

REPUBLICANS TO HAVE AN ORGAN.

They Propose to Have a Daily Newspaper of Their Own.

A CALL FOR SUBSCRIBERS.

Capital Stock of \$50,000. Shares at \$2 Each—Rank and File Invited To Invest.

It has been at last definitely settled that a new daily Republican paper is to enter the lists which will support the nominees of the straight ticket. A number of wealthy Republicans took up the matter with the state executive committee yesterday and concluded to raise \$100,000 by popular subscription, so as to prevent the charge that the paper will be the personal organ of anybody.

O. J. Salisbury, C. E. Loomis, State Senator A. B. Lewis, Senator Reed Smoot and Judge J. A. Miller were among those present at the meeting and heartily supported the plan. It is stated that these gentlemen offered to pledge themselves to see that the money is raised and to that end each of them had agreed to take 2,000 shares of the stock at \$2 per share. Upon consideration of the matter they were allotted 1,000 shares each. In addition to those above named the assistance of David Eccles, of Ogden, T. H. Cutler, A. L. Thomas and George Sutherland was also said to be pledged to the new enterprise.

The plan contemplates a morning paper with a complete telegraphic and local service. What service they are going to have has not yet been given out. It is said that the National Republican committee has undertaken to secure the service. It is claimed that the money can be raised as proposed, but should there be any failure of the plan outlined, money enough has been pledged to insure its success. It is officially stated that the paper will take its stand on the "Mormon" question, but will just on the Republican newspaper. Mr. Sutherland is reported as being heart and soul in favor of the new enterprise and will support it morally as well as financially.

It is not considered absolutely certain that the paper can be started during the present campaign, but it will be hurried along as much as possible. No name for the new paper has been decided upon, nor yet its manager nor the make-up of its staff. A letter has been mailed to the Republican county chairman by the state executive committee of which the following is a copy:

To the Republicans of the State of Utah:
The Salt Lake Tribune, heretofore recognized as a Republican newspaper, has abandoned the party and published its tickets. The Republican party is therefore without any daily paper published at Salt Lake City, the capital of the state. All Republicans recognize the need of a newspaper which will support Republican policies and tickets. It is now the duty of the party to take such steps as it can to secure such a paper. It is proposed to make it a popular, as distinguished from a close corporation. It should be a matter of party pride on the part of all Republicans who are able to subscribe for a single share, to help this enterprise along. We therefore appeal to Republicans throughout the state to make a subscription to the capital stock of this company through the chairman of the county where they reside. As soon as sufficient subscriptions are received to justify the undertaking steps will at once be taken to begin the publication of a Republican daily paper at Salt Lake City.

EXECUTIVE COMMITTEE.
Dated at Salt Lake City, Utah, Sept. 21, 1904.

SMITH BEATS ASHTON.

Nominated for County Superintendent of Schools.

The county delegates to the Republican county convention met yesterday afternoon at Murray and nominated W. W. Smith, of Draper, as superintendent of schools, this gentleman receiving 64 votes as against 58 for B. W. Ashton, the present incumbent.

The convention was called to order by County Chairman J. C. Eldredge, Jr., who introduced Samuel Perry, the chairman of the county where they reside. As soon as sufficient subscriptions are received to justify the undertaking steps will at once be taken to begin the publication of a Republican daily paper at Salt Lake City.

The name of Mr. Smith was presented by D. O. Ridout, Jr., of Draper, while Mr. Ashton was nominated by O. W. Carlson. The ballot resulted as above stated, and on motion of Mr. Eldredge, the nomination was made unanimous.

Immediately after the convention the delegates met in caucus with Col. George B. Squires as chairman, and B. W. Ashton as secretary. A motion to stand together and demand one commissioner, one state senator, four members of the county committee and two members of committees during the convention was carried.

For assessor the caucus named C. M. Brown of Farmers by acclamation. John C. Mackay was similarly named for county commissioner. Those decided upon for the lower house were A. B. Anderson of Bingham, C. E. Marks of Mill Creek, William J. Panter of Union and S. J. Stoeckley of Sugar. N. W. Erekson of Murray, E. L. Burgen of West Jordan and Daniel McRae of Granger were candidates for legislative endorsement. Those named for state senator were D. O. Ridout, Jr., defeated Senator S. H. Love by a vote of 70 to 28 for endorsement for the state senate.

County committee members named were C. H. Roberts of Bingham, William R. Jones of Farmers, Seth Pickett of River, Samuel P. Smith of Sandy, Charles Nicholas of Murray.

