

Has made more Wonderful Cures of Kidney and Liver Complaints than all Physicians and Proprietary Medicines COMBINED, except the Physicians, who use them in their practice, for all diseases herein mentioned.

They act with Extmaordinary Efficacy on the Liver, Kidneys and Bowels, and in all Colds, Coughs, Sore Throats, Croup, Whooping Cough, etc. They never fail to Cure Quick. They Cut the Disease Short. They also prevent Urie Acid from circulating through the system. They are wonderful in their detective labors, arresting and driving through the proper channel all waste and effete matter, thereby preventing disease or germs, sapping away every vital part of the body; they will remove all billious humors; will disselve into powder all Gravel and Stone in the Bladder, making the removal painless. This is the Only Medicine that will prevent Bright's disease afflicting you-or cure it if you are afflicted. Will permanently cure Cistitis of Bladder, when other medicines have failed. Thousands in Utah can testify what Wonderful Cures this Medicine has made for them. They will an another the failed of the construction of the construction of the construction. cure you and your children. They build up. They restore the equilibrium Every druggist should keep them in stock. People come from all parts and acknowledge their superiority over all other medicines. Dealers that can' sell, bring back-your money refunded. I take my own medicine myself. The are for children, middle age and old age. They keep the powder dry. Don' suffer yourselves; don't let your children suffer or your aged parent. I tel you this Medicine will lengthen the life ten years. Read Testimonials. your draugist does not keep them, ask him to order for you. Internal Blue Label, 50cts. cach.

ET EXTERNAL WHITE LABEL, excels every other preparation for Sores, Wounds, Ulcers, Sore Heads, Bad Breasts, Saddle and Collar Scratches; in fact, you can't put them wrong on anything that requires heating on Man or Beast

EVENING NEWS.

CAUGHT A TARTAR. A decidedry handsome young man was strolling down Fifth avenue, New York's great boulevard of wealth and ashion. He was rather tall, well built,

voice husky with emotion, said: "Doctor, I came to thank you for your kindness last night. You are a regular lloses. You have brought me elegantly dressed but yet did not seem to be happy. He seemed to be absent-minded, and there was on his face a careworn look. A stout gentleman, about ten years older than the young gentleman, with the sad careworn exout of the house of bondage. You are llso like Moses in other respects." "In what other particulars?" "You can work miracles. You have completely changed the nature of my nother-in law. She stays in her room te direction. He stopped and ex and allows us young people to do what laimed heartily :

we please." "I am glad you are pleased, but there are better things in store for you. I've good news for you." "You don't say so!" "Your wife's mother is going to move "Why, John, how do you do, my dear oy? Have you forgotten your old boy? nd?"

"Doctor, I declare I didn't see you until you spoke.' "And yet you were looking right al

away and let yon and your wife keep tooked a matter of fity feet across-a ""Where is she going?" me. Don't apologize, for I'm not go-ing to reproach you. When a man marries one of the prettiest girls in New York

"And yet you for list is true that I am of gong to dispute with you, for I admit that I am a little absent-minded. It is true that I am "But! What do you mean by that qualifying word? Are there any miti-rating circumstances, so to speak?" "No. I can't say that there are,

"Why not? I am doing it more as a boat, jest takin' the right side out of matter of accommodation to you than her, as you see. The rest, they jumped want you to give anything away, but if matter of accommodation to you than her, as you see. The rest, they jumped you have any trouble you can confide it anything else; I thought you would go overboard when they see it comin' and

o an old friend with perfect safety. Perhaps I, being a doctor, can suggest remedy.

