STRANGER DIES IN PRISON WARD

John McConick, Under the Care of the Sheriff, Succumbs To Pleurisy.

JAPS SUPPLANT WHITE MEN.

That the Railroads May Save 25 Cents Per Day in Harvesting Ice—News Notes.

Ogden, Jan. 2.—John McConick, a man 34 years of age, died at the county jail yesterday about noon from exhaustion. He was not a prisoner at the jail but had been taken in by Sheriff Sebring at the request of Dr. Gordon and given medical attention. On Dec. 27 he called on Dr. Gordon and asked for medical attention. He had been drinking considerably and was suffering from

pleurisy. The physician gave him medicine and sent him to the sheriff to be cared for, his condition not being considered serious. Tuesday he grew worse and seemed to be out of his mind. The prisoners carefully nursed him and the doctor gave him careful attention, but his condition was weaker than was thought. He said that his home was at Springfield, Ill., and an effort will be made to locate his folks. He had been employed by the Utah Construction company on the Western Pacific. His body will be kept at Larkin & Sons' morgue awaiting advice from the east.

STORE BURGLARIZED.

The police have been unable to get any trace of the burglars who entered Hansen's bicycle shop New Year's eve, and are at a loss to know why they did not take more goods, unless frightened away. They smashed in the front window, and carried away only a

few revolvers and pocket knives, so that Hansen's greatest loss will be in the breaking of the glass in the window. This is the second time within a few months Hansen's store has been burglarized.

JAPS SUPPLANT WHITE MEN.

To Save 25 Cents Per Day in Ice Harvesting.

Ogden, Jan. 2.—In order to save 25 cents per day for each man necessary during the ice harvest, the railroad companies have discharged about 30 white men, some with families, and will continue the work with Japanese labor. This move on the part of the railroad officials has caused considerable feeling among the discharged men and many others towards the Japs. At the present time the force harvesting the ice in Ogden is only about 30, but if plenty of cold weather sets in, the force will be doubled. The white men were being paid \$2.50 per day, and the Japanese will receive \$2 per day.

STREET CAR STOPS.

Supt. Bailey of the Ogden Rapid Transit company has commenced a new regulation in the letting off and taking on of passengers. In the future the cars will stop at the new side of all streets, whichever way the car is traveling, and also in the middle of every block, to take on passengers.

pany has one rig working on R. E. Egan's field. The well is down about 400 feet. It has a small quantity of high grade oil, which this field is noted for. The company has been working for its own coal mine which is close by, but it has proven too expensive on account of the smallness of the vein, and it has closed down.

The Montana & Wyoming Co., composed largely of Billings business men, has two rigs working on the farm of E. E. Jones. It has three wells sunk, one of which furnishes the gas to supply the rigs. There is enough gas coming out of the three wells to furnish several large towns with fuel and light. Over 50 barrels of oil per day has been taken out of one well and poured out on the ground.

Last evening one of the rigs burned to the ground. The fire was caused by a wave of gas being blown over a small fire which was located between the rig and the boiler. The rig was recently shipped from the east. The loss was between \$1,000 and \$2,000.

Holiday Festivities—Little Boy Kicked By a Horse.

Special Correspondence.
Imbler, Ore., Dec. 30.—Little Horace Roylance, son of Harvey and Eliza Roylance, who had his leg broken some time ago by a horse kicking him, is getting along nicely.

An up-to-date program was rendered Christmas evening. Every one had a good and enjoyable time.

O. F. Ursenbeck and John Enon of Rexburg, Idaho, were here looking at the country. They are so well pleased with climate that they have gone back to sell out and come here to make their homes.

A week ago some snow came, but went off in a day or two; more came last night. There has been some cold weather, but it hasn't been below zero yet. There is room here for more families.

MARYLAND NEGROES.

Gov. Warfield Says is Demand for Elimination of Ignorant Vote.

Annapolis, Md., Jan. 1.—In his annual message to the state legislature, which assembled today in its regular biennial session, Gov. Edward Warfield discussed state affairs at considerable length. He advocated an amendment to the constitution, fixing a standard of qualification for the election franchise. He was satisfied, he said, that there is a demand upon the part of the majority of the citizens of Maryland for such an amendment—a demand for the elimination of the ignorant, unreflecting, thriftless negro vote.

