MINING, BUSINESS AND STOCKS.

THE CANADAL WAS CONTRACTED TO THE CONTRACT OF THE CONTRACT OF

MAMMOTH WAS STRONGER TODAY.

Sales Were Made on the Exchange This Morning at \$2.65.

Ajax is Weaker-Dexter Away Down - Star Con. Softer - Datton & Lark Higher-May Day Soaring.

Stocks were fairly active on the exchange today, though the trading was principally confined to medium and low priced stocks. Mammoth made a new record for itself today as the result of the information published in the "News" last evening, which named the parties who have the option on the mine. After opening at \$2.60 it sold up to \$2.65 and closed strong with that price offered and 2.70 asked. Ben Butier was also much stronger today. It opened at 915 and moved right on up to 10%, but weakened to about 10% at the close. Ajax hit the toboggan today by selling from 1.08 down to 1.04%. Dexter also declined to 99, with Daly remaining firm at 2.18. Dalton & Lark sold up to 7½, while May Day made a new record for itself today by climbing to 621/2 Petro loosened up 500 shares at 171/2 Sacramento was much stronger today selling up to 44%. Star Con. weakened to 61%, while Sunbeam was much softer at 36. Tesora sold down to 72, but closed stronger, while Valeo was traded in as low as 25. Boss Tweed weakened to 10% today. Yankee Con. sold at 25 and Manhattan dropped 6,000 at 1%.

Silver Shield advanced to 11%. The closing quotations were as fol-

BIG OUTPUT OF HICH CRADE ORE.

The Grand Gulch is Opening Up in Good Shape.

BEN BUTLER ADVANCING. SHIPMENTS FROM TINTIC

Are Heavy This Week - Work of the Bingham Company's Smelter-Boston Losses in Buffelo Hump.

Manager T. W. Jennings, of the Grand Gulch Copper mine, returned yesterday from that property and reports the development of the future bonanza going along as fast as a force of fifteen men can do it. The company has about 130 tons of high grade ore on the way to market. One car of this ore was sampled yesterday and was to be assayed this afternoon. This lot will be followed by four more cars of 40 per cent ore in a few days, and the fifth car is now being loaded. In addition the company has upwards of 1,200 tons of second class ore on the dump which the cars about 20 per cent company which runs about 20 per cent copper, which will not pay to ship at present owing to the long wagon haul.

The main effort of the management

is being directed towards opening up the fine showings on the 200 level. In both the east and west drift at this point the company is drifting on two nice streaks of solid high grade ore, about two and one-half feet wide. It the west drift a big body of iron has been encountered which lies over the copper. On the whole Mr. Jennings ex-presses himself well pleased with the mine, which, in his opinion, could not look better. A new superintendent has not been named to take the place of Ike Jennings who lately resigned, but one will be selected in a few days. The management contemplates sinking deeper in the near future, but it will do considerable stoping from the 200 before the order is given to put the shaft down to a new level.

HEAVYSHIPMENTS.

Fine Weather Last Week Resulted in Great Movement of Ore in Tintic.

The present week has witnessed some very heavy shipments from Tintic mines. This is largely owing to the fact that bad roads have congested the ore bins at the mines for the past few weeks. Previous to the last storm the roads were getting in shape for moving ores and the opportunity was being the depressing storm. improved when the depressing storm on Tuesday tied things up again. That the interim between the last two storms was used to some purpose is seen in the shipments of the Swansea five-car lots from this mine have been sampled this week and another fivecar shipment is at the sampler today. South Swansea has also had ter cars sampled this week, while the own-ers of the Carisa have twenty cars of ore which have been or will be, sampled this week. A twenty-car lot of ore reached town earlier in the week from the Centennial-Eureka. This has been followed by another lot consisting of been marketed by the Grand Central company which has another ten-car lot on the way to market. In addition to the above are many smaller ship-ments from Bingham, Tintic and Stock-

A FINE SMELTER RECORD.

Supt. Nutting Does as Much With 2 Stacks as was Promised for 3.

Supt. W. H. Nutting of the Bingham Copper and Gold company's new smelt-er says the third stack will be blown in in about two weeks. He is not hurrying things as, when he undertook the work, he promised the company that the mini-mum capacity of the three stacks would be 300 tons per day, and this has been practically reached with two of the stacks. At present the management is putting through 280 tons of ore on an average daily.

BOSTON PEOPLE LOSE MONEY. Developments at the Buffalo Hump Country Were Not Satisfactory.

The Boston News Bureau says that Boston people have lost \$100,000 or \$200,000 in what was known as the Boston & Buffalo Idaho company, operating in the Buffalo Hump district, and now closed down altogether. It is probable that a million dollars has been sunk here and the last chance now hangs by a thread on a single exploration shaft.