Convention committee members named as follows: Credentials, A. J. Cushing of Sandy, D. E. Cahoon of Murray; resolutions, George B. Squires of Sugar, Joseph M. Holt of South Jordan; permanent organization and order of business, S. J. Stoeckley of Sugar, A. W. Williams of Bingham.

O. W. Carlson of Mill Creek was elected chairman of the delegation.

FOSTER'S PREDICTION.

Says New Party Will Have Little Effect Upon the Country.

Warren Foster, political writer on the Salt Lake Tribune, and at the same time a Populist leader in Utah politics, who is

UTAH PRODUCTS GO TO CANADA.

Hewlett Bros. Co. of This City Receive Large Order From

HARKER, HEAD & COMPANY OF McGRATH.

Former Utah Residents Must Have Three Crown.

Hewlett Brothers Co., the well-known manufacturers of this city have just made a large shipment of their Three Crown products to Harker, Head & Co. of McGrath, Alta., Canada. The shipment included Three Crown Baking Powder, Extract and Spices. In securing this order the local firm had to compete with the large concerns of the Canadian trade centers, but on account of the superior quality of the Three Crown products the order was awarded to the local house.

Another reason for placing this order in the Salt Lake market is the fact that many of the residents of McGrath and the surrounding country were formerly Utah citizens, and naturally would prefer a product with which they were acquainted, and on which they could depend.

stopping at the Columbia hotel, says the Denver Post declares that the paramount question in Utah politics this year is "Mormonism," and that the so-called Gentiles of the state have united to try to wrest the political control of the state from the "Mormon" Church.

"State politics in Utah are being mixed up this year," said Mr. Foster. "The election of Senator Smoot to the United States senate first made the people realize the control that 'Mormonism' had over politics in the state, and when this was followed up this year by the nomination of Cutler as governor by the Republicans, a serious split in the Republican party was caused. The Salt Lake Tribune immediately bolted the ticket, not only refusing to endorse Cutler, but republished the entire party. It regarded Cutler's nomination as a move to the Mormon Church, and that he is a prominent member of the Mormon Church added fuel to the flames that were already breaking out in the minds of the Gentiles."

"The old Liberal party, which had been formed years before the Utah Church and their kindred, has been revived and called the American party, and a ticket will be placed in the field which will have for its avowed purpose the keeping of the Church out of politics."

"The effect of the formation of this new party is hard to conjecture, although it is believed that it will largely reduce the Republican majority. If it does not defeat the ticket, the new party will probably have little effect on the county elections of Salt Lake."

A novel feature of the building is its automatic elevator, which is now being installed. It works without the aid of an elevator boy, by the mere pressing of a button indicating the floor upon which the passenger desires to stop. As it cannot move while a door is open absolute safety is secured. The elevator is large enough to admit a hospital bed. At the rear entrance a platform is provided on which a patient can be transferred directly from the ambulance to a bed, upon which he may be carried to the elevator to either the operating room, or to a ward, without the slightest jarring. Another excellent provision is a set of 150 lockers, drawers, one corresponding in number to each room of the hospital. A patient is brought in his valuables are placed in the locker corresponding to his room, and the key kept at the office, or turned over to the patient as may be desired. Another feature is a dumb waiter, which is now ready for operation. It connects the kitchen with the operating floor, so that meals can be served to a patient in his bed, within a very few minutes of the time the food leaves the kitchen. Like the elevator, the dumb waiter is automatic, and can be summoned to any floor by pressing a button.

Upon the receipt of the supplies to be ordered by Dr. Richards, for the three operating rooms on the upper floors. The basement and first floors are to be more elaborately finished, and will not be ready for some time yet.

STAFF PARTLY SELECTED.

The medical staff is not yet fully chosen, but the following men will be connected with it. Dr. Stauffer and Dr. Snow will have charge of the eye and ear department, and Dr. Richards, Dr. Allen, Dr. Jones and Dr. Snyder of the medical and surgical departments. The chief nurse, and the staff of nurses is yet to be selected. In the executive department of the building, John A. Bevan has been selected as chief engineer, James J. Giles as chief janitor, and Mrs. Martha Shields as matron.

FINANCES OF HOSPITAL.

