Get Licenses Notwithstanding Their Violations of Law.

The faculty of the School of Applied Design, Women in New York City notified Miss Florence B. Jessup yesterday that there was a valuable scholarship awaiting her in the school. While Miss Jessup felt quite flattered at this entirely unexpected and unsolicited honor, she will remain at her present post, as assistant instructor of manual training in the Salt Lake public schools. This offer of an scholarship is the result of Miss Jessup's high stand while a student at the institution.

Cashier George E. Ford of the Farmers National Bank, Seattle, is in town today. He says that Puget Sound is short on working men, both laboring and skilled, so that during the day, the center of the city seems deserted because "everybody is off at work." The mineral outlook is improving in the line of copper, gold and lead indications, and while there is no boom in progress there is a general advance that is highly encouraging. A NOVEL PUNISHMENT.

"We Were Bad and Got What We Wanted, and If We Are Bad We Can Again Get What We Want."

The renewal of licenses to saloon men who have been convicted of violating the Sunday liquor ordinances, was the chief subject under discussion by the city council last evening. The matter came up when the license committee recommended the issuance of liquor licenses to twenty saloon keepers of the city, among whom were the names of A. B. Margrett, proprietor of the Warm Springs saloon, and Orson Spears, who is said to have purchased Browning & Dahlstedt's saloon.

Both places were recently closed for violating the Sunday closing ordinances. It is claimed that Browning & Dahlstedt sold their place to Orson Spears who applied for a new license. At the committee meeting it developed that Spears is a brother-in-law of Dahlstedt and the latter is detained as a bartender. Many of the councilmen declared last night that the transaction was merely a blind to enable the place to keep open. Daveler insisted that the sale was a bona fide transaction, and quite a discussion ensued between him and Tuddenham, who was just as positive that the deal was a blind.

President Cottrell called A. J. Davis to the chair and took a hand in the arguments. He said that the council should take some decisive action in this matter and cease passing worthless resolutions. He insisted that if licenses are revoked and the council stop juggling with the question. The people, he said, are waiting for some action to be taken, but as yet no resolution has been done but to pass resolutions which avail nothing.

He moved that the names of A. B. Margrett and Orson Spears be stricken from the list of applicants. The motion was lost by a vote of 10 to 3. Robinson, Virgus and Cottrell voting in favor of it. So the licenses of those two violators of the Sunday liquor ordinance will be renewed and they will continue to do business at their old stands.

Hewlett then offered a resolution which was passed, which provides that whenever a liquor license is revoked by the council no person for that same place for a period of ninety days, and to send their semi-annual dues to the secretary, D. J. McLean, L. D. S. business college, Salt Lake City.

LIGHT FRANCHISE INVESTIGATION.

The electric light service which has been offered the citizens of this city for several months past by the Utah Light & Power company, was discussed at some length by the council, and a committee was appointed to investigate the matter of revoking the franchise if the company does not improve its service.

That a committee be appointed with instructions to investigate and report upon the status of the franchise of the Utah Light & Power company, why they are not furnishing sufficient light to their customers in the city and whether or not there is any opportunity now to revoke the said franchise.

President Cottrell appointed Daveler, Hewlett and Tuddenham as the special committee to investigate the matter, and they will have a public hearing with City Attorney Nye in the investigation. A thorough investigation will be made at once and steps will be taken to insure the citizens the light to which they are entitled. Many parts of the city have for a considerable length of time been deprived of lights and many complaints have been made. The highest temperature was 86 degrees on Oct. 6, 1899.

The lowest temperature was 22 degrees on Oct. 18, 1899.

The greatest amount of snowfall recorded in any 24 consecutive hours was 1.01 inches on Oct. 18 and 19, 1899.

The greatest amount of snowfall recorded in any 24 consecutive hours (record extended to winter of 1894-95) was 6.3 inches on Oct. 29, 1900.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many millions of bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has been reported to the manufacturers in which it failed to cure. It is given as soon as the child becomes hoarse or even as soon as the croupy cough appears. It will prevent the attack. It is pleasant to take, may be given to infants, and it contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

Our new neighbors down in Porto Rico evidently intend to be fully up to date in all things. They have become American citizens. The Board of Insular Education recently sent an order for 25 Remington Typewriters, and it is learned that they have formally adopted this machine for use in the public schools of the island. State Agents, 70 W. Second South, Salt Lake City.
