AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effective cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded, the remedy being taken in season. Every man should have it in their closet for the real and prompt relief of its members. Sickens, suffering, and even life is saved by this timely defence. The patient should not neglect it, and the wise will not. Keep it by you, the protection it affords by its early use, sudden attacks.
