## CONTRACT LET FOR DEE HOSPITAL

Work Begins Monday on Splendid Memorial Structure Built in Honor of Thos. D. Dee.

BUILDING TO COST \$75,000.

When Completed Will be Turned Over To the Thos. D. Dee Memorial Hospital Association.

OGDEN, July 17.—Next Monday morning Contractor Charles J. Humphreys will break ground on a piece of land on Harrison avenue between Twenty-fourth street and Capitol avenue for the Thomas D. Dee Memorial hospital, which will be erected by the Thomas D. Dee company in memory of the late Judge Thomas D. Dee. The building when completed and dedicated next spring will be a magnificent monument to one of the founders of Ogden's splendid school system and the man whose chief desire was to be always doing good for Ogden.

been prepared by L. S. Hodgson for the structure, which will undoubtedly be one of the most modern of its kind in the United States. Everything will be complete and perfect in its details, such as the heating, lighting, ventilation, signal system, etc.

The main building will be built of red brick, 60 feet by 148 feet, and four stories high, and will have a large auditorium for the accommodation of 1,000 patients. It will be erected in the center of a 3 1/2-acre tract of land. The porches, of which there will be three, will be fire proof with iron stairways. The main entrance on each floor will be of brick and the entrances to the corridors will be protected with bronze-covered doors. All the wards will be large and comfortable and will be furnished with the latest style of furniture.

The operating room on the second floor will be modern throughout and furnished with the latest and most reliable equipment. The floor will be laid instead of tile. The walls will be finished in white tile and all the furnishings will be of the best quality. On the first floor will be the receiving and dressing rooms. In the latter rooms those cases which will not require an operation will be treated. The fourth floor will be what is to be known as the men's floor, and will have a very large ward. The fifth floor will be the women's floor and will contain a large sunny ward for the women patients. Each floor will have its own diet kitchen and all patients will have their meals served in their wards.

The building will cost about \$75,000, and the furnishings and equipment will cost an additional \$25,000, in connection with the building of the main structure, a large boiler house and laundry will also be constructed. From this will be furnished the heat, electric light and power for the large elevator for that will be in the center of the big building. It is expected that work upon the building will be well along before winter and the roof on before bad weather sets in.

When the building is completed the Thomas D. Dee company will turn it over to the Thomas D. Dee Memorial Hospital association, which will be composed of well known professional men and prominent citizens of Ogden, who will have charge of it. While the hospital will be a charitable institution, the board of directors will pass upon all cases of a charitable nature. There will be no dividends paid from the institution and all moneys received over and above the operating expenses will be turned into the hospital for its maintenance and continual improving. Many of the prominent citizens, representing all creeds, have made application for the privilege of furnishing wards. From the applications those being received it is very probable that all the wards of the hospital will be furnished as memorial wards.

Before their return to Salt Lake at 2:45 the visitors were given the assurance that the citizens of Ogden city and Weber county are as deeply interested in the success of the encampment as those of other cities and counties of the state, particularly Salt Lake.

Col. Caine, of the general finance committee, spoke appreciatively of the work that had been done here for the encampment.

Among the others who spoke on the encampment and arrangements were President A. R. Heywood of the Weber club, O. B. Madison of the Ogden county commission, B. A. MacMillan of Salt Lake, Thomas Lundy, W. L. Russell, J. H. F. Last, J. C. Nye, F. M. Driggs and others.

**APPEAL TO VOTERS FROM B. Y. UNIVERSITY**  
To Vote No on Depot Franchise Proposition, for Best Good of College and Public.  
(Special Correspondence.)  
PROVO, July 17.—The following has been handed the "News" for publication in connection with the Provo union depot question:

An appeal to the voters of Provo City and the friends and patrons of the Brigham Young University:  
On Tuesday, the 27th inst., a question of grave importance is to be answered by you as to whether two railroads operating through this city shall be granted a very valuable franchise on Sixth South and Third West streets, for the sum of \$200. The proposition includes, among other things, a change from the present location of the passenger depot at the foot of Academy avenue to Third West street.

In view of all the conditions involved in this question, would the interests of the whole community be best served by the proposed change?

No!  
Our judgment is the location of the depot should not be changed. The Brigham Young University from lack of room has been compelled to move its college branch farther from the center of town in order to obtain adequate grounds on which to erect its buildings. To move the depot farther away will work a hardship on students and patrons. This institution, in our opinion, is worthy of your consideration. It aids you financially to the amount of thousands of dollars annually. For 35 years it has worked and struggled in the midst of adversity to help you as well as other communities to attain a higher standard of moral, spiritual and intellectual development. The Brigham Young University.