If this confirms the previous development at the 200-level the camp will ment at the 200-level probably be abandoned,

probably be abandoned.

The Buffale Hump mining camp in idaho came to notice two or three years ago, and the showing at the surface bid fair to put the bonanza mines of the Comstock into the shade. At the surface a gold-bearing vein showed a width of thirty-nine and a half feet, carrying \$16 in gold to the ton, and the year seemed well pronounced and the vein seemed well pronounced and regular over a wide stretch of coun-try. On one of the walls of this vein for some distance down the ore went \$70 to the ton. Capitalists from Spokane built a wagon road into the district at a cost of \$35,000, bought many claims at good prices, erected dwellings and stores and a small mill for testing purposes, and then suddenly ceased operations, except at one shaft, where wages development, work is now some development work is now being prosecuted.

Brighter Prospects for Martin. The people of Martin, Idaho, are said to be jubilant over the building of the branch railroad from Blackfoot to Houston. The new road will open up a mining district of great promise, says a correspondent of the Blackfoot News, which heretofore could not be workd profitably owing to the long wagon haul.

The owners of the silver mill, seven miles from this place offer to start their mill to custom work if the owners of the silver properties would rather have their ore worked here than to ship it to Salt Lake.

Coal Find Near Salmon City.

Hon, A. J. Macnab of Salmon City has just announced to the Boise Statesa coal discovery that gives promise of being a very important one. It has been made within two miles of Salmon City on Jessie creek, by a farmer, Frank Pollard. Mr. Macnab brought some pieces of the coal to Boise, He had a hasty analysis made of it Tuesday which showed 10 per cent ash and 25 per cent carbon. Authorities and 25 per cent carbon. Authorities who examined the samples do not be lieve the analysis was perfect enough to form a basis of calculation of the vale of the coal. Although not taken at a depth sufficient to give it the requisite pressure, it is quite heavy and

has a good color. Mr. Macnab said he has a good color, Mr. Machab said he saw some of it burned and it made a good fire, being readily combustible. He expects to go to Salt Lake soon and he will have samples of the coal tested there by an expert.

MINING NOTES.

The Taylor-Brunton sampler reported 10 cars of ore from Tintle today. Superintendent R. H. Channing of the Highland Boy was in town today.

The Swansea of Tintic reached the market today with 5 cars of ore.

Wm. Hatfield returned today from a trip to Milford on mining business. Treasurer George H. Dern of the Con.

Mercur went out to the camp today. The South Swansea of Tintle reached the market today with 5 cars of ore. A strike of quartz carying silver is reported in the Ridge and Valley shaft at Eureka.

Secretary M. L. Effinger of the Ophir at Stateline left for California yesterday.

Four cars of copper matte were at the sampler today from the Bingham company's smelter.

Water has been encountered in the Cygnet company's property at Stock-ton at the depth of about 400 feet.

David Evans expects to go to Tintic tonight to inspect the Black Jack which he and Jesse Knight are developing. Herman Bamberger is back from

trip to the Viking company's property in Sanpete county and reports some very Ane lead and gold ore in sight. Col. Theodore Bruback intends starting up work immediately on the Ar genta company's property in Tintic, which consists of the old Dana group.

The winze from the 150 level of the Carisa is down 80 feet in good ore, so that the management is certain of catching the ore shortly on the 250 foot level.

A telephone message from Tintic last evening conveyed the news that nine inches of high grade copper ore is in sight on the 200-level of the West Morning Glory.

It is said that arrangements are being made for the disposal of the Hon-orine dump to parties who are contemplating the erection of a big custom mill at Stockton.

Assays running 60 per cent lead, 25 ounces silver and 6 per cent copper are reported on ore taken from the face of the 40-foot tunnel on the Galena com-pany's claims in Beaver Lake district. The ore was brought to town by Joseph Dunn of Frisco who has gone to Idaho.

Superintendent G. F. Copeland, of the Kaslo and Slocan railroad, who is in the city from British Columbia, reports a stagnation of the mining industry in the Slocan district on account of trouble with the smelter trust. He says the big mining companies are con-templating the erection of an indepen-

SALT LAKE MARKETS.

March 28, 1901. The butter market is in good condition today. The best grade cream-ery is quoted at 21 cents wholesale

selling price, while ranch butter is in fair demand at 13 cents. The egg market is quite weak today. J. M. Christensen & Co. quote the best Utah eggs at \$3.50 per case, but some are reported to have sold under that

The poultry market is in good condition. Wholesale selling prices on dressed turkeys range from 12 to 13 cents per and chickens run between 11

and 13 cents. Cheese is selling at from 10 to 11

MEATS. The wholesale prices on meats are as

Pork 61/2 to 71/2 cents per 15. Lamb S1/2 cents per Ib. GRAIN.

