Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping
Cough, Bronchitis, Asthma,
and Consumption.

Probably never before in the whole history of
medicine, has anything won so widely and so deeply
upon the confidence of mankind, as this excellent
remedy for pulmonary complaints. Through a long
series of years, and among most of the races of
men it has risen higher and higher in their estima-
tion, as it has become better known. Its uniform
character and power to cure the various affections
of the lungs and throat, have made it known as a re-
liable protector against them. While adapted to
milder forms of disease and to young children, it is
at the same time the most effectual remedy that can
be given for incipient consumption, and the dan-
gerous affections of the throat and lungs. As a
provision against sudden attacks of Croup, it should
be kept on hand in every family, and indeed as all
are sometimes subject to colds and coughs, all
should be provided with this antidote for them.

Although settled Consumption is thought in-
curable, still great numbers of cases where the dis-
ease seemed settled, have been completely cured,
and the patient restored to sound health by the
Cherry Pectoral. So complete is its mastery
over the disorders of the Lungs and Throat, that
the most obstinate of them yield to it. When noth-
ing else could reach them, under the Cherry Pec-
toral they subside and disappear.

Singers and Public Speakers find great pro-
tection from it.

Asthma is always relieved and often wholly
cured by it.

Bronchitis is generally cured by taking the
Cherry Pectoral in small and frequent doses.

For a Cough and Cold, no better remedy can
be had. Take small doses three times a day and
put the feet in warm water at night, until the
disease is broken up.

For Influenza, when it affects the throat or
lungs, take the same course.

For Whooping Cough, give small doses three
or four times a day.

For Croup, give large and frequent doses until
the disease is overcome.

No family should be without the Cherry Pec-
toral on hand to protect them, in case of attack,
from the above complaints. Its timely use often
spares the patient a great amount of suffering and
risk, which he would incur by waiting until he
could get other aid. Parents, keep it in your houses
for the exigencies that arise. Lives dear to you
may be saved by it.

So generally are its virtues known, that we need
not publish certificates of them here, or do more
than assure the public that the best qualities it ever
possessed are strictly maintained.

and Analytical Chemists, Lowell, Mass., and sold
