# DESERET EVENING NEWS | FERNSTROM CETS AFTER KELSEY.

Wanted to Know if Waterworks Improvements are Temporary.

RESOLUTION VOTED DOWN.

Member From the Third Makes a Vigorous Tulk in Support of His Resolution-Other Matters.

The feature of last evening's Council neeting was the introduction of a resolution by Councilman Fernstrom, calling upon City Engineer Ectsey to explain to the Council what he meant when he said in his letter addressed to the chairman of the board of public works that the waterworks improvements now under way were only of a temporary nature,

In his letter to Chairman Dooly, Mr. Kelsey, it will be remembered, said that the upper portion of the 16-inch water main on Fifth South street would be taken up and relaid when the proposed improvements for bringing in Hig Cottonwood water had been carried out. Fermitrom's resolution is as follows:

"Whereas, The city engineer in a communication to the board of public works states that the improvements of the water system now in progress are only of a temporary nature.

And he is hereby requested, to state to this Council at its next regular meeting what part of the improvements, if any, are temporary in their nature. Thomas characterized the resolution as childish and unworthy of consideration by a body of supposedly intelligent. nen. The question as to whether the improvements referred to were of a permanent or temporary nature was for the Council, and not the city engineer, to settle. Furthermore, the communication referred to in the resolution was addressed to the board of public works, and the members ought not to take communication of tke cognizance of a communication addressed to the Council, no matter

o it was from. President Buckle inquired of Council-man Fernstrom if he knew Mr. Kelsey had actually written the letter reterred to. Fernstrom said there was no doubt as to who the author of the communi-

catton was.

Canning denied that the engineer had made such a statement attributed to him. The improvements were permanent and no one knew this better than

Fernstrom made quite a vigorous talk Fernstrom made quite a vigorous talk in support of his resolution, which he claimed to have on an official paper. "It is a cammunication," he said, "sent by the city engineer to the beard of public works, the body under which these water improvements are being mode. I voted for the appropriation to pay for these improvements under the distinct understanding that they were to be of a permanent character. If this is not the case, I, for one, have been deceived, and the city engineer has been playing horse' with us. If the improvements are not going to give the been 'playing horse' with us. If the improvements are not going to give the city more water, we should stop there right now. I would like to know just how much of this pipe line is permanent and how much is temporary. I believe the people will demend to know, and the people have a right to know, whether we are burning up their money on uscless matters. If the improvements are permanent we want to know if we have a city engineer who sends if we have a city engineer who sends the improvement of that institution, by the varied and excellent courses of study it is now offering.

He went to his portion of morphine. He went to no room yesterday afternoon, he says, and took about four grains of the drug. After lying still for some time and noting no deathlike symptoms, he swallowed two more grains, but before they had time to do much hurm a friend happened in. The intruder divined what was up and sent for In. King, and also notified the police. Officer Johnson hastened to the scene and kept Jewett on the walk until the doctor arrived.

The physician said that he was in no important danger and had him sent to the Holy Cross hospital.
