

ON account of a breakage in our printing press, causing unavoidable delay, we were unable to issue the News as promptly as we desired. This was a matter of great regret to us, but accidents will happen in the best regulated families.

ANNA DICKINSON AND WENDELL PHILLIPS—BOSTON AND SALT LAKE CITY.

When, by the *Springfield Republican*, that Miss Anna Dickinson has been delivering an hour-and-a-half lecture in that city, on "Whited Sepulchres." We should judge this would be an excellent topic for the consideration of the people of that region. The keynote of her lecture, according to the *Republican*, was her remark that the discontent of women, and of society in its relation to marriage, grows out of the union of "the man of the present and the woman of the past." She thinks that the progress of civilization has not been equally great with women and with men, that the model woman of society and the pulpit and the press, in the woman of a period that is passing away, while men seek, and will not be content without, a companion in this thought and life of to-day. To change this the strong-minded Anna demands equality of rights, education, freedom and respect, for women as for men, so that they may become truly the companions and not the mere possessions or lacrimatories, of the men they marry.

But she might have found points to have dwelt upon nearer home; for the same evening on which she lectured in Springfield, Wendell Phillips delivered a lecture in the neighboring city of Boston, in which he said, speaking of Boston:

"There are 300,000 people here, and in this city, with 250,000, based on them, representing at least 5000 votes; and when was the hour when 5000 votes would not carry Boston in any political struggle? Does not your experience show you that your mayor and aldermen have only been a standing committee on your grog-shop? You cannot find an independent politician on a drunken people. It is not possible, Republicanism in great cities, is a sham."

He then drew a sad picture of the crime of Boston—a city, he said, in which every tenth person was a criminal and every seventh a pauper. We would respectfully suggest to the female *Quakers*, that in her future lectures, instead of meddling with what they are not paupers, and criminals are almost unknown, that she turn her attention to the condition of society in the modern Athens, Wendell Phillips is good authority at least on points of fact.

He then drew a sad picture of the crime of Boston—a city, he said, in which every tenth person was a criminal and every seventh a pauper. We would respectfully suggest to the female *Quakers*, that in her future lectures, instead of meddling with what they are not paupers, and criminals are almost unknown, that she turn her attention to the condition of society in the modern Athens, Wendell Phillips is good authority at least on points of fact.

To give point to her lecture, she had to give a description of the evils of Polygamy in Utah. Her pictures were understood of the institution, were highly colored. To carry out the programme assigned her by those who have her under control, they should be. Miss Dickinson certainly deserves good pay from her political managers for the devotion which she manifests in carrying out their plans, for she evidently tried to give them satisfaction.

NEW ANESTHETIC.

The New York Medical Society held a meeting on the evening of the 10th inst., and a paper was read before it by Dr. Jacoby on the new Anesthetic invented by Dr. Leibright of Berlin, in July last, called "hydrate of chloral." He had experimented with the agent on a rabbit, and he had injected fifteen grains of the new substance. The rabbit was exhibited before the Society, and in the presence of that body he repeated the experiment and in two minutes the animal was completely unconscious; its muscles relaxed, and yet its respiration went on regularly and quietly. He detailed the results of his practice with the new agent during the three weeks since he had brought it from Europe, and in every case it had been attended with perfect success, inducing, when the most powerful anesthetic had failed, a long, peaceful and refreshing sleep, from which the patient had waked without headache, nausea or sickness of any kind, and always with increased appetite.

Another doctor confirmed the statement of Dr. Jacoby, and said that he had used it superior to chloroform, ether or morphine. He said it must be given with water, with cucumber or orange-juice; and in this form it was a pleasant medicine.

The San Francisco *Call* says that, since the absorption of the *Times* by the *Alta* and the suspension of the *Chronicle*, there has been full of rumors that the paper had started and old ones to be revived.

Four of the late *Times* printers are said to have combined their capital and interest

to bring out a dramatic journal. There is also a rumor that John Nugent will revive the *Evening*, and another that somebody else intends to start a cheap paper.

Mr. Conner has been deceiving before the "Woman's Parliament," in New York, on the legal disabilities of men. He denies that the complaints should all be confined to the women, and she thinks it would be as well to leave to mind a few of the advantages given by the laws to the "just now" finding sex. She gives instances.

"Although a man is liable for all of his wrongs, he cannot with a dollar's worth of money, without the consent of his wife, or the other hand, she can dispose of every cent's worth of his estate without the consent of him. She may give him a million while he is penniless and legally liable for her debts. While he cannot deprive her of the shelter of his roof without establishing the fact of her adultery, she may turn him out of her home without a day's warning or a shadow of provocation. She may even compel him to pay the expense of a divorce suit, and obtain separation and alimony for many causes not available to him in a like case. Whittier man who is at all afraid of public opinion would dare to forsake his wife, save for the gravest causes, there are few who would venture to coerce an unwilling wife to live with him, although they might have the clearest right so to do."