## TAKING THE ADIPOSE OFF SALT LAKE'S FINEST.

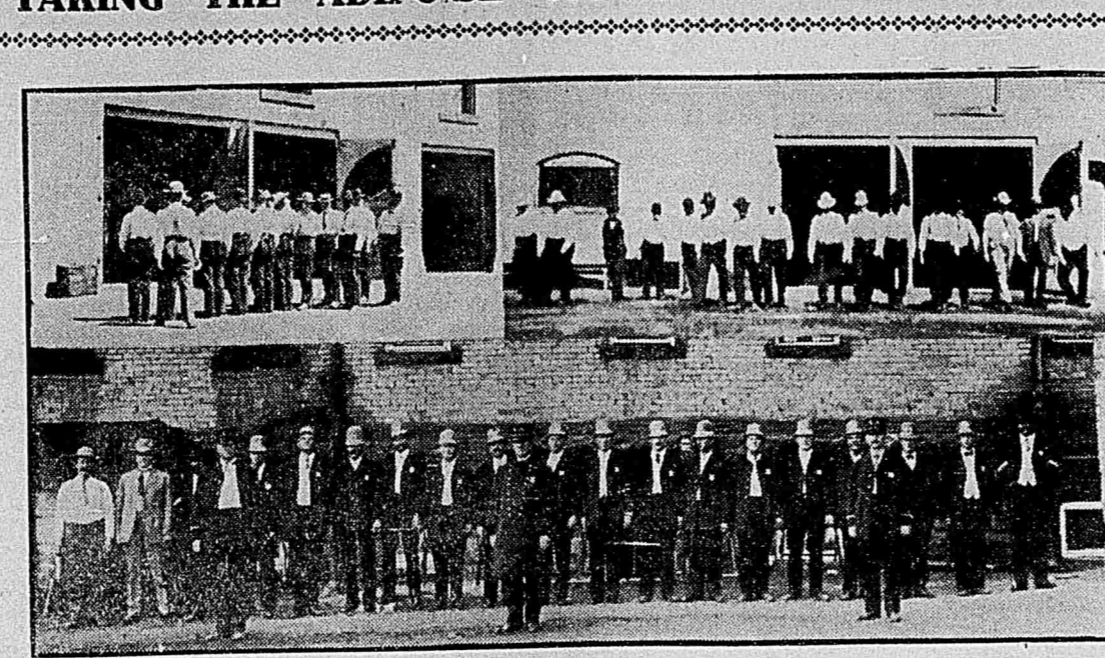

Photo by Shipley.

TOP—SOME INITIAL RAGGED FORMATIONS. BOTTOM—THE AWKWARD SQUAD.

The combined labors of the 10,000 troops who, we are told, a certain noble duke once forced to march up a hill, only to march them down again, weren't a marker to the clumsiness of the task set before 60 embryo soldiers of the peace by their commander-in-chief, S. M. Barlow, yesterday.

Under a sweltering sun, some said it was torrid, the 60 blue coats, or rather, coatless, marked time, faced to the right, left and rear, and, may be by way of diversion, performed and executed a number of evolutions that are not to be found either in the tactics or the manual of fancy drills for any lodge degree team.

These amusing stunts, however, such as one man being determined to walk over his file mate, or No. 1 insisting on bumping playfully into No. 4, and then angling which one should have turned to the left instead of the right, or the development of a maneuver that looked as if the men were going to form into a straight line and then turned into a combination of a Maltese cross and a Chinese puzzle, are to be eliminated gradually, and by the time the G. A. R. encampment all that will be expected of the men will be that they march in a straight line, like one keep his own place and not look

through this appeal, holds out its hands to you for help. Salt Lake City, founded the institution and gave it to the people, also located the present site. His wisdom and foreknowledge as to the future needs for the growth and expansion of most of Utah's cities has never been doubted by those who knew him, nor can his foresight be disputed by others in the light of the present.

It is the duty of the members of the order of trustees of the Brigham Young University to watch the interests of the institution at every turn. The present situation urgently calls for our protest against the removal of the depot.

As the citizens of Provo will not be injured if the depot is removed, it is not our duty to ask all friends of education who have the right to speak at the coming election to vote NO.

Being interested in the welfare of this whole community, we are very truly,

**SUIT FOR DAMAGES.**  
PROVO, July 17.—Elizabeth Kelly of American Fork has commenced suit against the San Pedro, Los Angeles & Salt Lake Railroad company for \$15,000 damages for injuries sustained April 23 of this year through being struck by a passing train. **COUNTY VALUATION.**  
PROVO, July 17.—The total valuation of Utah's property for 1909 is \$14,132,027; \$10,667,367 is assessed by the county assessor and \$3,464,660 by the state board of equalization. The total valuation last year was \$14,192,332. The reduction is caused by the overflowed lands on the shore of Utah lake, and \$15,487 less than it was last year. There was some gain in the state board valuation.