Whatever amendment is proposed, he held, should protect the citizen who voted in 1860, or prior thereto, and his descendants, and the foreign-born citizen who has become naturalized, and it should also contain as an alternative right, an educational qualification.

NEGROES PROTEST AGAINST LILLY WHITE PARTY.

Mobile, Jan. 1.—Ten thousand colored people gathered today and celebrated emancipation day with a monster meeting. Rev. B. F. Wheeler was the principal speaker. The following resolutions were adopted:

"Resolved, That we, the colored people of Mobile, Alabama, pledge our continual allegiance to the fearless leader and faithful champion of the third term movement in the person of the Hon. Frank H. Hitchcock, first assistant postmaster-general. And we consider Secy. of War Taft fortunate in securing such a man as Mr. Hitchcock to manage his interests in the southern states. We will now feel much more friendly in the future to the Taft movement than we have in the past."

"Resolved, Whereas we have heard that within the last few days an effort has been made to recognize individuals connected with the former Lilly White party in Alabama, we do hereby enter our most solemn protest against any individual or individuals or organization that will in any degree give aid or comfort to the Lilly White party in this state and further resolve that we will inform our brothers in the northern states as soon as we know of any presidential candidate recognizing the Lilly White movement in the south so that both in the primary election and in the vote for president, they may cast their votes and influence against any candidate who recognizes the Lilly White party."

VALUABLE HOME RECIPE.

Will Break Up a Cold in 24 Hours or Cure any Cough that is Curable.

Mix one-half ounce of Concentrated oil of pine with two ounces of glycerine and a half pint of good whiskey. Shake thoroughly each time and use in dose of a teaspoonful to a tablespoonful every four hours.

The renowned throat and lung specialist who established camps for consumptives in the pine woods of Maine, treated thousands of remarkable cures there attracted international attention, declares that the above formula is one of the very best remedies obtainable for an acute cold and that it will strengthen the lungs, relieve bronchitis and heal the bronchial tubes. Also, that it will cure any case of lung trouble not too far advanced.

The ingredients are procurable of any good prescription druggist and easily mixed at home and should take its place as one of the most valued remedies in the family medicine chest.

Inquiry at one of the leading druggists elicited the information that concentrated oil of pine is put up in pieces of box and the half-ounce vials sealed in tin screw top cases intended to protect it from heat and light. The oils sold in bulk and the medicinal put up and labeled "Oil of Pine," are to be avoided owing to their impurities.

LIONESS ROSE IN A RAGE.

New York, Jan. 2.—Rose, mother or grandmother of practically all the lions in the Bronx zoo, created an immense amount of excitement for a holiday day yesterday by roaring and rushing up and down her cage and clawing at her head. After considerable difficulty the keepers discovered that Rose had driven one of her lower fangs into a piece of bone and was unable to detach it. She could not close her mouth and in her rage and excitement caused such commotion that the keepers had the lion house cleared. With the aid of an elephant hook the piece of bone was finally pulled off the tooth, but not until his sharp edges had painfully torn the lion's mouth and throat.

HOW TO AVOID APPENDICITIS.

SPANISH ANARCHISTS.

Because of Outrages Part of Barcelona's Guarantees Suspended.

Barcelona, Jan. 1.—In consequence of bomb outrages by local anarchists King Alfonso has signed a decree provisionally suspending a portion of the constitutional guarantees in the city. In the last few days five internal machines deposited in various parts of the city exploded, without causing material damage. Last night, however, a policeman found a large one on the doorstep of a mansion. In carrying it away the machine exploded, frightfully mauling the officer, injuring several bystanders and partially wrecking surrounding buildings. The policeman died of his injuries.

The night came on the good wife smiled to herself as she softly said: "Thank God, we're happy healthy and bright. We all take Rocky Mountain Tea at 112-114 South Main Street."

Ovation for Mahler.

New York, Jan. 1.—Gustav Mahler, director of the Royal Opera house in Vienna, made his first appearance in this country tonight in Richard Wagner's musical drama, "Tristan and Isolde," at the Metropolitan Opera house. The ovation accorded him for his masterful direction of the love tragedy by a critical audience has never been exceeded at the Metropolitan. Mme. Olive Fremstad made her debut tonight as Isolde and her interpretation of the role of the unfortunate princess was accorded a merited success.

MURDERED BY BURGLAR.