The wholesale buying prices on grain are as follows:

Wheat, 53 to 55 cents per bushel. Oats, \$1.25 per cwt.

Rye. \$1.00 per cwt. Feed barley, 70 to 75 cents per cwt. Brewery barley, \$1.10 to \$1.25 per cwt.

FLOUR. Flour prices are unchanged. Quotaas follows:

High patent, \$1.50 per cwt. Straight grade, \$1.25 per cwt, Baker No 1, \$1.25 per cwt. HAY.

Hay still shows a weakening tendency Loose timothy hay is worth \$10 per ton while lucern loose is selling for \$7.00

MARKET TONE INDEFINITE

At Opening Prices Showed Slight Variations Both Above and Below Yesterday's Closing.

Irregularity in London Reflected on This Side-Some Large Blocks of R. R. Stocks Changed Hands.

New York, March 28 .- The stock maiket lacked a definite tone at the opening, prices showing slight variations both above and below yesterday's closing. Business was large and well distributed. Northern Pacific rose to 54 on the purchase of 3,000 shares. The United States Steel corporation stocks were dealt in the unlisted department for the first time and 5,000 shares of the common were sold at from 43% to 42% and 8,000 shares of the preferred brought from 93 to 931/2. The irregularity of the London market was reflected in the dealings in the internationals here. Room traders offered large amounts of sugar and Burlington, which lowered them a point and caused a reaction in all other stocks. Concerted action by the bulls in few leading stocks caused prices in the general list to advance in sympathy. Burlington sold up to 170, Northern Pa-cific to 95% and Union Pacific to 98, Enormous purchases of Wheeling & Lake Erie stocks lifted them 24 and 3%, the latter in the second preferred. Manhattan was pushed up 2 points and Brooklyn Transit rose sympathetically. Lackawanna jumped 2½. Pennsylvania was weak, closing 1¼ and Rubber common and preferred dropped 2 and 3 respectively. Bonds wer irregular.

Profit taking carried the market back after 2 o'clock, Burlington losing two

points, and Northern Pacific and other

leading stocks a point. Lackawanna rose 9 points in all, touching the high-est record price at 206. W. U. extended

its gain to 4% in all, helping toward a recovery in the market. Smelting broke 5% points and the preferred 6% on the judicial decision against the merger.

The whole market ran off under heavy offerings. Supporting orders were put in at some points, but the close was feverish and irregular and below the best in all stocks.

ROBINSON BROS. CO., SHOE BUILDERS, 124 Main St.

cally all of its territories, amounting to 1,500,000 pounds, and these wools sold at prices ranging all the way from 38 to 45 cents clean. We figure the sales for the week at

-

close to 7,000,000 pounds. There have been purchases of wool not only by onsumers, but also by dealers on spec ulation. Among the consumers have been buying wools and dress goods mills have been conspicuous. They have purchased territories freely. Duplicate orders for light weights have continued to come in and makers of these lines have bought fair amounts these these have sought tan all of the conference of wool. The market is no stronger than it was, and any attempt to advance actual prices on the part of the holders beyond the level quoted last

week results in checking business. The sales for the week in Boston amounted to 6,022,000 pounds domestic and 975,000 pounds foreign, making a total of 6,997,000 pounds against a total of 5,685,000 for the previous week, and a total of 3,012,000 for the corresponding week last year. The sales since Jan. I amount to 53,641,900 pounds, against 41,015,000 pounds for the corresponding time last year.

LONDON WOOL AUCTION.

boldt and Mendocino, 10@11

London, March 27 .- The second series f the wool auction closed today. The attendance was good and competition active. Scoureds and merinos were in demand at the recent advance. Pool condition New South Wales greasy was difficult to sell and realized low prices as compared with the first series, Good greasy merinos were 7½ per cent and medium greasy, suitable for America, 10 per cent dearer. Heavy and faulty were irregular and about unchanged. Medium greasy of good style and in good condition was in strong demand for America and scored a full advance. Coarse greasy sold freely, generally at a gain of 5 per cent. Cape of Good Hope and Natal sold well to the home trade and Germany and a few suitable lots were taken by American buyers at steady prices, the best grades scoring

an advance of 5 per cent. Inferior grades were irregular. The sales from opening to close were active and competition brisk, especially during the last week, when the con-tinent bought freely. At the close the tone was very strong, notwithstanding the nearness of the next sales, which are scheduled to open on April 30 with a limit of 250,000 bales. The market for fine wools has recovered from the depression prevailing for fifteen months prior to the sales just closed, and the consumption of wool, under the stimulus of low prices, is resuming normal proportions. During the second series 218,000 bales were available, of which 468,623 were catalogued. The continent bought 62,000 bales, the home trade 94,000, America 4,000, and 58,000 bales were