"I would be perfectly happy if it were not for my wife's mother. She is de-votedly attached to her daughter. They tre as much together as if they were I have been married a erty. siamese twins. "And the other half?" whole week, but I have not been alone

"Your mother-in-law will know what out. They all clapped onto the line and

with my wife five minutes since the to do with it, I expect. You are a strange man. A little while ago you compared me to Moses who led the children of Israel out of the house of bondage, and now you glare at me as if now," concluded the fisherman, pointceremony. I fully intended to take a ridal tour, but when Mrs. Swiftly said she would go along, to take care of us, I changed my mind. When I travel for misery, instead of for pleas-ure, I can drive an undertaker's wagon. The truth is, my dear doctor, that it is

bondage, and now you glare at me as if you could eat me up." "I made a great mistake in compar ing you to Moses," replied Kimball. The truth is, my dear doctor, that it is with difficulty that I can persuade my-self that I am really married." "That is a bad state of things. I fon't see how any remedy can be sp-olied, but perhaps your mother-in law may marry agais. She is upwards of 0 I suppose, although nobody would think so to look at her. Widows are like your of state of things and the size of it. I shall never forget your functions in taking

ike young bables. The first six months never forget your kindness in taking they cry a great deal, the second six your wife away last night so I could get Bonths they begin to take notice, and a chance to converse with her mother. hey experience a good deal of difficulty in getting through the second summer. Without meaning any disrespect to vour mother-in law, I venture the pre-liction that she will marry again, and then you will be liberated. In this country the marriageable age for women runs from 12 to 107."

"Don't mention such a thing, doctor, s Mrs. Swiftly marrying." "Why not?"

tor mopped one of his eyes with a cor-uer of his handkerchief. "I've a notion to wear out this gold-"My wife is to inherit all her mothheaded cane on you," exclaimed John. er's property. If she marries again I may be left out in the cold. It makes me shudder to hear you talk about Mrs. "If I were in your place I wouldn't do that, for if you don't treat your prospective father-in-law with proper espect you may be cut off with a shilwiftly marrying. "You are right. That would never ing, and then you will have to work

lo. I wish I could suggest some plan, for a living," said the doctor, quietly. out I don't see how I can be of any use This view of the case made John out I don't see how I can be of any use "You can help me, dector, and you

pensive. It even made him polite. "I thought, doctor, you said that you

be out of water. An' how, we was a-goin'! Hoopin', I called it, takin' every-A MEDICAL MARVEL.

MARY BAKES, WHO HAS NOT SWAL-LOWED FOOD OR WATER FOR EIGHTY-

goin : moopie, i called it, takin' every-thing as it came: for, bless ye, there wasn't time to ride anything. She just went right through, throwing the foam and spray that high into the air that you'd a thought that we was a tug, a-steamin' against the lide. If there had been a heavy sea on we should have had to cut the line; but as it was, we had to cut the line; but as it was, we fasting girl of White County, whose entire abstinence from all food or water held on and kept her at it; and I reckfor the period of eighty-four days, has eclipsed the record of Tauner and made on it was two miles we went hummin' before I ventured to to think of takin her the medical marvel of the age. She ar scratches nor slicks in the paper. is at the house of her stepfather, Loals Its peculiar form also enables the nib in the slack. The fith had slowed up a triffe, the biggest of 'em will get played out, and then I ordered the boys to clap unto the line, and passed it alt for the parpose. The first pull I gave, started the fish up, and it gave a jerk Winters, who lives two and a half miles northwest of the village of Buffalo, in an ordinary pen, thus avoiding frequent the extreme northeast corner of Monon Township. Mary was lying on a lounge in a corner of the room, supported by a chair at her back and attended by a that nigh took the cutwater out of the boat and sent every one of us to the bottom, head over heels. I saw the opsister. Upon inquiry as to how she felt to-day, she said she did not feel as

y way was to keep at it, so we clapped well as usual. She spoke in a low whisper, her answer being explained by her sister.

In conversation with Mrs. Winters, the mother of the stricken girl, it was learned that Mary had lain there just tweive weeks to-day, without taking anything into her stomach. Her fastings commenced with a relapse from a spell of sickness which she had about a year ago, from which she never fully recovered. She fell asleep and slept

for over five days and nights, since which time she has taken no nourishment or medicine more than to take it into her month and immediately throw tup. Her mother, as well as numerous watchers, are confident that noth. ing has entered her stomach for the time of eighty-lour days. While in the presence of Mary the writer saw her take some water, which was no sooner taken than it was thrown up. Morphine is injected in her limbs every four hours, from which she seems to find immediate relief. Immediately after anything else; I thought you would go into ecstacies over the gospel tidings." "You are too kind. I expect you will consent to take her property, too," replied John, grasping the cane firmly. "If yon have no delicacy in accepting it, I snapose we will let you have about half of your mother in-law's prop the operation the young lady looks re-markably well for one who has been confined to bed so long. Her face has the warmth of a person in usual health, while the warmth in her arms is barely perceptible. The lower part of the body and limbs are scarcely anything and they began to pull in shore, when they found that the bat-fish was still but skin and bone.