Newark, N. J., Jan. 1.—George A. Fisher, a city building inspector, was aroused from sleep early today by the movements of a burglar, who was

entering a store adjoining his house raised his window and called out:

"What are you doing there?" The reply was a pistol shot. The bullet passed through Fisher's eye into his head. Mrs. Fisher found her husband unconscious and hanging partly out of the window. He died several hours later without regaining consciousness.

THAW'S TRIAL.

Anthony Comstock Will be a Witness For the Defense.

New York, Jan. 1.—Anthony Comstock, secretary of the New York Society for the Suppression of Vice, will be a witness for the defense when Harry K. Thaw is again placed on trial next Monday for killing Stanford White. This was brought out today on the serving of a subpoena on Mr. Comstock.

By means of letters from Thaw to Mr. Comstock counsel hopes to show that the young Pittsburger was mentally unbalanced just prior to the shooting. It is said that several communications passed between Thaw and Comstock, and that Comstock was familiar with some of the events immediately preceding the tragedy.

A STRANGE CASE.

Well-to-Do Woman Found Dying by Her Brother in His Home.

Chicago, Jan. 2.—Unusual circumstances are connected with the death of Miss Mary H. Stollenwerk, a well-to-do woman at Paris, near Kenosha, Wis.

The woman was found yesterday lying on the floor of her room at the home of her brother, M. Stollenwerk, a farmer. Her lips were blackened as though they had been burned with carbolic acid.

When the brother entered the house he found his sister gasping for breath, and she did not regain consciousness, dying within a few minutes.

The brother and the coroner are inclined to believe that the woman was the victim of robbers.

When Stollenwerk rushed to a telephone to call a physician, he found the connecting wires had been cut.

The brother said that the woman had suffered a bruise just over the right temple, from which the blood had flowed freely.

The officials thought it possible the acid had been smeared on her lips after she was killed.

Against the robbery theory is the fact that no money seems to be missing.

Miss Stollenwerk was 41 years old. An inquest will be held today.

REV. KNODE COOKE'S CASE.

Wife is Uncertain About Lodging Charges Against Him.

Hartford, Conn., Jan. 1.—Mrs. Cooke, wife of Rev. J. Knoder Cooke, who abandoned his family and fled with a girl to San Francisco, where he has been located, was asked today if she contemplated making charges against her husband.

"It is a very serious matter," she said, "and I could hardly determine what course to take without counsel with the members of my family. It would seem that the Nassau county officials should take the initiative. My husband's crime is not against me, it is against the girl, against the church, and against God. If Dist. Atty. Cotes wants me to prefer charges, perhaps he will communicate with me, then I shall have to consider what is best to be done."

THE COOKBOOK.

Remember that salt raises the temperature of boiling water thereby making vegetables cook more quickly when it is used.

It is a mistake in greasing a griddle to do it with too lavish a hand. The main thing is to see that the grease is evenly distributed.

Chopped cucumbers with tomatoes, when highly seasoned, make a good filling for tomato shells when serving individual dishes. One may decorate the dish with parsley or lettuce leaves.

CHURCH FOR CHILDREN ONLY.

The Rev. George Dwyer of Blackburn, England, has started a "Children's Church," in his parish, intended to serve in place of all existing services for boys and girls. The services will take place each Sunday morning and evening in the parish room, and the expenses are to be met by a halfpenny collection on the last Sunday in each month. Officers will be selected from among the boys, and girls will form the choir. When the children reach the age of 12 they will

be transferred to the parent church, except in the case of the choir girls who will be retained until 14 years of age.—The Sunday Strand.

SOLUTION FOR MANY PROBLEMS.

If every poor child (man-child) was obliged by the state, after leaving the state school, to spend the next two years in either a training-ship or in state agricultural establishment, it would be a very holy and very far-reaching form of conscription. The training-ship would be best, and many, many, many would voluntarily stay there when the two years were passed. All the charitable compromises of the nation do not meet the case at all. They acknowledge the want, but they do not fill that want.—G. H. R. Dabbs, M. D., in Fry's Magazine.

THE THINGS THAT MATTER.

So long as a woman can be described as "charming" or "delightful" nothing else much matters. Whatever her faults may be, they will be viewed with lenient toleration, while even her virtues will be forgiven her.—The Ladies' Field.