Tax assessor Beretford entertained that the celebrated strolling horse, Dexter sprang from the Hamiltonian stock having made that a favorite strain, and enriched its owners, it is now announced that he is not of Hamiltonian but of Morrill origin. This latter statement, however, is supposed to be a dodge to run up the value of the Morrill stock.

Assessment is published to the effect that tobacco smoked to a great extent by persons who do not indulge in alcoholic beverages, will produce partial and sometimes total blindness. Upon the strength of this assertion some smokers justify themselves for having recourse to "kangleo;" they don't want to lose their eyesight while so simple a remedy as whisky will act as an antidote.

A New York letter says it is stated that General Butterfield has instituted legal proceedings against one of the city morning journals for libel, in charging that he used the news of the battle of Chancellorsville to promote private stock operations in Wall street all the while that he was withholding intelligence of the disaster from the newspaper correspondents and the public.

The charges referred to appeared, it is said, in the *World*, and were made by an ex-army correspondent of that paper, who alleges that at the battle of Chancellorsville, General Butterfield, Chief of Staff, issued an order absolutely closing telegraphic communication with the rear. But that during this time of telegraphic suspension, dispatches were sent through by the General to New York before any intimation of the result of the battle, was received, and operations in gold to a large amount were predicated upon them.

Tax assessor Butterfield should never write that which he would not like to see in print. He has been a new illustration in the publication of a volume of "Reminiscences" by Mr. James A. Hamilton, in which a letter from Mr. Chase, then Secretary of the Treasury, appears. It establishes the fact, which was strongly rumored at the time, that every man was not always loyal in the Cabinet of the late President Lincoln. The letter reads:

"Washington, D. C., July 14, 1862.—My Dear Sir: Your excellent note is received. I will send it to the President, and shall be glad if he will read it and forward it. I have seen little of him for some time past; when he thinks of seeking my counsel or to impart his own, I attend his summons. Otherwise, I confine myself to my own special work. What I think ought to be done, is so generally felt and understood that I think ought not to be done so generally. I have done, that I am led to doubt greatly the value of my views on any subject."

Your friend, S. P. Chase.

A CORRESPONDENT of the New York *Sun* recently visited General Lee's college, in Virginia, and talked freely with its officers and students. He says their belief as to what is going to become of the Union is somewhat like this:

"It is rotten and will be blown to pieces. The West is against the South, and the South is against the West. The most disastrous war has come first from the West; but what folk think that the South will then be quietly slumbering."

He says the teachers "without giving any thought to a single phrase that can be construed as a slur upon any race, or any one of our Southern States, convey more peculiarly Southern ideas to their classes, than they could with three weeks' undisciplined ranting in a series of meetings."

"Gen. Lee's college seems to be performing on a larger scale at the present day, the same work of calumnious propaganda which the genius of John C. Calhoun and his colleagues performed among the young men of the South a quarter of a century ago."

By Telegraph.

Washington.—It is stated that, although Gen. Sherman has written the annual report of the War Department, Secretary Belknap repudiates it and will write one himself. It is stated that Belknap has repudiated an important claim which was made by Sherman, and since that he has superadded two orders issued by the General; one of these orders is said to have contained instructions to the heads of the several bureaus, directing them to make all their reports to him personally, as General of the army.

New York.—Gregorio Dominguez, the Russian Consul, has been charged with the absorption of the *Times* by the *Alta* and the suspension of the *Chronicle*, there has been full of rumors that the paper had started and old ones to be revived.

Special Notices.

All lovers of that delicious beverage the oyster, should be the first to get the oyster of the News, or J. J. Simmons, proprietor of the Revere House Saloon. He is receiving them every day from Baltimore for the U. P. R. R. He has also constantly on hand the best brands of ale, beer, porter, tobacco, cigars, besides pig's feet, calves' tongues and other delicacies and delicacies. Lovers of good cheer, who want a nice meal in a hurry, should not fail to visit the Revere House Saloon.

It Can Not Be Denied.
DODLEY'S BAKING POWDER has not only attained the position of the best, but the cheapest baking powder now in use. Strictly pure in its composition, and so exactly proportioned, that there is no trouble in making it. It is sweet, healthy, rolls, pastries, etc., everything. It is the cheapest for consumers, as one pound will go further in the culinary department than two pounds of any other brand. Try it and be convinced. For sale by all grocers.

A. A. Fuller, of Boston, says, "I used Burnett's Ointment and Kallistion for Dandruff which would cover my entire scalp like a shower of snow, and the Dandruff and Irritation ceased."
Gentlemen, after shaving, who suffer from the smarting effects of soap, will find instant relief in the use of Burnett's Kallistion.
Burnett's Extract of Vanilla is free from Tonka Bean, or other impurities.
Burnett's Florimel.—All Nature's sweets in millions of homeopathic atoms, seem to have been combined in this delicious perfume.

Whitcomb's Asthma Remedy in all cases will most surely and quickly afford relief.
BAD BLOOD.—The Red Jacket Bitters are the best blood purifier in existence. They cleanse the stomach, produce appetite, and consequently remove dyspepsia, mental depression, fever, etc., etc. They are for sale by druggists and general dealers.