Dr. J. H. Crother, of Chicago, who was at her bedside, said that she was evidently laboring under a complication of diseases; but a near neighbor L. M. Dill, who visited the family daily, told your correspondent that Miss expert to tell which were the implant Baker had been under medical treat- and which were the original teeth. ing to a black object an eighth of a mile ment almost constantly by the leading down the beach, shoat which a flock of birds were hovering. physicians of the country, including

several distinguished practitioners of A short walk brought us to the gigan-tic fish that fully justified its name. Its skin and upper portion were still in tact, and, upon the white beach, re-sembled a gigantic bat, the long wings St. Louis and Indianapolls, none of whom have been able to diagnose her case satisfactorily, and all are free to admit that no similar case has ever come under their observation or read extending out on either side being the pectoral or side fins. Its length by actual measurement was about sevening in the books. Dr. Crother said h was impossible to ameliorate her condition or suffering save by the adminteen feet, while its width was about istration of morphine hypodermically At irregular intervals she suffers in twenty-seven feet. The upper surface was black, the lower, white; while tense agony, occasioned by spasmodic contractions of the muscles, some-times of the hand, arm, neck, face, lowabout the mouth were two curious claspers or organs that undoubtedly serve it in securing prey or food that is crushed or ground by the pavement-like teeth of the sca-bat. The weight of the huge creature could only be coner extremities, or perhaps the entire body, during which time she is unable to speak aloud, those in attendance being requested to rub the affected part briskly with the hand. jectured from the fact that eight pairs of mules were employed to haul the body above high-water mark, the tri-Miss Baker, before her sicknes, was the belle of the Monon Valley, and a most beautiful young lady, with great

umphal march being witnessed by the entire village, many of the Mexican boys riding on the back of the huge fish, as it was towed or hauled upon the sands, to be despoiled of its saleable parts-the liver, hide and tail.

HIS FIRST SEA-BAT.

HIS FIRST SEA-BAT. "I'll never forget the first time I saw a searbat," continued my informant, as we strolled up the beach again. I was

Ball-Pointed Pens

A new pen, known as the "ball-pointed," is being introduced. It is so made that the point of contact with the

FOUR DAYS. To-day your correspondent visited and interviewed Miss Mary Baker, the and interviewed White Correspondent when the paper of source when the source that the point of contact when the paper is a curved surface, and not, as in ordinary pens, a fire point, which is liable to stick in the paper or scratch along its surface. By adding this round point the inventor has designed a pen which approximates in eyse and freedom of writing to the test quills. It may be held in any position, and neithan ordinary pen, thus avoiding frequent dipping into the ink-well. The curved James Bowns point has the additional advantage of preventing crossing, while it adds materially to the durability.

A NOVEL LIFE PRESERVING DEVICE.

-A rather novel device for life-pre-serving at sea is described in the patent pecification of Mr. J. S. Badia of D. B. Brinton Philadelphia. It is a method of auto- T. Rogers. instically inflating canvass rafts, etc., by means of gas, which is chrised in a capsule under pressure. The liquefied gas, such as ammonia, carbouic acid de Netleen nitrous oxide, is carried in one com parment, while in the other, is a powler adapted to barn in a closed vesse Mechanism adapted to automatically ignite powder, is held under control by

freeze the liquid .- Boston Transcript. NEW METHOD IN DENTISTRY .---- A A new process in dentistry has been successfully tried. It is making a new socket in the solid bone, or where a tooth has once been, but where the bone has become solid, and implanting a tooth from another mouth, or the same mouth, in the socket. It is based on the theory that if th membrane which originally surrounded he tooth still adueres to it, it will be revitalized when the tooth is implanted in the new socket. It is said that there are cases where adhesion has become so complete that they would defy an expert to tell which were the implanted
