There is KANAB STAKE QUARTERLY too much delinquency on our part as a people in this respect. Let me entreat you to be more punctual in these matters. The more you do for the Church of God the more you want to do; the mere you are interested in its welfare the more you will become attached to it. Look at the Twelve Apostles, have they not set you an example-I will not speak of the First Presidency-in regard to these things? Have any of them sought to build themselves up and become wealthy? Here is Brother Woodruff, President of the Twelve Apostles. Is there any man in Israel who has worked harder to support himself and family than he? He is known for his persistent industry. He has set the people a great example in that respect. He has not been a burden to any one. He has labored from morning till night for this people and for their salvation. He has not fattened upon your earnings, he has sustained himself by the blessing of God. And so lave the rest of the Twelve. They have labored continually for this people. They have traveled thousands of miles, gone to the ends of the earth, to build up Zion, and not counted anything too great a labor. That is the example the Twelve have set this people And they have paid their tithing punctually They have done as much in this way according to their means as anyof you, and in addi-

I left this place on the 19th of December for Tucson, circulated some of our tracts on the way from here as well as in Tucson. I went San Xavier which is said to be over 200 years old. The Papago Indians live near this church; they are a very good people, honest, hard working, polite and kind to strangers. They are all Catholics and live mostly in little villages on and near the Santa Cruz River. The most of them are farmers and num-

ber about 4,000. From San Xavier I went up the Santa Cruz Valley, circulated some tracts and hore my testimony to many men of different nationalities. On crossing the line of Sonora two miles above Buenos Vista I found some Americans on ranches . They informed me that they had lived NOTICE under the Mexican government for three years, and up to the present time had not had to pay any taxes of any kind to that government. It is said that the Mexican government does not intend to tax foreigners village of the Santa Cruz I circulated them. The people of Sonora are a more intelligent class of people as a general rule than the Mexicans of New Mexico or those of Arizon and many of them are willing to investigate and learn all they can concerning the faith of the Latter-day Saints and I hope to live to see the day when a mighty work will be done in that land.

I returned to San David on the 30th of December, having made a trip of 260 miles since I left this place. San David is situated on the San Pedro River, about 45 miles from the Sothe Latter-day Saints here.
