

THE WEEKLY CROP BULLETIN.

Report of Climate and Crop Service, Weather Bureau.

Weather in Utah the Past Week, and Report from the State of the One Month of Crops.

Balt. Lake City, Utah, Aug. 8, 1898.
During the first part of the past week the weather was quite warm, but the last four days were much cooler, average temperatures being about 60°. The weather has been generally cool and dry, with some rain falling on the fourth and fifth, resulting in a considerable amount of surface run-off. The streams continue to rise, particularly the Bear River, which presents a good deal of trouble. The water is at present rising and will be for some time to come. The water is now at a point where it is necessary to take care and avoid liability to loss, which may occur owing to pride and carelessness.

The crops are now most corpulent and many stages advanced in the condition of their maturity, some being ripe and the like more or less so. The weather is favorable for harvesting, and the yield is uniformly good in all sections.

In the western and central northern sections the weather is favorable for the sowing and starting of crops.

Harvesting—Harvesting is now in full swing. Watermelons and cantaloupes are ready to market.

Vegetables—All kinds ripe and mostly eaten, second crop of beans being cut, and the like.

Leeks—A few more days will elapse before they will be ripe.

Onions—Onions are now in full bloom.

Garlic—Garlic is now in full bloom.

Carrots—Carrots are now in full bloom.

Radishes—Radishes are now in full bloom.

Turnips—Turnips are now in full bloom.

Beets—Beets are now in full bloom.

Wheat—Wheat is now in full bloom.

Barley—Barley is now in full bloom.

Rye—Rye is now in full bloom.

Grain—Grain is now in full bloom.

Hay—Hay is now in full bloom.

Grasses—Grasses are now in full bloom.

Flowers—Flowers are now in full bloom.