When asked today regarding the finances of the hospital John Well, who has charge of the records, stated that the building to date had cost \$150,000. Of this \$100,000 has been furnished \$40,000, \$10,000 was donated by the Fifteenth ward from the proceeds of the sale of its meetinghouse premises to the Oregon Short Line railroad, \$1,000 was donated by David Keith, \$1,000 by Thomas Kearns, \$100 by Wm. R. Atton, \$100 by John C. Cutler, and \$50 by L. Anderson. The rest has been guaranteed by the Church, until other means are found of securing it. In furnishing and maintenance of rooms and wards, many donations have come in, and others are hoped for. H. Dinwoodey has donated \$400 to equip two rooms. J. W. Taylor has made a like donation for the same purpose. Dr. S. H. Allen has donated \$300 to furnish a ward. The equipment of the eye and ear department has been furnished by Dr. Stauffer. Mrs. David Keith has offered to do something beneficial for the hospital, but the nature of her bequest has not been definitely settled. It will probably, however, be the furnishing and maintaining of a ward, where deserving patients may be treated free of charge.

TO BE A RECORD HOSPITAL.

"In addition to having all modern conveniences for treatment and cure of disease," said Mr. Well, "the hospital will install a complete system of records, so that all known information about our cases will accumulate for the benefit of physicians and surgeons."

Hood's Pills

Are prepared from Nature's mild laxatives, and while gentle are reliable and efficient. They

EQUIPMENT FOR L. D. S. HOSPITAL.

Dr. J. S. Richards Leaves for East To Purchase Surgical Supplies.

TO BE A MODEL INSTITUTION

Some Features That Are Being Installed—Donations to the Work By Citizens.

Dr. J. S. Richards, head of the medical staff of the new Groves Latter-day Saints Hospital, left this afternoon for the east, on business connected with the hospital. While away he will place orders for the entire surgical and operating equipment for the hospital, and in order to ascertain just what is best and most up to date in modern developments, he will visit the principal hospitals of America before placing his orders, and thoroughly inspect their methods. He goes direct to Chicago, from Salt Lake, where he will spend some time, after which he will visit the hospitals of Washington, Philadelphia, Rochester, and Boston, before proceeding to New York, where he will purchase the hospital supplies. In addition to studying operating room and surgical methods, he will make a careful inspection of training schools, preparatory to opening up and maintaining the training school for nurses in connection with the new hospital.

STATUS OF THE WORK.

This trip is made necessary at this time, on account of the finished condition of the construction work on the building. Dr. Richards expects to be ready to place his orders within a month and by the time the equipment arrives it will be needed for immediate use. Work on the second, third and fourth floors is about completed, and beds, blankets, and linoleum are being moved in, together with all the necessities for a patient's room. The heating plant is installed, and ready to begin work, the laundry fixtures are all in, and that department is ready for operation. In the rooms of the hospital are telephones of both the independent and Rocky Mountain systems and the connections are now completed. Receivers are so arranged that a patient can talk with any one without moving from his position in bed.

SOME NEW FEATURES.

A novel feature of the building is its automatic elevator, which is now being installed. It works without the aid of an elevator boy, by the mere pressing of a button indicating the floor upon which the passenger desires to stop. As it cannot move while a door is open absolute safety is secured. The elevator is large enough to admit a hospital bed. At the rear entrance a platform is provided on which a patient can be transferred directly from the ambulance to a bed, upon which he may be carried to the elevator to either the operating room, or to a ward, without the slightest jarring. Another excellent provision is a set of 150 lockers, drawers, one corresponding in number to each room of the hospital. A patient is brought in his valuables are placed in the locker corresponding to his room, and the key kept at the office, or turned over to the patient as may be desired. Another feature is a dumb waiter, which is now ready for operation. It connects the kitchen with the operating floor, so that meals can be served to a patient in his bed, within a very few minutes of the time the food leaves the kitchen. Like the elevator, the dumb waiter is automatic, and can be summoned to any floor by pressing a button.

Upon the receipt of the supplies to be ordered by Dr. Richards, for the three operating rooms on the upper floors. The basement and first floors are to be more elaborately finished, and will not be ready for some time yet.

STAFF PARTLY SELECTED.

The medical staff is not yet fully chosen, but the following men will be connected with it. Dr. Stauffer and Dr. Snow will have charge of the eye and ear department, and Dr. Richards, Dr. Allen, Dr. Jones and Dr. Snyder of the medical and surgical departments. The chief nurse, and the staff of nurses is yet to be selected. In the executive department of the building, John A. Bevan has been selected as chief engineer, James J. Giles as chief janitor, and Mrs. Martha Shields as matron.

The records will be kept on cards so arranged that any case can be promptly examined, without loss of time in hunting for it.

The hospital occupies the entire block between C and D streets and Eighth and Ninth streets, and overlooks the entire valley from Fort Douglas to Saltair.

SMELTER SMOKE NUISANCE

Farmers Meet in Mass Meeting at Granite Stake Tabernacle.