**FOREST FIRES.**  
PROVO, July 17.—Acting Forest Supervisor J. Carl Alfred calls attention to the law against setting fire to grass and brush which may spread and damage the forest, and now the case on the mountains east of Provo and probably in other parts of the state is generally the case this time of the year. The law provides that anyone who sets fire to grass or brush against the law is liable to a fine of \$500 or imprisonment for two years or both. Fires are set maliciously and a fine of \$1,000 or one year's imprisonment if fires result from carelessness.

## MRS. VIRGINIA WILCOCK TAKES HER OWN LIFE

Domestic Trouble Ends in Premeditated Suicide at Lund—Bequeaths Child to Mother.

(Special Correspondence.)  
PAROWAN, Iron Co., July 14.—The people of Parowan were greatly shocked when the news was sent by telephone that Mrs. Virginia Wilcock had committed suicide by shooting herself at Lund, where she had been at work for some time past. The deed was premeditated as a letter addressed to her mother, Mrs. Jackson, explained her reasons for her rash act and bequeathed her little daughter, Madge, to her mother. Her husband, Ralph J. Wilcock, was in Idaho when the tragedy happened, but word was sent to him and he arrived in time to attend the funeral, which was held today at the family residence of her parents, Mr. and Mrs. Mark Jackson. A large number attended the services as the family are highly respected here. Domestic troubles are given as the cause of the sad ending of her life. The deed was done with a pistol the ball entering just above the heart and coming out below the shoulder blade. She lived three and one-half hours, and the best of medical aid was procured but nothing could be done to save her life.

## Piano Purchase Checks Certificates of Credit.

What Are They?

A certain piano house of this city of more or less reputation has suddenly become anxious as to the definition of Piano Purchase Checks, so anxious, in fact, they are willing to pay out good money to find out. We herewith give our definition and demand the prize money.

## The Answer

A "piano purchase check," "certificate of credit," "piano coupon," etc., is an evidence of discount, a promise of so much credit on the price of the pianos handled by the firm or dealer issuing the checks, certificates or coupons.

They are not money, have no cash value, but are worth their face value in the purchase of a piano at the store issuing them. The clothing merchant advertises a discount of 25 per cent on his suits, overcoats, etc. If the regular price, the price at which he has been selling those suits or overcoats is, say, \$30.00, his discount is \$7.50. If he gave you a slip of paper, memorandum, stating he would allow you the discount of \$7.50 within a certain time, from the regular prices, that slip of paper or memorandum would be the same as a "Purchase Check," "Certificate of Credit," etc.

IN OTHER WORDS, a "Purchase Check" or "Certificate of Credit" is EVIDENCE OF DISCOUNT, something tangible, something to show that you have something.

In a local daily paper, Sunday, May 2nd, 1909, this same piano house that is so anxious to find out about Purchase Checks, in a large advertisement, called the public's attention to the contest for FOUR PIANOS to be given away, and the CERTIFICATES OF CREDIT, good on KIMBALL Pianos at the regular prices, that would also be given away as prizes. (They advertise themselves as exclusive Kimball agents.)

To bring the whole matter clearly before the public to enlighten this house that seems to forget what they have done and fails to realize what they are doing, we propound the following

## Questions

1. Were the prize pianos given away?
2. Were the Certificates of Credit issued?
3. If they really did issue the Certificates of Credit, why, at this late date, are they trying to find out what are certificates of Credit?
4. If they did not issue the Certificates of Credit is it not possible a number of people who worked to win them were, well—disappointed?
5. Is it not a case of "sour grapes"?

To the person sending us the best answers to the above questions within the next three days we will pay \$20.00 in gold, and will publish the answers in full, with or without the winner's name, as desired.

## \$1000 Reward

We will pay above reward to any charitable institution in this city to be designated by the Mayor, if it is shown that the Daynes-Beebe Music Co. do not carry out to the letter every promise, every detail of their great "CONTEST OF SKILL," that the Certificates of Credit will not be given as advertised, that the pianos will not be awarded ABSOLUTELY FREE to the persons winning.

Every knock is a boost. We are ready for the knockers. We are in the right and know where we stand.

## Our Judges

Hon. B. H. Roberts, Mayor John S. Bransford, Senator Stephen H. Love assure every contestant a fair, square deal. This is a CONTEST OF SKILL. The winners actually win, AND GET WHAT THEY WIN.
