a 16-year-old girl named Rose Raleigh, also of Ogden.

The girl was employed as cashier at the restaurant, and was recently arrested on the charge of appropriating \$500 from her employers.

When questioned by the police she finally admitted that she took the money, but declared that Smith was the instigator of the crime and that she gave him \$300 of the money. Smith then came to Salt Lake, and between 4 and 5 o'clock last evening Officer Malone arrived and began to search for the man. Malone was about to give up the search last evening, when suddenly he came to Salt Lake, and between 4 and 5 o'clock last evening Officer Malone arrived and began to search for the man. Malone was about to give up the search last evening, when suddenly he came to Salt Lake, and between 4 and 5 o'clock last evening Officer Malone arrived and began to search for the man.

COLORADO COAL THROUGH CHEAPER

Why Denver Manufacturing Concerns Thrive Better Than Salt Lake's.

LETTERS ON COMMISSION.

Headquarters of M. and M. Association Receiving Many Documents in Favor of Their Railroad Bill.

One way in which the chief city of Colorado thrives as a manufacturing center while the chief city of the intermountain west is passed up by intending investors, after investigation, is shown in letters made public today by the M. and M. association.

Denver City receives its fuel for manufacturing purposes at less than half the price charged in Salt Lake. The lump coal goes into the furnaces of the manufacturing plant in Denver at just \$2.30 per ton. Of this sum the railroad gives 80 cents a ton for freight, and the mine operators at Louisville or Erie in the Lewis district, receive \$1.50 for the trouble of mining it.

With slack, which is burned much more generally in the big furnaces, the situation is still more in Denver's favor, for the railroad hauls it at 60 cents a ton, and the furnace man shows it in to his fires at only \$1.35 per ton. The data on the Colorado fuel situation was furnished by Thos. C. Scott, manager of the Colorado Manufacturers' association, in response to a message of inquiry from the local offices of the Utah M. and M. association. The officers of the M. and M. regard this information as vital, and as giving the final explanation of the refusal of Hon. John C. Critchlow to introduce the bill, and that it is being backed by a great deal of sentiment independent of the organization. Secy. C. O. Harris declares that he himself informed the committee on the bill, that he had a great deal of information in his possession, and that this fact has so well known that the attempt of the paper to ignore it could not have been a mistake made in good faith.

WORK ON COMMISSION BILL.

Today has been a busy day in the preparation of the railroad commission bill, which the board of governors of the M. and M. will have ready for the legislature by Monday. Considerable inquiry has been made concerning the bill because of the fact that one of the morning papers stated that no one could be found to father the proposed measure, and that it would have had a bad reception in the legislature. It was declared by President Hewlett that the paper making the statement was well informed on the fact that Hon. John C. Critchlow, to introduce the bill, and that it is being backed by a great deal of sentiment independent of the organization. Secy. C. O. Harris declares that he himself informed the committee on the bill, that he had a great deal of information in his possession, and that this fact has so well known that the attempt of the paper to ignore it could not have been a mistake made in good faith.

AGITATION LETTERS.

A great many responses to letters on the railroad question have been received at the headquarters of the M. and M. association here today. One of their stock petitions came in from Santaquin with 85 signers, some merchant who received it, has obtained a sheet of foolscap paper and secured enough signatures to fill it.

From the Murray Mill and Lumber company a strong endorsement of the proposed bill has been received. The company declared that it had long been the desire in Murray to start up a mill for the making of window sashes and doors. The freight rate on window glass to Murray is \$1.40 per 100, while the rate on finished doors and sashes, with the glass inserted, is only 75 cents per hundred. The freight on lumber is \$1.00 per 100, while the rate on finished lumber is \$1.00 per 100. The company declared that it had long been the desire in Murray to start up a mill for the making of window sashes and doors. The freight rate on window glass to Murray is \$1.40 per 100, while the rate on finished doors and sashes, with the glass inserted, is only 75 cents per hundred. The freight on lumber is \$1.00 per 100, while the rate on finished lumber is \$1.00 per 100.

WHAT A RANCHER SAYS.

From James Veater of the Veater ranch in Garfield county, comes a distinctive letter. Rancher Veater asks for more petitions, and volunteers to ride around the country getting signatures. "I will even scratch out my own name," he says in conclusion, "I will even scratch out my own name from the records at the office of the secretary of state, that he was powerfully certain John H. could scratch back the name himself, if he should live up to his name."

REPUBLICAN CAUCUS.

They Will be Held on Saturday Night in District Court Rooms.

Secy. of State Tingey today completed arrangements for the district court rooms for the meeting of the Republican legislative caucus to be held in this city on Saturday night next. Secy. Tingey invited a big percentage of the house members would meet in Judge Ritchie's court room, and the senators will assemble in Judge Lewis' chamber on the opposite side of the hall.

Mr. Tingey also stated that in the event the Democrats should conclude that they desire to caucus he would likewise provide quarters for them.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 8 a. m. today: Temperature at 8 a. m., 29; maximum, 35; minimum, 24; mean, 31, which is 4 degrees below normal. Relative humidity, 72 per cent. FORECAST TILL 6 P. M. THURSDAY. Local forecast for Salt Lake City and vicinity: Partly cloudy and unsettled tonight and Thursday. R. J. HYATT, Section Director.