Last night's mass meeting of the farmers of Salt Lake county who are affected by the poisonous smelter smoke, was held in the Granite Stake tabernacle and was attended by about 2,500 people. The meeting was a great success and demonstrated the unity of the farmers in adopting effective measures to abate the nuisance which they have been subjected to for many years.

Chairman John C. Mackey called the meeting to order, and O. W. Carlson, not being present, Mr. Spencer was voted secretary pro tem. Vice Chairman O. P. Miller then gave a detailed report of the committee's conference with the representatives of the smelter.

The smelter men requested that they be given until the 10th of October to confer with their boards, the members of which were almost all located in the east. They suggested to the committee that three experts be chosen to investigate the nature and extent of the damage done by the poisonous fumes; one expert to be appointed by the farmers and two by the smelters.

To this the committee objected. They also gave the committee to understand that there were methods by which they could extract 75 per cent of the poison from the smoke, but questioned as to the possibility of removing the other 25 per cent. The committee asked if it would be feasible for the smelters to build a smokestack across the valley to the west mountains, to which the smelter men agreed, but so long as the closing down of the smelters as the cost would be so great.

By a motion which was carried, the original committee was subdivided into three separate organizations. The membership of the committees is as follows: Of the committee on presenting the matter to the Legislature, O. P. Miller, Geo. D. Gardner, Mahonri Spencer; of the committee to carry to the courts, John C. McKay, Wm. D. Park and Jas. G. Coffey; of the finance committee, Henry F. Burton, Jas. L. Carls, and Alex. E. Lee; of the committee on estimating amount of damages, Harvey C. Carls, of Mill Creek, Geo. M. Spencer of Tallorville, John P. Pearson of East Jordan, Michael McMillan of Murray and A. J. Hill of Granger. Mahonri Spencer was made permanent secretary of the general committee.

After the formal business of the meeting was over, a number of speeches were made from the floor, and the meeting concluded in an informal discussion of conditions in the smoke belt.

NEW MUSICAL COURSES.

Vocal Training Becomes More Prominent at L. D. S. University.

At the devotional exercises this morning at the Latter-day Saints University before a large body of students in Barratt hall, President Paul announced important new arrangements in vocal music. He stated that for the first time in the history of the school and probably for the first time in the history of the state, a course in voice training had been provided as part of the regular work. The theory of the vocal art and the exercises in voice training approved by the masters will now be given to second-year music students by Prof. Stephens. For beginners this practice is believed to be the nearest equivalent to individual private lessons that it is possible to provide in class work. The voice-building exercises, the principles of expression and the laws underlying the theory of music are now made part of the daily work in the classes. Prof. Paul advised every student of music who could so arrange his work to embrace this exceptional opportunity of taking such lessons under a master of the art in both theory and practice. In addition to this advanced class, which meets on Mondays, Wednesdays and Fridays at 1 p. m., the elementary class in vocal music meets on the same days at 2 p. m., and the choral singing at 12:30 p. m. The conductors' course for the training of choir leaders will begin on Oct. 10. Instrumental instruction and practice on the piano, violin, and mandolin and guitar, respectively, will be given under Instructor Cecelia Sharp, W. C. Clive, and C. D. Schettler. There will be organized also, if enough students apply for it, a course in harmony and counterpoint under Prof. Shepherd.

Wreck on Cut-off.

Rear End Collision on Southern Pacific Early This Morning.

(Special to the "News.")
Ogden, Sept. 22.—A wreck occurred at 5 o'clock this morning on the Southern Pacific at Strong's Knob, on the west side of the lake. The first section of eastbound train No. 6 was standing on the track as section No. 2 came along slowly. The engine of No. 2 ran into and smashed the vestibule of the rear Pullman of section No. 1, and at the same time the engine of No. 2 struck the engine of the second section and the passengers were considerably shaken up and frightened. A switch engine of the company brought in the wreck.

The first congregational church, whose pastor resigned a short time ago on account of ill health, has extended an invitation to the Rev. E. L. Goshen of Salt Lake to come to Ogden and deliver a sermon every Sunday afternoon.

MARVIN KIMBALL KILLED.

Young Man Run Over by Load of Gravel on Twelfth South.

Marvin Kimball, a grandson of President Heber C. Kimball, and living at 2435 Third East street, met with a fatal accident yesterday, at 10 a. m. The young man was hauling gravel from Twelfth South street, when the line became twisted. He stepped forward on the double track to straighten them out, when he slipped and fell. His foot caught in a front wheel of the wagon, throwing him onto the ground, where in some way he was caught in the hind wheel and turned around one and a half times before the team could be stopped. Passers by came to his rescue and extricated him from his perilous position, and he was conveyed to his home. Everything possible was done by the doctors, but the unfortunate young man died, sank from the shock, and died this morning.

act cause of the blaze is not known, but during the evening some boys set fire to grass near the barn, and it is believed that a spark got into the building and caused the fire.

