BEET CAMPAIGN ABOUT TO BEGIN

Crop Is Estimated at Ninety Thousand Tons, from Six Thousand Acres.

QUALITY, TOO, IS SUPERIOR.

Farmers Start Digging in Two Weeks
—Ogden Factory Anticipates Record Output.

OGDEN, Aug. 25.—The fall campaign of the beet sugar season in Boxelder, Weber and Davis counties will begin within two weeks. The farmers in various localities have been notified by the factory to be ready to begin digging their beets at that time.

The crop will be very much larger this year than for a number of years. While the acreage is not much larger than before, the weekly rains which the community has had during the summer have aided the climatic conditions in furnishing a better quality of beets than before. Very few beets will be refused this year on account of the low percentage of saccharine, as the tests that have been made have been more than satisfactory.

"Unless we should be visited by heavy rains during the digging season within the next two months," said Asst. Secy. E. S. Rolap of the sugar company yesterday afternoon, "the beets of this year's crop will produce more sugar than ever before, hence the output of the factory will be greater. The beet digging campaign will begin within two weeks, and as soon as there is a sufficient supply at the factory to justify starting the mills, they will be opened and the real sugar making will begin in dead earnest. The beet crop this year will be taken from about 6,000 acres of land and it is safe to figure that each acre will produce 15 tons of beets. The crop will amount to about 90,000 tons."

FOUR STATE FAIR SURE TO BE GENUINE HUMMER

OGDEN, Aug. 25.—As one of the attractive features of the Inter-mountain Four State fair, the board of directors have arranged for a "Melon" day, which it is thought will prove to be very successful. Arrangements have been made for several wagon loads of melons which will be distributed on September 10. The final arrangements for the day will be completed at a meeting to be held this evening at the Weber club.

From a number of out of state visitors who have visited the fair grounds during the past few days and have seen the great amount of work that is being done there, comes the statement that the fair will be one of the most successful as well as one of the largest ever held in the inter-mountain region. Already reservations are being made at the hotels and lodging houses for accommodations during the week by visitors from Nevada, Idaho, Wyoming and the southern and northern Utah. With the climatic conditions favorable, Ogden will entertain from September 8 to 11 the largest number of people it has

NO "HELL'S COLLEGE" WANTED IN JUAB

Strong Action Against Liquor Evil Taken by Mass Meeting At Nephi.

(Special Correspondence.)
NEPHI, Utah, Aug. 24.—The executive committee on the prohibition movement, as reported in the "News," called a special meeting of the representative citizens of Nephi, Levan and Mona, to meet at the tabernacle, Saturday, Aug. 21, at 8 p. m., at which gathering the committee submitted the following report:

"After investigation of the law involved, and the course pursued by our sister counties who have advanced the prohibition movement far in their several localities, we deem it inadvisable to petition our county commissioners to pass an ordinance prohibiting the manufacture and sale of intoxicating beverages, as is the intent of the resolution (previously published). Therefore, with respect to Juab county, we recommend the following action:

"That the citizens of Juab county petition their board of county commissioners to pass an ordinance on or before Oct. 1, 1909, fixing high liquor license and imposing strict regulations upon the liquor traffic, and an ordinance to become effective Jan. 1, 1910.

"We further recommend that the citizens of Levan petition their town board to refuse to grant either wholesale or retail liquor license after Dec. 31, 1909.

"We also recommend that the citizens of Nephi petition their council to pass an ordinance on or before Oct. 1, 1909, refusing to grant either wholesale or retail liquor license after Dec. 31, 1909."

The committee consisted of Roy T. Dyer, James W. Ingram, George A. Sperry, James W. Paxson and John W. Ord. Of the citizens present there was but one dissenting vote.

Dr. George Brimhall of Provo, by invitation was present and ably discussed this momentous question, taking the decided stand that no possible good can come from the saloon. The assembled citizens listened intently and by their general applause voted their approval of his timely and potent remarks. The meeting was a decided success and undoubtedly will result in much good and hasten the closing of "hell's college" the saloon being so termed by Dr. Brimhall.

Prof. Lund will be back from his European tour in time for the opening of the school year.