CHIEF BYWATER HOME.

Head of Salt Lake Fire Department Tells of Big Convention.

Chief W. H. Bywater of the Salt Lake fire department, returned this morning from the convention of International Fire Chiefs, which was held at Chattanooga, Tenn. Chief Bywater looked well and hearty, and said that he never had a trip in his life that was so enjoyable and instructive as the one from which he has just returned.

While away he visited the departments of Chattanooga, Louisville, Lexington, Ky., Kansas City, Denver, and intermediate departments. Chief Bywater says that the departments at Louisville are the finest in the country. The station at which he was entertained there is most magnificent, and that the quarters fitted up for the fire fighters cost \$10,000. He says the best armor worn with costly carpets, and that the men's quarters are fixed up with modern and comfortable convenience. He visited sixteen stations in the city, and all are fitted up on the same elaborate scale. The apparatus, he says, is of the very latest up-to-date pattern, and changes even being fitted up with rubber tires.

"My trip cost the city \$150, and it cost me \$200, but it is money well spent. Besides being a most pleasant trip, it was highly instructive. I heard lectures on every phase of department business from men who are just grand masters in the service. There were 420 fire chiefs in the convention. Chief Musham of Chicago, lectured on theater protection, and handled the subject in a masterly manner. Following his lecture, there were questions and discussions on the subject. Chief Norton of Baltimore was in the convention on the great fire there recently, and the manner of fighting it. Building Inspector Stewart of New York gave us a most entertaining lecture on buildings and building contracts of fires in different buildings.

"There is one thing that I must not forget to mention. That is the manner in which we were treated by the people of Chattanooga. A great deal has been said about Southern hospitality, and I want to tell you that it is no dream. Too much cannot be said of the royal manner in which we were entertained from day to day. Every man was made to feel welcome. We were given dinners at the various parks, and it seemed that the people there could not do enough for us."

Chief Bywater had the honor of being chosen the second man on the committee on exhibits.

While in Chattanooga he had the pleasure of visiting the Southern States mission headquarters. He says that the people there manifested a great deal of interest in Utah affairs, and especially any and everything pertaining to "Mormonism."

"The trip has thoroughly convinced me that this city needs a water tower," said the chief, "and I propose to make a hard fight for one. I saw one in Louisville, 60 feet high, and with a couple of engines on it, it will tear a building down if necessary."

Amusements.

"For Her Sake," the Russian melodrama, opens at the Grand tonight.

The "Mardi Gras" show at the Salt Palace runs for the remainder of the week.

Ward Entertainments.

The Eleventh Ward Returned Missionary society will hold its annual reunion in the ward assembly hall on Friday evening, Sept. 23. Elder James E. Talmage will deliver an address, and several musical selections will be given. The public is invited. The program commences at 8 o'clock.

LATE LOCALS.

There was a heavy windstorm at Fort Douglas all this morning, but no damage was done.

Today's local bank clearings amounted to \$82,342.81, against \$59,153.83 for the same day last year.

Westminster college has eight freshmen and three sophomores this scholastic year.

City Treasurer Harris is today paying off the department of public works of the city for the month of September amounting in all to \$10,564.62.

The Light & Railway company management has erected some heavy temporary overhead wire supports on West Temple street, where the wires are large and numerous.

The last meeting of the board of equalization of water rates for this year will be held in the waterworks office at the city and county building on next Saturday afternoon at 2 o'clock.

Local dealers in electrical equipment and fittings report an excellent business; and one prominent firm has just contracted for two transmission lines, at Ogden in Tooele county, and at Montpelier, Idaho.

Prof. McClellan returned this noon from his Denver trip, after a very pleasant outing. He spent much of the severe requirements of the numerous recitals during the travel through this city of the Knights Templar.

Fish Commissioner John Sharp ships 50,000 trout fry tonight, to Cache county for distribution in the county streams. He shipped last Tuesday 50,000 fry for distribution in the waters of Davis county, and 25,000 of the waters of Boxelder county.

The following four cases of typhoid fever were reported to the board of health today: George McKee, aged 40, residing at 183 Fifth South; R. Williams, 30, Fifth South; Fourth East; Myrtle Berg, aged 5, and the infant daughter of B. O. Berg, residing at Ninth West and Eighth South.

George Francis Train, Jr., son of the late veteran soldier, and one of the best known traveling men in the west, is at the Knutsford from San Francisco. He says that business in the line of men's furnishing goods is as good as it ever was.
